

**Program Description**  
December 31, 2023

529 Account Application

529 Account Application for an Entity

# Franklin Templeton 529 College Savings Plan

Offered nationwide by the New Jersey  
Higher Education Student Assistance Authority

For account owners investing in the New Jersey Better Educational Savings Trust (NJBEST) program through a financial professional

**Supplement dated December 10, 2024,  
to the Franklin Templeton 529 College Savings Plan Program Description  
dated December 31, 2023, as previously supplemented by a Supplement dated  
August 6, 2024, as amended on September 30, 2024 and by a Supplement dated October  
30, 2024 (as so supplemented, the “Program Description”)**

This Supplement updates the Program Description as previously supplemented. You should review this information carefully and keep it together with your current copy of the Program Description. Any information in the Program Description that is inconsistent with the information provided in this Supplement is superseded by the information in this Supplement. Terms that are not otherwise defined in this Supplement have the meaning given to them in the Program Description. Where applicable, the headings below reference the section of the Program Description.

**Effective immediately, the Program Description is updated as follows:**

- I. On or about Friday, January 31, 2025, the ClearBridge Sustainability Leaders 529 Portfolio (the “Sustainability Portfolio”) will be renamed the Putnam Sustainable Leaders 529 Portfolio, the assets of the Sustainability Portfolio invested in the ClearBridge Sustainability Leaders Fund (the “ClearBridge Fund”) will be liquidated and invested in shares of the Putnam Sustainable Leaders Fund (the “Putnam Fund”), and the Underlying Fund of the Sustainability Portfolio will be the Putnam Fund. The Underlying Fund expenses of the Putnam Fund are expected to be lower than those of the ClearBridge Fund and, accordingly, the Estimated Total Annual Asset-Based Fees of the Sustainability Portfolio are expected to be reduced by the change in the Underlying Fund.
- II. Throughout the Program Description, all references to “ClearBridge Sustainability Leaders 529 Portfolio” are replaced with “Putnam Sustainable Leaders 529 Portfolio” and all references to “ClearBridge Sustainability Leaders Fund” are replaced with “Putnam Sustainable Leaders Fund.” References to and data for “ClearBridge Sustainability Leaders Portfolio” under “Fees and Expenses” and “Trust Portfolio Performance” are deleted.
- III. In the section “Investment Options” under “Type 3 Investment Options: Individual Fund Trust Portfolios” the first two rows in the table titled “Asset Class: ESG” are replaced with the following:

Putnam Sustainable Leaders 529 Investment Option	Putnam Sustainable Leaders 529 Portfolio	Long-term capital appreciation
--------------------------------------------------	------------------------------------------	--------------------------------

Underlying Fund: Putnam Sustainable Leaders Fund, a mutual fund that normally invests mainly in common stocks of U.S. companies of any size, with a focus on companies the manager believes exhibit a commitment to financially material sustainable business practices.

- IV. In “Appendix C—Description of Certain Underlying Investments,” the paragraphs about ClearBridge Sustainability Leaders Fund are deleted and replaced with the following:

**Putnam Sustainable Leaders Fund (PNOPX)**

**Investment Goals and Main Strategies.** The Fund seeks long-term capital appreciation by, under normal circumstances, investing mainly in common stocks of U.S. companies of any size, with a focus on companies the manager believes exhibit a commitment to financially material sustainable business practices as business practices that the manager believes are reasonably likely to impact the financial condition or operating

performance of a company and that relate to environmental, social, or corporate governance (“ESG”) issues. The manager identifies relevant ESG issues on a sector-specific basis using an internally developed materiality map, which is informed by the industry-specific financial materiality framework of the Sustainability Accounting Standards Board (“SASB,” now incorporated in the International Financial Reporting Standards Foundation). Under normal circumstances, the fund invests at least 80% of the value of its net assets in securities that meet the manager’s sustainability criteria.

**Main Risks.** For a description of the Fund’s main types of investment risks, see <https://www.franklintempleton.com/tools-and-resources/lit-preview/39051/A/putnam-sustainable-leaders-fund/PNOPX#prospectus>

*Please keep this supplement for future reference.*

**Supplement dated October 30, 2024,  
to the Franklin Templeton 529 College Savings Plan Program Description  
dated December 31, 2023, as previously supplemented by a Supplement dated  
August 6, 2024, as amended on September 30, 2024 (as so supplemented, the “Program  
Description”)**

This Supplement updates the Program Description as previously supplemented. You should review this information carefully and keep it together with your current copy of the Program Description. Any information in the Program Description that is inconsistent with the information provided in this Supplement is superseded by the information in this Supplement. Terms that are not otherwise defined in this Supplement have the meaning given to them in the Program Description. Where applicable, the headings below reference the section of the Program Description.

**Effective November 18, 2024, the Program Description is updated as follows:**

- I. Throughout the Program Description all references to “Spryng” are deleted.**
- II. In the Program Description and/or in other Program materials, each of the following terms may be replaced by or used interchangeably with the subsequent term: (1) “Trust Portfolios” and “Investment Portfolios”; (2) “escrow account” and “matching grant account”; and (3) “Account Owner” and “Account Participant”.**
- III. At the bottom of the section titled “Introduction,” contact information in the box is revised to read as follows:**

Call Monday through Friday, 8:30 am to 8:00 pm (Eastern Time) toll-free (866) 362-1597. Write to:

Mailing Address:

Franklin Templeton 529 College Savings Plan  
P.O. Box 55961  
Boston, Massachusetts 02205

Physical Address:

Franklin Templeton 529 College Savings Plan  
95 Wells Avenue, Suite 160  
Newton, Massachusetts 02459

- IV. In the section “Key Features and Parties” the section titled “Gifting/Crowd-funding an Account through Spryng” is retitled “Funding an Account through Ugift®” and the text is replaced with the following:**

Ugift® Ugift is a service through which you may invite family and friends to contribute to your Account.

- V. The sections titled “Opening an Account,” “Choosing Investment Options,” “Contributing to an Account,” “Making Changes to Your Account,” “Managing Your Account,” and “Additional Considerations” are replaced with the following:**

# Opening an Account

## Completing an Account Application

To open an Account, complete and sign a Franklin Templeton 529 College Savings Account Application at [franklintempleton.com](http://franklintempleton.com) or obtain the form by downloading it from that website, calling the Plan at (866) 362-1597, or contacting a Financial Professional. If you do not specify a class of Trust Shares, your contribution will be invested in Class A Trust Shares. Each Account requires a separate application. By signing the application form, you agree that the Account is subject to the terms and conditions of the Participation Agreement which is attached to this Program Description as Appendix A and also to the terms described in this Program Description.

## Account Owner

To be an Account Owner, you must:

- reside in a state or jurisdiction where Trust Shares are eligible for sale
- if you are an individual, be at least 18 years of age
- if you are a trust, custodian, governmental entity, not-for-profit corporation or other type of entity organized in the United States, provide such documentation relating to such status as the Program Manager may require

The Account Owner does not need to be a New Jersey resident to participate in the Plan. The Account Owner must provide a Taxpayer Identification Number ("TIN"), which may be any one of the following: a Social Security Number, an Internal Revenue Service ("IRS") Individual Taxpayer Identification Number or an Employer Identification Number. The Account Owner designates and may change the Beneficiary and controls distributions from the Account.

Trust Shares are not eligible for sale in Canada or in any member country of the European Union ("EU") or European Economic Area ("EEA") and may not be directly or indirectly offered or sold in any provincial or territorial jurisdiction in Canada or any member country of the EU or EEA, or to or for the benefit of residents of any provincial or territorial jurisdiction in Canada or any member country of the EU or EEA. Trust Shares are eligible for sale outside the United States in jurisdictions other than Canada, the EU, and the EEA, provided that they are purchased through a Financial Professional with an address in the United States or a territory of the United States. With the exception of Accounts owned by Account Owners with addresses in Canada ("Canadian Accounts") and Accounts owned by Account Owners with addresses in any member country of the EU or EEA ("European Accounts"), contributions may continue to be made to Accounts established prior to January 1, 2011 by Account Owners that do not have addresses in the United States or a territory of the United States and do not have a Financial Professional with an address in the United States or a territory of the United States.

## Selecting a Beneficiary

The Beneficiary is the person designated by the Account Owner to use the savings in the Account for QHEE. The Beneficiary and the Account Owner do not have to be related. Account Owners may designate themselves as the Beneficiary. An Account Owner must open a separate Account for each Beneficiary. An individual may be the Beneficiary of more than one Account in the Program, in which case the Maximum Contribution Limit is applied based on the aggregate balance of such Program Accounts.

## Successor Account Owner

An Account Owner also may designate any eligible person to become the Successor Account Owner in the event of his or her death. Such designation may be made on the Account application or, subsequently, by submitting a Franklin Templeton 529 College Savings Plan Profile Change Form available at [franklintempleton.com](http://franklintempleton.com). If the

original Account Owner dies and the designated person becomes the Successor Account Owner, upon the Plan's receipt and acceptance of the appropriate documentation the Successor Account Owner may change the Beneficiary of the Account, may allocate Account balances and contributions among Investment Options and may make Qualified and Non-Qualified Distributions from the Account. The Successor Account Owner also would assume tax liability if he or she receives a Non-Qualified Distribution. See "Tax Information," below. You may name a Successor Account Owner, unless your Plan Account is funded with proceeds from an UGMA/UTMA account, or an entity or a trust is named as the Account Owner.

Under current Program policy, if the Account Owner has not designated a person as a Successor Account Owner on the Account application or in a Franklin Templeton 529 College Savings Plan Profile Change Form, or the designated person dies without taking control of the Account, the Beneficiary (if over 18 years old) or a trustee or guardian for the Beneficiary (if the Beneficiary is less than 18 years old) becomes the owner of the Account. The trustee or guardian may be the trustee or guardian, if any, named in the Account Owner's will, a trustee or guardian appointed for such purpose by a court or executor of the Account Owner's estate or a parent of the Beneficiary. Once a trustee or guardian has assumed ownership of such an Account, no further contributions to the Account will be accepted and the guardian or trustee may not change the Beneficiary. The Program's current policy is subject to change and to the requirements of applicable state law, including any applicable provision of an Account Owner's will that may govern the disposition of the Account in the event the Account Owner has not otherwise effectively designated a Successor Account Owner.

### **Choosing Investment Options**

On the Account application, you must select the Investment Option(s) under which you want your contributions invested. The Investment Option(s) you select when establishing the Account will serve as the standing investment allocation for future contributions (the "Standing Allocations"). All additional contributions will be invested according to the Standing Allocation, unless you provide the Plan with different instructions on the applicable form, and investments in different Investment Options are permissible. You may choose among the Target Enrollment Trust Portfolios, Objective-Based Trust Portfolios, and Individual Fund Trust Portfolios described below. The contributions to your Plan Account are invested in "municipal fund securities" (also referred to as "Trust Shares"), which represent interests in specific Trust Portfolios of the Trust. The Trust Portfolios are not registered mutual funds and are not sponsored by Franklin Templeton Investments. Based on the Investment Option(s) you select, the Trust invests your contributions in one or more Trust Portfolios. The assets of the Trust Portfolios are then invested in institutional separate accounts, mutual funds, exchange-traded funds ("ETFs") or other investments (together, "Underlying Funds"), in accordance with the Investment Policy established by HESAA with the approval of the State Investment Council, as it applies to such Investment Option(s). **Refer to "Investment Options" below for additional information.**

### **Accounts Established under UTMA or UGMA**

The Program permits the establishment of an Account in the name of a custodian for a minor under UTMA or UGMA. To transfer existing funds held under UTMA or UGMA to an Account, the custodian will need to liquidate any securities in such UTMA or UGMA account (which will require payment of taxes on any accrued gains) and transfer cash to the Account. Accounts established for a minor under UTMA or UGMA involve additional restrictions that do not apply to regular Accounts, such as the minor always remains the Beneficiary of the Account notwithstanding the Account Owner's ability to change the Beneficiary for other types of Accounts. In addition, when the minor attains an age specified by applicable state law, the custodian will cease to have any control over the Account and the former minor will control the disposition of assets in the Account. Furthermore, the minor will always be treated as the owner of the Account, so that any taxable distribution from the Account will be treated as income of the minor (except to the extent, if any, that applicable law requires that such distribution be treated as income of the custodian). You must notify the Plan, by completing the appropriate form, when the custodianship terminates and your Beneficiary is legally entitled to take control of the Account. At the time of such

notice, the Beneficiary will become the Account Owner and will become subject to the provisions of the Plan applicable to non-UGMA/UTMA Account Owners. If you do not direct the Plan to transfer ownership of the Account when the Beneficiary is legally entitled to take control, the Plan may freeze the Account. Some UGMA/UTMA laws allow for more than one age at which the custodianship terminates (Age of Termination). The Plan may freeze the Account based on the youngest allowable Age of Termination of the custodianship according to the UGMA/UTMA laws where the custodianship Account was established, based on the Plan's records. The Custodian may be required to provide documentation to the Plan if the Age of Termination of the custodianship Account is other than the youngest allowable age under the applicable UGMA/UTMA law or if the applicable UGMA/UTMA law differs from the Plan's records. The treatment of an Account established under UTMA or UGMA for federal financial aid purposes is described under "Risk Factors—Financial Aid—Federal Financial Aid." You should consult a tax advisor in your state of residence, and may also wish to consult a financial aid advisor, about the advisability of transferring UTMA/UGMA funds to an Account.

### **Accounts Established through Workplace 529 Program**

Employers may facilitate the opening of Accounts by employees and contributions to such Accounts by establishing a Franklin Templeton Workplace 529 Program. If your employer has a Workplace 529 Program, you can open an Account by completing and signing a Franklin Templeton 529 College Savings Workplace 529 Program Account Application for each applicable Beneficiary.

If you have an existing Account and would like to convert it to an Account under your employer's Workplace 529 Program, you can do so by completing a Workplace 529 Program Broker-Dealer Revision Form. You also can transfer or roll-over assets in another QTP to an Account established under a Workplace 529 Program.

## **Contributing to an Account**

### **Applicable Trust Share Net Asset Value (NAV)**

When you purchase (or sell) Trust Shares, you pay (or receive) the NAV per Trust Share plus (or minus) any applicable sales charge. NAV for each class of Trust Shares is determined by deducting the relevant Trust Portfolio's liabilities allocable to such class of Trust Shares from the total Trust Portfolio assets allocable to such class, and dividing that number by the number of Trust Shares outstanding for such class of that Trust Portfolio. Each Trust Portfolio calculates its NAV per Trust Share of each class each business day as of the close of trading on the New York Stock Exchange, normally 4 p.m. Eastern time ("Close of Trading"). A purchase (or sale) order for Trust Shares received by the Program Recordkeeper in good order by Close of Trading on a business day will ordinarily be priced according to the NAV calculated for the Trust Portfolio on that same business day. Under normal circumstances, the Trust does not calculate its NAV on days the New York Stock Exchange is closed for trading. In the event of circumstances beyond the reasonable control of the Plan ("Force Majeure") the Plan may experience processing delays, which may affect your trade date. In those instances, your actual NAV calculation may be different than described above which may negatively affect the value of your Account. To the extent permitted by law, a Financial Intermediary that holds Trust Shares in an "omnibus account" on behalf of Account Owners may transmit orders to the Program Recordkeeper through the National Securities Clearing Corporation (NSCC) or other electronic order clearinghouse, provided that the Financial Intermediary understands and agrees that it must receive an order for Trust Shares by the Close of Trading on a given business day to submit the order for processing at that day's NAV.

### **Contribution Limits**

An account can be opened with an initial minimum contribution of \$250. An account owner may select more than one Investment Option; however, each Investment Option must be funded with a minimum of \$25, with a total initial contribution of \$250 or greater. The minimum contribution is reduced to \$25 per Investment Option if a

Recurring Contribution is established at the same time the Account is opened.

As of the date of this Program Description, the Maximum Contribution Limit is \$305,000. No additional contribution may be made to your Account if the amount of the contribution, when added to the value, at the time of the proposed contribution, of all Program Accounts (whether or not owned by you) for the same Beneficiary would exceed the Maximum Contribution Limit. The Program reserves the right to change the Maximum Contribution Limit and the method of calculating the Maximum Contribution Limit in accordance with its interpretation of federal and state law and regulations.

A Financial Intermediary may impose other minimum initial and ongoing contribution requirements. The Program is not responsible for any minimum contribution requirements imposed by Financial Intermediaries or for notifying contributors of any changes to them. See Appendix D for more information on certain Financial Intermediary-specific contribution minimums. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary's policies.

### **Methods of Contributing**

- Checks: pre-printed personal checks, cashier's checks, or bill payment check from a bank or other financial institution
- Electronic Funds Transfer (EFT)
- Recurring Contribution (formerly known as Automatic Investment Plan)
- Payroll direct deposit
- Incoming rollover from another state's QTP
- Transfers:
  - from an NJBEST Account to an Account under the Plan
  - from Coverdell Education Savings Accounts to the Program
  - from your Upromise account.
- Reinvesting proceeds of certain U.S. savings bonds
- Through Ugift®

**Checks:** Made payable to "Franklin Templeton 529 College Savings Plan." The Plan will not accept contributions made by cash, money order, travelers checks, checks drawn on foreign banks, contributions not in U.S. dollars, checks dated more than 180 days from the date of receipt, checks post-dated more than seven days in advance, checks with unclear instructions, starter or counter checks, credit card or bank courtesy checks, third-party personal checks over \$10,000, instant loan checks, or any other check the Plan deems unacceptable.

**Electronic Funds Transfer (EFT):** A bank account can be linked to an Owner Account for purchases and redemptions, subject to certain processing restrictions. This service is only available if the bank or credit union at which the bank account is held is an Automated Clearing House (ACH) member. If your EFT cannot be processed because the bank account on which it is drawn contains insufficient funds or because of incomplete or inaccurate information, or if the transaction would violate processing restrictions, the Plan reserves the right to suspend the processing of future EFTs. The Plan may place a limit on the total dollar amount per day you may contribute to an Account by EFT. Contributions in excess of this limit will be rejected. If you plan to contribute a large dollar amount to your Account by EFT, you may want to contact the Plan to inquire about the current limit prior to making your contribution.

**Recurring Contribution (formerly referred to as Automatic Investment Plan):** You may contribute to your Account by authorizing the Plan to receive periodic automated debits from a checking or savings account at your bank if your bank is a member of the Automated Clearing House (ACH), subject to certain processing restrictions. You can initiate a Recurring Contribution either during enrollment or after your Account has been opened, either online, over the phone (provided you have previously submitted certain information about the bank account from which the money will be withdrawn), or in writing by submitting the appropriate form.

The Recurring Contribution authorization will remain in effect until the Plan has received notification of its termination and has had a reasonable amount of time to act on it. To be effective, a change to, or termination of, a Recurring Contribution must be received at least 5 (five) business days before the next scheduled debit, and such change or termination will not be effective until received in good order and processed by the Plan. To establish a Recurring Contribution from a Third-Party Contributor's bank account, the appropriate form must be completed and such form will not be effective until received in good order and processed by the Plan. If a Recurring Contribution cannot be processed because the bank account on which it is drawn contains insufficient funds or because of incomplete or inaccurate information, or if the transaction would violate processing restrictions, the Plan reserves the right to suspend the processing of future Recurring Contributions.

**Reallocating Account Assets:** Each contribution to your Account is allocated to the Investment Portfolio(s) that you select for investment. You may rebalance or otherwise reallocate your Account assets among the Investment Portfolios, but such reallocations are subject to a restriction limiting you to investment reallocations on two dates per calendar year. In addition, you may rebalance or otherwise reallocate your Account assets whenever you change the Designated Beneficiary for your Account to a Member of the Family of the previous Designated Beneficiary. Transfers performed pursuant to standing Automatic Dollar Cost Averaging instructions do not count for purposes of the twice per calendar year restriction on reallocations of existing Account balances, nor does electing the Automatic Dollar Cost Averaging option at the time you open your Account. However, if you elect or change the Automatic Dollar Cost Averaging option for assets already in your Account, such election or change will be considered a reallocation for purposes of the two dates per calendar year limitation on investment reallocations. Transfers between an Account in the Plan and an NJBEST Account for the same Account Owner and Beneficiary are considered investment reallocations and are subject to the restriction permitting investment reallocations on only two dates each calendar year.

**Payroll Direct Deposit:** You may be able to make payroll deduction contributions from your paycheck into a new or existing Account, if your employer allows for it. If your employer allows such deductions, you may submit a Franklin Templeton 529 College Savings Plan Payroll Direct Deposit Form. You will also need to provide direct deposit instructions, provided on the form, through your employer's self-service payroll portal or notify your employer to establish the automatic payroll direct deposit. You can change or stop such direct deposits directly through your self-service payroll portal or by contacting your employer.

**Incoming rollover from another state's QTP:** You may transfer funds from an account in another QTP to an Account by requesting a "rollover distribution" from the other program to your Account, subject to the applicable requirements of the Code. You must provide the Program with acceptable documentation from the prior QTP regarding the portion of any rollover distribution that consists of a return of principal and the portion that consists of earnings. The entire amount you transfer from another QTP will be treated as earnings until the Plan receives and accepts documentation acceptable to the Plan establishing which portion is contributions and which portion is earnings.

A rollover distribution can be made without any adverse federal income tax consequences provided that it is processed as a Direct Transfer or that, within 60 days of the date you withdraw funds from your other QTP account, you deposit such funds in your Account. Under current law, subject to certain limitations described in this Program Description, the Beneficiary of your Account can be either: (1) the same as the beneficiary of the account from which you are making the rollover distribution, if such rollover distribution is a Direct Transfer or does not occur within 12 months from the date of a previous rollover distribution (other than by Direct Transfer) to any QTP for the benefit of the same beneficiary; or (2) a different individual who is a Member of the Family of the beneficiary of the account from which the rollover distribution is made.

Contact us or a Financial Professional for more information about how to complete such a transfer. A Franklin Templeton 529 College Savings Plan Incoming Rollover Form is available at [franklintempleton.com](http://franklintempleton.com). Although a rollover distribution can be made without adverse federal income tax consequences, there may be state income tax consequences in the state(s) in which you pay state income taxes, and the QTP from which the rollover

distribution is made may assess some charges in connection with the distribution. You should consult a tax advisor, and with respect to any such charges, your Financial Professional, if you have any questions about the consequences of a transfer between QTPs.

**Transfers from an NJBEST Account to an Account under the Plan:**

You may transfer assets from an account under the NJBEST Plan to an Account under the Plan, subject to the general rule that transfers among Investment Options can only occur twice per calendar year, or in connection with a change of the Beneficiary. Assets in an Account (including any assets transferred to such Account from an NJBEST Account invested in Division Investment Options) cannot be transferred, or transferred back, to an NJBEST Account for investment under the Division Investment Options.

It is important to note that amounts transferred from an NJBEST Account invested under one of the Division Investment Options to an Account invested under the Franklin Templeton Investment Options will no longer be subject to certain provisions of the Act requiring HESAA to request State legislative appropriations to prevent owners of Program Accounts invested in the Division Investment Options from recovering upon distribution less than the aggregate amount of contributions to their Program Accounts invested in the Division Investment Options. The applicability of such provisions of the Act to contributions made under the Division Investment Options, and their inapplicability to contributions made under the Franklin Templeton Investment Options, should be given careful consideration by an owner of a Program Account established in the NJBEST Plan prior to March 17, 2003 in evaluating the benefits and costs of any such transfer.

**Transfers from Coverdell Education Savings Accounts (ESA) to the Program:** You may move funds from a Coverdell ESA to an Account. The Beneficiary of the Account to which the funds are transferred must be the same as the beneficiary of the Coverdell ESA from which the transfer is made, and the deposit to the Account must occur in the same tax year as the distribution from the Coverdell ESA. After the amount has moved from the Coverdell ESA to the Account, you may change the Beneficiary of the Account as described below under "Making Changes to Your Account." Contact us for information about how to complete such a transfer and documentation which must be submitted regarding the portion of such transfer to be treated as principal. Contact your tax advisor for information about federal and state tax treatment of a transfer of funds from a Coverdell ESA to the Program.

**Reinvesting proceeds of certain U.S. savings bonds in an Account-** Some U.S. savings bonds may be redeemed and, if the proceeds are deposited into an Account, no federal income tax will be due on some or all of the bond earnings in the year in which the bond is cashed. You may wish to consult a financial or tax advisor to determine whether it is better to reinvest the earnings in an Account or apply them directly to the payment of higher education expenses, if there are such expenses in the year the bond is cashed in. Contact us for information about documentation which must be submitted regarding the portion of such transfer to be treated as principal.

The bonds that qualify for such tax-favored treatment are Series EE bonds issued after 1989 and Series I bonds. The owner of the bonds must have been at least 24 years of age on the date the bonds were issued. The Beneficiary of the Account must be (1) the Account Owner or Third-Party Contributor making the contribution, (2) such person's spouse, or (3) a qualifying dependent of such taxpayer. And, to qualify for full or partial tax deferral, the owner of the bond must meet certain income restrictions. You should consult a tax advisor to determine whether you qualify for the tax deferral.

To take advantage of this opportunity, the bond owner simply redeems the bonds and sends a contribution to his or her Account for the amount of the proceeds. The bond owner needs to record certain information from the bonds that must be reported to the IRS. The taxpayer must file an IRS Form 8815 for the tax year in which the bonds are cashed in and the proceeds are placed in the Program Account.

**Ugift®**: You may invite family and friends to contribute to your Account through Ugift®, either in connection with a special event or just to provide a gift. To do so, you provide a unique contribution code to selected family and friends, and gift givers can either contribute online through a onetime or recurring electronic bank transfer, or by mailing in a gift contribution coupon with a check made payable to “Ugift® - Franklin Templeton 529 College Savings Plan.”

Ugift® contributions received in good order will be held for approximately five business days before being transferred into your Account. Gift contributions through Ugift® are subject to the Maximum Contribution Limit. Gift contributions will be invested according to the investment allocations on file for the Account at the time the gift contribution is transferred. There may be potential tax consequences of gift contributions invested in your Account. You and the gift giver should consult a tax professional for more information. Ugift® is an optional service, is separate from the Plan, and is not affiliated with HESAA, the Program Manager or any affiliate thereof.

For more information on Ugift®, visit [www.ugift529.com](http://www.ugift529.com).

**Upromise®**. If you are enrolled in Upromise®, you may link your Account so that amounts on deposit in your Upromise® account are automatically transferred to your Account. Upromise® is a program offered by Upromise, LLC which enables Account Owners who are members of Upromise® to earn rewards from participating merchants. Upromise® is administered in accordance with the terms and procedures set forth in the Upromise® Member Agreement (as amended from time to time), which is available by going to [upromise.com](http://upromise.com). Upromise® is an optional program separate from the Plan, and is not affiliated with HESAA, the Program Manager, or any affiliate thereof. This Program Description is not intended to provide detailed information concerning Upromise®. Upromise®’s participating companies, contribution levels and terms and conditions are subject to change at any time without notice.

## **Making Changes to Your Account**

### **Changing a Beneficiary**

You can change the Beneficiary of your Account, provided that the new Beneficiary of your Account is a Member of the Family (refer to Glossary of Terms for definition) of the prior Beneficiary. You may not change the Beneficiary if such change would cause the aggregate account balances of all Program Accounts for the new Beneficiary to exceed the Maximum Contribution Limit or if the Account is owned in custody for a minor. A change in Beneficiary may be treated as a gift from the previous Beneficiary to the new Beneficiary in certain circumstances, and therefore may have gift tax and generation-skipping transfer tax implications. See “Tax Information,” below, for more information. To change a Beneficiary, you will need to complete a Franklin Templeton 529 College Savings Plan Transfer Form available at [franklintempleton.com](http://franklintempleton.com). Certain Beneficiary changes are also accepted over the phone; please contact us for instructions.

### **Changing the Account Owner**

Under current Program policy, a change in the Account Owner of an Account is permitted upon completion of a Franklin Templeton 529 College Savings Plan Account Transfer Form, which includes submission of a notarized signature or a signature guarantee from a banking institution. This form is available at [franklintempleton.com](http://franklintempleton.com).

### **Adding or Changing the Successor Account Owner**

Refer to “Opening an Account- Successor Account Owner” above.

### **Changing Investment Options**

You, the Account Owner, or your Financial Professional may allocate contributions to any one or more of the Investment Options offered under this Program Description at the time the contributions are made. Although

Account Owners may select among Investment Options for contributions made to Accounts, and may vary the Investment Options selected in connection with each contribution, under federal law neither Account Owners nor Beneficiaries may exercise any investment discretion, directly or indirectly, over contributions to an Account or any earnings on contributions. This means that contributions, and the earnings resulting from contributions, can only be transferred consistent with applicable rules. Accordingly, once made, contributions and any earnings thereon in all Accounts with the same Account Owner for a particular Beneficiary may only be transferred to another Investment Option twice per calendar year, or in connection with a change of Beneficiary.

### **Requesting a Distribution**

You, the Account Owner or your Financial Professional may request distributions from an Account. You may request a distribution from your Account over the phone, on **franklintempleton.com**. After a distribution is requested by or on behalf of the Account Owner, it will generally be processed and disbursed within seven days after we receive the request in proper form. The Program may require you or your Financial Professional to submit a separate request for each distribution.

A distribution from your Account will have different tax consequences depending on whether or not the distribution is applied to QHEE; the earnings portion of any distribution that is not applied to QHEE is subject to income taxes and, with certain exceptions, an additional income tax. See below under "Tax Information" for further information.

### **Temporary Withdrawal Restrictions**

If you make a contribution by check, EFT, or Recurring Contribution (assuming all are in good order), we will defer the approval of a withdrawal of that contribution from your Account for five (5) business days following deposit. There will also be a hold of ten (10) business days on withdrawals following an address change, and a hold of fifteen (15) calendar days on withdrawals if banking information has been added or edited.

### **Managing Your Account**

#### **Phone/Online Privileges**

You and your Financial Professional automatically have the convenience of online and phone exchange and redemption privileges unless you decline these options. If bank information is established on the Account, you and your Financial Professional have the convenience of online and phone purchases and redemptions via EFT. You cannot opt out of phone privileges and opt in for online privileges, or vice versa. To view your Account information online, you will first need to register for these services at the **franklintempleton.com** website. You will be asked to accept the terms of the applicable online agreement(s).

Phone/online privileges also allow you to:

- access account values, transaction history, and performance;
- add or change bank information and Recurring Contributions;
- buy, exchange, and sell assets;
- update your address, telephone number, or email address; and
- access statements and tax documents.

As long as the Program Manager follows reasonable security procedures and acts on instructions it reasonably believes are genuine, neither the Program nor any contractor or subcontractor of the Program will be responsible for any losses that may occur from unauthorized requests. The Program Manager's policy is to complete a security check to verify all callers, and it also may record calls. To help safeguard your Account, keep your password confidential, and verify the accuracy of your confirmation statements immediately after you receive them. Contact the Program Manager immediately if you believe someone has obtained unauthorized access to your Account or password. For Account information viewed over the Internet, the use of an Internet browser with

128-bit encryption is recommended. Certain methods of contacting the Program or Program Manager (such as by phone or by Internet) may be unavailable or delayed during periods of unusual market activity. If you wish to discontinue phone/online privileges on your Account at any time, please contact the Program Manager for instructions. You may reinstate these privileges at any time in writing, including online registration with respect to online privileges.

**Contact the Plan immediately if you believe there is a discrepancy as to your Account or if you believe someone has obtained unauthorized access to your Account.**

**Trusted Contact.** You can choose to authorize the Plan to contact a Trusted Contact Person and disclose to that person information about your Account to address possible financial exploitation; to confirm the specifics of your current contact information, health status, or the identity of any legal guardian, executor, trustee or holder of a power of attorney; or as otherwise permitted by law. You can choose to designate a Trusted Contact Person by completing the appropriate form. A Trusted Contact Person must be at least eighteen (18) years of age

## **Additional Considerations**

### **If all Plan Assets Are Not Used for the Beneficiary's Education Costs**

If all of the assets in the Account are not used for the Beneficiary's elementary, secondary, or undergraduate QHEE, you have several options. First, you can use the funds for the Beneficiary's graduate or professional school expenses. Second, you may designate a new Beneficiary who is a Member of the Family of the existing Beneficiary. Third, you may be able to transfer funds to a Roth IRA, subject to the restrictions on such transfers. Fourth, you may close the Account and withdraw all of the funds, although that will be less advantageous because the distribution will constitute a Non-Qualified Distribution, the earnings portion of which generally is subject to federal income tax as well as the 10% additional federal income tax. Finally, you may leave the Account open until you determine the best course of action.

### **Legal Restrictions and Protections on Use of Accounts**

Neither the Account Owner nor the Beneficiary may use an Account as security for a loan.

Under New Jersey law, Accounts are exempt from claims of creditors and are excluded from an estate in bankruptcy except in cases of fraudulent conveyance, claims under an order for child or spousal support or of an alternate payee under a qualified domestic relations order, or punitive damages awarded in a civil action arising from manslaughter or murder. Please note that, depending on the circumstances, the laws of states other than New Jersey may determine the rights of creditors in a claim or bankruptcy involving a Program Account.

Federal bankruptcy laws exempt from an Account Owner's creditors in a bankruptcy proceeding certain funds contributed to an account under a QTP. The exemption protects (1) up to \$7,525 transferred to an Account at least 365 days and within 720 days before the bankruptcy filing, and (2) all transfers made more than 720 days before the bankruptcy filing, provided in both cases that the Beneficiary of the Account during the tax year in which the contribution was made was a child, stepchild, grandchild or step grandchild of the Account Owner.

### **Community Property Laws**

If you are a resident of any state that has community property laws and you are concerned about the application of those laws to contributions, distributions and ownership of Accounts, you should consult a legal advisor. Community property issues such as limitations on gifts of community property and ownership of community property upon death or dissolution of marriage are beyond the scope of this Program Description.

### **Suspicious or Abusive Transactions**

HESAA and the Program Manager reserve the right to close any Account or to limit contributions to, or

distributions from, any Account, if either of them, in its sole discretion, suspects or determines that the Account is being used for purposes that may be in contravention or circumvention of applicable laws or for purposes other than savings for the QHEE of the Beneficiary of the Account.

### **Ability to Restrict an Account**

The Plan may restrict activity on any Account or suspend Account services without the Account Owner's permission when notice has been received of a dispute regarding the ownership of an Account or of a legal claim against an Account, upon initial notification of an individual's death (until the Plan receives the required documentation), or if there is reason to believe fraudulent activity may occur.

### **VI. At the end of the section "Risk Factors" the following is added:**

#### **Market Uncertainties and Other Events**

The overall market value of your Account may exhibit volatility and could be subject to wide fluctuations in response to factors including but not limited to regulatory or legislative changes, worldwide political uncertainties, and general economic conditions (such as inflation and unemployment rates), acts of God, acts of civil or military authority, acts of government, accidents, environmental disasters, natural disasters or events, fires, floods, earthquakes, hurricanes, explosions, lightning, suspensions of trading, epidemics, pandemics, public health crises, quarantines, wars, acts of war (whether war is declared or not), terrorism, threats of terrorism, insurrections, embargoes, cyber-attacks, riots, strikes, lockouts or other labor disturbances, disruptions of supply chains, civil unrest, revolutions, power or other mechanical failures, loss or malfunction of utilities or communications services, delays or stoppage of postal or courier services, delays in or stoppages of transportation, and any other events or circumstances beyond the Plan's reasonable control whether similar or dissimilar to any of the foregoing. All of these factors (collectively "Force Majeure") are beyond the control of the Plan and may cause the value of your Account to decrease, resulting in realized or unrealized losses.

#### **Cybersecurity Risk**

The Plan is highly dependent upon the computer systems of its service providers and their subcontractors. This makes the Plan susceptible to operational and information security risks resulting from cyber threats and cyber-attacks which may adversely affect your Account and cause it to lose value. For instance, cyber threats and cyber-attacks may interfere with your ability to access your Account, make contributions or exchanges, and/or request and receive distributions; they may also impact the ability to calculate net asset values and/or impede trading. Cybersecurity risks include security or privacy incidents, such as human error, unauthorized release, theft, misuse, corruption, and destruction of Account data maintained online or digitally. Cybersecurity risks also include denial of service, viruses, malware, hacking, bugs, security vulnerabilities in software, attacks on technology operations, and other disruptions that could impede the ability to maintain routine operations. Although the Plan and its service providers undertake efforts to protect their computer systems from cyber threats and cyber-attacks, including internal processes and technological defenses that are preventative in nature, and other controls designed to provide a multi-layered security posture, there are no guarantees that the Plan, its service providers, or your Account will avoid losses due to cyber-attacks or cyber threats.

### **VII. The section "Fees and Expenses" is replaced with the following:**

#### **Fees and Expenses**

Each of the Underlying Funds in which the Trust may invest assets contributed under an Investment Option may be subject to investment management fees and/or other expenses. These fees and expenses are taken into account in valuing the Underlying Fund's shares owned by the applicable Trust Portfolio and accordingly indirectly affect the investment returns on amounts invested under the applicable Investment Option. There also may be brokerage fees associated with the purchase or sale of some Underlying Funds such as ETFs that also affect the investment return on amounts invested under the applicable Investment Option.

In addition, the Program currently charges a Program fee of 25 basis points (0.25 percent) per annum assessed daily against the assets of each Trust Portfolio except the Franklin U.S. Government Money 529 Portfolio; though that fee is currently not imposed for the Franklin U.S. Government Money 529 Portfolio, it may be imposed in whole or in part at any time, increasing expenses and reducing performance. The Program fee includes the Authority Administrative fee used to pay HESAA for its services in connection with the program and a Program Manager fee used to pay for the services of FD, Franklin Mutual Advisers, investment advisory organizations that provide services to Franklin Mutual Advisers and other FD affiliates under the Services Agreement. The Program fee is subject to change by HESAA.

Investments made through the purchase of Class A Trust Shares or Class C Trust Shares also are subject to sales charges (including annual “trailing fees” and either initial sales charges or CDSC) as described below except that currently no sales charges are applicable to purchases of Trust Shares in the Franklin U.S. Government Money 529 Portfolio. The CDSC imposed on certain distributions of amounts invested in an Account in Class A or Class C during the periods described under “Classes of Trust Shares” below will be assessed in the case of all distributions, including Qualified Distributions and all Non-Qualified Distributions, including Rollover Distributions, unless the Rollover Distribution is a direct transfer to another Account in the Program invested in the same class of Trust Shares as the Account from which the distribution was made.

### **Considerations Relating to Classes A and C and Advisor Class Trust Shares**

Account Owners who are considering directing that contributions to their Accounts be applied to the purchase of Class A Trust Shares, Class C Trust Shares or Advisor Class Trust Shares (available only to AC-Eligible Account Owners (as defined under “Classes of Trust Shares,” below) should take into consideration the age of the Beneficiary, the period of time during which such contribution is likely to remain invested in the Account, and the charges and fees applicable to each structure, including any available waiver or reduction of the initial sales charge for Class A Trust Shares. Please consult with your Financial Professional as to the fee structure that may be most appropriate for you considering the anticipated duration of the investment, the anticipated likelihood of future transfers among Investment Options, and any available waiver or reduction of the initial sales charge on Class A Trust Shares.

Account Owners may direct that contributions to their Accounts be applied to the purchase of Class C Trust Shares only for Accounts for which they have appointed a Financial Intermediary of record. Account Owners who have not appointed a Financial Intermediary of record for Accounts already investing in Class C Trust Shares may not make additional contributions to those Accounts. All contributions directed to Accounts investing in Class C Trust Shares that do not have a Financial Intermediary of record or to Accounts investing in Advisor Class Trust Shares that are not owned by AC-Eligible Account Owners (as defined under “Classes of Trust Shares,” below) will be returned to the Account Owner pending further instruction.

Certain Financial Intermediaries may retain the authority, at any time they deem it necessary, to exchange Trust Shares in an Account for Trust Shares of a different Class. The Program is not responsible for any such policies or for any such exchanges. See Appendix D for more information on certain Financial Intermediary-specific policies regarding such exchanges. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary’s policies.

### **Estimated Fees and Expenses and Estimated Cost of a \$10,000 Investment**

For both the “Estimated Fees and Expenses” and the “Estimated Cost of a \$10,000 Investment” sections, below:

- Total annual asset-based fees are assessed against assets over the course of the year and do not include sales charges or account maintenance fees.
- No account maintenance fee is currently in effect.

- Estimated expenses assessed by the Underlying Funds are based on the expenses reported in the applicable Underlying Fund's most recent publicly available financial statements as of September 30, 2024 or, in the case of institutional separate accounts, on internal estimates.
- Underlying Fund expenses will vary and in some cases have been, and may from time to time be, reduced by fee and expense waivers or reimbursements, which may be ended at any time, increasing future expenses.
- The actual expenses of an Underlying Fund may differ from those in the financial statements for any period that does not coincide with the period reported on by such financial statements and may differ from those based on internal estimates.
- For Trust Portfolios with multiple Underlying Funds:
  - Underlying Fund expenses are based on a weighted average of the expense ratios of each Underlying Fund in which the applicable Investment Option was invested as of September 30, 2024.
  - The weighting is in accordance with each applicable Underlying Fund's percentage of the aggregate value of the Underlying Funds in the applicable Trust Portfolio on September 30, 2024.
- At any time, the Investment Manager may change the investments of Trust Portfolios within each asset class among various Underlying Funds, changing amounts allocated to each Underlying Fund, and varying between types of Underlying Funds. As a result, fees and expenses of the Trust Portfolios and the costs of investments in them will vary from those estimated shown below.

**ADVISOR CLASS**

Investment Option	Estimated Underlying Fund Expenses	Annual Asset-Based Fees			Additional Investor Expenses	
		Program Management Fee	Annual Sales Fee	Total Annual Asset-Based Fees	Maximum Initial Sales Charge <sup>3</sup>	Maximum Deferred Sales Charge <sup>2</sup>
Putnam Large Cap Value 529 Portfolio	0.65%	0.25%	0.00%	0.90%	None	None

1. See table entitled "Contribution Impact on Initial Sales Charges under Class A" below.
2. For Class A Trust Shares, there is a CDSC that applies to investments made without an initial sales load that are redeemed within 18 months of purchase. See "Fees and Expenses." The CDSC for Class C Trust Shares applies to Class C Trust Shares redeemed in connection with a withdrawal during the first 12 months after the investment.
3. For the Franklin U.S. Government Money 529 Portfolio: (a) the Program Fee (which may be increased at any time, increasing future expenses) has been reduced from 0.25% to 0.00% since the portfolio's inception date of October 8, 2014; (b) "Total Annual Asset Based Fees" reflects the reduced Program Fee currently in effect; and (c) although no deferred sales charge is generally payable with respect to Trust Shares originally purchased in the portfolio, a deferred sales charge may be payable upon a redemption of Trust Shares in the portfolio acquired through an exchange from another Trust Portfolio, or upon a withdrawal of Trust Shares that were acquired, directly or indirectly, in exchange for Trust Shares originally purchased with contributions to the portfolio.
4. After no later than 6 years from the applicable purchase, or sooner, these Trust Shares convert to Class A Trust Shares, and the Annual Sales Fee declines accordingly.

**Estimated Cost of a \$10,000 Investment****In Dollars for Trust Share Classes and Periods Shown<sup>1</sup>**

The following table compares the approximate cost of investing in the different classes within the Plan over different periods of time. Your actual cost may be higher or lower. The table is based on the following assumptions:

- A \$10,000 investment invested for the time periods shown.
- A 5% annually compounded rate of return on the net amount invested throughout the period.
- The proceeds of all Trust Shares that are assumed to be redeemed for the purpose of a distribution at the end of the period shown are used for QHEE (the table does not consider the impact of any potential state or federal taxes on the redemption).
- Total annual asset-based fees remain the same as those shown in the tables above.
- The investor pays the maximum applicable initial sales charge (without regard to possible breakpoints or waivers or any CDSCs) in Class A, pays the annual sales fee in Class A (without regard to any waiver) and pays any CDSCs applicable to Trust Shares invested for the applicable periods in Class C.
- In the case of the Franklin U.S. Government Money 529 Portfolio, the annual costs assume the continuation of the reduced Program Fee described above; however, such Program Fee may be increased at any time, which would increase the applicable annual costs.

1. Assumes redemption at the end of the period.
2. Assumes no redemption at the end of the period.
3. Cost estimates for the Franklin U.S. Government Money 529 Portfolio do not include a Program Fee, since that fee is not in effect for the Franklin U.S. Government Money 529 Portfolio as of the date of this Program Description; the Program Fee may be imposed in whole or in part at any time in the future, which would increase future expenses. The above expenses shown for the Franklin U.S. Government Money 529 Portfolio reflect expense and fee waivers or reimbursements in effect as of the date of this Program Description that have reduced the Underlying Fund expenses and that may be reduced or eliminated at any time.

## Service-Based and Other Fees

The Plan reserves the right to charge additional service-based and other Fees if deemed necessary and reasonable. In particular, if you request delivery of withdrawal proceeds by priority delivery service or, if available, electronic payment to schools, we will deduct the applicable Fee listed below directly from your Account.

Additionally, returned checks or rejected ACH transactions will result in a Fee that may be similarly deducted directly from your Account. At our discretion, if applicable, we may also deduct directly from your Account the other fees and expenses identified below or similar fees or charges (all subject to change without prior notice). We will report Fees assessed for priority delivery and electronic payment to schools as withdrawals on Form 1099-Q. Such convenience Fees may be considered Nonqualified Withdrawals. Please consult your tax professional regarding calculating and reporting any tax liability associated with the payment of any of these Fees out of your Account. We reserve the right to not reimburse fees charged by financial institutions for contributions that are cancelled due to insufficient funds in the bank account from which the money is withdrawn.

- Returned check: \$25
- Rejected ACH: \$25
- Priority delivery of checks: \$25 (weekday); \$60 (Foreign)
- Outgoing wire: \$15 (Domestic); \$25 (International)
- Electronic disbursement to schools: \$10
- Rollover out: \$10

## Float Income

Service providers to the Plan may receive indirect compensation for the services they provide to your Account. This compensation, known as “float” income, is paid by the financial organization at which the “clearing accounts” are maintained, or by the investments in which the Program Manager invests in such clearing accounts. Float income may arise from interest that is earned on Account contributions or withdrawals during the time that these assets are held in clearing accounts but are not invested in an Investment Option. For example, if you request a withdrawal and receive the withdrawal check but do not cash it for several days, some interest may be earned while your funds remain in the clearing account.

**VIII. The section “Financial Intermediary Compensation” above the heading “Transition Provisions under Services Agreement” is replaced with the following:**

## Financial Intermediary Compensation

### Fees Payable by FD to Financial Intermediaries

FD will compensate Financial Intermediaries through which contributions are received under Classes A and C except with respect to Franklin 529 Money Portfolio for which no compensation will be paid. No compensation is paid to a Financial Intermediary for contributions transferred to the Franklin U.S. Government Money 529 Portfolio from other Trust Portfolios. With respect to transfers of contributions from the Franklin U.S. Government Money 529 Portfolio to other Trust Portfolios, the Annual Sales Fee is paid to a Financial Intermediary with respect to such other Trust Portfolio as provided with respect to that Trust Portfolio. Payment of compensation to Financial Intermediaries will not affect the charges paid by the Account Owners or Third-Party Contributors. No compensation is paid by FD to Financial Intermediaries for contributions invested in Advisor Class Trust Shares.

Target Enrolled Target Enrollment Portfolio  
Putnam Core Bond 529 Portfolio

**Selling Commission Group 2, for table below:**

All Other Trust Portfolios (except Franklin U.S. Government Money 529 Portfolio)

**Financial Intermediary Compensation – Class A**

<b>Amount Contributed</b>	<b>Selling Commission<sup>1,5</sup></b>		<b>Annual Sales Fee<sup>2</sup></b>
	<b>GROUP 1 (See list above)</b>	<b>GROUP 2 (See list above)</b>	<b>All Trust Portfolios (except Franklin U.S. Government Money 529 Portfolio)</b>
Less than \$50,000	2.00%	3.50%	0.25%
\$50,000 but under \$100,000	2.00%	3.50%	0.25%
\$100,000 but under \$250,000	1.75%	3.00%	0.25%
\$250,000 but under \$500,000 <sup>3</sup>	1.25%	2.25%	0.25%
\$500,000 but under \$1 million <sup>3</sup>	up to 1.00%	Up to 1.00%	0.25%
\$1 million and above <sup>3</sup>	up to 1.00% <sup>4</sup>	up to 1.00% <sup>4</sup>	0.25% <sup>4</sup>

1. Based upon the amount contributed (does not apply to Franklin U.S. Government Money 529 Portfolio).
2. Based on the average daily net assets in the Account (does not apply to Franklin U.S. Government Money 529 Portfolio).
3. Amounts in excess of Maximum Contribution Limit applicable only in connection with exercise of ROA to Accounts with different Beneficiaries.
4. For purchases above \$1,000,000 additional breakpoints may apply and or net asset value (NAV) purchases, a 1% CDSC may apply if shares are redeemed within 18 months. For a full schedule, please call (866) 362-1597.
5. Certain Financial Intermediaries may receive a lower selling commission depending on their policies in respect of the applicable breakpoints. See Appendix D for more information on certain Financial Intermediary-specific policies regarding selling commissions. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary's policies.

Notwithstanding the above, if no initial sales charge is assessed in connection with the sale of such Trust Shares, FD will not pay a Selling Commission to any Financial Intermediary with respect to such Trust Shares, but will pay an Annual Sales Fee as described in the above chart to the Financial Intermediary for the Account that purchases such Trust Shares.

**Financial Intermediary Compensation – Class C**

No compensation is paid by FD to a Financial Intermediary with respect to contributions invested in the Franklin U.S. Government Money 529 Portfolio. If contributions originally invested in the Franklin U.S. Government Money 529 Portfolio are exchanged for Trust Shares of another Trust Portfolio, an annual Sales Fee compensation is paid by FD to the Financial Intermediary as though the Trust Shares in such other Trust Portfolio had been purchased on the exchange date.

FD reserves the right to revise these fee arrangements at its discretion. FD and/or its affiliates also may provide additional compensation to Financial Intermediaries that sell Trust Shares. This compensation may be based on the amount of sales of Trust Shares and/or total assets with the Trust. Such compensation to Financial Intermediaries may be made by payments from FD's portion of the Program fee or any sales charges or from FD's own resources.

FD also may compensate Financial Intermediaries that enable FD to participate in and/or present at college savings plan conferences or seminars, sales or training programs for registered representatives and other employees, client and investor education programs, and other Financial Intermediary-sponsored educational events relating to college savings plans. These payments may vary depending on the nature of the event. Other compensation may be offered to the extent not prohibited by federal or state laws and regulations or rules of self-

regulatory organizations. FD makes payments for events it deems appropriate, subject to FD guidelines and applicable law.

Please contact your Financial Professional for information about any payments the Financial Intermediary with which such Financial Professional is associated receives from FD and any services provided.

**IX. In the section “Tax Information” the following is added at the end of the paragraph under the heading “Limited Tax-Free Distributions of Certain Unspent Account Balances to Roth IRAs”:**

The IRS may issue additional guidance that may impact 529 plan account transfers to Roth IRAs, including the above referenced conditions. Account Owners and Beneficiaries should each consult a qualified financial or tax professional regarding the applicability of a Roth IRA Distribution to their personal situations. You are responsible for determining the eligibility of a 529 plan to Roth IRA Distribution including tracking and documenting the length of time the 529 plan account has been opened and the amount of assets in your 529 plan account eligible to be rolled into a Roth IRA. Any return of funds due to an uncompleted Roth IRA Distribution will be treated as a new contribution. The taxpayer has the responsibility to maintain records to document the use of funds associated with a Roth IRA Distribution, and any reporting that may be required. To request a Roth IRA Distribution, contact us for the appropriate form.

**X. In the section “Tax Information” under the heading “Distributions for Refunded Payments of QHEE Recontributed to a QTP” the paragraph “Record Retention” is replaced with the following:**

**Record Retention.** You should retain records, invoices or other documents and information adequate to substantiate: (1) particular expenses which you claim to be QHEE; (2) distributions due to death or permanent disability of, or receipt of a qualified scholarship, educational assistance or attendance at a U.S. military academy by, a Beneficiary; (3) refunded distributions; (4) the earnings component of and compliance with the timing requirements applicable to Rollover Distributions and Roth IRA Distributions; and (5) the earnings component of contributions funded from qualified savings bonds or Coverdell ESAs, because it is your responsibility to substantiate contributions to, and transfers from, any QTP account if the IRS or any state taxing authority requires you to do so. You should consult with your tax advisor as to what documentation may be required.

**XI. The sentence under “Reporting and Other Matters” ... “Account Statements” is revised to read:**

If you have made a financial transaction during the quarter, a quarterly statement will be distributed either by mail, or posted to your online account with an email notification, depending on your selection. Transactions that generate quarterly statements include contributions, exchanges, withdrawals, and transaction fees incurred by your Account. An annual Account statement will be distributed even if you have made no financial transactions within the year.

**XII. In the “Glossary of Terms” the item titled “Spryng” is replaced with the following:**

Ugift® Please see “Gifting/Crowd-funding an Account through Ugift®” above in Key Features and Parties.”

**XIII. Appendix A—Participation Agreement is replaced with the following:**

**ARTICLE I – General Provisions**

By signing and submitting the application for an Account, you (the original “Account Owner”) agree, on behalf of yourself, each Beneficiary of your Account, any Third-Party Contributors to your Account and any Successor Account Owner, to the terms and conditions set forth in this Participation Agreement and in the Program Description, subject to the requirements of the Act and of regulations adopted by HESAA under the Act. Copies of the Act, and of such regulations, may be obtained from HESAA or the Program Recordkeeper upon request. As used in this Participation Agreement, “Program Description” refers to the Program Description to which this

Participation Agreement is attached, and any revised, supplemented or replacement version applicable to Class A, B, C or Advisor Class Trust Shares from time to time, and “Class A, C or Advisor Class Trust Shares” means interests in the Trust purchased for an Account under Class A, C or Advisor Class, as described in the Program Description.

The Act authorizes and directs HESAA to establish and administer the Program in a manner that qualifies the Program as a qualified tuition program as defined in Section 529 of the Internal Revenue Code, as amended. The Program is established and maintained so that the Account Owners and Third-Party Contributors may make contributions to the Account for the purpose of meeting the “qualified higher education expenses” of the Beneficiary of such Account.

HESAA has retained the Program Manager to provide, directly or through affiliates and sub-contractors, certain investment management, administrative and marketing services for the Program pursuant to a contract between HESAA and FD.

The Program has been structured so as to provide several Investment Options under which amounts contributed to an Account are invested by the Trust in one or more of the investment portfolios established within the Trust.

The terms and conditions under which Accounts are established and contributions to Accounts are invested are set forth in the Program Description.

## **ARTICLE II – Opening an Account**

### **1. General.**

In order to open an Account, the prospective Account Owner must sign and submit by mail, electronic or other acceptable means to the Program Manager the appropriate completed application for the Program, and make an initial contribution.

### **2. Account Designations.**

**A. Beneficiary Designation.** The Account Owner must designate the Beneficiary in the application at the time an Account is established, unless the Account Owner is eligible to open a scholarship Account under the Program and Section 529 without designating a Beneficiary. The Program Recordkeeper, on behalf of HESAA, shall establish a separate Account for each separate Beneficiary designated by the Account Owner. The Beneficiary of the Account may be changed as described in the Program Description.

**B. Investment Option Designation.** The Account Owner must designate on the application or other authorized form the Investment Option(s) under which the initial and each subsequent contribution will be invested by the Trust.

**C. Successor Account Owner.** The Account Owner may transfer ownership of the Account to a Successor Account Owner upon completion of the appropriate form, which includes submission of a notarized signature or signature guarantee from a banking institution. In addition, the Account Owner may designate any person as the Successor Account Owner in the event of his or her death. If such designation is not made on the application form, the Account Owner may make such designation at a later time through written notification to the Program Recordkeeper. The Account Owner should consult a probate lawyer as to the effect of the designation of a Successor Account Owner in the Account Owner's state of residence. If a Successor Account Owner has not been properly designated, or if the Successor Account Owner dies without taking control of the Account, ownership of the Account shall be transferred as described in the Program Description, subject to the requirements of applicable law.

**3. Accounts Established by Fiduciaries.**

Accounts may be established as fiduciary accounts. An Account may be opened for a minor under UTMA or UGMA. The Account Owner should review the Program Description about special restrictions applicable to Accounts established for a minor under UTMA or UGMA, and should review the Program Description and consult a tax advisor and probate lawyer about the advisability of transferring UTMA/UGMA funds to an Account.

**4. Accounts Established by Business Entities.**

Certain types of legal entities, including corporations, partnerships, limited liability companies, limited liability partnerships, limited and general partnerships, and nonprofit corporations, may establish Accounts.

**ARTICLE III – Contributions and Distributions**

Contributions to, and distributions from, an Account may be made as described in the Program Description.

**ARTICLE IV – Fees and Charges**

**1. General.**

HESAA and/or the Program Manager shall charge such fees in such amounts as HESAA and the Program Manager may determine are necessary. HESAA may change the services and functions for which it or the Program Manager charges fees as well as the amount of such fees. Fees charged by HESAA or the Program Manager may be payable by the Account Owner or a Third-Party Contributor or may be payable out of the assets of the applicable portfolio of the Trust. HESAA and/or the Program Manager reserves the right to waive any fee upon finding that such waiver would be appropriate due to extenuating circumstances.

**2. Specific Fees and Expenses.**

**A. Fees.** The fees, which are subject to change, that are currently charged or imposed by HESAA or the Program Manager are: a Program fee; initial sales charges; contingent deferred sales charges; the annual sales fees and Service-Based and Other Fees. The initial sales charges, contingent deferred charges and the annual sales fees, if any, vary depending on whether you select Class A, Class C or Advisor Class (available only to AC-Eligible Account Owners (as defined under “Fees and Expenses-Advisor Class” in the Program Description)) and the particular Investment Option(s) you select for your Account contributions. The initial sales charge may be reduced or waived under the circumstances described in the Program Description. All of the fees and charges, including the methods by which such fees are paid or payable, are described in detail in the Program Description. In addition, HESAA or the Program Manager may, at its option, charge a “Rollover Fee” of \$75 for a distribution from the Account that is transferred to an account in a “QTP” other than the Program in accordance with the requirements applicable to a “rollover distribution” under Section 529.

**B. Expenses.** Each of the Underlying Funds in which assets are invested under each Investment Option also has investment management fees and other expenses, and, in the case of certain Investment Options, additional charges described in the Program Description, which fees, expenses and charges will be deducted by the applicable Underlying Fund and result in a reduction of the net asset value of such investments, thereby correspondingly decreasing the net asset value of the applicable Trust Shares.

**ARTICLE V – Representations, Warranties and Acknowledgments**

The original Account Owner, by execution of an Account application, each Successor Account Owner, by succession to ownership of the Account, and each Third-Party Contributor, by contributing to the Account, represents and warrants to, acknowledges for the benefit of and agrees with HESAA and the Program Manager as follows:

**A.** The Account Owner or Third-Party Contributor, as applicable, has received, read and understands the Program Description and this Participation Agreement, including the appropriate application form. In deciding to establish or contribute to an Account, such person has not relied on any representations or other information about the Program, whether oral or written, other than as set forth in the Program Description and this Participation Agreement. Each such person will be deemed to certify, at the time of each contribution, that such contribution, together with the earnings thereon, is intended to be applied to pay for the “qualified higher education expenses” of the Beneficiary. All information provided by an Account Owner in the application form and in any form or other notice requesting a distribution from an Account or other form submitted in connection with the Account is and will be true and correct. The Account Owner will promptly notify the Program Recordkeeper of any changes to any such information.

**B.** Each Account Owner and Third-Party Contributor understands that the Trust will invest contributions made to the Account under each of the Investment Options selected by the Account Owner pursuant to the Program's then applicable Investment Policy adopted by HESAA, and that HESAA may change such Investment Policy at any time without the consent of Account Owners, Third-Party Contributors or Beneficiaries. Each Account Owner and Third-Party Contributor agrees that such person has no authority to direct the investment of any contributions made to the Account, or any earnings thereon, either directly or indirectly; provided that the Account Owner is permitted to select among Investment Options and reallocate assets among Investment Options to the extent permitted under the Code, the Program Description and this Participation Agreement. Each Account Owner and Third-Party Contributor understands and acknowledges that HESAA will retain the right to change the investment instruments in which each Trust Portfolio corresponding to an Investment Option is invested and to consolidate Trust Portfolios or close Trust Portfolios and substitute replacement Trust Portfolios, and that, in accordance with the requirements of Section 529, none of the Account Owner, any Third-Party Contributor or any Beneficiary shall have any right to consent or object to such changes or own or have any voting rights as to any investment made by the Trust with contributions received under this Participation Agreement.

**C.** The original Account Owner is opening, each Successor Account Owner is succeeding to ownership of and each Account Owner or Third-Party Contributor making a contribution is contributing to, the Account for the sole purpose of providing funds for “qualified higher education expenses” of the Beneficiary of the Account, and no such person will make any contributions in excess of the limitations described in the Program Description. Contributions to an Account that cause the balance in all Accounts established on behalf of a Beneficiary under the Program to exceed the amount described in the Program Description will be returned to the person making the applicable contribution, subject to any investment losses or applicable liabilities and tax penalties.

**D.** Each Account Owner and Third-Party Contributor understands that participation in the Program does not guarantee, and that none of the State of New Jersey, HESAA, the Trust, the Plan, the Division of Investment, the Program Manager or any other person makes any promise, that: (1) contributions and the investment return on contributions, if any, will be adequate to cover future tuition and other Qualified Higher Education Expenses of a Beneficiary; (2) the Beneficiary of the Account will be admitted to any institution (including any Eligible Educational Institution); (3) upon admission to an institution, the Beneficiary will be permitted to continue to attend; (4) the Beneficiary will receive a degree from any institution; or (5) New Jersey residency will be created for tax, financial aid eligibility or any other purpose for the Beneficiary solely because the individual is a Beneficiary of an Account under the Program. Each Account Owner and Third-Party Contributor acknowledges that the Beneficiary of the Account has not been given any rights or legal interest with respect to the Account unless the Beneficiary is the Account Owner.

**E.** NONE OF: 1) THE STATE OF NEW JERSEY; 2) HESAA; 3) FRANKLIN TEMPLETON INVESTMENTS OR ANY ENTITY AFFILIATED THEREWITH; 4) ANY CONSULTANT OR ADVISER RETAINED BY ANY SUCH PARTY; OR 5) ANY OTHER PERSON GUARANTEES OR INSURES ANY ACCOUNTS ESTABLISHED UNDER THE PLAN, THE PRINCIPAL DEPOSITED OR THE INVESTMENT RETURN. EACH ACCOUNT OWNER AND THIRD-PARTY CONTRIBUTOR UNDERSTANDS THAT THE VALUE OF ANY ACCOUNT AT ANY TIME MAY

BE MORE OR LESS THAN THE AMOUNT INVESTED IN THE ACCOUNT. Each Account Owner and Third-Party Contributor understands that returns on contributions or investments in the Program are not guaranteed by the State of New Jersey, HESAA, the Trust, the Program Manager or any other contractor, consultant or adviser retained by any such party, that none of such parties assumes any risk or liability for funds contributed to or invested in the Program and that the Account Owner assumes all investment risk of an investment in or contribution to the Program, including the potential loss of principal and liability for income tax surcharges or penalties that are assessable in connection with a distribution of amounts invested under the Program. Neither the Account, nor any amount contributed thereto or on deposit therein, is a bank deposit or is insured by the Federal Deposit Insurance Corporation. Each Account Owner and Third-Party Contributor recognizes that the investment of contributions to the Account and of Account balances involves certain risks, and has taken into consideration and understands the risk factors relating to investments of contributions to the Account and Account balances, including, but not limited to, those set forth in the Program Description under the caption "Risk Factors."

**F.** Each Account Owner and Third-Party Contributor recognizes that none of the Account Owner, any Third-Party Contributor or the Beneficiary is or will be permitted to have any role in the selection or retention of the Program Manager or to direct the investment of contributions to the Account and of Account balances, either directly or indirectly, other than the Account Owner's selection, and potential later revision, of the Investment Option(s) for the contributions to the Account. Each Account Owner and Third-Party Contributor understands and acknowledges that once invested under a particular Investment Option, contributions and earnings thereon may only be transferred by the Account Owner to another Investment Option twice per calendar year, or otherwise when the Account Owner changes the Beneficiary of the Account as provided in the Program Description.

**G.** Each Account Owner and Third-Party Contributor acknowledges and agrees that no Account can be used by the Account Owner, Third-Party Contributor or the Beneficiary as collateral for any loan. Any attempted use of an Account as collateral for a loan shall be void.

**H.** Each Account Owner and Third-Party Contributor acknowledges and agrees that no Account Owner, Third-Party Contributor or Beneficiary may assign or transfer any interest in any Account except, to the extent described in the Program Description, to any person designated by the Account Owner to assume ownership of the Account in accordance with the Program Description and this Participation Agreement or as required by law (including transfers of record ownership from a custodian of an Account established for a minor under UTMA or UGMA when the minor for whom such Account was established reaches the age specified by applicable law). Any other attempted assignment or transfer of such interest shall be void.

**I.** Each Account Owner and Third-Party Contributor acknowledges and agrees that the Program shall not loan any assets on deposit in any Account established under the Program to any Account Owner, Third-Party Contributor or Beneficiary.

**J.** Each Account Owner and Third-Party Contributor acknowledges and agrees that the Program is established and maintained by the State of New Jersey and HESAA pursuant to applicable state laws and is intended to qualify for certain federal income tax consequences under Section 529. Each Account Owner and Third-Party Contributor further acknowledges that such federal and state laws are subject to change, sometimes with retroactive effect, and that none of the State of New Jersey, HESAA, the Trust, the Program Manager or any contractor, adviser or consultant retained by any such party makes any representation that such state or federal laws will not be changed or repealed or that the terms and conditions of the Program will remain as currently described in the Program Description and this Participation Agreement.

**K.** The Account Owner acknowledges and agrees that he or she will, or will cause the Beneficiary to, provide, if required by HESAA or Program Manager in order to comply with Section 529, a signed statement identifying the amount of distributions, if any, received from an institution at the end of each calendar year in which distributions for Qualified Higher Education Expenses are made and at the end of the subsequent calendar year, and/or any other information that may be required in order to comply with Section 529.

**L.** If the Account Owner is establishing an Account as a custodian for a minor under UTMA or UGMA, the Account Owner acknowledges and agrees that he or she has reviewed the portion of the Program Description entitled "Opening, Maintaining and Contributing to an Account – Accounts Established under UTMA or UGMA," and acknowledges and agrees that such Account Owner assumes responsibility for any adverse consequences resulting from the establishment of an Account under UTMA or UGMA. Further, such an Account Owner acknowledges and agrees that the Program Description may not discuss tax consequences and other aspects of particular relevance to UTMA accounts and will rely on the advice of a tax and/or financial professional as necessary to discharge their duties to the Beneficiary with respect to the Account.

**M.** If a person is executing this Agreement in a representative or fiduciary capacity, such person represents that such person has full power and authority to enter into and perform this Participation Agreement on behalf of the entity or individual named as the Account Owner. Further, such person acknowledges and agrees the Program Description may not discuss tax consequences and other aspects of the Plan that are relevant to the entity, and the entity has consulted with and relied on a tax and/or financial professional, as deemed appropriate by the entity, before becoming an Account Owner.

**N.** Each Account Owner and Third-Party Contributor understands that FD will not necessarily continue as Program Manager for the entire period the Account is open, that, even if it does, there is no assurance that the terms and conditions of the current Services Agreement between HESAA and FD would continue without material change, and that there are, accordingly, various potential consequences Account Owners and Third-Party Contributors should take into consideration as discussed in the Program Description under the caption "Risk Factors – Change in Investment Policy, Program Manager or Investment Manager," including: (1) changes in the Investment Manager of the Investment Options; and (2) changes in the current Program fee or other fees.

**O.** Each Account Owner and Third-Party Contributor acknowledges that no such person has been advised by the State of New Jersey, HESAA, the Trust, the Program Manager or any of their contractors, affiliates, officers or employees to invest, or to refrain from investing, in a particular Investment Option or in a particular Class of Trust Shares. Each Account Owner and Third-Party Contributor acknowledges that such person is not relying on the State of New Jersey, HESAA, the Trust, the Program Manager or any of their contractors, affiliates, officers or employees as such person's tax consultant or financial planner.

**P.** The Account Owner acknowledges and understands that in connection with opening an Account for the Account Owner, and prior to processing any Account transactions or changes requested by the Account Owner after an Account is opened, the Plan may ask the Account Owner to provide additional documentation, and agrees to promptly comply with any such requests.

**Q.** The Account Owner acknowledges and understands that, if the Account Owner so elects, the Plan has the right to provide the Financial Professional or other third party I have identified to the Plan with access to financial and other information regarding my Account. The Account Owner acknowledges that the Plan may terminate such third party's authority to access the Account at its discretion.

**R.** The Account Owner acknowledges and understands that if the Account Owner transfers an Account to any other person, such transfer will cause such Account Owner to cease to have any right, title, claim, or interest in the Account and that the transfer is irrevocable.

**S.** The Account Owner acknowledges and understands that the Account Owner must retain adequate records relating to withdrawals from and contributions to the Account(s) of such Account Owner for tax reporting purposes.

**T.** The Account Owner acknowledges and understands that if the Account Owner contributes to an Account of such Account Owner using funds from (i) an incoming rollover from another QTP, (ii) a Coverdell Education Savings Account, or (iii) the redemption of a qualified U.S. savings bond, the Account Owner must so inform the Plan and must provide acceptable documentation showing the contributions and earnings portion of the rollover, and that the Plan must treat the entire rollover amount as earnings if such documentation is not provided.

U. With respect to any incoming rollovers to an Account of the Account Owner of funds from another QTP account for the same Beneficiary, the Account Owner represents that there have been no other rollovers for the same Beneficiary in the previous 12 months.

V. The Account Owner acknowledges and understands that on the Account Application for such Account Owner's Account, the Account Owner must select one or more of the Investment Options in which the initial contribution is to be invested, that after the Account Owner makes a contribution to a specific Investment Option, the Account Owner will be allowed to change the Investment Option for that contribution and other existing balances on no more than two dates per calendar year for that Account and any NJBEST Account established for the same Beneficiary, and that the Account Owner can select any one or more Investment Options for additional contributions at the time such contributions are made.

## **ARTICLE VI – Miscellaneous Provisions**

- 1. Limitation of Liability.** The original Account Owner, by execution of an Account application, each Successor Account Owner, by succession to ownership of the Account, and each Third-Party Contributor, by contributing to the Account, acknowledges that the payment of obligations under this Participation Agreement will be made only from the applicable investment portfolio(s) of the Trust. Any claim against the Program or HESAA pursuant to a Participation Agreement may be made solely against the assets of the applicable investment portfolio(s) of the Trust and not against any other funds or sources of funds of HESAA or the State of New Jersey. Each Account Owner and Third-Party Contributor further acknowledges that neither HESAA nor the Trust may pledge the credit or taxing power of the State of New Jersey.
- 2. Contract Modifications.** HESAA reserves the right to modify this Participation Agreement, as deemed necessary by HESAA in its sole discretion, for such reasons as, but not limited to, assuring compliance with state or federal laws and regulations or preserving the fiscal integrity of the Program. To the extent, if any, that this Participation Agreement references procedures, HESAA reserves the right to change those procedures.
- 3. Necessity of Qualification.** The Program is established with the intent that it shall qualify for favorable federal tax treatment under Section 529. Each Account Owner and Third-Party Contributor agrees and acknowledges that qualification under Section 529 is vital, and agrees that this Participation Agreement may be amended by HESAA at any time without the Account Owner's or Third-Party Contributor's consent or prior notice if HESAA determines that such an amendment is required to maintain qualification of the Program under Section 529 or to comply with other applicable laws.
- 4. Reporting.** HESAA shall provide, or cause to be provided, quarterly statements to Account Owners with respect to each Account only if certain transactions are made within the quarter, and tax reporting with respect to each Account as required by federal tax law.
- 5. Account Owner's Indemnity.** The Account Owner recognizes that the establishment of any Account will be based upon the statements, agreements, representations, warranties and covenants set forth in this Participation Agreement, and the Account Owner agrees to indemnify and to hold harmless the State of New Jersey, HESAA, the Trust, the Program Manager and any representatives or contractors of any such party from and against any and all loss, damage, liability or expense, including costs of reasonable attorney's fees, to which they may be put or which they may incur by reason of, or in connection with, any misstatement or misrepresentation made by the Account Owner, any Third-Party Contributor or any Beneficiary, any breach by any such person of the acknowledgments, representations or warranties contained herein, any failure of any such person to fulfill any covenants or agreements set forth herein or any action taken by such person other than in accordance with the terms of this Participation Agreement. All statements, representations, warranties or covenants of any such person, and this paragraph, shall survive the termination of this Participation Agreement.

**6. Finality of Decisions and Interpretations.** All decisions and interpretations by HESAA and the Program Manager in connection with the operation of the Program shall be final and binding on each Account Owner, Third-Party Contributor, Beneficiary and other person affected thereby.

**7. Binding Nature; Third-Party Beneficiaries.** This Participation Agreement shall survive the Account Owner's death and shall be binding upon the Account Owner's personal representatives, heirs, successors and assigns. Each of the Program Manager and HESAA is a Third-Party beneficiary of, and can rely upon and enforce, any agreements, representations and warranties in this Participation Agreement. Neither a Third-Party Contributor nor any Beneficiary is an intended beneficiary of or may enforce the provisions of this Participation Agreement.

**8. Amendment and Termination.** HESAA may at any time, and from time to time, amend this Participation Agreement, or suspend or terminate the Program, by giving written notice of such action to the Account Owner (including, without limitation, through the inclusion of an amended form of Participation Agreement in a revised Program Description distributed to the Account Owner or the separate distribution of an amended form of Participation Agreement to the Account Owner) but, except as otherwise expressly provided herein or permissible under applicable law, the Account Owner's Account may not be diverted from the Account Owner's or the Beneficiary's exclusive benefit. Nothing contained in this Participation Agreement shall constitute an agreement or representation by HESAA or any other party that HESAA will continue to maintain the Program indefinitely. HESAA and the Program Manager reserve the right to close any Account or to limit contributions to, or distributions from, any Account, if either of them, in its sole discretion, suspects or determines that the Account is being used for purposes that may be in contravention or circumvention of applicable laws or for purposes other than savings for the Qualified Higher Education Expenses of the Beneficiary of the Account.

**9. Effective Date.** The Participation Agreement shall become effective between HESAA and an original Account Owner upon the Account Owner's execution of an appropriate application form for the establishment of an Account, the acceptance of such application form by the Program Recordkeeper on behalf of HESAA and the receipt of an initial contribution to the Account established for such Account Owner. The Participation Agreement shall become effective as between HESAA and any Successor Account Owner upon the Successor Account Owner's succession to ownership of the Account, without the need for other action. The Participation Agreement shall become effective with respect to the representations, warranties, and acknowledgments of any Third-Party Contributor immediately upon receipt by or on behalf of HESAA of any contribution from such Third-Party Contributor, without the need for other action.

**10. Factual Determinations.** All factual determinations regarding residency, whether a false statement by an Account Owner, Third-Party Contributor or Beneficiary relating to a substantial fact regarding the Program was made with the intention to deceive and any other factual determinations regarding this Participation Agreement will be at the sole discretion of HESAA.

**11. Governing Law.** The Participation Agreement will be construed in accordance with the laws of the State of New Jersey.

**12. Construction.** In the event that any clause or portion of this Participation Agreement is found to be invalid or unenforceable by a court of competent jurisdiction, at the option of HESAA, this Participation Agreement may be deemed void or that clause or portion found to be invalid will be severed from this Participation Agreement and the remainder of this Participation Agreement will continue in full force and effect as if such clause or portion had never been included.

**13. Exclusivity.** Subject to all applicable state and federal laws, rules, and regulations, the Program Description, including the most recent Participation Agreement included therein, and the related application form, constitute the complete and exclusive statement of the agreement between HESAA and the Account Owner, and supersede any prior agreement, oral or written, and any other communications between HESAA (through any means and by any individuals) relating to the subject matter of this Participation Agreement. If however, there is a

conflict between any such documentation and this Participation Agreement, the terms described in the then current Program Description shall take precedence.

**14. Actions by Program Manager and Program Recordkeeper.** The Program Manager and Program Recordkeeper may act, as stated in the Program Description or otherwise authorized from time to time by HESAA, as HESAA's, the Trust's or the Program's agents for purposes of effecting actions, instructions or determinations by HESAA, the Trust or the Program under this Participation Agreement.

**15. Arbitration.** The original Account Owner, by execution of an Account application, each Successor Account Owner, by succession to ownership of the Account, and each Third-Party Contributor, by contributing to the Account, agrees (on behalf of themselves and the Beneficiary of the Account) that all controversies which may arise between any Account Owner, Third-Party Contributor or Beneficiary and HESAA or the Program Manager involving any transaction in the Account, or the construction, performance or breach of this Participation Agreement, shall be determined by arbitration.

This agreement to arbitrate all controversies does not constitute an agreement to arbitrate the arbitrability of any controversy, unless otherwise clearly and unmistakably required by the arbitration rules of the forum elected, as set forth below.

In connection with this agreement to arbitrate, the Account Owner and each Third-Party Contributor acknowledge that:

- Arbitration is final and binding on the parties.
- Each Account Owner, Third-Party Contributor and Beneficiary of the Account, HESAA and the Program Manager are waiving their right to seek remedies in court, including the right to a jury trial.
- Pre-arbitration discovery is generally more limited than and different from court proceedings.
- The arbitrators' award is not required to include factual findings or legal reasoning and any party's right to appeal or to seek modification of rulings by the arbitrators is strictly limited.
- The panel of arbitrators will typically include a minority of arbitrators who are affiliated with the securities industry.

Any arbitration under this Participation Agreement shall be conducted only before the New York Stock Exchange, Inc., an arbitration facility provided by any other exchange of which the Program Manager is a member, or the Financial Industry Regulatory Authority, and in accordance with its arbitration rules then in force. An Account Owner, Third-Party Contributor or Beneficiary may elect in the first instance whether arbitration shall be conducted before the New York Stock Exchange, Inc., or the Financial Industry Regulatory Authority, but if the Account Owner, Third-Party Contributor or Beneficiary fails to make such election, by registered letter or telegram addressed to the office of HESAA or the Program Manager, as applicable, or such other address that HESAA or the Program Manager may advise such person of from time to time, before the expiration of five days after receipt of a written request from HESAA or the Program Manager to make such election, then HESAA or the Program Manager may make such election. Judgment upon the award of the arbitrators may be entered in any court, state or federal, having jurisdiction.

Nothing contained herein shall limit the ability of the arbitrators to make an award under the rules of the arbitration forum and applicable law. Nothing contained herein is intended: (1) to cause any Third-Party Contributor or Beneficiary to have, or to imply that any such person may have, any contractual rights under this Participation Agreement; or (2) to cause any such person to be, or to imply that any such person may be intended third-party beneficiaries of this Participation Agreement.

No person who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action shall bring a putative or certified class action to arbitration, or seek to enforce any pre-dispute arbitration, or seek to enforce any pre-dispute arbitration agreement against any person who has initiated in court a putative class action until: (1) the class certification is denied; (2) the class is

decertified; or (3) such person is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this Participation Agreement except to the extent stated herein.

16. **Force Majeure.** The Plan and its service providers, individually and collectively, are not liable for any loss, failure, or delay in performance of each of their obligations related to my Account or any diminution in the value of my Account arising out of or caused, directly or indirectly, by circumstances beyond their reasonable control.

**XIV. On the last page of the Program Description the following is added: “Ugift® is a registered service mark. Upromise® is a registered service mark.”**

*Please keep this supplement for future reference.*

**Amendment, dated September 30, 2024, to Supplement, dated August 16, 2024 (the “Supplement”) to the Franklin Templeton 529 College Savings Plan Program Description dated December 31, 2023 (the “Program Description”)**

This Amendment amends the Supplement as follows. You should review this information carefully and keep it together with your copies of the Supplement and the Program Description. Any information in the Supplement or the Program Description that is inconsistent with the information provided in this Amendment is superseded by the information in this Amendment. Where applicable, the headings below reference sections of the Supplement.

- I. This Amendment amends the Supplement to, among other things, extend by one day the “blackout period” during which time you will not be able to transact in your Plan Account. The “blackout period” will now begin on Tuesday, November 12, 2024 after the close of the New York Stock Exchange (“NYSE”) (generally 4 p.m. Eastern time) and end on or after Monday, November 18, 2024. Accordingly, in Part I of the Supplement, the second paragraph under the heading “Information About Investment Restructuring” is revised to read as follows:

Beginning on Tuesday, November 12, 2024, after the close of the New York Stock Exchange (“NYSE”) (generally 4 p.m. Eastern time), the Plan will experience a “blackout period” during which time you will not be able to transact in your Plan Account. During this time, you will be unable to open or close a Plan Account, change Investment Options, deposit money into a Plan Account (including any automatic contributions), request or receive a withdrawal, update your Plan Account information, or effectuate any other Plan transaction. Any transaction request the Plan receives in good order after the close of the NYSE on Tuesday, November 12, 2024, will be processed as soon as administratively reasonable when the blackout period ends on or after Monday, November 18, 2024. Transaction requests received in good order during the blackout period will receive the trade date in effect on the date the transaction is processed.

- II. In Part I of the Supplement, the third paragraph under the heading “I. Information About Investment Restructuring” is revised to read as follows:

Beginning on or about the Investment Restructuring Date, there will be a period when the changes to Plan Portfolios’ investments described below are being made (the “Transition Period”). The Transition Period is expected to last up to approximately three weeks, but may be more or less than that for some or all Plan Portfolios and/or some or all of each Plan Portfolio’s investments. During the Transition Period, Plan Portfolios may hold investments and types of investments that they do not usually hold—including individual securities and investments, shares of other investment vehicles including mutual funds, ETFs, separate accounts and trusts, and other financial instruments—and may have elevated levels of cash (altogether, “Transition Investments”). During the Transition Period, a Plan Portfolio’s risk and performance characteristics (1) will be those of its underlying investments prior to the Transition Period to the extent that its investments have not yet changed as described below; and (2) will reflect those of Transition Investments to the extent that it holds such investments. The Investment Restructuring Date, the Transition Period, Transition Instruments and changes described below may be changed, delayed or cancelled, in part or in whole.

- III. Throughout the Supplement, references to “Western Asset Core Plus Bond 529 Portfolio” and “Western Asset Short-Term Bond 529 Portfolio” are both replaced with “Putnam Core Bond 529 Portfolio” and references to “Western Asset Core Plus Bond Fund” and “Western Asset Short-Term Bond Fund” are both replaced with “Putnam Core Bond Fund.”
- IV. In Part I of the Supplement, the last sentence of the fourth paragraph under the heading “Information About Investment Restructuring” is revised to read: “In addition, on the Investment Restructuring

Date, the definition of “Underlying Fund” will change to include securities other than mutual funds or ETFs directly held by the applicable Portfolio and will include institutional separate accounts (“ISAs”), and the Target Enrollment Portfolios will be invested in ISAs and/or mutual funds or ETFs as well as other investments; any of these may be held directly by Plan Portfolios or through master unit trust structures.”

V. In Part I of the Supplement, the first sentence of the fifth paragraph under the heading “Information About Investment Restructuring” is revised to read: “During the Transition Period, among the Objective-Based Portfolios, the Conservative Allocation 529 Portfolio will consolidate into the Putnam Core Bond 529 Portfolio, the Conservative Growth Allocation 529 Portfolio will consolidate into the Enrolled Target Enrolled Portfolio and the Moderate Allocation 529 Portfolio will consolidate into the Moderate Growth Allocation 529 Portfolio.

VI. In Part I of the Supplement, the first row of the table “Type 2 Investment Options” is revised to read as follows:

Conservative Allocation 529 Portfolio	Putnam Core Bond 529 Portfolio	In new Investment Option: Fixed Income            100
---------------------------------------	--------------------------------	----------------------------------------------------------

VII. In Part I of the Supplement, the second, second to last and last rows of the table “Type 3 Investment Options” are revised to read as follows:

BrandywineGLOBAL - Global Opportunities 529 Portfolio	BrandywineGLOBAL - Global Opportunities Fund	Putnam Core Bond 529 Portfolio	Putnam Core Bond Fund
Western Asset Core Plus Bond 529 Portfolio	Western Asset Core Plus Bond Fund	Putnam Core Bond 529 Portfolio	Putnam Core Bond Fund
Western Asset Short Term Bond 529 Portfolio	Western Asset Short Term Bond Fund	Putnam Core Bond 529 Portfolio .	Putnam Core Bond Fund

VIII. In Part II of the Supplement, under “Investment Options” ... “Type 3 Investment Options: Individual Fund Trust Portfolios” ... “Asset Class: Fixed Income”, Western Asset Core Plus Bond 529 Portfolio and Western Asset Short-Term Bond 529 Portfolio are both replaced by Putnam Core Bond 529 Portfolio.

IX. In Part II of the Supplement, under “Type 3 Investment Options: Individual Fund Trust Portfolios” the two rows under “Asset Class: Fixed Income” are consolidated into one row and revised to read as follows:

Putnam Core Bond 529 Investment Option	Putnam Core Bond 529 Portfolio	High current income consistent with what Putnam Investment Management, LLC (Putnam Management) believes to be prudent risk.	Putnam Core Bond Fund
----------------------------------------	--------------------------------	-----------------------------------------------------------------------------------------------------------------------------	-----------------------

- X. In Part V of the Supplement, as of November 18, 2024, the following Underlying Fund names and their descriptions are added to the list of Underlying Funds deleted from Appendix C of the Program Description:

Western Asset Core Plus Bond Fund  
Western Asset Short-Term Bond Fund

- XI. The following is added, in Part VI of the Supplement, to the descriptions added to Appendix C of the Program Description and also, in Part VII of the Supplement, in the new Schedule F, under “Fixed Income,” replaces sections regarding the Core Plus Bond Separate Account and the Short-Term Bond Separate Account:

### **Putnam Core Bond Fund**

**Investment Goals and Main Strategies.** Seeks high current income consistent with what Putnam Investment Management, LLC (“Putnam Management”) believes to be prudent risk. The fund invests mainly in a diversified portfolio of investment-grade fixed-income securities. The fund invests mainly in bonds of governments and private companies that are investment-grade in quality with intermediate- to long-term maturities (three years or longer). Investment-grade securities are rated at least BBB or its equivalent at the time of purchase by a nationally recognized securities rating organization, or are unrated investments that Putnam Management believes are of comparable quality. The fund may invest in below-investment-grade investments. However, the fund will not invest in securities that are rated lower than B or its equivalent by each rating agency rating the investment, or are unrated securities that Putnam Management believes are of comparable quality. The fund will not necessarily sell an investment if its rating is reduced (or increased) after purchase. The fund may consider, among other factors, a company’s or issuer’s credit, interest rate, liquidity and prepayment risks, as well as general market conditions, when deciding whether to buy or sell investments. Under normal circumstances, the fund will invest at least 80% of its net assets in bonds (bonds include any debt instrument, and may be represented by other investment instruments, including derivatives). In addition to bonds, the fund may also invest in other fixed-income instruments. The fund may also use derivatives, such as futures, options, certain foreign currency transactions and swap contracts, for both hedging and non-hedging purposes.

**Additional information and main risks.** For additional information on the Putnam Core Bond Fund’s investment strategies and descriptions of the fund’s main types of investment risks, see <https://www.franklintempleton.com/tools-and-resources/lit-preview/39114/Y/putnam-core-bond-fund#prospectus>

- XII. In Part VII of the Supplement, in the new Schedule F, under “Money Market” the section regarding the Western Asset Institutional Government Reserves Fund is deleted.

*Please keep this supplement for future reference.*

**Supplement dated August 16, 2024  
to the Franklin Templeton 529 College Savings Plan Program Description  
dated December 31, 2023 (the “Program Description”)**

This Supplement updates the Program Description. You should review this information carefully and keep it together with your current copy of the Program Description. Any information in the Program Description that is inconsistent with the information provided in this Supplement is superseded by the information in this Supplement. Terms that are not otherwise defined in this Supplement have the meaning given to them in the Program Description. Where applicable, the headings below reference the section of the Program Description.

The Program Manager (Franklin Distributors, LLC) has signed a letter of intent with Ascensus College Recordkeeping Services, LLC (“Ascensus”) establishing a framework for developing an agreement pursuant to which Ascensus will provide recordkeeping and administration services with respect to the Plan; the goal is for such services to begin on or about November 18, 2024 (the “Investment Restructuring Date”) in conjunction with the changes to the Investment Options described below.

## **I. Information About Investment Restructuring**

Beginning on or about the Investment Restructuring Date, many Investment Options will change their underlying investments, some will consolidate into other Investment Options and many will change their names. These changes are intended to streamline and simplify the Investment Options and reduce some fund fees.

Beginning on Wednesday, November 13, 2024, after the close of the New York Stock Exchange (“NYSE”) (generally 4 p.m. Eastern time), the Plan will experience a “blackout period” during which time you will not be able to transact on your Plan Account. During this time, you will be unable to open or close a Plan Account, change Investment Options, deposit money into a Plan Account (including any automatic contributions), request or receive a withdrawal, update your Plan Account information, or effectuate any other Plan transaction. Any transaction request the Plan receives in good order after the close of the NYSE on Wednesday, November 13, 2024, will be processed as soon as administratively reasonable when the blackout period ends on or after Monday, November 18, 2024. Transaction requests received in good order during the blackout period will receive the trade date in effect on the date the transaction is processed.

Beginning on the Investment Restructuring Date, there will be a period when the changes to Plan Portfolios’ investments described below are being made (the “Transition Period”). The Transition Period is expected to last up to approximately three weeks, but may be more or less than that for some or all Plan Portfolios and/or some or all of each Plan Portfolio’s investments. During the Transition Period, to the extent a Plan Portfolio’s investments have not yet changed as described below, it will have the risk and performance characteristics of its existing underlying investments prior to such changes. The Investment Restructuring Date, the Transition Period, and changes described below may be changed, delayed or cancelled, in part or in whole.

During the Transition Period, the Conservative Age-Based Asset Allocations and the Moderate Age-Based Asset Allocations will consolidate into the Growth Age-Based Asset Allocations for the applicable age bracket, and the Growth Age-Based Asset Allocation for each age bracket will change its name and investment strategy to become a Target Enrollment Portfolio with a specified year in which withdrawals for Qualified Distributions are expected to begin. The investments of each Target Enrollment Portfolio will change over time to focus less on equity investments and more on preservation of principal as the applicable target year for the Target Enrollment Portfolio gets closer. After the specified target year for a Target Enrollment Portfolio is reached, such Target Enrollment Portfolio will consolidate into a Target Enrollment Portfolio designated as “Enrolled” that has the greatest focus on preservation of principal of the Target Enrollment Portfolios. In addition, on the Investment Restructuring Date, the definition of “Underlying Fund” will change to include securities other than mutual funds or ETFs directly held

by the applicable Portfolio and will include institutional separate accounts (“ISAs”), and the Target Enrollment Portfolios will be invested in ISAs and/or mutual funds or ETFs as well as other investments.

During the Transition Period, among the Objective-Based Portfolios, the Conservative Allocation 529 Portfolio will consolidate into the Western Asset Core Plus Bond 529 Portfolio, the Conservative Growth Allocation 529 Portfolio will consolidate into the Enrolled Target Enrolled Portfolio and the Moderate Allocation 529 Portfolio will consolidate into the Moderate Growth Allocation 529 Portfolio. The investments and investment allocations of the Moderate Growth Allocation 529 Portfolio, Growth Allocation 529 Portfolio and Aggressive Growth Allocation 529 Portfolio will change during the Transition Period. Many of the Individual Fund Trust Portfolios will consolidate into new Individual Fund Trust Portfolios with new Underlying Funds. More information about these various changes is provided below.

Account Owners holding Trust Shares in a Portfolio that consolidates into another Portfolio will receive, in exchange for such Trust Shares, Trust Shares in the new Portfolio with an aggregate Net Asset Value equal to the Trust Shares owned in the predecessor Portfolio. For Account Owners with investments in Investment Options affected by these changes, the changes will occur automatically and will not count against the Account Owner’s twice per calendar year changes in Investment Options for existing Account balances. Account Owners who do not wish one or more of the automatic changes described in this Supplement to occur with respect to their Account investments may choose to change their investments in the affected Investment Option to a different Investment Option (including without limitation a Target Enrollment Portfolio for a different specified year than the one to which the Age-Based Asset Allocation Portfolio will automatically convert), subject to the twice per calendar year change restriction for changes in Investment Options involving existing Account balances and not involving a change in Beneficiary.

**The changes to Investment Options during the Transition Period will be as follows:**

## **TYPE 1 INVESTMENT OPTIONS** **Target Enrollment Portfolios**

### **Transfers from Age-Based Allocation Portfolios to Target Enrollment Portfolios; Neutral Investment Percentages by Asset Class**

Predecessor Age-Based Allocation Portfolio	New Target Enrollment Portfolio	Neutral Asset Allocation Percentages of New Target Enrollment Portfolios as of November 18, 2024 <small>(actual percentage investments may vary +/- 10% from the target)</small>			
		U.S. Equity	Non-U.S. Equity	Fixed Income	Money Market
<b>Growth</b>					
Newborn-4 years	Target 2041	70.00	30.00	—	—
5-6 years	Target 2037	65.80	28.20	6	—
7-8 years	Target 2035	59.50	25.50	15	—
9-10 years	Target 2033	52.50	22.5	25.00	—
11-12 years	Target 2031	45.50	19.50	35.00	—
13-14 years	Target 2029	38.50	16.50	40.00	5
15-16 years	Target 2027	31.50	13.50	50.00	5
17 years	Target 2026	24.50	10.50	60.00	5
18 years	Target 2025	17.50	7.50	65.00	10

Predecessor Age-Based Allocation Portfolio	New Target Enrollment Portfolio	Neutral Asset Allocation Percentages of New Target Enrollment Portfolios as of November 18, 2024 (actual percentage investments may vary +/- 10% from the target)			
		U.S. Equity	Non-U.S. Equity	Fixed Income	Money Market
19+ years	Target Enrolled	10.85	4.65	64.50	20
<b>Moderate</b>					
Newborn-4 years	Target 2033	52.50	22.5	25.00	—
5-6 years	Target 2033	52.50	22.5	25.00	—
7-8 years	Target 2031	45.50	19.50	35.00	—
9-10 years	Target 2031	45.50	19.50	35.00	—
11-12 years	Target 2029	38.50	16.50	40.00	5
13-14 years	Target 2027	31.50	13.50	50.00	5
15-16 years	Target 2026	24.50	10.50	60.00	5
17 years	Target 2025	17.50	7.50	65.00	10
18 years	Target Enrolled	10.85	4.65	64.50	20
19+ years	Target Enrolled	10.85	4.65	64.50	20
<b>Conservative</b>					
Newborn-4 years	Target 2029	38.50	16.50	40.00	5
5-6 years	Target 2029	38.50	16.50	40.00	5
7-8 years	Target 2027	31.50	13.50	50.00	5
9-10 years	Target 2027	31.50	13.50	50.00	5
11-12 years	Target 2026	24.50	10.50	60.00	5
13-14 years	Target 2026	24.50	10.50	60.00	5
15-16 years	Target 2025	17.50	7.50	65.00	10
17 years	Target Enrolled	10.85	4.65	64.50	20
18 years	Target Enrolled	10.85	4.65	64.50	20
19+ years	Target Enrolled	10.85	4.65	64.50	20

The Target Enrollment Portfolios will allocate their investments—pursuant to the asset class allocations shown above (plus or minus 10%)—among investments including some or all of the Underlying Funds shown in Appendix F of the Program Description; see below.

## TYPE 2 INVESTMENT OPTIONS Objective-Based Allocations

### Transfers from Predecessor Investment Options to New Investment Options; Neutral Investment Percentages by Asset Class

Not all Investment Options change—see descriptions in table.

Investment Option	New Investment Option (Where Applicable)	Neutral Asset Allocation Percentages as of November 18, 2024  (actual percentage investments may vary +/- 10%)

Contributions to an Account do not result in direct ownership by the Account Owner of shares of any Franklin Templeton Investments ISA, ETF, mutual fund or other Underlying Fund. The Trust Shares are not registered with the Securities and Exchange Commission (“SEC”) or any state, nor are the Trust, the Program, the Plan, or any of

the Investment Options registered as investment companies with the SEC or any state. The Trust and the Investment Manager may from time to time change the ETFs, mutual funds, ISAs or other investments in which contributions under an Investment Option are invested and may invest in other kinds of investment vehicles or investments. Mutual funds in which contributions under an Investment Option are invested may convert to ETFs and upon such conversion their names may change. Additional Investment Options may be added in the future, and existing Investment Options may be changed, consolidated, or eliminated (and Trust Shares relating to any eliminated Investment Option exchanged for Trust Shares in another Investment Option selected by the Trust) in the future, all as determined in accordance with the then-current Investment Policy. The investment of Trust Portfolio assets will be reviewed, and may be adjusted, from time to time in accordance with the Investment Policy. The consent of Account Owners, Third-Party Contributors or Beneficiaries to any such change, addition, elimination, or consolidation of Investment Options is not required.

## **Type 1 Investment Options: Target Enrollment Portfolios**

The Program offers Target Enrollment Portfolios, each of which is designed to take into account the year in which the target Beneficiary is expected to begin using Account balances invested in the applicable Target Enrollment Portfolio for Qualified Distributions and the investing time horizon or number of years before such target year. You may invest all or any portion of your Account in one or more Target Enrollment Portfolios with a target year that differs from the typical year in which Qualified Distributions would begin for individuals with the current age of your Beneficiary. If you choose to invest to cover the cost of tuition expenses for elementary or secondary public, private or religious schools or qualified expenses for registered apprenticeship programs you should keep in mind your investment time horizon in selecting the appropriate target year. Target Enrollment Portfolios with a closer target year are more heavily invested in fixed income securities in order to try to preserve principal as the time for withdrawals approaches.

Target Enrollment Portfolios are not insulated from market volatility and there is no guarantee that such Portfolios will not lose value, including principal. The asset allocation for each Target Enrollment Portfolio will become increasingly weighted in fixed income securities over time.

A new Target Enrollment Portfolio is expected to be created approximately every two years to accommodate Account Owners who seek the maximum return/risk allocation available in a Target Enrollment Portfolio or for Beneficiaries born after those at which earlier Target Enrollment Portfolios were targeted. Account Owners may choose to allocate different portions of an Account to different Target Enrollment Portfolios for the same Beneficiary and/or to a combination of one or more Target Enrollment Portfolios and one or more Objective-Based Asset Allocation Trust Portfolios and/or Individual Fund Trust Portfolios.

The performance of each Target Enrollment Portfolio will depend on the performance of the ISAs, mutual funds and/or ETFs and other investments in which it is invested, which in turn depends on the performance of the securities held in the applicable ISAs, mutual funds or ETFs and the performance of any other investments held.

Enrolled Target Enrollment Portfolio: Once a Target Enrollment Portfolio has reached the applicable target year, it is closed and its assets transferred into the Enrolled Target Enrollment Portfolio.

The current Investment Policy targets investment of the Target Enrollment Portfolios emphasizing one or more asset classes, including U.S. equity, non-U.S. equity, fixed income (which may include global or international fixed income) and money market, in different specified percentages for each of the specified Target Enrollment Portfolios.

The table captioned "Neutral Investment Percentages by Asset Class" below shows the Investment Policy's neutral asset class allocations for each of the Target Enrollment Portfolios. The actual asset class allocation percentages at any time may deviate from the neutral asset allocation percentages by up to 10% in either

direction due to tactical overweighting or underweighting of an asset class by the Investment Manager and/or relative outperformance or underperformance of an asset class.

For purposes of investing Target Enrollment Portfolios in a specified asset class, the Investment Policy permits the Investment Manager to select, among other investments, one or more ISAs, ETFs and/or mutual funds with an investment objective principally involving investment in the applicable asset class. Investment advisory services for the ISAs are provided by affiliates of the Program Manager. The Investment Policy permits the Investment Manager to select any ISAs, ETFs and mutual funds, but it is expected that any ISAs, ETFs and mutual funds selected by the Investment Manager will predominantly be ISAs, ETFs and mutual funds sponsored by Franklin Templeton, which include, without limitation, those in the Brandywine, Clarion Partners, ClearBridge Investments, Franklin, Franklin Mutual Advisers, Franklin Templeton, K2 Advisors, Martin Currie, Putnam, Royce Investment Partners, Templeton and Western Asset Management fund families. Under the Investment Policy, the Investment Manager will be permitted to add or discontinue investments in particular ISAs, mutual funds or ETFs from time to time or to change the percentage allocation to a particular ISA, mutual fund or ETF within a particular asset class and within a Trust Portfolio from time to time. The asset allocation ranges, and the investment of portfolio assets will be reviewed, and may be adjusted, from time to time in accordance with the Investment Policy.

The Target Enrollment Portfolios are portfolios of the Trust, and are not registered ETFs/mutual funds or ETFs/mutual funds sponsored by the Program Manager or its affiliates.

**Target Enrollment Portfolios**  
**Neutral Investment Percentages by Asset Class as of November 18, 2024**

(actual percentage investments may vary +/- 10% from the target)

<b>Target Enrollment Portfolio</b>	<b>U.S. Equity %</b>	<b>Non-U.S. Equity</b>	<b>Fixed Income</b>	<b>Money Market</b>
Target 2041	70.00	30.00	—	—
Target 2039	70.00	30.00	—	—
Target 2037	65.80	28.20	6.00	—
Target 2035	59.50	25.50	15.00	—
Target 2033	52.50	22.50	25.00	—
Target 2031	45.50	19.50	35.00	—
Target 2029	38.50	16.50	40.00	5.00
Target 2027	31.50	13.50	50.00	5.00
Target 2026	24.50	10.50	60.00	5.00
Target 2025	17.50	7.50	65.00	10.00
Target Enrolled	10.85	4.65	64.50	20.00

The Target Enrollment Portfolios will allocate their investments—pursuant to the asset class allocations shown above (plus or minus 10%)— among investments including some or all of the Underlying Funds shown in Appendix F of the Program Description; see below.

**Target Enrollment Portfolios**  
**Anticipated Asset Allocation Evolution**

The following chart illustrates the anticipated evolution of the asset allocation of the Target Enrollment Portfolios over time, which may be adjusted in the future. The vertical scale on the left shows the anticipated percentage of

equity investments based on the years to enrollment, which are shown on the bottom scale. Investments of the Target Enrollment Portfolios other than equity may include fixed income and money market investments.

## Type 2 Investment Options: Objective-Based Asset Allocations

These Investment Options allow your assets to be invested according to the amount of investment risk you are comfortable taking and the return characteristics you prefer. You may choose from among three Investment Options, with objectives of aggressive growth, growth or moderate growth. The current Investment Policy targets investment of the applicable Trust Portfolios in investments including ISAs, ETFs or mutual funds emphasizing one or more asset classes, including domestic equity, non-domestic equity, fixed income (which may include global or international fixed income) and cash equivalents, in different specified percentages for each of the specified Investment Options.

The table captioned “Neutral Investment Percentages by Asset Class” below shows the Investment Policy’s current neutral asset class allocations for each of the Objective -Based Asset Allocation Trust Portfolios. The actual asset class allocation percentages at any time may deviate from the neutral asset allocation percentages by up to 10% in either direction due to tactical overweighting or underweighting of an asset class by the Investment Manager and/or relative outperformance or underperformance of an asset class.

For purposes of investing Objective-Based Asset Allocation Trust Portfolios in a specified asset class, the Investment Policy permits the Investment Manager to select one or more ISAs, ETFs and/or mutual funds with an investment objective principally involving investment in the applicable asset class as well as other investments. The Investment Policy permits the Investment Manager to select any ISAs, ETFs and mutual funds, but it is expected that the ISAs, ETFs and mutual funds selected by the Investment Manager will predominantly be ISAs, ETFs and mutual funds sponsored by Franklin Templeton, which include, without limitation, those in Brandywine, Clarion Partners, ClearBridge Investments, Franklin, Franklin Mutual Advisers, Franklin Templeton, K2 Advisors, Martin Currie, Putnam, Royce Investment Partners, Templeton and Western Asset Management fund families. Under the Investment Policy, the Investment Manager will be permitted to add or discontinue investments in particular ISAs, ETFs or mutual funds from time to time or to change the percentage allocation to a particular ISA, ETF or mutual fund within a particular asset class and within a Trust Portfolio from time to time. The asset allocation ranges, and the investment of portfolio assets will be reviewed, and may be adjusted, from time to time in accordance with the Investment Policy.

The Objective-Based Asset Allocation Trust Portfolios are portfolios of the Trust, and are not registered ETFs/mutual funds or ISAs, ETFs, or mutual funds sponsored by the Program Manager or its affiliates.

**Objective-Based Asset Allocation Trust Portfolios  
Neutral Investment Percentages by Asset Class**

(actual percentage investments may vary +/- 10% from the target)

Trust Portfolio	Designed for Investors with a:	U.S. Equity	Non-U.S. Equity	Fixed Income	Money Market
Franklin Aggressive Growth Allocation 529 Portfolio	longer investment time horizon and/or a higher tolerance for risk	70.00	30.00	—	—
Franklin Growth Allocation 529 Portfolio	longer investment time horizon and/or a higher tolerance for risk	52.50	22.50	25	—
Franklin Moderate Growth Allocation 529 Portfolio	longer-to-medium investment time horizon and/or a moderate tolerance for risk	35.00	15.00	50	—

The Objective-Based Asset Allocation Trust Enrollment Portfolios will allocate their investments—pursuant to the asset class allocations shown above (plus or minus 10%)— among investments including some or all of the Underlying Funds shown in Appendix F of the Program Description; see below.

**Type 3 Investment Options: Individual Fund Trust Portfolios**

If you prefer, you also have the option of selecting one or more Individual Fund Trust Portfolio Investment Options. By directing that your contributions be allocated among two or more of such Investment Options, you can create an asset allocation mix to suit your particular investing needs. The Individual Fund Trust Portfolios are described below. The asset allocation and the investments of all the Trust Portfolios described below will be reviewed, and may be adjusted, from time to time in accordance with the Investment Policy. See Appendix C of the Program Description for more information on the Underlying Funds.

**Within each asset class listed below, the following information is shown for each 529 Individual Fund Trust Portfolio:**

529 Plan Investment Option	529 Plan Portfolio	Investment Goal(s)	Underlying Fund

------------------------------------------------------	----------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------

**III. As of November 18, 2024, the Section of the Program Description titled "Specific Investment Risks," beginning on page 23, is revised to include the following:**

**These are additions to the list of Specific Investment Risks in the Program Description and should be consulted together with that list.**

**Calculation Methodology risk.** The index provider relies on various sources of information to assess the criteria of issuers included in the Underlying Index, including information that may be based on assumptions and estimates. Neither the Underlying Fund nor its investment manager can offer assurances that the Underlying Index's calculation methodology or sources of information will provide an accurate assessment of included issuers or that the included issuers will provide the Underlying Fund with the market exposure it seeks.

**Cash management and defensive investing risk.** The value of the investments held by the Underlying Fund for cash management or defensive investing purposes can fluctuate. Like other fixed income securities, they are subject to risk, including market, interest rate and credit risk. If the Underlying Fund holds cash uninvested, the cash will be subject to the credit risk of the depository institution holding the cash and the Underlying Fund will not earn income on the cash. If a significant amount of the Underlying Fund's assets is used for cash management or defensive investing purposes, the Underlying Fund will be less likely to achieve its investment objective. Defensive investing may not work as intended and the value of an investment in the Underlying Fund may still decline.

**Concentration risk.** To the extent the Underlying Fund concentrates in a specific industry, a group of industries, sector or type of investment, the Underlying Fund will carry much greater risks of adverse developments and price movements in such industries, sectors or investments than a fund that invests in a wider variety of industries, sectors or investments. There is also the risk that the Underlying Fund will perform poorly during a slump in demand for securities of companies in such industries or sectors.

**Convertible securities risk.** Convertible securities are subject to stock market risk and other risks associated with equity securities and, as well as the credit, interest rate and other risks associated with fixed income securities. Credit risk is the risk that the issuer or obligor will not make timely payments of principal or interest or that its credit may be downgraded or perceived to be less creditworthy. Interest rate risk is the risk that the value of a fixed income security will fall when interest rates rise. A rise in rates tends to have a greater impact on the prices of longer term or duration securities. A general rise in interest rates may cause investors to move out of fixed income securities on a large scale, which could adversely affect the price and liquidity of fixed income securities. As the market price of the equity security underlying a convertible security falls, the convertible security tends to trade on the basis of its yield and other fixed income characteristics. As the market price of the equity security underlying a convertible security rises, the convertible security tends to trade on the basis of its equity conversion features.

**Currency derivatives risk.** Currency futures, forwards or options may not always work as intended, and in specific cases the Underlying Fund may be worse off than if it had not used such instrument(s). There may not always be suitable hedging instruments available. Even where suitable hedging instruments are available, the portfolio managers may determine not to hedge the Underlying Fund's currency risks.

**Depository Receipts risk.** Depository receipts are subject to many of the risks of the underlying securities. For some depository receipts, the custodian or similar financial institution that holds the issuer's shares in a trust account is located in the issuer's home country. In these cases, if the issuer's home country does not have developed financial markets, the Underlying Fund could be exposed to the credit risk of the custodian or financial institution and greater market risk. In addition, the depository institution may not have physical custody of the underlying securities at all times and may charge fees for various services. The Underlying Fund may experience delays in receiving its dividend and interest payments or exercising rights as a shareholder. There may be an increased possibility of untimely responses to certain corporate actions of the issuer in an unsponsored depository receipt program. Accordingly, there may be less information available regarding issuers of securities underlying unsponsored programs and there may not be a correlation between this information and the market value of the depository receipts.

**Developing market countries risk.** The Underlying Fund's investments in securities of issuers in developing market countries are subject to all of the risks of foreign investing generally, and have additional heightened risks due to a lack of established legal, political, business and social frameworks to support securities markets,

including: delays in settling portfolio securities transactions; currency and capital controls; greater sensitivity to interest rate changes; pervasiveness of corruption and crime; currency exchange rate volatility; and inflation, deflation or currency devaluation.

**Equity-Linked Notes (ELNs) risk.** ELNs may not perform as expected and could cause the Underlying Fund to realize significant losses including its entire principal investment. Other risks include counterparty risk, liquidity risk and imperfect correlation between ELNs and the underlying securities.

**Floating Rate Corporate Investments risk.** Certain corporate loans may not be considered “securities,” and investors, such as the Underlying Fund, therefore may not be entitled to rely on the antifraud protections of the federal securities laws and may have limited legal remedies. The senior secured corporate loans and corporate debt securities in which the Underlying Fund invests are often issued in connection with highly leveraged transactions. Such transactions include leveraged buyout loans, leveraged recapitalization loans, and other types of acquisition financing. Loan investments issued in such transactions are subject to greater credit risks than other investments including a greater possibility that the borrower may default or enter bankruptcy. An increase in interest rates may have an adverse impact on the ability of the borrower to service principal and interest due on a floating rate corporate loan. Similarly, such loans are more vulnerable to changes in the relevant economy, such as a recession or a sustained period of rising or elevated interest rates. If a borrower stops making interest and/or principal payments, payments on such loan(s) may never resume. Such floating rate investments may be rated below investment grade (i.e., also known as “junk bonds”). Floating rate loans and securities in which the Underlying Fund generally invest are issued as “covenant lite” loans, which may entail potentially increased risk, because they have few or no financial maintenance covenants or restrictions that would normally allow for early intervention and proactive mitigation of credit risk. Lenders have limited or no ability to intervene and either prevent or restrict actions that may potentially compromise the company’s ability to pay.

**Geographic Focus risk.** Because the Underlying Fund may invest a significant portion of its assets in companies in a specific country and region, including Europe, the Underlying Fund is subject to greater risks of adverse developments in that country, region and/or the surrounding regions than a Underlying Fund that is more broadly diversified geographically. Political, social or economic disruptions in the country or region, even in countries in which the Underlying Fund is not invested, may adversely affect the value of investments held by the Underlying Fund. Ongoing uncertainty concerning the economic consequences of Russia’s military invasion of Ukraine in February 2022 may increase market volatility.

**Income risk.** The Underlying Fund's distributions to shareholders may decline when prevailing interest rates fall, when the Underlying Fund experiences defaults on debt securities it holds or when the Underlying Fund realizes a loss upon the sale of a debt security.

**Index-related risk.** There is no assurance that the Underlying Index will be determined, composed or calculated accurately. While the Index Provider provides descriptions of what the Underlying Index is designed to achieve, the Index Provider does not guarantee the quality, accuracy or completeness of data in respect of its indices, and does not guarantee that the Underlying Index will be in line with the described index methodology. Errors in index data, index computations or the construction of the underlying index in accordance with its methodology (including as a result of outdated, unreliable or unavailable market information) may occur and may not be identified and corrected by the index provider for a period of time or at all, which may have an adverse impact on the Underlying Fund and its shareholders. Gains, losses or costs to the Underlying Fund caused by errors in the Underlying Index may therefore be borne by the Underlying Fund and its shareholders.

**Industry or sector focus risk.** The Underlying Fund may be susceptible to an increased risk of loss, including losses due to events that adversely affect the Underlying Fund’s investments more than the market as a whole, to the extent that the Underlying Fund may, from time to time, have greater exposure to the securities of a particular issuer or issuers within the same industry or sector.

**Leverage risk.** The value of your investment may be more volatile if the Underlying Fund borrows or uses instruments, such as derivatives, that have a leveraging effect on the Underlying Fund's portfolio. Other risks described in the Prospectus also will be compounded because leverage generally magnifies the effect of a change in the value of an asset and creates a risk of loss of value on a larger pool of assets than the Underlying Fund would otherwise have had. The Underlying Fund may also have to sell assets at inopportune times to satisfy its obligations created by the use of leverage or derivatives. The use of leverage is considered to be a speculative investment practice and may result in the loss of a substantial amount, and possibly all, of the Underlying Fund's assets. In addition, the Underlying Fund's portfolio will be leveraged if it exercises its right to delay payment on a redemption, and losses will result if the value of the Underlying Fund's assets declines between the time a redemption request is deemed to be received by the Underlying Fund and the time the Underlying Fund liquidates assets to meet redemption requests.

**Market and interest rate risk.** The market prices of the Underlying Fund's securities may go up or down, sometimes rapidly or unpredictably, due to general market conditions, such as real or perceived adverse economic or political conditions, tariffs and trade disruptions, inflation, substantial economic downturn or recession, changes in interest rates, lack of liquidity in the bond markets or adverse investor sentiment. If the market prices of the Underlying Fund's securities fall, the value of your investment will decline. The value of your investment will generally go down when interest rates rise. A rise in rates tends to have a greater impact on the prices of longer term or duration securities. A general rise in interest rates may cause investors to move out of fixed income securities on a large scale, which could adversely affect the price and liquidity of fixed income securities and could also result in increased redemptions from the Underlying Fund. Recently, there have been inflationary price movements. As such, fixed income securities markets may experience heightened levels of interest rate volatility and liquidity risk. Recently, the U.S. Federal Reserve has been raising interest rates from historically low levels. It may continue to raise interest rates. Any additional interest rate increases in the future could cause the value of the Underlying Fund's holdings to decrease. The maturity of a security may be significantly longer than its duration. A security's maturity and other features may be more relevant than its duration in determining the security's sensitivity to other factors affecting the issuer or markets generally such as changes in credit quality or in the yield premium that the market may establish for certain types of securities.

**Model risk.** Investment models may not adequately take into account certain factors and may result in the Underlying Fund having a lower return than if the Underlying Fund were managed using another model or investment strategy. When a model or data used in managing the Underlying Fund contains an error, or is incorrect or incomplete, any investment decision made in reliance on the model or data may not produce the desired results and the Underlying Fund may realize losses.

**Mortgage securities and asset-backed securities risk.** Mortgage securities differ from conventional debt securities because principal is paid back periodically over the life of the security rather than at maturity. The Underlying Fund may receive unscheduled payments of principal due to voluntary prepayments, refinancings or foreclosures on the underlying mortgage loans. Because of prepayments, mortgage securities may be less effective than some other types of debt securities as a means of "locking in" long-term interest rates and may have less potential for capital appreciation during periods of falling interest rates. A reduction in the anticipated rate of principal prepayments, especially during periods of rising interest rates, may increase or extend the effective maturity of mortgage securities, making them more sensitive to interest rate changes, subject to greater price volatility, and more susceptible than some other debt securities to a decline in market value when interest rates rise. Issuers of asset-backed securities may have limited ability to enforce the security interest in the underlying assets, and credit enhancements provided to support the securities, if any, may be inadequate to protect investors in the event of default. Like mortgage securities, asset-backed securities are subject to prepayment and extension risks.

**Non-correlation risk.** There is no guarantee that the Underlying Fund will achieve a high degree of correlation to the Underlying Index and therefore achieve its investment goal. Market disruptions and regulatory restrictions could have an adverse effect on the Underlying Fund's ability to adjust its exposure to the required levels in order to track the Underlying Index. In addition, the Underlying Fund's NAV may deviate from the Underlying Index if the

Underlying Fund fair values a portfolio security at a price other than the price used by the Underlying Index for that security. To the extent that the Underlying Fund's investment manager uses a representative sampling strategy, the Underlying Fund may not track the return of the Underlying Index as well as it would have if the Underlying Fund held all of the securities in the Underlying Index.

**Passive Investment risk.** Unlike many investment companies, the Underlying Fund is not actively managed and the Underlying Fund's investment manager does not attempt to take defensive positions under any market conditions, including declining markets. Therefore, the Underlying Fund's investment manager would not necessarily buy or sell a security unless that security is added or removed, respectively, from the Underlying Index, even if that security generally is underperforming.

**Portfolio turnover risk.** Active and frequent trading will increase a shareholder's tax liability and the Underlying Fund's transaction costs, which could detract from Underlying Fund performance.

**Private Company/Private Placement Risk.** Investments in the stocks of private companies, including companies that have not yet issued securities publicly in an initial public offering ("IPO"), involve greater risks than investments in stocks of many publicly-traded companies. Compared to public companies, there is significantly less information available about private companies and there is no assurance that the information obtained by the Underlying Fund is reliable. Investments in private companies and private placements are generally considered to be illiquid and may be difficult to sell at a desirable time or at the prices at which the Underlying Fund has valued the investments. Investments in private companies and private placements are typically difficult to value since there are no market prices and less overall financial information available. Difficulty in valuing such investments may make it difficult to accurately determine a Underlying Fund's exposure to private investments, which could cause the Underlying Fund to invest to a greater extent in illiquid investments and subject the Underlying Fund to increased risks. The Underlying Fund's value could be adversely affected if the Underlying Fund's determinations regarding the value of the Underlying Fund's private investments were materially higher than the values that the Underlying Fund ultimately realizes upon the disposal of such investments. In addition, private companies may have limited financial resources and may be unable to meet their obligations. Investments in private companies and private placements may involve a high degree of business and financial risk and may result in substantial losses. These factors may have a negative effect on the Underlying Fund's performance.

**Quantitative Models Risk:** The quantitative models that may be used by the Underlying Fund's investment manager as part of the Underlying Fund's portfolio construction process to identify investment opportunities have been tested on historical price data. These models are based on the assumption that price movements in most markets display similar patterns. There is the risk that market behavior will change and that the patterns upon which the forecasts in the models are based will weaken or disappear, which would reduce the ability of the models to generate an excess return. Further, as market dynamics shift over time, a previously highly successful model may become outdated, perhaps without the Underlying Fund's investment manager recognizing that fact before substantial losses are incurred. Successful operation of a model is also reliant upon the information technology systems of the Underlying Fund's investment manager and its ability to ensure those systems remain operational and that appropriate disaster recovery procedures are in place. There can be no assurance that the Underlying Fund's investment manager will be successful in maintaining effective and operational quantitative models and the related hardware and software systems.

**Representative Sampling risk:** The Underlying Fund's use of a representative sampling strategy will result in its holding a smaller number of securities than are in the Underlying Index or in the Underlying Fund holding securities not included in the Underlying Index. As a result, an adverse development respecting an issuer of securities held by the Underlying Fund could result in a greater decline in the Underlying Fund's NAV than would be the case if all of the securities in the Underlying Index were held. To the extent that the Underlying Fund's investment manager uses a representative sampling strategy, the Underlying Fund may not track the return of the Underlying Index as well as it would have if the Underlying Fund held all of the securities in the Underlying Index.

**Redemption risk.** The Underlying Fund may experience heavy redemptions that could cause the Underlying Fund to liquidate its assets at inopportune times or unfavorable prices or increase or accelerate taxable gains or transaction costs and may negatively affect the Underlying Fund's net asset value, performance, or ability to satisfy redemptions in a timely manner, which could cause the value of your investment to decline.

**Repurchase agreements risk.** A repurchase agreement exposes the Underlying Fund to the risk that the party that sells the securities to the Underlying Fund may default on its obligation to repurchase such securities.

**Risk of investing in fewer issuers risk.** To the extent the Underlying Fund invests its assets in a small number of issuers, or in issuers in related businesses or that are subject to related operating risks, the Underlying Fund will be more susceptible to negative events affecting those issuers.

**Sovereign debt risk.** Sovereign government and supranational debt involve many of the risks of foreign and emerging markets investments as well as the risk of debt moratorium, repudiation or renegotiation, and the Underlying Fund may be unable to enforce its rights against the issuers. Sovereign debt risk is increased for emerging market issuers.

**Tracking error risk.** Tracking error is the divergence of the Underlying Fund's performance from that of the Underlying Index. Tracking error may occur because of differences between the securities held in the Underlying Fund's portfolio and those included in the Underlying Index, pricing differences, transaction costs, the Underlying Fund's holding of cash, differences in timing of the accrual of dividends or interest, tax gains or losses, changes to the Underlying Index or the need to meet various new or existing regulatory requirements. This risk may be heightened during times of increased market volatility or other unusual market conditions. Tracking error also may result because the Underlying Fund incurs fees and expenses, while the Underlying Index does not.

**U.S. government securities risk.** The Underlying Fund may hold U.S. government securities that are not guaranteed or backed by the full faith and credit of the U.S. government, such as those issued by Fannie Mae and Freddie Mac. The maximum potential liability of the issuers of some U.S. government obligations may greatly exceed their current resources, including any legal right to support from the U.S. government. In addition, the events surrounding the U.S. federal government debt ceiling and any resulting agreement (and similar political, economic and other developments) could adversely affect the Underlying Fund's ability to achieve its investment objective. For example, a downgrade of the long-term sovereign credit rating of the U.S. could increase volatility in both stock and bond markets, result in higher interest rates and lower Treasury prices and increase the costs of all kinds of debt. These events and similar events in other areas of the world could have significant adverse effects on the economy generally and could result in significant adverse impacts on issuers of securities held by the Underlying Fund and the Underlying Fund itself. In the past, the values of U.S. Government securities have been affected substantially by increased demand for them around the world. Changes in the demand for U.S. Government securities may occur at any time and may result in increased volatility in the values of those securities.

**IV. As of November 18, 2024, the title and first three paragraphs of Appendix C of the Program Description are revised to read as follows:**

**Appendix C –Underlying Funds of the Individual Fund Trust Portfolios**

Below is a summary of the investment goals and main strategies of the mutual funds and ETFs (each of which is referred to as an Underlying Fund or "Fund") in which the Individual Fund Trust Portfolios are invested. The information below has been summarized for inclusion herein by the Program Manager from the most current prospectus available. Neither HESAA nor the Program Manager has independently verified the information contained in any such mutual fund or ETF prospectus and no representation is made by HESAA or the Program Manager as to its accuracy or completeness.

Additional information regarding the Underlying Funds described below, and the risks associated with such Funds, is set forth in each Fund’s prospectus and statement of additional information (“SAI”). Copies of the Underlying Fund prospectuses, SAIs, annual and semiannual shareholder reports and performance information can be obtained from your Financial Professional, online at FranklinTempleton.com, or by calling Franklin Templeton toll free at (866) 362-1597. No offer is made in this document of shares of any of the Underlying Funds.

**V. As of November 18, 2024, the following Underlying Fund names and their descriptions are deleted from Appendix C of the Program Description:**

Brandywine GLOBAL—Global Opportunities Fund  
Franklin Growth Fund

**VI. As of November 18, 2024, the following Underlying Fund names and descriptions are added to Appendix C of the Program Description:**

**Putnam Large Cap Growth Fund**

**Investment Goals and Main Strategies.** Seeks capital appreciation. Under normal market conditions, this fund invests mainly in common stocks of large U.S. companies, with a focus on growth stocks. Growth stocks are stocks of companies whose earnings are expected to grow faster than those of similar firms, and whose business growth and other characteristics may lead to an increase in stock price. The investment manager may consider, among other factors, a company’s valuation, financial strength, growth potential, competitive position in its industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments. Under normal circumstances, at least 80% of the fund’s net assets (plus the amount of any borrowings for investment purposes) are invested in companies of a size similar to those in the Russell 1000 Growth Index.

**Additional information and main risks.** For additional information on the Putnam Large Cap Growth Fund’s investment strategies and descriptions of the fund’s main types of investment risks, see <https://www.franklintempleton.com/tools-and-resources/lit-preview/38964/C/putnam-large-cap-growth-fund/POGCX#prospectus>

**Putnam Large Cap Value Fund**

**Investment Goals and Main Strategies.** Seeks capital growth and current income. Under normal market conditions, this fund invests mainly in common stocks of U.S. companies, with a focus on value stocks that offer the potential for capital growth, current income, or both. Under normal circumstances, the fund invests at least 80% of its net assets in large-cap companies, which, for purposes of this policy, are of a size similar to those in the Russell 1000 Value Index. The fund may also invest in midsize companies. Value stocks are issued by companies that the investment adviser believes are currently undervalued by the market; if it is correct and other investors ultimately recognize the value of the company, the price of its stock may rise. The investment adviser may consider, among other factors, a company’s valuation, financial strength, growth potential, competitive position in its industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments

**Additional information and main risks.** For additional information on the Putnam Large Cap Value Fund’s investment strategies and descriptions of the fund’s main types of investment risks, see [Putnam Large Cap Value Fund Documentation](#).

**VII. As of November 18, 2024, a new Appendix F of the Program Description is added and reads as follows:**

## **Appendix F –Certain Underlying Investments of the Target Enrollment Portfolios and Objective-Based Portfolios**

Below is a summary of the investment goals and main strategies of the Underlying Funds (exchange traded funds (“ETFs”), institutional separate accounts (referred to as “ISAs” below), and mutual funds (“Funds”)) in which the Target Enrollment Portfolios and Objective-Based Portfolios may invest. Where prospectuses for an ETF or Fund were available to the Program Manager, the information below has been summarized for inclusion herein by the Program Manager from the most current prospectus available. Neither HESAA nor the Program Manager has independently verified the information contained in any such ETF or Fund prospectus and no representation is made by HESAA or the Program Manager as to its accuracy or completeness.

The Investment Policy permits the Investment Manager to allocate investments for each Target Enrollment Trust Portfolio and Objective-Based Asset Allocation Trust Portfolio to a specified percentage range of asset classes, and within each asset class permits the Investment Manager to invest in one or more Underlying Funds and to add or discontinue investments or amounts of investments in particular Underlying Funds from time to time. Not every Underlying Fund in which such Trust Portfolios invest as of the date of this Program Description is described below. Information regarding the particular Underlying Funds in which a Trust Portfolio is invested from time to time is available on <https://www.franklintempleton.com/forms-literature/download/529-FLALL>.

Additional information regarding ETFs and mutual funds described below, and the risks associated with them, is set forth in the applicable ETF’s or mutual fund’s prospectus and statement of additional information (“SAI”). Copies of the ETF or mutual fund prospectuses, SAIs, annual and semiannual shareholder reports and performance information can be obtained from your Financial Professional, online at [FranklinTempleton.com](http://FranklinTempleton.com), or by calling Franklin Templeton toll free at (866) 362-1597. No offer is made in this document of shares of any of the Underlying Funds.

**Underlying Funds are listed below by asset class, then alphabetically.**

**For descriptions corresponding to risk bullet points, see the section “Specific Investment Risks” above.**

### **U.S. Equity**

#### **Franklin US Large Cap Multifactor Index ETF (FLQL)**

**Investment Goals and Main Strategies.** Seeks to provide investment results that closely correspond, before fees and expenses, to the performance of the FLQL ETF’s underlying index. Under normal market conditions, the FLQL ETF invests at least 80% of its assets in the component securities of the fund’s Underlying Index. The Underlying Index is a systematic, rules-based proprietary index maintained and calculated by FTSE Russell. The U.S. Large Cap Underlying Index is based on the Russell 1000® Index using a methodology developed with Franklin Templeton to reflect Franklin Templeton’s desired investment strategy. With respect to this ETF, the U.S. Large Cap Underlying Index seeks to achieve a lower level of risk and higher risk-adjusted performance than the Russell 1000® Index over the long term by applying a multi-factor selection process, which is designed to select equity securities from the Russell 1000® Index that have favorable exposure to certain investment style factors. The FLQL ETF may invest in equity futures (including equity index futures) and equity total return swaps to

provide additional opportunities to add value and better track the performance of the FLQL ETF's Underlying Index, such as to equitize cash and accrued income (i.e., gain equity market exposure and maintain liquidity until the FLQL ETF invests in individual securities), simulate investments in the Underlying Index, facilitate trading or minimize transaction costs.

**Additional information and main risks.** For additional information on the Franklin US Large Cap Multifactor Index ETF's investment strategies and descriptions of the fund's main types of investment risks, see [Franklin U.S. Large Cap Multifactor Index ETF - FLQL \(franklintempleton.com\)](https://www.franklintempleton.com).

### **Large Cap Growth Separate Account**

**Subadvisor: Putnam Investment Management, LLC**

**Investment Goals and Main Strategies.** Seeks capital appreciation. Under normal market conditions invests mainly in common stocks of U.S. companies, with a focus on growth stocks. Growth stocks are stocks of companies whose earnings are expected to grow faster than those of similar firms, and whose business growth and other characteristics may lead to an increase in stock price. The subadvisor (Putnam Investment Management, LLC) may consider, among other factors, a company's growth potential, financial strength, competitive position in its industry, valuation, projected future earnings and cash flows when deciding whether to buy or sell investments. Under normal circumstances, invests at least 80% of the ISA's net assets (plus the amount of any borrowings for investment purposes) in companies of a size similar to those in the Russell 1000 Growth Index.

#### **Main Risks**

- Common stocks
- Growth and value investing
- Focus
- Foreign investments
- Derivatives
- Illiquidity
- Stock market and equity securities
- ESG considerations
- Cybersecurity

### **Large Cap Value Separate Account**

**Subadvisor: Putnam Investment Management, LLC**

**Investment Goals and Main Strategies.** Seeks capital growth and current income. Under normal market conditions invests mainly in common stocks of U.S. companies, with a focus on value stocks that offer the potential for capital growth, current income, or both. Under normal circumstances, invests at least 80% of net assets in large-cap companies, which, for purposes of this policy, are of a size similar to those in the Russell 1000 Value Index. As of January 31, 2024, the index was composed of companies having market capitalizations of between approximately \$362.3 million to \$832.6 billion. May also invest in midsize companies. Value stocks are issued by companies that the ISA's subadvisor believes are currently undervalued by the market. The ISA's subadvisor may consider, among other factors, a company's valuation, financial strength, growth potential, competitive position in its industry, projected future earnings, cash flows and dividends when deciding whether to buy or sell investments.

#### **Main Risks**

- Common stocks
- Value stocks
- Small and midsize companies
- Foreign Investments
- Derivatives
- ESG Considerations
- Liquidity and illiquid investments
- Market risk
- Management and operational risk
- Other investments
- Temporary defensive strategies
- Portfolio turnover rate

## U.S. Core Equity Separate Account

**Subadvisor: Franklin Advisers, Inc.**

**Investment Goals and Main Strategies.** Seeks capital appreciation. Under normal market conditions, the ISA invests at least 80% of its net assets in U.S. equity securities. The ISA may invest in equity securities of any capitalization and primarily invests in common stock. The ISA's investable universe typically includes equity securities of companies in the Russell 1000 Index. The ISA invests in both growth and value stocks, or in stocks with characteristics of both ("core" style of investing). A multi-factor selection process is used to select securities for the ISA that have favorable exposure to quality, value, momentum and alternative factors. For purposes of the ISA's subadvisor's selection process, "quality" includes measurements such as return on equity, earnings variability, cash return on assets and leverage; "value" includes measurements such as price to earnings, price to forward earnings, price to book value and dividend yield; "momentum" includes measurements such as six-month risk adjusted price momentum and 12-month risk-adjusted price momentum and "alternative" incorporates measurements such as short interest and option implied volatility from the equity options market. The ISA's subadvisor uses a proprietary model to assign a quantitative factor score for each issuer in the ISA's investable universe based on that issuer's exposure to quality, value, momentum and alternative factors. Each security is then further analyzed based on the assigned factor scores, but taking into account certain sector weight limits and security weight limit constraints determined by, among others, the ISA's portfolio management team.

### **Main Risks:**

- Market
- Core Style Investing
- Investment Style Factors
- Large Capitalization Companies
- Small and Mid-Capitalization Companies
- Focus
- Portfolio Turnover
- Management
- Use of Models
- Cybersecurity

## **Non-U.S. Equity**

### Foreign Separate Account

**Subadvisor: Templeton Global Advisors Limited**

**Investment Goals and Main Strategies.** Seeks long-term capital growth. Under normal market conditions, the ISA invests at least 80% of its net assets in "foreign securities," as defined below. These securities are predominantly equity securities of companies located outside the U.S., including developing markets and frontier markets. For purposes of the ISA's investments, "foreign securities" means those securities that provide exposure to companies:

- whose principal securities trading markets are outside the U.S.; or
- that derive 50% or more of their total revenue from either goods or services produced or sales made in markets outside the U.S.; or
- that have 50% or more of their assets outside the U.S.; or
- that are linked to non-U.S. dollar currencies; or
- that are organized under the laws of, or with principal offices in, a country other than the U.S.

Developing market countries are currently those considered to be emerging or developing by the United Nations or the countries' authorities or by S&P Dow Jones, Morgan Stanley Capital International or Russell index

providers. The ISA considers frontier markets to be a subset of developing markets. These countries typically are located in the Asia-Pacific region, Eastern Europe, Central and South America, the Middle East and Africa.

The ISA may invest in convertible securities without regard to the ratings assigned by the rating services. The ISA also invests in American, European and Global Depository Receipts. These are certificates issued typically by a bank or trust company that give their holders the right to receive securities issued by a foreign or domestic company.

The ISA, from time to time, may have significant investments in one or more countries, regions or particular sectors such as energy, financial services companies and consumer discretionary. The equity securities in which the ISA invests may include small and mid-capitalization companies. Depending upon current market conditions, the ISA may invest in debt securities of companies and governments located anywhere in the world. Debt securities represent the obligation of the issuer to repay a loan of money to it, and generally pay interest to the holder. Bonds, notes and debentures are examples of debt securities.

The ISA may, from time to time, engage in equity-related derivatives, which may include buying and selling (writing) put and call options on individual securities (including ETFs) and indices, and engaging in equity futures and equity index futures, for various purposes, including enhancing ISA returns, increasing liquidity, gaining exposure to individual securities and particular markets in more efficient or less expensive ways, generating additional income for the ISA, and/or hedging risks relating to changes in certain equity markets.

The ISA may also, from time to time, engage in currency-related derivatives, such as currency and cross-currency forwards and currency futures contracts, to seek to hedge (protect) against currency risks.

The ISA may invest in all types of equity-linked notes (ELNs), which are hybrid derivative-type instruments that are specially designed to combine the characteristics of one or more reference securities (usually a single stock, a stock index or a basket of stocks (underlying securities)) and a related equity derivative, such as a put or call option, in a single note form.

**Main Risks:**

- Market
- Foreign Securities (Non-U.S.)
- Value Style Investing
- Liquidity
- Management
- Focus
- Depository Receipts
- Small and Mid-Capitalization Companies
- Equity-Linked Notes (ELNs)
- Credit
- Interest Rate
- Convertible Securities
- Derivative Instruments
- ESG Considerations
- Cybersecurity

**International Core Equity Separate Account**

**Subadvisor: Franklin Advisers, Inc.**

**Investment Goals and Main Strategies.** Seeks capital appreciation. Under normal market conditions, the ISA invests at least 80% of its net assets in equity securities. The ISA's investable universe typically includes equity securities of companies in the MSCI EAFE index. For purposes of the ISA's investments, "non-U.S. securities" means those securities of companies: (1) whose principal securities trading markets are outside the United States; (2) that derive 50 percent or more of their total revenue from either goods or services produced or sales made in markets outside the United States; (3) that have 50 percent or more of their assets outside the United States; (4) that are linked to non-U.S. dollar currencies; or (5) that are organized under the laws of, or with principal offices in, a country other than the United States. The ISA intends to invest predominantly in non-U.S. issuers. The ISA may invest in equity securities of any capitalization and primarily invests in common stock, but may also invest in depository receipts.

The ISA invests in both growth and value stocks, or in stocks with characteristics of both ("core" style of investing). A multi-factor selection process is used to select securities for the ISA that have favorable exposure to quality, value, momentum and alternative factors. For purposes of the investment manager's selection process, "quality" includes measurements such as return on equity, earnings variability, cash return on assets and leverage; "value" includes measurements such as price to earnings, price to forward earnings, price to book value and dividend yield; "momentum" includes measurements such as six-month risk adjusted price momentum and 12-month risk-adjusted price momentum and "alternative" incorporates measurements such as short interest and option implied volatility from the equity options market. The ISA's subadvisor uses a proprietary model to assign a quantitative factor score for each issuer in the Account's investible universe based on that issuer's exposure to quality, value, momentum and alternative factors. Each security is then further analyzed based on the assigned factor scores, but taking into account certain sector weight limits and security weight limit constraints determined by, among others, the ISA's portfolio management team.

**Main Risks:**

- Market
- Foreign Securities (Non-U.S.)
- Investment Style Factors
- Core Style Investing
- Large Capitalization Companies
- Small and Mid-Capitalization Companies
- Depository Receipts
- Focus
- Portfolio Turnover
- Management
- Use of Models
- Cybersecurity

**International Growth Separate Account**

**Subadvisor: ClearBridge Investments, LLC**

**Investment Goals and Main Strategies.** Seeks long-term capital growth. Under normal market conditions invests primarily in common stocks of foreign companies that, in the ISA subadvisor's opinion, appear to offer above average growth potential and trade at a significant discount to the ISA subadvisor's assessment of their intrinsic value. Intrinsic value, according to the ISA subadvisor, is the value of the company measured, to different extents depending on the type of company, on factors such as, but not limited to, the discounted value of its projected future free cash flows, the company's ability to earn returns on capital in excess of its cost of capital, private market values of similar companies and the costs to replicate the business. May invest in common stocks of foreign companies of any size located throughout the world. The ISA subadvisor considers foreign companies to include those organized, headquartered or with substantial operations outside of the United States. However, the ISA is not precluded from purchasing stocks of U.S. companies. These companies may be located, or have substantial operations, in emerging markets, provided that the ISA will normally not invest more than 15% of its net assets, at the time of purchase, in securities of companies domiciled in emerging markets. The ISA's policy is to remain substantially invested in common stocks or securities convertible into or exchangeable for common stock. Any income realized will be incidental to the ISA's objective.

**Main Risks**

- Stock market and equity securities risk.
- Foreign investments and emerging markets risk
- Market events risk
- Issuer risk
- Large capitalization company risk
- Small and mid-capitalization company risk
- Portfolio management risk
- Growth investing risk
- Industry or sector focus risk
- Illiquidity risk
- Valuation risk
- Environmental, social and governance (ESG) considerations risk
- Cybersecurity risk

## **iShares Core MSCI EAFE ETF (IEFA)**

**Investment Goals and Main Strategies.** Seeks to track the investment results of an index composed of large-, mid- and small-capitalization developed market equities, excluding the U.S. and Canada. The ETF seeks to track the investment results of the MSCI EAFE IMI Index (the “Underlying Index”), which has been developed by MSCI Inc. (the “Index Provider” or “MSCI”). The Underlying Index is a free float-adjusted, market capitalization-weighted index designed to measure large-, mid- and small- capitalization equity market performance and includes stocks from Europe, Australasia and the Far East. The components of the Underlying Index are likely to change over time. Unlike many investment companies, the ETF does not try to “beat” the index it tracks and does not seek temporary defensive positions when markets decline or appear overvalued. The ETF generally will invest at least 80% of its assets in the component securities of its Underlying Index and in investments that have economic characteristics that are substantially identical to the component securities of its Underlying Index (*i.e.*, depository receipts representing securities of the Underlying Index) and may invest up to 20% of its assets in certain futures, options and swap contracts, cash and cash equivalents, including shares of money market funds advised by BFA or its affiliates, as well as in securities not included in the Underlying Index.

**Additional information and main risks.** For additional information on the iShares Core MSCI EAFE ETF’s investment strategies and descriptions of the fund’s main types of investment risks, see [p-ishares-core-msci-eafe-etf-7-31.pdf](#)

## **Fixed Income**

### **Core Plus Bond Separate Account**

**Subadvisor: Western Asset Management Company, LLC**

**Investment Goals and Main Strategies.** Seeks to maximize total return, consistent with prudent investment management and liquidity needs, by investing to obtain the average duration specified below. Under normal market conditions invests in a portfolio of fixed income securities of various maturities and, under normal market conditions, will invest at least 80% of its net assets, including the amount of borrowing for investment purposes, if any, in debt and fixed income securities. Although the account may invest in securities of any maturity, the account normally expects to maintain a dollar-weighted average effective duration within 30% of the average duration of the domestic bond market as a whole as estimated by the account’s subadvisers. Effective duration seeks to measure the expected sensitivity of market price to changes in interest rates, taking into account the anticipated effects of structural complexities (for example, some bonds can be prepaid by the issuer). The ISA may invest up to 20% of its total assets in non-U.S. dollar denominated securities. Up to 20% of the ISA’s net assets may be invested in debt securities that are not rated in the Baa or BBB categories or above at the time of purchase by one or more Nationally Recognized Statistical Rating Organizations (“NRSROs”) or, if unrated, securities of comparable quality at the time of purchase (as determined by the subadvisers). Securities rated in the Baa or BBB categories or above by one or more NRSROs or unrated securities of comparable quality are known as “investment grade securities.” Securities rated below investment grade are commonly known as “junk bonds” or “high yield securities.” The ISA may invest up to 25% of its total assets in the securities of non-U.S. issuers. The ISA may invest a substantial portion of its assets in mortgage-backed and asset-backed securities. The ISA may also enter into various exchange-traded and over-the-counter derivative transactions for both hedging and non-hedging purposes, including for purposes of enhancing returns. These derivative transactions include, but are not limited to, futures, options, swaps, foreign currency futures and forwards. In particular, the ISA may use interest rate swaps, credit default swaps (including buying and selling credit default swaps on individual securities and/or baskets of securities), options (including options on credit default swaps and options on futures) and futures contracts to a significant extent, although the amounts invested in these instruments may change from time to time. Other instruments may also be used to a significant extent from time to time.

## Main Risks

- Market and interest rate risk
- Inflation risk
- Credit risk
- High yield (“junk”) bonds risk
- Derivatives risk
- Leverage risk
- Illiquidity risk
- Foreign investments and emerging markets risk.
- Sovereign debt risk
- U.S. government securities risk
- Prepayment or call risk
- Extension risk
- Risk of investing in fewer issuers
- Market events risk
- Hedging risk
- Cash management and defensive investing risk
- Mortgage securities and asset-backed securities risk
- Portfolio management risk
- Portfolio turnover risk
- Redemption risk
- Cybersecurity risk

## Franklin High Yield Corporate ETF (FLHY)

**Investment Goals and Main Strategies.** Seeks to earn a high level of current income with a secondary goal of seeking capital appreciation to the extent it is possible and consistent with the ETF’s principal goal. Under normal market conditions, the ETF invests at least 80% of its net assets in high yield corporate debt securities and investments that provide exposure to high yield corporate debt securities, which are those that are rated below investment grade, also known as “junk bonds.” Corporate issuers may include corporate or other business entities in which a sovereign or governmental agency or entity may have, indirectly or directly, an interest, including a majority or greater ownership interest. The ETF may invest up to 100% of its total assets in high yield debt securities. The ETF may buy both rated and unrated debt securities, including securities rated below B by Moody’s or S&P® (or deemed comparable by the ETF’s investment manager). The ETF may invest in fixed or floating rate corporate loans and corporate debt securities, including covenant lite loans. The ETF may also invest in defaulted debt securities. The ETF may invest in debt securities of any maturity or duration. The ETF may invest in debt securities of U.S. and foreign issuers, including those in developing or emerging markets. These securities may be U.S. dollar or non-U.S. dollar denominated. The ETF may enter into certain derivative transactions, principally currency and cross currency forwards; and swap agreements, including interest rate and credit default swaps (including credit default index swaps). The use of these derivative transactions may allow the ETF to obtain net long or short exposures to select currencies, interest rates, countries, durations or credit risks.

**Additional information and main risks.** For additional information on the Franklin High Yield Corporate ETF’s investment strategies and descriptions of the ETF’s main types of investment risks, see [Franklin High Yield Corporate ETF - FLHY \(franklintempleton.com\)](http://franklintempleton.com)

## Franklin International Aggregate Bond ETF (FLIA)

**Investment Goals and Main Strategies.** Seeks total investment return, consistent with prudent investing, consisting of a combination of interest income and capital appreciation. Under normal market conditions, this fund invests at least 80% of its net assets in bonds and investments that provide exposure to bonds. Bonds include debt obligations of any maturity, such as bonds, notes, bills and debentures. The fund invests predominantly in fixed and floating-rate bonds issued by governments, government agencies and governmental-related or corporate issuers located outside the U.S. Bonds may be denominated and issued in the local currency or in another currency. The fund may also invest in securities or structured products that are linked to or derive their value from another security, asset or currency of any nation. In addition, the fund’s assets are invested in issuers located in at least three countries (excluding the U.S.). The fund may invest without limit in developing or emerging markets. The fund may invest in debt securities of any maturity or duration. Although the fund may buy bonds rated in any category, including securities in default, it focuses on “investment grade” bonds. The fund may invest in asset-backed securities, mortgage-backed securities, mortgage dollar rolls, and collateralized debt obligations (CDOs), which are generally types of asset-backed securities. The fund may also invest in credit-

linked securities. For purposes of pursuing its investment goal, the investment manager seeks to hedge substantially all of the fund's foreign currency exposure using currency related derivatives, including currency and cross currency forwards and currency futures contracts. The fund may also enter into various other transactions involving derivatives, including interest rate/bond futures contracts and interest rate swap agreements.

**Additional information and main risks.** For additional information on the Franklin International Aggregate Bond ETF's investment strategies and descriptions of the fund's main types of investment risks, see [Franklin International Aggregate Bond ETF - FLIA \(franklintempleton.com\)](http://franklintempleton.com)

### **Franklin Investment Grade Corporate ETF (FLCO)**

**Investment Goals and Main Strategies.** Seeks to provide as high a level of current income as is consistent with prudent investing, while seeking preservation of capital. Under normal market conditions, the ETF invests at least 80% of its net assets in investment grade corporate debt securities and investments. The ETF invests primarily in U.S. dollar denominated corporate debt securities issued by U.S. and foreign companies. The ETF may invest in debt securities of any maturity or duration. The ETF's focus on the credit quality of its portfolio is intended to reduce credit risk and help to preserve the ETF's capital. The ETF may also invest a portion of its assets in convertible securities, preferred securities (including preferred stock) and U.S. Treasury securities, and generally expects to invest a portion of its assets in cash, cash equivalents and high quality money market securities, including short-term U.S. government securities, commercial paper, repurchase agreements and affiliated or unaffiliated money market funds. The ETF may invest up to 40% of its net assets in foreign securities, including those in developing markets, and up to 15% of its net assets in non-U.S. dollar denominated securities. Developing market countries include those considered to be developing by the World Bank. The ETF may enter into certain derivative transactions, principally currency forwards; interest rate and U.S. Treasury futures contracts; and swap agreements, including interest rate, fixed income total return, currency and credit default swaps (including credit default index swaps).

**Additional information and main risks.** For additional information on the Franklin Investment Grade Corporate ETF's investment strategies and descriptions of the ETF's main types of investment risks, see [Franklin Investment Grade Corporate ETF - FLCO \(franklintempleton.com\)](http://franklintempleton.com)

### **Franklin US Core Bond ETF (FLCB)**

**Investment Goals and Main Strategies.** Seeks to provide total return. Under normal market conditions, the ETF invests at least 80% of its net assets in bonds of U.S. issuers, including government, corporate debt, mortgage-backed and asset-backed securities. Bonds include debt obligations of any maturity, such as bonds, notes, bills and debentures. The ETF invests predominantly in investment grade debt securities and, under normal market conditions, is generally expected to have sector, credit and duration exposures comparable to the Bloomberg U.S. Aggregate Index, the ETF's benchmark index. However, the ETF's investment manager makes investment decisions based upon its own fundamental analysis, which affects the ETF's sector, credit and duration exposures so that they may vary from the benchmark index. The ETF also invests in other types of mortgage securities that may be issued or guaranteed by private issuers including commercial mortgage-backed securities (CMBS). For purposes of pursuing its investment goal, the ETF may enter into various interest rate and credit-related derivatives, principally U.S. Treasury futures, interest rate swaps and credit default swaps.

**Additional information and main risks.** For additional information on the Franklin US Core Bond ETF's investment strategies and descriptions of the ETF's main types of investment risks, see [Franklin U.S. Core Bond ETF - FLCB \(franklintempleton.com\)](http://franklintempleton.com)

### **Franklin US Treasury Bond ETF (FLGV)**

**Investment Goals and Main Strategies.** Seeks income. Under normal market conditions, the ETF invests at least 80% of its net assets in direct obligations of the U.S. Treasury, including Treasury bonds, bills, notes and TIPS, and investments that provide exposure to direct obligations of the U.S. Treasury. The ETF may invest in

U.S. Treasury securities of any maturity and intends to primarily focus on U.S. Treasury securities with a remaining maturity of between 1-30 years. The ETF may also invest in securities issued or guaranteed by the U.S. government, its agencies, or instrumentalities, including government sponsored entities and mortgage-backed securities. Securities issued by different government agencies or instrumentalities have different levels of credit support. To pursue its investment goal, the ETF may enter into certain interest rate-related derivative transactions, principally interest rate/bond and U.S. Treasury futures contracts and interest rate swaps. The use of these derivative transactions may allow the ETF to obtain net long or short exposures to select interest rates or durations.

**Additional information and main risks.** For additional information on the Franklin US Treasury Bond ETF's investment strategies and descriptions of the ETF's main types of investment risks, see [Franklin U.S. Treasury Bond ETF - FLGV \(franklintempleton.com\)](http://franklintempleton.com)

### **Schwab US TIPS ETF (SCHP)**

**Investment Goals and Main Strategies.** Seeks to track as closely as possible, before fees and expenses, the total return of an index composed of inflation-protected U.S. Treasury securities. The ETF generally invests in securities that are included in the Bloomberg US Treasury Inflation-Linked Bond Index (Series-L)<sup>SM</sup>. The index includes all publicly-issued U.S. Treasury Inflation-Protected Securities (TIPS) that have at least one year remaining to maturity, are rated investment grade and have \$500 million or more of outstanding face value. The TIPS in the index must be denominated in U.S. dollars and must be fixed-rate and non-convertible. The index is market capitalization weighted and the TIPS in the index are updated on the last business day of each month. It is the ETF's policy that under normal circumstances it will invest at least 90% of its net assets (including, for this purpose, any borrowings for investment purposes) in securities included in the index. The ETF will generally seek to replicate the performance of the index by giving the same weight to a given security as the index does. Under normal circumstances, the ETF may invest up to 10% of its net assets in securities not included in its index. The ETF may also invest in cash and cash equivalents, including money market funds, enter into repurchase agreements, and may lend its securities to minimize the difference in performance that naturally exists between an index fund and its corresponding index.

**Additional information and main risks.** For additional information on the Schwab US TIPS ETF's investment strategies and descriptions of the ETF's main types of investment risks, see [Charles Schwab: Document Repository \(rightprospectus.com\)](http://rightprospectus.com)

### **Short-Term Bond Separate Account**

**Subadvisor: Western Asset Management Company, LLC**

**Investment Goals and Main Strategies.** Seeks current income, preservation of capital and liquidity. Under normal market conditions, invests at least 80% of its assets in "investment grade" fixed income securities. Securities in which the ISA invests include corporate debt securities, bank obligations, mortgage- and asset-backed securities and securities issued by the U.S. government and its agencies and instrumentalities. Investment grade securities are those rated by a rating agency at the time of purchase in one of the top four ratings categories or, if unrated, are judged by the subadvisor to be of comparable quality. The ISA may invest up to 25% of its assets in U.S. dollar denominated securities of non-U.S. issuers. The ISA may invest in securities of any maturity. The ISA normally expects to maintain an average effective maturity of not more than three years. For the purposes of determining the ISA's average effective maturity, a security's maturity date will generally be deemed to be the next interest rate reset date for an adjustable rate security or, if earlier, the date of the next demand feature, such as a put feature, when the ISA would be entitled to receive payment of principal and interest. The ISA's subadvisor may also take into account estimated future prepayments on securities, such as mortgage-backed securities, with uncertain future cash flows and estimations of call features and similar features and options. These estimates may prove to be incorrect. Instead of, and/or in addition to, investing directly in particular securities, the ISA may use instruments such as derivatives, including options, swaps, interest rate swaps, credit default swaps (including buying and selling credit default swaps and options on credit default

swaps), futures contracts, and other synthetic instruments that are intended to provide economic exposure to the securities or the issuer or to be used as a hedging technique. The ISA may use one or more types of these instruments without limit, subject to applicable regulatory requirements. The ISA may also engage in a variety of transactions using derivatives in order to change the investment characteristics of its portfolio (such as shortening or lengthening duration) and for other purposes.

### Main Risks

- Market and interest rate risk
- Market events risk
- Inflation risk
- Credit risk
- High yield (“junk”) bonds risk
- Derivatives risk
- Mortgage-backed and asset-backed securities risk
- Leverage risk
- Illiquidity risk
- Foreign investments and emerging markets risk
- Prepayment or call risk.
- Extension risk
- Risk of investing in fewer issuers
- Valuation risk
- Redemption risk
- Portfolio management risk
- Cybersecurity risk

## Money Market

### **Money Market Portfolio, a series of Institutional Fiduciary Trust**

**Investment Goals and Main Strategies.** Seeks to provide as high a level of current income as is consistent with the preservation of shareholders’ capital and liquidity. Also tries to maintain a stable \$1.00 share price. The portfolio is a “feeder fund” that invests, through the U.S. Government Money Market Portfolio (Master Portfolio), at least 99.5% of its total assets in Government securities, cash and repurchase agreements collateralized fully by Government securities or cash. Government securities include those issued by government agencies or instrumentalities, such as the Federal National Mortgage Association (Fannie Mae), Federal Home Loan Mortgage Corporation (Freddie Mac), Federal Home Loan Banks and Federal Farm Credit Banks, whose securities are neither issued nor guaranteed by the U.S. Government. The fund intends to be a “Government money market fund,” as such term is defined in or interpreted under Rule 2a-7 under the Investment Company Act of 1940. Unless the context otherwise requires, references to the fund's investments refer to those investments of the Master Portfolio to which the fund is exposed and references to the investment manager or the fund's investment manager refer to the Master Portfolio's investment manager. The fund invests in: U.S. government securities which may include fixed, floating and variable rate securities. Repurchase agreements which are agreements by the fund to buy Government securities from a broker-dealer or other counterparty and then to sell the securities back to such counterparty on an agreed upon date (generally, less than seven days) at a higher price, which reflects prevailing short-term interest rates. The fund only buys securities that the investment manager determines present minimal credit risks. The fund maintains a dollar-weighted average portfolio maturity of 60 calendar days or less, maintains a dollar-weighted average life for its portfolio of 120 calendar days or less, and only buys securities that mature or are deemed to mature in 397 calendar days or less.

**Additional information and main risks.** For additional information on the Money Market Portfolio’s investment strategies and descriptions of the fund’s main types of investment risks, see <https://www.franklintempleton.com/tools-and-resources/lit-preview/4340/A/summary-prospectus-money-market-portfolio-institutional-fiduciary-trust#summary-prospectus>.

## Western Asset Institutional Government Reserves

**Investment Goals and Main Strategies.** Seeks maximum current income to the extent consistent with preservation of capital and maintenance of liquidity. The fund is a money market fund that invests exclusively in short-term U.S. government securities, including U.S. Treasuries and securities issued or guaranteed by the U.S. government or its agencies, authorities, instrumentalities or sponsored entities and in repurchase agreements collateralized by government securities, which are not necessarily backed by the full faith and credit of the United States. An investment in the fund is neither insured nor guaranteed by the U.S. government. The fund invests in securities that, at the time of purchase, are rated by one or more rating agencies in the highest short term rating category or, if not rated, are determined to be of equivalent quality. The fund tries to maintain a share price of \$1.00.

Additional information and main risks. For additional information on the Western Asset Institutional Government Reserve Fund's investment strategies and descriptions of the fund's main types of investment risks, see <https://www.franklintempleton.com/tools-and-resources/lit-preview/90098/IND/western-asset-institutional-government-reserves#prospectus>

*Please keep this supplement for future reference.*

## **Notice from Franklin Distributors, LLC**

Franklin Distributors, LLC is registered with the U.S. Securities and Exchange Commission and the Municipal Securities Rulemaking Board (the "MSRB"). The website address for the MSRB is: [www.msrb.org](http://www.msrb.org) A brochure is available to customers on the MSRB's website that describes the protections that may be provided by MSRB rules as well as how to file a complaint with an appropriate regulatory authority.

This Program Description and the attached Participation Agreement, as of the date shown on the cover, supersedes all prior versions of the Investor Handbook previously provided to account owners investing in the Franklin Templeton 529 College Savings Plan (the "Plan"). This Program Description includes appendices and any supplements thereto and contains important information to be considered in deciding to contribute to the Plan. It should be read thoroughly in its entirety and retained for future reference.

No party is authorized by the New Jersey Higher Education Student Assistance Authority ("HESAA") to provide information other than as contained in this Program Description and, if provided, such other information must not be relied upon as having been authorized by HESAA.

Information contained in this Program Description is believed to be accurate as of its date, but is subject to change without notice and neither the delivery of the Program Agreement nor acceptance of any contribution shall, in any circumstances, create any implication that there has been no change in the Plan or in other matters addressed in this Program Description since its date.

Plan accounts are not bank deposits and are not insured by the Federal Deposit Insurance Corporation ("FDIC") or any other state or federal agency. The value of any account at any time may be more or less than the amount invested in the account.

None of: (1) the State of New Jersey, (2) HESAA, (3) Franklin Templeton or any entity affiliated therewith, (4) any consultant or adviser retained by any such party, or (5) any other person; guarantee or insure any accounts established under the Plan, the principal deposited or the investment return. Owners of accounts in the Plan assume all investment risk, including the potential loss of principal, and liability for income taxes and/or additional income taxes such as those levied for non-qualified distributions.

Participation in the Plan does not guarantee that contributions and the investment return on contributions, if any, will be adequate to cover future tuition and other higher education expenses or that a beneficiary will be admitted to or permitted to continue to attend an institution of higher education.

The relative risks and potential rewards of investing under any of the Plan's investment options vary considerably. This Program Description does not constitute a recommendation, and no party described in this Program Description recommends any investment by any particular account owner in the Plan or in any investment option(s). Neither the Plan nor any other person described in this Program Description has determined or assumed any obligation to determine whether any investment by any account owner under any particular investment option or combination of the investment options is suitable or appropriate.

**The plan is offered to residents of all states. However, you should note that: (1) depending upon the laws of the home state of the account owner of, third-party contributor (if applicable) to or beneficiary of the account, favorable state tax treatment or other benefits offered by the applicable home state for investing in qualified tuition programs ("QTPs" as defined below), such as financial aid, scholarship funds, and protection from creditors, may be available only for investments in such home state's QTP tuition program; (2) any state-based benefit offered with respect to a particular QTP should be one of many appropriately weighted factors to be considered in making an investment decision; and (3) the account owner or (if applicable) third-party contributor should consult with a financial, tax or other adviser to learn more about how state-based benefits (including any limitations) would apply to the account owner's, third-party contributor's (if applicable) and beneficiary's specific circumstances and may also wish to contact the home state of the account owner, third-party contributor (if applicable) and/or beneficiary, or any other QTP, to learn more about the features, benefits and limitations of the applicable state's qualified tuition program.**

**QTPs, including the Plan, are intended to be used only to save for Qualified Higher Education Expenses (QHEE), which include certain tuition expenses at elementary or secondary schools as described in this Program Description. Such programs are not intended to be used, nor should they be used, by any taxpayer for the purpose of evading federal or state taxes or tax penalties. Taxpayers may wish to seek tax advice from an independent tax advisor based on their own particular circumstances.**

Interests in the Plan have not been registered with, and this Program Description has not been reviewed by the U.S. Securities and Exchange Commission or any state securities commission.

**Capitalized terms are defined in the "Glossary of Terms" section at the end of this document before the appendices or elsewhere in this Program Description.**

## Introduction

This Program Description describes the Franklin Templeton 529 College Savings Plan (the “Plan”).

The State of New Jersey (the “State”) established the New Jersey Better Educational Savings Trust (NJBEST) Program (the “Program”) to allow Account Owners (as defined below) and Beneficiaries under the Program to qualify for federal tax benefits as participants in a Qualified Tuition Program” (“QTP”) under Section 529 of the Code. The State also provides favorable state tax treatment for State taxpayers participating in the Program and additional non-tax benefits for State residents participating in the Program.

HESAA is responsible for establishing and maintaining the Program on behalf of the State. HESAA administers the Program and is authorized to select investment managers, adopt regulations and provide for the performance of other functions necessary for the operation of the Program. Program assets are held by the New Jersey Better Educational Savings Trust (NJBEST) (the “Trust”). HESAA, as the trustee of the Trust, has appointed Franklin Distributors, LLC (“FD”) as the current Program Manager. FD, directly or through affiliated or non-affiliated entities, provides certain services for the Program.

The Program currently includes the Franklin Templeton 529 College Savings Plan, which is described in this Program Description, and the NJBEST 529 College Savings Plan, which is not offered under, or described in, this Program Description. **Investments in the Plan generally are made through a broker-dealer or other financial intermediary that has entered into an agreement with FD relating to the sale of interests in the Plan; however, an investment account under the Plan also may be established, and interests in the Plan purchased for such an account, by contacting the Plan directly, without use of a broker-dealer or other financial intermediary, in which case FD will serve as the broker of record for the applicable account.**

An investment account under the Plan is established by an Account Owner for the benefit of an individual designated as the beneficiary. There are several investment portfolios to which contributions made to the account may be allocated by the Account Owner. Each of such portfolios invests in one or more underlying mutual funds and/or exchange-traded funds (“ETFs”) that are approved by HESAA and selected by the Plan’s investment manager, which is affiliated with FD. Such mutual funds and/or ETFs may be changed from time to time by the Plan’s investment manager and/or HESAA. Account owners own interests in the Trust’s investment portfolios to which account assets are allocated, not in the underlying mutual funds or ETFs. You can lose money, including the principal amount you invest. See “RISK FACTORS” below.

**To contact the Plan and to obtain Plan forms:**

Visit the website at [www.franklintempleton.com/529](http://www.franklintempleton.com/529)

**Call** Monday through Friday, 8:30 am to 8:00 pm (Eastern Time) toll-free (866) 362-1597

P.O. Box 33090

St. Petersburg, Florida 33733-8090

## Key Features and Parties

This section describes certain key features of the Plan, but it is important that you read the entire Program Description for detailed information.

<b>Feature/Party</b>	<b>Description</b>	<b>Additional Information</b>
<b>HESAA</b>	The New Jersey Higher Education Student Assistance Authority, which established and maintains the Plan.	<i>Program Management, page 57.</i>
<b>Program Manager</b>	Franklin Distributors, LLC (the “Program Manager” or “FD”).	<i>Introduction, page 1; Franklin Templeton, page 57.</i>
<b>Eligible Account Owner</b>	Any individual who has reached the age of majority, or any corporation, trust or other entity, provided they reside in a state or jurisdiction where Trust Shares are eligible for sale.	<i>Opening an Account, page 5.</i>
<b>Eligible Beneficiary</b>	An individual designated by the Account Owner; does not have to be a United States citizen or a New Jersey resident, but must have a Social Security Number, an Internal Revenue Service Individual Taxpayer Identification Number.	<i>Opening an Account—Selecting a Beneficiary, page 5.</i>
<b>Changing the Beneficiary</b>	The Account Owner can change the Beneficiary of the Account to a different Beneficiary who is a “member of the family” of the prior Beneficiary, as described below.	<i>Making Changes to Your Account—Changing a Beneficiary, page 10.</i>
<b>Other Uses of Account</b>	If the Beneficiary of an Account does not fully use the amounts in the Account for Qualified Higher Education Expenses (“QHEE”), or if the Account Owner needs to make use of the Account for other purposes, the Account Owner can direct a Roth IRA distribution from the Account, subject to the restrictions thereon. The Account Owner can also direct a distribution for any other purpose, subject to federal taxation of the earnings portion of the distribution as described below and a potential 10% tax penalty on such earnings. State and local income taxes may also be applicable to the distributed earnings.	<i>Additional Considerations—If all Plan Assets Are Not Used for the Beneficiary’s Education Costs, page 12.</i>
<b>Minimum Initial Contribution</b>	\$250, or \$25 if you choose automatic monthly investing. A Financial Intermediary (as defined below) may impose other minimum initial or ongoing contribution requirements.	<i>Contributing to an Account—Contribution Limits, page 7.</i>
<b>Maximum Account Balance</b>	The Maximum Contribution Limit for all accounts established within the Program for the same Beneficiary is currently \$305,000.	<i>Contributing to an Account—Contribution Limits, page 7.</i>
<b>Gifting/ Crowdfunding an Account through Spryng</b>	Spryng is a personal crowdfunding tool designed to encourage family and friends to make contributions to an Account. This gifting tool is available online and takes just a few minutes to set up and share with friends and family. For more information see: <a href="http://franklinspryng.com">franklinspryng.com</a>	<i>Contributing to an Account—Methods of Contributing—Spryng, page 9.</i>

Feature/Party	Description	Additional Information
<b>Qualified Distributions</b>	Distributions from an Account used to pay for the Qualified Higher Education Expenses (“QHEE”) of the Beneficiary. These withdrawals are federal income tax free.	<i>Tax Information—Federal Tax Treatment—Qualified Distributions, page 59.</i>
<b>Investment Options</b>	<ul style="list-style-type: none"> <li>• Age-based asset allocation portfolios in each of 3 investment risk styles (conservative, moderate and growth).</li> <li>• 6 objective-based asset allocation portfolios.</li> <li>• 14 individual fund portfolios.</li> </ul>	<i>Investment Options, pages 14-21.</i>
<b>Changing Investment Options</b>	The Account Owner can exchange amounts previously contributed to an Account into one or more different Investment Options twice per calendar year or whenever there is a permissible change in the Beneficiary of the Account. New contributions can be invested in any available Investment Options at the time the contributions are made.	<i>Making Changes to Your Account-- Changing Investment Options, page 10.</i>
<b>Federal Tax Treatment</b>	<ul style="list-style-type: none"> <li>• Earnings accrue free of federal income tax.</li> <li>• Qualified Distributions are not subject to federal income tax.</li> <li>• No federal gift tax consequences on contributions of up to \$90,000 (single filer) and \$180,000 (married couple electing to split gifts) if prorated over 5 years.</li> <li>• Contributions are generally considered completed gifts to the Beneficiary for federal gift and estate tax purposes.</li> <li>• Distributions other than Qualified Distributions, Rollover Distributions, Roth IRA Distributions and Qualified Refund Distributions are subject to ordinary federal income tax, and may be subject to an additional 10% tax penalty, on the earnings component.</li> </ul>	<i>Tax Information – Federal Tax Treatment, page 58.</i>
<b>New Jersey Tax Treatment</b>	<ul style="list-style-type: none"> <li>• New Jersey tax benefits related to the Plan are available only to New Jersey taxpayers. State tax treatment for taxpayers in other states may differ.</li> <li>• Account earnings are exempt from New Jersey state tax if withdrawn to pay for QHEE relating to attendance at an Eligible Educational Institution.</li> <li>• An Account Owner or Third Party Contributor with gross income of \$200,000 or less may deduct up to \$10,000 from gross income for purposes of determining New Jersey personal income tax for such taxpayer’s contributions for the applicable year to one or more Accounts.</li> <li>• The amount of any such deductions deemed withdrawn from an Account as part of a distribution that is not (i) a Qualified Distribution relating to attendance at an Eligible Educational Institution or (ii) a Rollover Distribution to another QTP account or to a Qualified ABLE Program account will be included.</li> <li>• The amount of any such deductions from New Jersey personal income tax withdrawn from an Account as part of a distribution that is not (i) a Qualified Distribution or (ii) a Rollover Distribution to another QTP account or to a Qualified ABLE Program account will be included as gross income for purposes of determining New Jersey personal income tax in the year of the subject distribution.</li> </ul>	<i>Tax Information--State Income Tax Treatment – State of New Jersey, page 64.</i>

Feature/Party	Description	Additional Information
<b>Fees and Expenses</b>	<ul style="list-style-type: none"> <li>The Program fee of 25 basis points (0.25 percent) per annum assessed daily against the assets of each portfolio except the Franklin U.S. Government Money 529 Portfolio. The Program fee, which is subject to change by HESAA, provides compensation for the services of FD, Franklin Mutual Advisers and other affiliates of FD and includes the Authority Administrative Fee which compensates HESAA for its program services.</li> <li>Investment management fees and other expenses of mutual funds and ETFs in which Plan portfolios invest; these indirectly reduce the investment returns on amounts invested.</li> <li>Investments made through the purchase of Class A Trust Shares or Class C Trust Shares are subject to sales charges (including annual sales fees and either initial sales charges or contingent deferred sales charges (“CDSC”)) except that currently no sales charges apply to purchases of Trust Shares in the Franklin U.S. Government Money 529 Portfolio.</li> <li>Possible brokerage fees associated with the purchase or sale of ETFs that also affect the investment return.</li> </ul>	<i>Fees and Expenses, pages 32-44.</i>
<b>Workplace 529 Program</b>	Employers may facilitate 529 plan use by employees by establishing a Franklin Templeton Workplace 529 Program. If your employer has a Workplace 529 Program, you can open an Account by completing a Franklin Templeton 529 College Savings Workplace 529 Program Account Application.	<i>Opening Account – Accounts Established through Workplace 529 Program, page 6.</i>
<b>Risk Factors</b>	<ul style="list-style-type: none"> <li>Investments in an Account are not guaranteed or insured.</li> <li>You could lose money, including amounts you or others contributed.</li> <li>Federal or state tax law changes could negatively affect tax treatment of investments in the Plan.</li> <li>Fees could increase.</li> <li>HESAA may terminate or merge Investment Options, and HESAA or the Plan’s investment manager may change the underlying investments in which an Investment Option invests, or change allocations to those investments.</li> <li>Contributions to an Account may adversely affect the Beneficiary’s eligibility for financial aid or other benefits.</li> <li>If the Beneficiary does not fully use the amounts in the Account for QHEE, then the earnings portion of amounts distributed from the Account generally would be subject to federal income tax and may be subject to a 10% additional federal income tax. State and local income taxes may also be applicable to the distributed earnings.</li> </ul>	<i>Risk Factors, pages 21-28.</i>

## Opening an Account

### Completing an Account Application

To open an Account, complete and sign a Franklin Templeton 529 College Savings Account Application at [franklintempleton.com](http://franklintempleton.com) or obtain the form by downloading it from that website, calling the Plan at (866) 362-1597, or contacting a Financial Professional. If you do not specify a class of Trust Shares, your contribution will be invested in Class A Trust Shares. Each Account requires a separate application. By signing the application form, you agree that the Account is subject to the terms and conditions of the Participation Agreement which is attached to this Program Description as Appendix A and also to the terms described in this Program Description.

### Account Owner

To be an Account Owner, you must:

- reside in a state or jurisdiction where Trust Shares are eligible for sale
- if you are an individual, be at least 18 years of age
- if you are a trust, custodian, governmental entity, not-for-profit corporation or other type of entity, provide such documentation relating to such status as the Program Manager may require

The Account Owner does not need to be a New Jersey resident to participate in the Plan. The Account Owner must provide a Taxpayer Identification Number ("TIN"), which may be any one of the following: a Social Security Number, an Internal Revenue Service ("IRS") Individual Taxpayer Identification Number or an Employer Identification Number. The Account Owner designates and may change the Beneficiary and controls distributions from the Account.

Trust Shares are not eligible for sale in Canada or in any member country of the European Union ("EU") or European Economic Area ("EEA") and may not be directly or indirectly offered or sold in any provincial or territorial jurisdiction in Canada or any member country of the EU or EEA, or to or for the benefit of residents of any provincial or territorial jurisdiction in Canada or any member country of the EU or EEA. Trust Shares are eligible for sale outside the United States in jurisdictions other than Canada, the EU, and the EEA, provided that they are purchased through a Financial Professional with an address in the United States or a territory of the United States. With the exception of Accounts owned by Account Owners with addresses in Canada ("Canadian Accounts") and Accounts owned by Account Owners with addresses in any member country of the EU or EEA ("European Accounts"), contributions may continue to be made to Accounts established prior to January 1, 2011 by Account Owners that do not have addresses in the United States or a territory of the United States and do not have a Financial Professional with an address in the United States or a territory of the United States.

### Selecting a Beneficiary

The Beneficiary is the person designated by the Account Owner to use the savings in the Account for QHEE. The Beneficiary and the Account Owner do not have to be related. Account Owners may designate themselves as the Beneficiary. An Account Owner must open a separate Account for each Beneficiary. An individual may be the Beneficiary of more than one Account in the Program, in which case the Maximum Contribution Limit is applied based on the aggregate balance of such Program Accounts.

### Successor Account Owner

An Account Owner also may designate any person to become the successor Account Owner in the event of his or her death. Such designation may be made on the Account application or, subsequently, by submitting a Franklin Templeton 529 College Savings Plan Account Revision Form available at [franklintempleton.com](http://franklintempleton.com). If the original Account Owner dies and the designated person becomes the successor Account Owner, the successor Account Owner may continue to make contributions to the Account, may change the Beneficiary of the Account, may allocate Account balances and contributions among Investment Options and may make Qualified and Non-Qualified Distributions from the Account. The successor Account Owner also would assume tax liability if he or she receives a Non-Qualified Distribution. See "Tax

Information,” below. You may name a Successor Account Owner, unless your Plan Account is funded with proceeds from an UGMA/UTMA account, or a trust is named as the Account Owner.

Under current Program policy, if the Account Owner has not designated a person as a successor Account Owner on the Account application or in a Franklin Templeton 529 College Savings Plan Account Revision Form (or the designated person does not survive the Account Owner), the Beneficiary (if over 18 years old) or a trustee or guardian for the Beneficiary (if the Beneficiary is less than 18 years old) becomes the owner of the Account. The trustee or guardian may be the trustee or guardian, if any, named in the Account Owner's will, a trustee or guardian appointed for such purpose by a court or executor of the Account Owner's estate or a parent of the Beneficiary. Once a trustee or guardian has assumed ownership of such an Account, no further contributions to the Account will be accepted and the guardian or trustee may not change the Beneficiary. The Program's current policy is subject to change and to the requirements of applicable state law, including any applicable provision of an Account Owner's will that may govern the disposition of the Account in the event the Account Owner has not otherwise effectively designated a successor Account Owner.

### **Choosing Investment Options**

On the Account application, you must select the Investment Option(s) under which you want your contributions invested. You may choose among the Objective-Based Trust Portfolios, Age-Based Trust Portfolios and the Individual Fund Trust Portfolios described below. The contributions to your Plan Account are invested in “municipal fund securities” (also referred to as “Trust Shares”), which represent interests in specific Trust Portfolios of the Trust. The Trust Portfolios are not registered mutual funds and are not sponsored by Franklin Templeton. Based on the Investment Option(s) you select, the Trust invests your contributions in one or more Trust Portfolios. The assets of the Trust Portfolios are then invested in mutual fund or ETF shares or other investments, in accordance with the Investment Policy established by HESAA with the approval of the State Investment Council, as it applies to such Investment Option(s). **Refer to “Investment Options” below for additional information. Please note that the Age-Based Asset Allocations have been designed for amounts intended to be applied to QHEE other than Qualified Elementary or Secondary Education Expenses. Account Owners who intend to apply amounts in an Account to Qualified Elementary or Secondary Education Expenses of the Beneficiary should consider other Investment Options.**

### **Accounts Established under UTMA or UGMA**

The Program permits the establishment of an Account in the name of a custodian for a minor under UTMA or UGMA. To transfer existing funds held under UTMA or UGMA to an Account, the custodian will need to liquidate any securities in such UTMA or UGMA account (which will require payment of taxes on any accrued gains) and transfer cash to the Account. If an Account is established for a minor under UTMA or UGMA, the minor always remains the Beneficiary of the Account notwithstanding the Account Owner's ability to change the Beneficiary for other types of Accounts. In addition, when the minor attains an age specified by applicable state law, the custodian will cease to have any control over the Account and the former minor will control the disposition of assets in the Account. Furthermore, the minor will always be treated as the owner of the Account, so that any taxable distribution from the Account will be treated as income of the minor (except to the extent, if any, that applicable law requires that such distribution be treated as income of the custodian). The treatment of an Account established under UTMA or UGMA for federal financial aid purposes is described under “Risk Factors—Financial Aid—Federal Financial Aid.” You should consult a tax advisor in your state of residence, and may also wish to consult a financial aid advisor, about the advisability of transferring UTMA/UGMA funds to an Account.

### **Accounts Established through Workplace 529 Program**

Employers may facilitate the opening of Accounts by employees and contributions to such Accounts by establishing a Franklin Templeton Workplace 529 Program. If your employer has a Workplace 529 Program, you can open an Account by completing and signing a Franklin Templeton 529 College Savings Workplace 529 Program Account Application for each applicable Beneficiary.

If you have an existing Account and would like to convert it to an Account under your employer's Workplace 529 Program, you can do so by completing a Workplace 529 Program Broker-Dealer Revision Form. You also can transfer or roll-over assets in another QTP to an Account established under a Workplace 529 Program.

## Contributing to an Account

### Applicable Trust Share Net Asset Value (NAV)

When you purchase (or sell) Trust Shares, you pay (or receive) the NAV per Trust Share plus (or minus) any applicable sales charge. NAV for each class of Trust Shares is determined by deducting the relevant Trust Portfolio's liabilities allocable to such class of Trust Shares from the total Trust Portfolio assets allocable to such class, and dividing that number by the number of Trust Shares outstanding for such class of that Trust Portfolio. Each Trust Portfolio calculates its NAV per Trust Share of each class each business day as of the close of trading on the New York Stock Exchange, normally 4 p.m. Eastern time ("Close of Trading"). A purchase (or sale) order for Trust Shares received by the Program Recordkeeper in good order by Close of Trading on a business day will ordinarily be priced according to the NAV calculated for the Trust Portfolio on that same business day. Under normal circumstances, the Trust does not calculate its NAV on days the New York Stock Exchange is closed for trading. To the extent permitted by law, a Financial Intermediary that holds Trust Shares in an "omnibus account" on behalf of Account Owners may transmit orders to the Program Recordkeeper through the National Securities Clearing Corporation (NSCC) or other electronic order clearinghouse, provided that the Financial Intermediary understands and agrees that it must receive an order for Trust Shares by the Close of Trading on a given business day to submit the order for processing at that day's NAV.

### Contribution Limits

An account can be opened with an initial minimum contribution of \$250. An account owner may select more than one Investment Option; however, each Investment Option must be funded with a minimum of \$25, with a total initial contribution of \$250 or greater. The minimum contribution is reduced to \$25 per Investment Option if an Automatic Investment Plan (AIP) is established at the same time the Account is opened.

As of the date of this Program Description, the Maximum Contribution Limit is \$305,000. No additional contribution may be made to your Account if the amount of the contribution, when added to the value, at the time of the proposed contribution, of all Program Accounts (whether or not owned by you) for the same Beneficiary would exceed the Maximum Contribution Limit. The Program reserves the right to change the Maximum Contribution Limit and the method of calculating the Maximum Contribution Limit in accordance with its interpretation of federal and state law and regulations.

A Financial Intermediary may impose other minimum initial and ongoing contribution requirements. The Program is not responsible for any minimum contribution requirements imposed by Financial Intermediaries or for notifying contributors of any changes to them. See Appendix D for more information on certain Financial Intermediary-specific contribution minimums. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary's policies.

### Methods of Contributing

- Checks: pre-printed personal checks, cashier's checks, bank money orders, or bill payment check from a bank or other financial institution
- Electronic Funds Transfer (EFT)
- Automatic Investment Plan (AIP)
- Payroll direct deposit
- Incoming rollover from another state's QTP
- Transfers:
  - from an NJBEST Account to an Account under the Plan
  - from Coverdell Education Savings Accounts to the Program
- Reinvesting proceeds of certain U.S. savings bonds
- Spryng gift contribution

Contributions are allocated to one or more of the Trust Portfolios in accordance with instructions provided with the payment. If clear allocation instructions are not provided, the Program Manager will contact the Account Owner or Financial Professional to obtain such instructions.

**Checks:** Made payable to “Franklin Templeton 529 College Savings Plan” and include instructions on how to invest the contribution.

**EFT:** Only one bank account can be linked to an Owner Account for purchases and redemptions. This service is only available if the bank or credit union at which the bank account is held is an Automated Clearing House (ACH) member.

**AIP:** You may authorize periodic automatic debits FROM a checking or savings account TO your Account(s). The authorization must specify which Investment Option in each Account is to be credited and, for crediting of more than one Investment Option, the amount to be credited to each Investment Option must be authorized. You can initiate an AIP at the time you open your account, or at a later date by submitting instructions online, completing the 529 Account Revision Form, or by phone. You may change or terminate your AIP at any time. For a change or termination of an Automatic Investment to take effect, it must be received at least three business days before the next scheduled debit. To establish periodic contributions through an AIP from a Third-Party Contributor’s bank account, the Third-Party Contributor must submit a voided check along with a 529 Account Revision Form signed by both the bank account owner and the Account Owner. Both signatures must be notarized.

**Payroll Direct Deposit:** You may be able to make payroll deduction contributions from your paycheck into a new or existing Account, if your employer allows for it. If your employer allows such deductions, you may submit a Franklin Templeton 529 College Savings Plan Payroll Deduction Form. You will also need to provide direct deposit instructions, provided on the form, through your employer’s self-service payroll portal or notify your employer to establish the automatic payroll direct deposit. You can change or stop such direct deposits directly through your self-service payroll portal or by contacting your employer.

**Incoming rollover from another state’s QTP:** You may transfer funds from an account in another QTP to an Account by requesting a “rollover distribution” from the other program to your Account, subject to the applicable requirements of the Code. You must provide the Program with acceptable documentation from the prior QTP regarding the portion of any rollover distribution that consists of a return of principal and the portion that consists of earnings.

A rollover distribution can be made without any adverse federal income tax consequences provided that it is processed as a Direct Transfer or that, within 60 days of the date you withdraw funds from your other QTP account, you deposit such funds in your Account. Under current law, subject to certain limitations described in this Program Description, the Beneficiary of your Account can be either: (1) the same as the beneficiary of the account from which you are making the rollover distribution, if such rollover distribution is a Direct Transfer or does not occur within 12 months from the date of a previous rollover distribution (other than by Direct Transfer) to any QTP for the benefit of the same beneficiary; or (2) a different individual who is a Member of the Family of the beneficiary of the account from which the rollover distribution is made.

Contact us or a Financial Professional for more information about how to complete such a transfer. A Franklin Templeton 529 College Savings Plan Rollover/Transfer Request Form is available at [franklintempleton.com](http://franklintempleton.com). Although a rollover distribution can be made without adverse federal income tax consequences, there may be state income tax consequences in the state(s) in which you pay state income taxes, and the QTP from which the rollover distribution is made may assess some charges in connection with the distribution. You should consult a tax advisor, and with respect to any such charges, your Financial Professional, if you have any questions about the consequences of a transfer between QTPs.

### **Transfers from an NJBEST Account to an Account under the Plan:**

You may transfer assets from an account under the NJBEST Plan to an Account under the Plan, subject to the general rule that transfers among Investment Options can only occur twice per calendar year, or in connection with a change of the Beneficiary. Assets in an Account (including any assets transferred to such Account from an NJBEST Account invested in Division Investment Options) cannot be transferred, or transferred back, to an NJBEST Account for investment under the Division Investment Options.

It is important to note that amounts transferred from an NJBEST Account invested under one of the Division Investment Options to an Account invested under the Franklin Templeton Investment Options will no longer be subject to certain provisions of the Act requiring HESAA to request State legislative appropriations to prevent owners of Program Accounts invested in the Division Investment Options from recovering upon distribution less than the aggregate amount of contributions to their Program Accounts invested in the Division Investment Options. The applicability of such provisions of the Act to contributions made under the Division Investment Options, and their inapplicability to contributions made under the Franklin Templeton Investment Options, should be given careful consideration by an owner of a Program Account established in the NJBEST Plan prior to March 17, 2003 in evaluating the benefits and costs of any such transfer.

**Transfers from Coverdell Education Savings Accounts (ESA) to the Program:** You may move funds from a Coverdell ESA to an Account. The Beneficiary of the Account to which the funds are transferred must be the same as the beneficiary of the Coverdell ESA from which the transfer is made, and the deposit to the Account must occur in the same tax year as the distribution from the Coverdell ESA. After the amount has moved from the Coverdell ESA to the Account, you may change the Beneficiary of the Account as described below under "Making Changes to Your Account." Contact us for information about how to complete such a transfer and documentation which must be submitted regarding the portion of such transfer to be treated as principal. Contact your tax advisor for information about federal and state tax treatment of a transfer of funds from a Coverdell ESA to the Program.

**Reinvesting proceeds of certain U.S. savings bonds in an Account-** Some U.S. savings bonds may be redeemed and, if the proceeds are deposited into an Account, no federal income tax will be due on some or all of the bond earnings in the year in which the bond is cashed. You may wish to consult a financial or tax advisor to determine whether it is better to reinvest the earnings in an Account or apply them directly to the payment of higher education expenses, if there are such expenses in the year the bond is cashed in. Contact us for information about documentation which must be submitted regarding the portion of such transfer to be treated as principal.

The bonds that qualify for such tax-favored treatment are Series EE bonds issued after 1989 and Series I bonds. The owner of the bonds must have been at least 24 years of age on the date the bonds were issued. The Beneficiary of the Account must be (1) the Account Owner or Third-Party Contributor making the contribution, (2) such person's spouse, or (3) a qualifying dependent of such taxpayer. And, to qualify for full or partial tax deferral, the owner of the bond must meet certain income restrictions. You should consult a tax advisor to determine whether you qualify for the tax deferral.

To take advantage of this opportunity, the bond owner simply redeems the bonds and sends a contribution to his or her Account for the amount of the proceeds. The bond owner needs to record certain information from the bonds that must be reported to the IRS. The taxpayer must file an IRS Form 8815 for the tax year in which the bonds are cashed in and the proceeds are placed in the Program Account.

**Spryng:** Spryng is a personal crowdfunding tool designed to encourage family and friends to make contributions toward your education savings plan. Once an Account and online access is established, the Account Owner can choose to create and publish a Spryng Gifting Profile at [franklintempleton.com](http://franklintempleton.com). The unique Spryng profile URL can be shared with family and friends allowing them to make contributions directly to the Account. Such contributions may have gift tax consequences. You and the gift giver should consult a tax advisor for more information. To learn more about Spryng visit [franklinspryng.com](http://franklinspryng.com)

## **Making Changes to Your Account**

### **Changing a Beneficiary**

You can change the Beneficiary of your Account, provided that the new Beneficiary of your Account is a Member of the Family (refer to Glossary of Terms for definition) of the prior Beneficiary. You may not change the Beneficiary if such change would cause the aggregate account balances of all Program Accounts for the new Beneficiary to exceed the Maximum Contribution Limit or if the Account is owned in custody for a minor. A change in Beneficiary may be treated as a gift from the previous Beneficiary to the new Beneficiary in certain circumstances, and therefore may have gift tax and generation-skipping transfer tax implications. See “Tax Information,” below, for more information. To change a Beneficiary, you will need to complete a Franklin Templeton 529 College Savings Plan Account Revision Form available at [franklintempleton.com](http://franklintempleton.com). Certain Beneficiary changes are also accepted over the phone; please contact us for instructions.

### **Changing the Account Owner**

Under current Program policy, a change in the Account Owner of an Account is permitted upon completion of a Franklin Templeton 529 College Savings Plan Account Revision Form, which includes submission of a notarized signature or a signature guarantee from a banking institution. This form is available at [franklintempleton.com](http://franklintempleton.com).

### **Adding or Changing the Successor Account Owner**

Refer to “Opening an Account- Successor Account Owner” above.

### **Changing Investment Options**

You, the Account Owner, or your Financial Professional may allocate contributions to any one or more of the Investment Options offered under this Program Description at the time the contributions are made. Although Account Owners may select among Investment Options for contributions made to Accounts, and may vary the Investment Options selected in connection with each contribution, under federal law neither Account Owners nor Beneficiaries may exercise any investment discretion, directly or indirectly, over contributions to an Account or any earnings on contributions. This means that contributions, and the earnings resulting from contributions, can only be transferred consistent with applicable rules. Accordingly, once made, contributions and any earnings thereon in all Accounts with the same Account Owner for a particular Beneficiary may only be transferred to another Investment Option twice per calendar year, or in connection with a change of Beneficiary.

### **Requesting a Distribution**

You, the Account Owner or your Financial Professional may request distributions from an Account. You may request a distribution from your Account over the phone, on [franklintempleton.com](http://franklintempleton.com) or through the application made available by Franklin Templeton for use on mobile phones so long as the distribution is sent to the address of record, a pre-authorized address or bank on file, or by submitting a completed Franklin Templeton 529 College Savings Plan Distribution Form (available at [franklintempleton.com](http://franklintempleton.com)) to us. After a distribution is requested by the Account Owner, it will generally be processed and disbursed within seven days after we receive your request in proper form. The Program may require you to submit a separate request for each distribution.

A distribution from your Account will have different tax consequences depending on whether or not the distribution is applied to QHEE; the earnings portion of any distribution that is not applied to QHEE is subject to income taxes and, with certain exceptions, an additional income tax. See below under “Tax Information” for further information.

### **Selling Recently Purchased Shares**

If you sell Trust Shares recently purchased in order to fund a distribution, the Program may delay sending you the proceeds until the check, draft or wire/EFT used to purchase such Trust Shares has cleared, which may take seven business days or more. A certified or cashier's check may clear in less time.

## Managing Your Account

### Phone/Online Privileges

You and your Financial Professional automatically have the convenience of online and phone exchange and redemption privileges unless you decline these options. If bank information is established on the Account, you and your Financial Professional have the convenience of online and phone purchases and redemptions via EFT. You cannot opt out of phone privileges and opt in for online privileges, or vice versa. To view your Account information online, you will first need to register for these services at the [franklintempleton.com](http://franklintempleton.com) website. You will be asked to accept the terms of the applicable online agreement(s).

Phone/online privileges also allow you to:

- access account values, transaction history, and performance;
- add or change bank information and automatic investment plans;
- buy, exchange, and sell assets;
- update your address, telephone number, or email address; and
- access statements and tax documents.

As long as the Program Manager follows reasonable security procedures and acts on instructions it reasonably believes are genuine, neither the Program nor any contractor or subcontractor of the Program will be responsible for any losses that may occur from unauthorized requests. The Program Manager's policy is to complete a security check to verify all callers, and it also may record calls. To help safeguard your Account, keep your password confidential, and verify the accuracy of your confirmation statements immediately after you receive them. Contact the Program Manager immediately if you believe someone has obtained unauthorized access to your Account or password. For Account information viewed over the Internet, the use of an Internet browser with 128-bit encryption is recommended. Certain methods of contacting the Program or Program Manager (such as by phone or by Internet) may be unavailable or delayed during periods of unusual market activity. If you wish to discontinue phone/online privileges on your Account at any time, please contact the Program Manager for instructions. You may reinstate these privileges at any time in writing, including online registration with respect to online privileges.

## **Additional Considerations**

### **If all Plan Assets Are Not Used for the Beneficiary's Education Costs**

If all of the assets in the Account are not used for the Beneficiary's elementary, secondary, or undergraduate QHEE, you have several options. First, you can use the funds for the Beneficiary's graduate or professional school expenses. Second, you may designate a new Beneficiary who is a Member of the Family of the existing Beneficiary. Third, you may be able to transfer funds to a Roth IRA, subject to the restrictions on such transfers. Fourth, you may close the Account and withdraw all of the funds, although that will be less advantageous because the distribution will constitute a Non-Qualified Distribution, the earnings portion of which generally is subject to federal income tax as well as the 10% additional federal income tax. Finally, you may leave the Account open until you determine the best course of action.

### **Legal Restrictions and Protections on Use of Accounts**

Neither the Account Owner nor the Beneficiary may use an Account as security for a loan.

Under New Jersey law, Accounts are exempt from claims of creditors and are excluded from an estate in bankruptcy except in cases of fraudulent conveyance, claims under an order for child or spousal support or of an alternate payee under a qualified domestic relations order, or punitive damages awarded in a civil action arising from manslaughter or murder. Please note that, depending on the circumstances, the laws of states other than New Jersey may determine the rights of creditors in a claim or bankruptcy involving a Program Account.

Federal bankruptcy laws exempt from an Account Owner's creditors in a bankruptcy proceeding certain funds contributed to an account under a QTP. The exemption protects (1) up to \$6,225 transferred to an Account at least 365 days and within 720 days before the bankruptcy filing, and (2) all transfers made more than 720 days before the bankruptcy filing, provided in both cases that the Beneficiary of the Account during the tax year in which the contribution was made was a child, stepchild, grandchild or step grandchild of the Account Owner.

### **Community Property Laws**

If you are a resident of any state that has community property laws and you are concerned about the application of those laws to contributions, distributions and ownership of Accounts, you should consult a legal advisor. Community property issues such as limitations on gifts of community property and ownership of community property upon death or dissolution of marriage are beyond the scope of this Program Description.

### **Suspicious or Abusive Transactions**

HESAA and the Program Manager reserve the right to close any Account or to limit contributions to, or distributions from, any Account, if either of them, in its sole discretion, suspects or determines that the Account is being used for purposes that may be in contravention or circumvention of applicable laws or for purposes other than savings for the QHEE of the Beneficiary of the Account.

## Investment Options

You may choose among Age-Based Trust Portfolios, Objective-Based Trust Portfolios and Individual Fund Trust Portfolios described below.

- **Type 1 Investment Options: Age-Based Asset Allocations (Conservative, Growth and Moderate)**

Franklin Newborn – 4 Years 529 Portfolio	Franklin Age 13 – 14 Years 529 Portfolio
Franklin Age 5 – 6 Years 529 Portfolio	Franklin Age 15 – 16 Years 529 Portfolio
Franklin Age 7 – 8 Years 529 Portfolio	Franklin Age 17 Years 529 Portfolio
Franklin Age 9 – 10 Years 529 Portfolio	Franklin Age 18 Years 529 Portfolio
Franklin Age 11 – 12 Years 529 Portfolio	Franklin Age 19+ Years 529 Portfolio

- **Type 2 Investment Options: Objective-Based Asset Allocations**

Franklin Conservative Allocation 529 Portfolio
Franklin Conservative Growth Allocation 529 Portfolio
Franklin Moderate Allocation 529 Portfolio
Franklin Moderate Growth Allocation 529 Portfolio
Franklin Growth Allocation 529 Portfolio
Franklin Aggressive Growth Allocation 529 Portfolio

- **Type 3 Investment Options: Individual Fund Trust Portfolios**

### Asset Class: U.S. Equity

Ariel 529 Portfolio
ClearBridge Large Cap Value 529 Portfolio
Franklin DynaTech 529 Portfolio
Franklin Growth 529 Portfolio
Franklin Small-Mid Cap Growth 529 Portfolio
Franklin U.S. Large Cap Index 529 Portfolio (formerly S&P 500 Index 529 Portfolio)

### Asset Class: Non-U.S. Equity

ClearBridge International Growth 529 Portfolio
------------------------------------------------

### Asset Class: Balanced

Franklin Income 529 Portfolio
-------------------------------

### Asset Class: Fixed Income

BrandywineGLOBAL - Global Opportunities 529 Portfolio
Western Asset Core Plus Bond 529 Portfolio
Western Asset Short-Term Bond 529 Portfolio

### Asset Class: Money Market

Franklin U.S. Government Money 529 Portfolio (not available for Advisor Class Trust Shares)
------------------------------------------------------------------------------------------------

### Asset Class: ESG

ClearBridge Sustainability Leaders 529 Portfolio
Martin Currie International Sustainable Equity 529 Portfolio

Contributions to an Account do not result in direct ownership by the Account Owner of shares of any Franklin Templeton mutual fund/ETF or other Underlying Fund. The Trust Shares are not registered with the Securities and Exchange Commission (“SEC”) or any state, nor are the Trust, the Program, the Plan, or any of the Investment Options registered as

investment companies with the SEC or any state. The Trust and the Investment Manager may from time to time change the mutual funds, ETFs or other investments in which contributions under an Investment Option are invested and may invest in other kinds of investment vehicles. Mutual funds in which contributions under an Investment Option are invested may convert to ETFs and upon such conversion their names may change. Additional Investment Options may be added in the future, and existing Investment Options may be changed, consolidated, or eliminated (and Trust Shares relating to any eliminated Investment Option exchanged for Trust Shares in another Investment Option selected by the Trust) in the future, all as determined in accordance with the then-current Investment Policy. The investment of Trust Portfolio assets will be reviewed, and may be adjusted, from time to time in accordance with the Investment Policy. The consent of Account Owners, Third-Party Contributors or Beneficiaries to any such change, addition, elimination, or consolidation of Investment Options is not required.

## **Type 1 Investment Options: Age-Based Allocations**

You may choose between Age-Based Growth, Moderate, and Conservative Asset Allocations and may allocate contributions among such Age-Based Asset Allocations (i.e., you may invest in more than one such Age-Based Asset Allocation for a Beneficiary). Each Age-Based Asset Allocation (Growth, Moderate, Conservative) is made up of Age-Based Investment Portfolios that customize their investments in combinations of Underlying Funds based in part on the age of the Beneficiary (see tables below).

Each Franklin Growth Allocation Age-Based 529 Portfolio has an investment strategy designed for higher potential return, with greater investment risk, than the investment strategy of the Franklin Moderate Allocation Age-Based 529 Portfolio or Franklin Conservative Allocation Age-Based 529 Portfolio corresponding to the same Beneficiary ages. Each Franklin Moderate Allocation Age-Based 529 Portfolio has an investment strategy designed for potential return, and investment risk, that is less than that of the investment strategy of the Franklin Growth Allocation Age-Based 529 Portfolio corresponding to the same Beneficiary ages, but more than that of the investment strategy of the Franklin Conservative Allocation Age-Based 529 Portfolio corresponding to the same Beneficiary ages. Each Franklin Conservative Age-Based 529 Portfolio has an investment strategy designed for lower investment risk and potential return than the investment strategy of either the Franklin Growth Allocation Age-Based 529 Portfolio or Franklin Moderate Allocation Age-Based 529 Portfolio corresponding to the same Beneficiary ages. The absolute and relative levels of risk or return of any Age-Based Investment 529 Portfolio or of any Age-Based Asset Allocation (Growth, Moderate, or Conservative) may vary over different periods of time and may deviate from the intended levels; an Age-Based Investment 529 Portfolio or Age-Based Asset Allocation may not achieve its risk or return goals and its risk and performance in relation to other Age-Based Investment 529 Portfolios and Age-Based Asset Allocations may not be as intended.

Although there can be no assurance as to investment results, the Age-Based Investment 529 Portfolios are designed with the intent that portfolios corresponding to Beneficiary ages closer to college age have less investment risk than portfolios within the same Age-Based Asset Allocation (Growth, Moderate, or Conservative) corresponding to Beneficiary ages farther from college age. Accordingly, the potential return of Age-Based Investment 529 Portfolios likewise decreases as the Beneficiary approaches college age.

When the Account is established, the investments will be placed in the Age-Based Asset Allocations (Growth, Moderate, or Conservative) you select and within each such allocation will be placed in the Age-Based Investment 529 Portfolio that corresponds to the age of the Beneficiary (as reported on the completed application form) on the day the Account is established.

- A contribution or reallocation to an Age-Based Investment 529 Portfolio that does not correspond to the Beneficiary's age is not permissible under the Plan.

Over time, the amount originally invested for a Beneficiary in an Age-Based Investment 529 Portfolio, together with any subsequent contributions for such Beneficiary in the Age-Based Investment 529 Portfolio are, as part of a collective transfer of investments for similarly situated Beneficiaries, periodically transferred to the next Age-Based Investment 529 Portfolio (within the same Age-Based Asset Allocation (Growth, Moderate, or Conservative)) corresponding to the age of each Beneficiary at the time of such transfer (see chart below for the different Age-Based Investment 529 Portfolios).

All accounts in an Age-Based Investment 529 Portfolio with a Beneficiary that has entered a new age bracket as of the applicable transfer date are transferred at approximately the same time, subject to the provisions below regarding accounts held by Financial Intermediaries in a Financial Intermediary Omnibus Account, as defined below. The transfer of

investments in an Account to the next applicable Age-Based Investment 529 Portfolio on a date on or after the Beneficiary has reached the age of a new age bracket is referred to as an “Age-Based Rebalance.”

- Because Age-Based Rebalances are periodic, the investment for a Beneficiary in an Age-Based Investment 529 Portfolio may remain invested in that portfolio after the time the Beneficiary reaches the age qualifying for the next Age-Based Investment 529 Portfolio, until the time of the next Age-Based Rebalance. Thus, for example, the investment for a Beneficiary who reaches his or her fifth birthday will not be transferred from the Newborn-4 Years 529 Portfolio to the Age 5-6 Years 529 Portfolio until the date of the Age-Based Rebalance following his or her fifth birthday.

If the Beneficiary has attained the age necessary to qualify for the next Age-Based Investment 529 Portfolio but an Age-Based Rebalance that would transfer the investment for the Beneficiary into that portfolio has not yet taken place, you can reallocate the investments for that Beneficiary into that Age-Based Investment 529 Portfolio yourself. Please note, however, that existing assets in an Account can only be reallocated twice per calendar year, or upon a change in the Beneficiary of the Account. Age-Based Rebalances are an exception to the rule.

Age-Based Rebalances currently take place approximately once every three months, provided that in the case of a Financial Intermediary that maintains records of aggregate Trust Shares owned in an Age-Based Investment 529 Portfolio by Account Owners who are customers of such Financial Intermediary (a “Financial Intermediary Omnibus Account”), Age-Based Rebalances may take place with greater frequency. See Appendix D for more information on certain Financial Intermediary-specific Age-Based Rebalance dates. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary’s policies. The timing and frequency of Age-Based Rebalances are subject to change. For current information about Age-Based Rebalances, contact Franklin Templeton at (866) 362-1597.

The current Investment Policy targets investment of the applicable Trust Portfolios in mutual funds or ETFs emphasizing one or more asset classes, including U.S. equity, non-U.S. equity, fixed income (which may include global or international fixed income) and money market, in different specified percentages for each of the specified Investment Options.

The table captioned “Neutral Investment Percentages by Asset Class” below shows the Investment Policy’s current neutral asset class allocations for each of the Age-Based Asset Allocation Trust Portfolios. The actual asset class allocation percentages at any time may deviate from the neutral asset allocation percentages by up to 10% in either direction due to tactical overweighting or underweighting of an asset class by the Investment Manager and/or relative outperformance or underperformance of an asset class.

For purposes of investing Age-Based Asset Allocation Trust Portfolios in a specified asset class, the Investment Policy permits the Investment Manager to select one or more mutual funds and/or ETFs with an investment objective principally involving investment in the applicable asset class. The Investment Policy permits the Investment Manager to select any mutual funds and ETFs, but it is expected that the mutual funds and ETFs selected by the Investment Manager will predominantly be mutual funds and ETFs sponsored by Franklin Templeton, which include, without limitation, those in the BrandywineGLOBAL, Clarion Partners, ClearBridge Investments, Franklin, Franklin Mutual, Franklin Templeton, K2 Advisors, Martin Currie, Royce Investment Partners, Templeton Global and Western Asset Management fund families. Under the Investment Policy, the Investment Manager will be permitted to add or discontinue investments in particular mutual funds or ETFs from time to time or to change the percentage allocation to a particular mutual fund or ETF within a particular asset class and within a Trust Portfolio from time to time. The asset allocation ranges, and the investment of portfolio assets will be reviewed, and may be adjusted, from time to time in accordance with the Investment Policy.

The Age-Based Asset Allocation Trust Portfolios are portfolios of the Trust, and are not registered mutual funds/ETFs or mutual funds/ETFs sponsored by Franklin Templeton.

**Type 2 Investment Options: Objective-Based Asset Allocations**

These Investment Options allow your assets to be invested according to the amount of investment risk you are comfortable taking and the return characteristics you prefer. You may choose from among six Investment Options, with objectives ranging from aggressive to conservative. The current Investment Policy targets investment of the applicable Trust Portfolios in mutual funds or ETFs emphasizing one or more asset classes, including domestic equity, non-domestic equity, fixed income (which may include global or international fixed income) and cash equivalents, in different specified percentages for each of the specified Investment Options.

The table captioned “Neutral Investment Percentages by Asset Class” below shows the Investment Policy’s current neutral asset class allocations for each of the Objective -Based Asset Allocation Trust Portfolios. The actual asset class allocation percentages at any time may deviate from the neutral asset allocation percentages by up to 10% in either direction due to tactical overweighting or underweighting of an asset class by the Investment Manager and/or relative outperformance or underperformance of an asset class.

For purposes of investing Objective-Based Asset Allocation Trust Portfolios in a specified asset class, the Investment Policy permits the Investment Manager to select one or more mutual funds and/or ETFs with an investment objective principally involving investment in the applicable asset class. The Investment Policy permits the Investment Manager to select any mutual funds and ETFs, but it is expected that the mutual funds and ETFs selected by the Investment Manager will predominantly be mutual funds and ETFs sponsored by Franklin Templeton, which include, without limitation, those in the BrandywineGLOBAL, Clarion Partners, ClearBridge Investments, Franklin, Franklin Mutual, Franklin Templeton, K2 Advisors, Martin Currie, Royce Investment Partners, Templeton Global and Western Asset Management fund families. Under the Investment Policy, the Investment Manager will be permitted to add or discontinue investments in particular mutual funds or ETFs from time to time or to change the percentage allocation to a particular mutual fund or ETF within a particular asset class and within a Trust Portfolio from time to time. The asset allocation ranges, and the investment of portfolio assets will be reviewed, and may be adjusted, from time to time in accordance with the Investment Policy.

The Objective-Based Asset Allocation Trust Portfolios are portfolios of the Trust, and are not registered mutual funds/ETFs or mutual funds/ETFs sponsored by Franklin Templeton.

Objective-Based Asset Allocation Trust Portfolio	Neutral Investment Percentages by Asset Class (actual percentage investments may vary +/- 10% from the target)			
	U.S. Equity	Non-U.S. Equity	Fixed Income	Money Market
Franklin Aggressive Growth Allocation 529 Portfolio	70	30	-	-
Franklin Growth Allocation 529 Portfolio	56	24	20	-
Franklin Moderate Growth Allocation 529 Portfolio	42	18	40	-
Franklin Moderate Allocation 529 Portfolio	28	12	60	-
Franklin Conservative Growth Allocation 529 Portfolio	14	6	80	-
Franklin Conservative Allocation 529 Portfolio	-	-	100	-

**The Objective-Based Asset Allocation Trust Portfolios are designed as follows:**

529 Portfolio	Designed for investors with a:	Current neutral asset class allocation
Franklin Conservative Allocation 529 Portfolio	short time horizon and/or a low tolerance for risk	100% fixed income
Franklin Conservative Growth Allocation 529 Portfolio	shorter-to-medium investment time horizon and/or a lower tolerance for risk	20% equities, 80% fixed income
Franklin Moderate Allocation 529 Portfolio	longer-to-medium investment time horizon and/or a moderate tolerance for risk	40% equities, 60% fixed income
Franklin Moderate Growth Allocation 529 Portfolio	longer-to-medium investment time horizon and/or a moderate tolerance for risk	60% equities, 40% fixed income
Franklin Growth Allocation 529 Portfolio	longer investment time horizon and/or a higher tolerance for risk	80% equities, 20% fixed income
Franklin Aggressive Growth Allocation 529 Portfolio	longer investment time horizon and/or a higher tolerance for risk	100% equities

### Type 3 Investment Options: Individual Fund Trust Portfolios

If you prefer, you also have the option of working with your Financial Professional to select one or more Individual Fund Trust Portfolio Investment Options. By directing that your contributions be allocated among two or more of such Investment Options, you can create an asset allocation mix to suit your particular investing needs. The Individual Fund Trust Portfolios are described below. The asset allocation and the investments of all the Trust Portfolios described below will be reviewed, and may be adjusted, from time to time in accordance with the Investment Policy.

**Within each asset class listed below, the following information is shown for each 529 Individual Fund Trust Portfolio:**

529 Investment Option	529 Plan Portfolio	Investment Goal(s)
Description of current investments		

#### ***Asset Class: U.S. Equity***

Franklin Growth 529 Investment Option	Franklin Growth 529 Portfolio	Capital appreciation
---------------------------------------	-------------------------------	----------------------

Underlying Fund: Franklin Growth Fund, a mutual fund that normally invests substantially in the equity securities of U.S.-based large and medium market capitalization companies, and may invest up to 40% of its assets in smaller companies, up to 40% of its assets in foreign securities, up to 10% of its assets in non-U.S. dollar denominated securities and, among other things, in convertible securities.

Franklin DynaTech 529 Investment Option	Franklin DynaTech 529 Portfolio	Capital appreciation
-----------------------------------------	---------------------------------	----------------------

Underlying Fund: Franklin DynaTech Fund, a mutual fund that normally invests primarily in equity securities of companies that the mutual fund's investment manager believes are leaders in innovation, take advantage of new technologies, have superior management, and benefit from new industry conditions in the dynamically changing global economy.

Franklin Small-Mid Cap Growth 529 Investment Option	Franklin Small-Mid Cap Growth 529 Portfolio	Long-term capital growth
-----------------------------------------------------	---------------------------------------------	--------------------------

Underlying Fund: Franklin Small-Mid Cap Growth Fund, a mutual fund that is normally invested primarily in domestic equity securities of small capitalization and mid capitalization companies.

ClearBridge Large Cap Value 529 Investment Option	ClearBridge Large Cap Value 529 Portfolio	Long-term growth of capital with current income as a secondary objective
---------------------------------------------------	-------------------------------------------	--------------------------------------------------------------------------

Underlying Fund: ClearBridge Large Cap Value Fund, a mutual fund that normally invests at least 80% of its net assets, plus borrowings for investment purposes, if any, in equity securities, or other investments with similar economic characteristics, of companies with large market capitalizations.

Franklin U.S. Large Cap Index 529 Investment Option (formerly the S&P 500 Index 529 Investment Option)	Franklin U.S. Large Cap Index 529 Portfolio (formerly the S&P 500 Index 529 Portfolio)	Seeks to provide investment results that closely correspond, before fees and expenses, to the performance of an underlying index
--------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------

Underlying ETF: The Franklin U.S. Equity Index ETF, an exchange-traded fund that seeks to provide investment results corresponding, before fees and expenses, to the performance of an underlying index which includes stocks of large and mid-capitalization U.S. equities.

Ariel 529 Investment Option	Ariel 529 Portfolio	Long-term capital appreciation
-----------------------------	---------------------	--------------------------------

Underlying Fund: The Ariel Fund, a mutual fund that normally invests in small- and mid-capitalization undervalued companies that show strong potential for growth.

**Asset Class: Non-U.S. Equity**

ClearBridge International Growth 529 Investment Option	ClearBridge International Growth 529 Portfolio	Long-term capital growth
--------------------------------------------------------	------------------------------------------------	--------------------------

Underlying Fund: ClearBridge International Growth Fund, a mutual fund that is normally invested primarily in common stocks of foreign companies that, in the mutual fund managers' opinion, appear to offer above average growth potential and trade at a significant discount to the mutual fund managers' assessment of their intrinsic value.

**Asset Class: Fixed Income**

Western Asset Core Plus Bond 529 Investment Option	Western Asset Core Plus Bond 529 Portfolio	To maximize total return
----------------------------------------------------	--------------------------------------------	--------------------------

Underlying Fund: Western Asset Core Plus Bond Fund, a mutual fund that normally invests in a portfolio of fixed income securities of various maturities and, under normal market conditions, will invest at least 80% of its net assets, including the amount of borrowing for investment purposes, if any, in debt and fixed income securities.

BrandywineGLOBAL—Global Opportunities 529 Investment Option	BrandywineGLOBAL—Global Opportunities 529 Portfolio	To maximize total return consisting of income and capital appreciation
-------------------------------------------------------------	-----------------------------------------------------	------------------------------------------------------------------------

Underlying Fund: BrandywineGLOBAL – Global Opportunities Bond Fund, a mutual fund that normally invests at least 80% of its net assets in fixed income securities of issuers located in developed market countries.

Western Asset Short-Term Bond 529 Investment Option	Western Asset Short-Term Bond 529 Portfolio	Current income, preservation of capital and liquidity
-----------------------------------------------------	---------------------------------------------	-------------------------------------------------------

Underlying Fund: Western Asset Short-Term Bond Fund, a mutual fund that normally invests at least 80% of its assets in "investment grade" fixed income securities.

**Asset Class: Balanced**

Franklin Income 529 Investment Option	Franklin Income 529 Portfolio	Income
---------------------------------------	-------------------------------	--------

Underlying Fund: Franklin Income Fund, a mutual fund that invests in a diversified portfolio of debt and equity securities.

**Asset Class: Money Market**

Franklin U.S. Government Money 529 Investment Option	Franklin U.S. Government Money 529 Portfolio	As high a level of current income as consistent with the preservation of shareholder's capital and liquidity and tries to maintain a stable \$1.00 Unit price
------------------------------------------------------	----------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------

Underlying Fund: The Institutional Fiduciary Trust Money Market Portfolio, a mutual fund that normally invests, through another fund, at least 99.5% of its total assets in U.S. Government securities, cash and repurchase agreements collateralized fully by U.S. Government securities or cash.

**Asset Class: ESG**

ClearBridge Sustainability Leaders 529 Investment Option	ClearBridge Sustainability Leaders 529 Portfolio	Long-term capital growth
----------------------------------------------------------	--------------------------------------------------	--------------------------

Underlying Fund: ClearBridge Sustainability Leaders Fund, a mutual fund that normally invests substantially all of its assets in common stocks and other equity securities that meet its financial and sustainability/environmental, social and governance criteria.

Martin Currie International Sustainable Equity 529 International Option	Martin Currie International Sustainable Equity 529 Portfolio	Long-term capital appreciation
-------------------------------------------------------------------------	--------------------------------------------------------------	--------------------------------

---

Underlying Fund: Martin Currie International Sustainable Equity ETF, an exchange-traded fund that normally invests at least 80% of its net assets in equity and equity related securities of foreign companies and other investments with similar economic characteristics that meet the subadviser's environmental, social and governance criteria for the fund.

---

### **Historical Performance Data for the Investment Options**

The historical performance of the Trust Portfolios for those Investment Options described in this Program Description that have been in existence for at least one year is set forth in Appendix B. Descriptions of each of the mutual funds and ETFs constituting the Underlying Funds in which one or more of the Trust Portfolios are invested as of the date of this Program Description are set forth in Appendix C to this Program Description. Prospectuses for those mutual funds and ETFs are available at the links set forth in Appendix C.

## Risk Factors

This section briefly describes some of the principal risks associated with a contribution to the Program, but does not constitute an exhaustive summary of the factors you should consider before making a contribution to the Program. You may wish to consult your tax advisor and financial advisor before contributing to the Program or determining what portion of your savings for the Beneficiary's education costs should be invested in the Program.

### General Risks

Your Account is not an insured investment, and will be subject to the risks of the securities markets. Amounts invested in the Plan are subject to the investment risks of the investment instruments selected from time to time by the Investment Manager for the Plan. The value of your Account will vary with the investment return generated by the mutual funds, ETFs, or other investments in which the Trust Portfolio for each Investment Option you select is invested by the Trust and the Investment Manager. None of the State, HESAA, Franklin Templeton, any entity affiliated therewith, any consultant or adviser retained by any such party, or any other person or entity provides any guarantee that you will achieve any targeted rate of return or that the value of your contributions will not decrease.

There is no guarantee that:

- your Beneficiary will be accepted at any Eligible Educational Institution or, if applicable, any particular elementary or secondary school, or that, if accepted, he or she will be able to attend, will graduate, or will be considered a resident of any particular state for tuition purposes;
- there will be sufficient funds in your Account to cover fully all QHEE of attending an Eligible Educational Institution or, if applicable, any elementary or secondary school; and
- the expenses of attending, if applicable, any particular elementary or secondary school will be less in any year than the maximum Qualified Distribution for Qualified Elementary or Secondary Education Expenses.

The rate of return from an Account could be less than the rate of increase in the cost of higher education or, if applicable, public, private, or religious elementary or secondary school. Even if you have reached the Maximum Contribution Limit for a Beneficiary, the balance in your Program Account may not be enough to cover all of the Beneficiary's QHEE.

### General Investment Risks

One or more of the investment instruments selected for the Investment Option(s) you choose may lose value, may not appreciate in value or may appreciate less on a relative basis than do other investment instruments during any particular time period. None of the Investment Options is intended as a complete investment program. An investment with the Program under one or more of the Investment Options does not constitute a deposit in a bank, and such investments are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

The returns under any particular Investment Option may be better or worse than those available under other Investment Options, other QTPs or other investments not involving QTPs. There is no guarantee that the Program's investment objectives set forth in the Investment Policy will be realized. The value of your Account may increase or decrease each day, and the rate of return on your Account will vary, based on the Investment Option(s) you select, the investment performance of the investments in which such Investment Option(s) is or are invested and the applicable fees and expenses of the Plan, the applicable Trust Portfolio(s) and the applicable class of Trust Shares.

The relative risks and potential rewards of investing under any of the Investment Options vary considerably. While the Program, the Division of Investment, HESAA and the Investment Manager have provided a range of alternatives, none of the Program, the Division of Investment, HESAA or the Investment Managers have determined, or have assumed any obligation to determine, whether any investment by any Account Owner under any particular Investment Option or combination of Investment Options is suitable or appropriate in light of the needs, financial circumstances and investment horizon of the Account Owner or Beneficiary of an Account. The Age-Based Asset Allocations have been designed for amounts intended to be applied to QHEE other than Qualified Elementary or Secondary Education Expenses. Account Owners who intend to apply amounts in an Account to Qualified Elementary or Secondary Education Expenses of the

Beneficiary should consider other Investment Options. This Program Description does not constitute a recommendation, and none of the Program, the Division of Investment, HESAA or the Investment Manager by its participation in the Program recommends, or intends to recommend, any investment by any Account Owner in the Program or in any particular Investment Option or class of Trust Shares offered under this Program Description.

### ***Specific Investment Risks***

The value of your investment under a particular Investment Option, as well as the amount of return you receive on your investment, may fluctuate significantly. You may lose part or all of your investment under an Investment Option or your investment may not perform as well as other similar investments. An investment under an Investment Option is not insured or guaranteed by the Federal Deposit Insurance Corporation or by any bank or government agency. Below is a list of the principal risks of investing under Investment Options. The descriptions appear in alphabetical order, not order of importance.

Depending on the Investment Option or Investment Options you select, certain categories of investment risk listed below may have greater applicability than others. Unless otherwise noted, the principal risks summarized below include both direct and indirect risks, and references in this section to the risks of a Trust Portfolio include the risks of investing in the applicable Underlying Fund(s).

***Affiliated funds and conflict of interest risk.*** The Plan's Investment Manager or an affiliate thereof serves as investment manager or subadviser of Underlying Funds sponsored by Franklin Templeton, which include, without limitation, those in the BrandywineGLOBAL, Clarion Partners, ClearBridge Investments, Franklin, Franklin Mutual, Franklin Templeton, K2 Advisors, Martin Currie, Royce Investment Partners, Templeton Global, and Western Asset Management fund families ("Affiliated Funds"). As a result, the Investment Manager has financial incentives to allocate a Trust Portfolio's assets to Affiliated Funds that pay fees to the Investment Manager or an affiliate. For example, the Investment Manager has an incentive to select Affiliated Funds that will result in the greatest revenue to the Investment Manager and its affiliates, even if that results in increased expenses for a Trust Portfolio. Similarly, the Investment Manager has an incentive to delay or decide against the sale of interests held by a Trust Portfolio in Affiliated Funds. This gives rise to a conflict of interest.

***Allocation risk.*** An Age-Based Trust Portfolio's or Objective-Based Trust Portfolio's ability to achieve its investment goal depends upon the Investment Managers' skill in determining the Trust Portfolio's broad asset class allocation and in selecting the mix of Underlying Funds. The value of your investment may decrease if the Investment Managers' judgment about the attractiveness, value or market trends affecting a particular asset class, investment style, Underlying Fund or other security is incorrect.

***Asset class variation risk.*** An Underlying Fund that invests principally in securities constituting one or more asset classes (i.e., equity or fixed income) may vary the percentage of its assets in these asset classes (subject to any applicable regulatory requirements). Such variation may decrease the value of your investment if the Underlying Fund's investment manager's judgments about the asset classes prove to be incorrect.

***Credit risk.*** If an issuer or guarantor of a security held by a Trust Portfolio or Underlying Fund or a counterparty to a financial contract with a Trust Portfolio or Underlying Fund defaults or its credit is downgraded, or is perceived to be less creditworthy, or if the value of the assets underlying a security declines, the value of your investment will typically decline. Changes in actual or perceived creditworthiness may occur quickly. A Trust Portfolio or Underlying Fund could be delayed or hindered in its enforcement of rights against an issuer, guarantor, or counterparty. Subordinated securities are more likely to suffer a credit loss than non-subordinated securities of the same issuer and will be disproportionately affected by a default, downgrade, or perceived decline in creditworthiness.

***Cybersecurity risk.*** Cybersecurity incidents, both intentional and unintentional, may allow an unauthorized party to gain access to Trust Portfolio or Underlying Fund assets, Trust Portfolio, Underlying Fund or customer data (including private shareholder information), or proprietary information, cause the Trust Portfolio, Underlying Fund, their respective investment managers and/or their respective service providers (including, but not limited to, accountants, custodians, sub-custodians, transfer agents and financial intermediaries) to suffer data breaches, data corruption or loss of operational functionality, or prevent Trust Portfolio or Underlying Fund investors from purchasing, redeeming or exchanging shares or receiving distributions. The Investment Manager and the Underlying Funds' investment managers have limited ability to prevent or mitigate cybersecurity incidents affecting third party service providers, and such third-party service providers

may have limited indemnification obligations to the Trust Portfolio, Underlying Fund or their respective investment managers. Cybersecurity incidents may result in financial losses to a Trust Portfolio and/or Underlying Fund, and substantial costs may be incurred in an effort to prevent or mitigate any future cybersecurity incidents. Issuers of securities in which an Underlying Fund invests are also subject to cybersecurity risks, and the value of these securities could decline if the issuers experience cybersecurity incidents.

Because technology is frequently changing, new ways to conduct cyber-attacks are always developing. Therefore, there is a chance that some risks have not been identified or prepared for, or that an attack may not be detected, which puts limitations on the Trust Portfolio's or Underlying Fund's ability to plan for or respond to a cyber-attack. Like other funds and business enterprises, a Trust Portfolio, its Underlying Fund or Underlying Funds, their respective investment managers and their respective service providers are subject to the risk of cyber incidents occurring from time to time.

**Derivatives risk.** Using derivatives can increase Trust Portfolio or Underlying Fund losses and reduce opportunities for gains when market prices, interest rates, currencies, or the derivatives themselves behave in a way not anticipated by the Trust Portfolio or Underlying Fund. Using derivatives also can have a leveraging effect and increase Trust Portfolio or Underlying Fund volatility. Certain derivatives have the potential for unlimited loss, regardless of the size of the initial investment. Derivatives may not be available at the time or price desired, may be difficult to sell, unwind or value, and the counterparty may default on its obligations to the Trust Portfolio or Underlying Fund. Derivatives are generally subject to the risks applicable to the assets, rates, indices or other indicators underlying the derivative. The value of a derivative may fluctuate more than the underlying assets, rates, indices or other indicators to which it relates. Use of derivatives may have different tax consequences for an Underlying Fund than an investment in the underlying security, and those differences may affect the amount, timing and character of income distributed to the Underlying Fund's shareholders. The U.S. government and foreign governments are in the process of adopting and implementing regulations governing derivatives markets, including mandatory clearing of certain derivatives, margin and reporting requirements. The ultimate impact of the regulations remains unclear. Additional regulation of derivatives may make derivatives more costly, limit their availability or utility, otherwise adversely affect their performance or disrupt markets. Credit default swap contracts involve heightened risks and may result in losses to a Trust Portfolio or Underlying Fund. Credit default swaps may be illiquid and difficult to value. When an Underlying Fund sells credit protection via a credit default swap, credit risk increases since the fund has exposure to both the issuer whose credit is the subject of the swap and the counterparty to the swap.

**Environmental, Social, Governance (ESG) considerations risk.** Underlying Funds may take into account ESG considerations as one of a number of factors when selecting their investments and some Underlying Funds may focus on ESG considerations. In either situation, the issuers in which Underlying Funds invest may not be considered ESG-focused issuers and may have lower or adverse ESG assessments. Consideration of ESG factors may affect the Underlying Fund's exposure to certain issuers or industries and may not apply as intended. In addition, ESG considerations assessed as part of an Underlying Fund's investment process may vary across types of eligible investments and issuers. Not every investment may be assessed for ESG factors and, when ESG considerations are assessed, not every ESG factor may be identified or evaluated. Any assessment of an issuer's ESG factors is subjective and will likely differ from that of investors, third party service providers (e.g., ratings providers) and other funds. As a result, securities selected by an Underlying Fund may not reflect the beliefs and values of any particular investor. An Underlying Fund also may be dependent on the availability of timely, complete and accurate ESG data reported by issuers and/or third-party research providers, the timeliness, completeness and accuracy of which is not within control. ESG factors are often not uniformly measured or defined, which could impact the ability to assess an issuer. While ESG considerations may be viewed as having the potential to contribute to an Underlying Fund's long-term performance, there is no guarantee that such results will be achieved.

**Extension risk.** When interest rates rise, repayments of fixed income securities may occur more slowly than anticipated, extending the effective duration of these fixed income securities at below market interest rates and causing their market prices to decline more than they would have declined due to the rise in interest rates alone. This may cause a Trust Portfolio's or Underlying Fund's share price to be more volatile.

**Fixed income securities risk.** Fixed income securities are subject to a number of risks, including credit, market and interest rate risks. Credit risk is the risk that the issuer or obligor will not make timely payments of principal and interest. Changes in an issuer's or obligor's credit rating or the market's perception of an issuer's or obligor's creditworthiness may also affect the value of a Trust Portfolio's or Underlying Fund's investment in that issuer. The Trust Portfolio or Underlying

Fund is subject to greater levels of credit risk to the extent it holds below investment grade debt securities, or “junk” bonds. Market risk is the risk that the fixed income markets may become volatile and have lower liquidity or behave in unexpected ways, and the market value of an investment may decrease, sometimes quickly or unpredictably. Interest rate risk is the risk that the value of a fixed income security will fall when interest rates rise. A rise in rates tends to have a greater impact on the prices of longer term or duration securities. A general rise in interest rates may cause investors to move out of fixed income securities on a large scale, which could adversely affect the price and liquidity of fixed income securities.

**Focus risk.** To the extent that a Trust Portfolio or Underlying Fund focuses on particular countries, regions, industries, sectors or types of investments from time to time, the Trust Portfolio or Underlying Fund may be subject to greater risks of adverse developments in such areas of focus than an investment vehicle that invests in a wider variety of countries, regions, industries, sectors or investments.

**Foreign investments and emerging markets risk.** A Trust Portfolio’s or Underlying Fund’s investments in securities of foreign issuers or issuers with significant exposure to foreign markets involve additional risk as compared to investments in U.S. securities or issuers with predominantly domestic exposure, such as less liquid, less transparent, less regulated and more volatile markets. The value of a Trust Portfolio’s or Underlying Fund’s investments may decline because of factors affecting the particular issuer as well as foreign markets and issuers generally, such as unfavorable or unsuccessful government actions, reduction of government or central bank support, inadequate accounting standards, lack of information and political, economic, financial or social instability. To the extent the Trust Portfolio or Underlying Fund focuses its investments in a single country or only a few countries in a particular geographic region, economic, political, regulatory or other conditions affecting such country or region may have a greater impact on fund performance relative to a more geographically diversified fund. The value of investments in securities denominated in foreign currencies increases or decreases as the rates of exchange between those currencies and the U.S. dollar change. Currency conversion costs and currency fluctuations could erase investment gains or add to investment losses. Currency exchange rates can be volatile, and are affected by factors such as general economic conditions, the actions of the U.S. and foreign governments or central banks, the imposition of currency controls and speculation. A Trust Portfolio or Underlying Fund may be unable or may choose not to hedge its foreign currency exposure. Less developed markets are more likely to experience problems with the clearing and settling of trades and the holding of securities by local banks, agents and depositories. Settlement of trades in these markets can take longer than in other markets and a Trust Portfolio or Underlying Fund may not receive its proceeds from the sale of certain securities for an extended period (possibly several weeks or even longer). The risks of foreign investments are heightened when investing in issuers in emerging market countries. Emerging market countries tend to have economic, political and legal systems that are less developed and are less stable than those of more developed countries. Their economies tend to be less diversified than those of more developed countries. They typically have fewer medical and economic resources than more developed countries, and thus they may be less able to control or mitigate the effects of a pandemic. They are often particularly sensitive to market movements because their market prices tend to reflect speculative expectations. Low trading volumes may result in a lack of liquidity and in extreme price volatility.

**Growth and value investing risk.** Growth or value securities as a group may be out of favor and underperform the overall equity market while the market concentrates on other types of securities. Growth securities typically are very sensitive to market movements because their market prices tend to reflect future expectations. When it appears those expectations will not be met, the prices of growth securities typically fall. Growth stocks may be more expensive relative to their current earnings or assets compared to value or other stocks, and if earnings growth expectations moderate, their valuations may return to more typical norms, causing their stock prices to fall. The value approach to investing involves risks that stocks may remain undervalued, undervaluation may become more severe, perceived undervaluation may actually represent intrinsic value or the markets may favor faster-growing companies.

**Hedging strategies risk.** A Trust Portfolio, through its Underlying Fund(s), may employ investment strategies that involve greater risks than the strategies used by typical mutual funds, including increased use of short sales, leverage and derivative transactions and hedging strategies. A Trust Portfolio may invest in Underlying Funds employing proprietary investment strategies that are not fully disclosed, which may involve risks that are not anticipated. Hedging strategies may be narrowly focused on a particular market, security type or activity, and thus are exposed to greater risk of loss if the investment thesis underlying the strategy does not occur as anticipated. Hedging strategies that are intended to reduce an

Underlying Fund's volatility may fail to do so effectively. The use of leverage by a hedging strategy (e.g., through options) will magnify any losses incurred by the strategy.

**High-yield ("junk") bonds risk.** High yield bonds are generally subject to greater credit risks than higher-grade bonds, including the risk of default on the payment of interest or principal. High-yield bonds are considered speculative, typically have lower liquidity and are more difficult to value than higher grade bonds. High yield bonds tend to be volatile in price and more susceptible to adverse events, credit downgrades and negative sentiments and may be difficult to sell at a desired price, or at all, during periods of uncertainty or market turmoil.

**Illiquidity risk.** Some assets held by a Trust Portfolio or Underlying Fund may be or become impossible or difficult to sell, particularly during times of market turmoil. These illiquid assets may also be difficult to value. Markets may become illiquid when, for instance, there are few, if any, interested buyers or sellers or when dealers are unwilling or unable to make a market for certain securities. As a general matter, dealers recently have been less willing to make markets for fixed income securities. If a Trust Portfolio or Underlying Fund is forced to sell an illiquid asset to meet redemption requests or other cash needs, it may be forced to sell at a substantial loss or may not be able to sell at all.

**Inflation risk.** The market price of debt securities generally falls as inflation increases because the purchasing power of the future income and repaid principal is expected to be worth less when received. Debt securities that pay a fixed rather than variable interest rate are especially vulnerable to inflation risk because variable-rate debt securities may be able to participate, over the long term, in rising interest rates which have historically corresponded with long-term inflationary trends. Inflation may also influence central bank policies and interest rates, which in turn may adversely impact equities and other asset classes.

**Investing in a Trust Portfolio that invests in Underlying Fund(s) risk.** Your cost of investing in a Trust Portfolio that invests in one or more Underlying Funds will be higher than the cost of investing in a mutual fund that only invests directly in individual equity and fixed income securities. An Underlying Fund may change its investment objective or policies without a Trust Portfolio's approval, which could cause the Trust Portfolio to withdraw its investment from such Underlying Fund at a time that is unfavorable to the Trust Portfolio. In addition, one Underlying Fund may buy the same securities that another Underlying Fund sells. Therefore, the applicable Trust Portfolio would indirectly bear the costs of these trades without accomplishing any investment purpose. If a Trust Portfolio invests in an Underlying Fund that has recently commenced operations, there can be no assurance that such Underlying Fund will grow to or maintain an economically viable size, in which case the Underlying Fund's board or adviser may determine to liquidate the Underlying Fund or the Trust Portfolio may indirectly bear higher expenses. Because a Trust Portfolio bears the fees and expenses of the Underlying Fund(s) in which it invests, an increase in fees and expenses of an Underlying Fund or a reallocation of a Trust Portfolio's investments to Underlying Funds with higher fees or expenses will increase the Trust Portfolio's total expenses.

**Investing in ETFs risk.** A Trust Portfolio's investments in ETFs may subject the Trust Portfolio to additional risks and costs than if the Trust Portfolio had invested directly in the ETFs' underlying securities. These risks include the possibility that an ETF may experience a lack of liquidity that can result in greater volatility than its underlying securities and that an ETF may trade at a premium or discount to its net asset value. Unlike shares of typical mutual funds or unit investment trusts, shares of ETFs are traded on an exchange and may trade throughout a trading day. ETFs are bought and sold based on market values and not at NAV, and therefore, may trade at either a premium or discount to NAV and may experience volatility in certain market conditions. A Trust Portfolio will pay brokerage commissions in connection with the purchase and sales of shares of the ETFs. In addition, a Trust Portfolio will indirectly bear its pro rata share of fees and expenses incurred by an ETF in which it invests, including advisory fees. These expenses are in addition to management fees and other expenses that a Trust Portfolio bears directly in connection with its own operations. Certain ETFs are also subject to portfolio management risk. Investments in ETFs are subject to the risk that the listing exchange may halt trading of an ETF's shares, in which case a Trust Portfolio would be unable to sell its ETF shares unless and until trading is resumed.

**Issuer risk.** The market price of a security can go up or down more than the market as a whole and can perform differently from the value of the market as a whole, due to factors specifically relating to the security's issuer, such as disappointing earnings reports by the issuer, unsuccessful products or services, loss of major customers, changes in management, corporate actions, negative perception in the marketplace, or major litigation or changes in government

regulations affecting the issuer or the competitive environment. An individual security may also be affected by factors relating to the industry or sector of the issuer. A Trust Portfolio or Underlying Fund may experience a substantial or complete loss on an individual security.

**Large capitalization company risk.** Large capitalization companies may fall out of favor with investors based on market and economic conditions. In addition, larger companies may not be able to attain the high growth rates of successful smaller companies and may be less capable of responding quickly to competitive challenges and industry changes. As a result, a Trust Portfolio or Underlying Fund's value may not rise as much as, or may fall more than, the value of funds that focus on companies with smaller market capitalizations.

**Long/short strategy risk.** While an Underlying Fund may invest in long positions and short positions, there is the risk that the investments will not perform as expected and losses on one type of position could more than offset gains on the other, or an Underlying Fund could lose money on both positions.

**Market risk.**

The market values of securities or other investments will go up or down, sometimes rapidly or unpredictably. The market value of a security or other investment may be reduced by market activity or other results of supply and demand unrelated to the issuer. This is a basic risk associated with all investments. When there are more sellers than buyers, prices tend to fall. Likewise, when there are more buyers than sellers, prices tend to rise.

The global outbreak of the novel strain of coronavirus, COVID-19 and its subsequent variants, has resulted in market closures and dislocations, extreme volatility, liquidity constraints and increased trading costs. The long-term impact on economies, markets, industries and individual issuers is not known. Some sectors of the economy and individual issuers have experienced or may experience particularly large losses. Periods of extreme volatility in the financial markets; reduced liquidity of many instruments; and disruptions to supply chains, consumer demand and employee availability, may continue for some time.

Stock prices tend to go up and down more dramatically than those of debt securities. A slower-growth or recessionary economic environment could have an adverse effect on the prices of the various stocks held by a Trust Portfolio or Underlying Fund.

**Non-diversification risk.** To the extent a Trust Portfolio invests its assets in a single or small number of Underlying Funds, the Trust Portfolio may be more susceptible to negative events affecting its Underlying Fund(s) than more diversified funds. The Underlying Fund(s) in which a Trust Portfolio invests may be either diversified or non-diversified. A "non-diversified" Underlying Fund invests a larger percentage of its assets in a smaller number of securities than a diversified fund.

**Portfolio management risk.** The value of your investment may decrease if the judgment of the Investment Manager's or of an Underlying Fund's adviser about the attractiveness, value of, or market trends affecting, a particular security, industry, sector or region, or about market movements, is incorrect or does not produce the desired results, or if there are imperfections, errors or limitations in the models, tools and data used by the Investment Manager or an Underlying Fund's portfolio managers. In addition, a Trust Portfolio's or Underlying Fund's investment strategies or policies may change from time to time. Those changes may not lead to the results intended by the applicable investment managers and could have an adverse effect on the value or performance of the Trust Portfolio or Underlying Fund.

**Prepayment or call risk.** Many issuers have a right to prepay their fixed income securities. Issuers may be more likely to prepay their securities if interest rates fall. If this happens, an Underlying Fund or Trust Portfolio will not benefit from the rise in the market price of the securities that normally accompanies a decline in interest rates, and will be forced to reinvest prepayment proceeds at a time when yields on securities available in the market are lower than the yield on prepaid securities. An Underlying Fund may also lose any premium it paid to purchase the securities.

**Real assets risk.** Investments in the real estate, natural resources and commodities sectors involve a high degree of risk, including significant financial, operating, and competitive risks. Investments in royalty trusts, real estate investment trusts and master limited partnerships expose a Trust Portfolio or Underlying Fund to adverse macroeconomic conditions, such as changes and volatility in commodity prices, a rise in interest rates or a downturn in the economy in which the asset is located, elevating the risk of loss.

**Risks related to Russia's invasion of Ukraine.** Russia's military invasion of Ukraine in February 2022, the resulting responses by the United States and other countries, and the potential for wider conflict could increase volatility and uncertainty in the financial markets and adversely affect regional and global economies. The United States and other countries have imposed broad-ranging economic sanctions on Russia and certain Russian individuals, banking entities and corporations as a response to its invasion of Ukraine. The United States and other countries have also imposed economic sanctions on Belarus and may impose sanctions on other countries that support Russia's military invasion. These sanctions, as well as any other economic consequences related to the invasion, such as additional sanctions, boycotts or changes in consumer or purchaser preferences or cyberattacks on governments, companies or individuals, may further decrease the value and liquidity of certain Russian securities and securities of issuers in other countries that are subject to economic sanctions related to the invasion. To the extent that an Underlying Fund has exposure to Russian investments or investments in countries affected by the invasion, the Underlying Fund's ability to price, buy, sell, receive or deliver such investments may be impaired. The Underlying Fund could determine at any time that certain of the most affected securities have zero value. In addition, any exposure that the Underlying Fund may have to counterparties in Russia or in countries affected by the invasion could negatively impact the Underlying Fund's investments. The extent and duration of Russia's military actions and the repercussions of such actions (including any retaliatory actions or countermeasures that may be taken by those subject to sanctions) are impossible to predict, but could result in significant market disruptions, including in the oil and natural gas markets, and may negatively affect global supply chains, inflation and global growth. These and any related events could significantly impact an Underlying Fund's and Trust Portfolio's performance and the value of an investment in the Underlying Fund and Trust Portfolio, even beyond any direct exposure an Underlying Fund may have to Russian issuers or issuers in other countries affected by the invasion.

**Small and mid-capitalization company risk.** A Trust Portfolio or Underlying Fund will be exposed to additional risks if it invests in the securities of small and mid-capitalization companies. Small and mid-capitalization companies may fall out of favor with investors; may have limited product lines, operating histories, markets or financial resources; or may be dependent upon a limited management group. The prices of securities of small and mid-capitalization companies generally are more volatile than those of large capitalization companies and are more likely to be adversely affected than large capitalization companies by changes in earnings results and investor expectations or poor economic or market conditions, including those experienced during a recession. Securities of small and mid-capitalization companies may underperform large capitalization companies, may be harder to sell at times and at prices the applicable portfolio managers believe appropriate and may have greater potential for losses.

**Stock market and equity securities risk.** The stock markets are volatile and the market prices of an Underlying Fund's equity securities may decline generally. Equity securities may have greater price volatility than other asset classes, such as fixed income securities, and may fluctuate in price based on actual or perceived changes in a company's financial condition and overall market and economic conditions and perceptions. If the market prices of the equity securities owned by an Underlying Fund falls, the value of your investment in a Trust Portfolio may decline.

**Valuation risk.** The sales price a Trust Portfolio or Underlying Fund could receive for any particular portfolio investment may differ from the Trust Portfolio's or Underlying Fund's valuation of the investment, particularly for securities that trade in thin or volatile markets or that are valued using a fair value methodology. These differences may increase significantly and affect investments more broadly during periods of market volatility. Investors who purchase or redeem a Trust Portfolio share on days when the Trust Portfolio or one or more of its Underlying Funds are holding fair-valued securities may receive fewer or more shares or lower or higher redemption proceeds than they would have received if the securities had not been fair-valued securities or a different valuation methodology had been used. A Trust Portfolio's or Underlying Fund's ability to value its investments may be impacted by technological issues and/or errors by pricing services or other third party service providers. The valuation of a Trust Portfolio's or Underlying Fund's investments involves subjective judgment.

## **Change in Investment Policy, Program Manager or Investment Manager**

Each Investment Option must be invested in accordance with the Investment Policy. HESAA may change the Investment Policy applicable to the Program at any time. In addition, the Services Agreement, under which investment management, administrative, distribution and marketing services for the Program are provided may not be renewed. You do not control the investment instruments or asset allocation selected by the Program under each Investment Option. The specific

investment instruments in which the assets that determine the value of your Account are invested, as well as the allocation among asset categories, are subject to change without the consent of Account Owners, and HESAA is not obligated to continue investing in investment instruments selected by Franklin Mutual Advisers or in investment companies sponsored or managed by affiliates of Franklin Templeton. HESAA may eliminate, consolidate or otherwise change Investment Options without the consent of Account Owners. Regardless of whether FD or another entity is the Program Manager, the fee structure for the Program Manager may change during the term of your Account. If a Program Manager fee structure that is more favorable to Account Owners were to be implemented in the future, it might be necessary for existing Account Owners to open new Program Accounts to take advantage of such structure with respect to new contributions or existing Program Account balances.

## **Restriction on Changes among Investment Options**

Federal law and IRS guidance restrict the frequency of the reallocation of Account balances among the Investment Options. All reallocations of assets among the Investment Options in all Program Accounts established by an Account Owner for a particular Beneficiary must occur on the same two days of the applicable calendar year, except for reallocations in connection with a change of the Beneficiary of the applicable Program Account. Unless reallocated in accordance with the provisions described above, existing amounts in your Account invested under a particular Investment Option must remain invested under that Investment Option until distributed from the Program, even if at some point prior to distribution you would prefer to switch such assets to another Investment Option. However, a new Investment Option may always be selected for a new contribution at the time a new contribution is made.

## **Financial Aid**

### ***Federal Financial Aid***

Being the Account Owner or Beneficiary of an Account may impact eligibility for financial aid.

- If the Account Owner is the student's parent, the available balance may be treated as a parental asset, as is the case with other financial assets of the parent that are considered in determining federal financial aid eligibility. As a general matter, a smaller percentage of such parental assets (under current law, a maximum of 5.64%) than of student assets (under current law, 20%) is deemed available to the student, and accordingly parental assets generally have a lesser impact than student assets for purposes of determining federal financial aid eligibility.
- If a dependent student is the Account Owner, whether through an UTMA/UGMA custodian or directly, the available balance in the Account is treated as a parental asset.
- If an independent student is the Account Owner, whether through an UTMA/UGMA custodian or directly, the available balance in the Account is treated as a student asset.

Assets in an Account not owned by the applicable student or the student's parent (such as non-UTMA/UGMA accounts opened by a grandparent as Account Owner) generally are not considered in the student's need analysis for federal financial aid purposes, but payments from such an Account may be considered income of the applicable student for purposes of subsequent financial aid determinations.

Being the Account Owner or Beneficiary of an Account may impact eligibility for non-federal financial aid opportunities, including financial aid opportunities at any elementary or secondary school. You should consult a financial aid advisor for further information on your particular circumstances. The U.S. Department of Education also sponsors a website with useful information at <https://studentaid.gov>.

### ***New Jersey Financial Aid***

The Act provides that an amount to be annually determined by HESAA, which shall not be less than \$25,000, of all Program Accounts shall be excluded from consideration in evaluating the financial need of a Beneficiary for the purpose of determining the eligibility of a Beneficiary for any scholarship, grant or monetary assistance awarded by the State. The currently applicable amount is \$25,000. The Beneficiary may be required to verify the dollar amount in the Program Account(s) to the satisfaction of the entity or agency awarding the State funds. You should consult with your financial aid advisor to determine the impact of an Account on financial aid in another state.

## **Tax Risks**

The federal and state tax benefits and related tax implications of an investment in an Account depend on qualification of the Program as a QTP within the meaning of Section 529. Section 529 sets forth numerous requirements and the Program has been designed to comply with these requirements as understood by HESAA. HESAA has not obtained a private letter ruling from the IRS determining that the Program satisfies the requirements of Section 529. The United States Treasury Department (the "Treasury Department") has published proposed regulations under Section 529, but those regulations do not provide guidance on various changes to Section 529 implemented by the Economic Growth and Tax Relief Reconciliation Act of 2001 or the "Act to provide for reconciliation pursuant to Title II and V of the Concurrent Resolution on the Budget for Fiscal Year 2018", Pub. L. 115-97, enacted December 22, 2017, including without limitation regarding Qualified Distributions for Qualified Elementary or Secondary Education Expenses. Final regulations have not been issued. The Treasury Department also has published certain notices that may be relied upon pending issuance of final regulations, concerning investment reallocations affecting amounts contributed to a QTP and certain other matters arising under Section 529. On January 17, 2008, the Treasury Department released an advance notice of proposed rulemaking (the "2008 Advance Notice") relating to QTPs under Section 529. The 2008 Advance Notice indicated that the Treasury Department intends to repropose the initial Section 529 regulations proposed in 1998. The repropose regulations have not yet been published, and although the 2008 Advance Notice indicated certain changes and clarifications that will be included in the repropose regulations, the exact content of the new proposed regulations, and the ultimate content of the final regulations, is not known. The repropose regulations could limit or require changes to, and affect tax consequences of, certain features of the Program described in this Program Description.

HESAA and the Program Manager intend to modify the Program from time to time in accordance with applicable federal tax law and administrative guidance to maintain Program compliance with the requirements of Section 529. There can be no assurance, however, that the IRS or any state tax regulator will agree that the Program, in its current form or as it may be modified, satisfies the current and any future requirements of Section 529 or that, if challenged by the IRS or a state tax regulator, the status of the Program as a QTP under Section 529 would be sustained in court. If the Program as currently structured or as subsequently modified does not meet the requirements of Section 529 for any reason, the tax consequences to Account Owners, Third-Party Contributors and Beneficiaries are uncertain and it is possible that Account Owners or Beneficiaries could become subject to taxes on undistributed earnings in their Accounts as well as to other adverse tax consequences. In addition, changes in the law governing any of the federal or state tax consequences described in this Program Description might require material changes to the Program for the anticipated tax consequences to apply, or might change the federal or state tax consequences from those described in this Program Description.

None of the Program, the State, HESAA, the Division of Investment, the Program Manager or any other party assumes any responsibility for the tax treatment of any distribution from an Account or for the adequacy of the documentation obtained and maintained by an Account Owner or Beneficiary to support favorable federal and state tax treatment. It is the responsibility of the Account Owner and the Beneficiary to identify, obtain and retain such documentation. HESAA and the Program reserve the right to report the earnings components of all distributions from an Account without characterizing the purpose of the distributions or the treatment of such earnings for federal or state income tax purposes, except as may be required by applicable federal tax requirements. See "Tax Information" for more information.

## **Program Changes**

HESAA may change the terms and conditions of the Program without the consent of the Account Owners or Beneficiaries to the extent required to achieve or preserve the Program's status as a QTP or to the extent otherwise deemed necessary or appropriate by HESAA. Such changes may impose additional requirements on your participation in the Program, limit the flexibility of the Program or otherwise change terms and conditions of the Program that you consider important. Although the consent of the Account Owners or Beneficiaries to such changes is not required, if the Account Owner does not wish to continue participating in the Program after such changes, under current law the Account Owner has the ability to transfer the Account balance to another QTP through a Rollover Distribution. See "Contributing to Your Account" and "Making Changes to Your Account", above.

## **Amount of and Inflation in Qualified Higher Education Expenses (“QHEE”)**

Even if the balance in your Account has reached the Maximum Contribution Limit, the Account may not be sufficient to pay the Beneficiary's QHEE. This could be the case if the Beneficiary attends institutions at which the QHEE of students for the period of attendance by the Beneficiary are greater than the Maximum Contribution Limit plus the earnings thereon in the Account. In addition, the level of future inflation in QHEE is uncertain. In the recent past, QHEE often have grown at a rate which substantially exceeds the rate of return on many investments, including investments similar to the Investment Options, as well as the rate of increase in the general cost of living. The rate of future increases in QHEE over any period could exceed the rate of investment return earned by any or all the Investment Options over the corresponding periods.

## **Non-Use by Beneficiary of Account for QHEE**

If the Beneficiary of an Account (or any successor Beneficiary you may designate) does not apply for admission to attend any Eligible Educational Institution, is not accepted for admission to an Eligible Educational Institution, does not achieve satisfactory academic performance or is otherwise not permitted to continue to attend an Eligible Educational Institution, or otherwise does not need all or a portion of the balance in the Account to pay for QHEE then, except in the case of a Rollover Distribution to an account in a QTP for a Member of the Family of the Beneficiary or, subject to the limitations described in this Program Description, a Rollover Distribution to a Qualified ABLE Program for the Beneficiary or a Member of the Family of the Beneficiary or a Roth IRA Distribution, the earnings portion of amounts withdrawn from the Account would be subject to federal income tax and, unless the distribution is due to the Beneficiary's permanent disability, paid to the Beneficiary's estate upon death of the Beneficiary, or on account of a qualified scholarship awarded to the Beneficiary or attendance by the Beneficiary at a U.S. military academy, a 10% additional federal income tax. State and local income taxes may also be applicable to the withdrawn earnings.

## **Risks Related to Illiquidity**

Investment in the Program involves the risk of reduced liquidity of the amounts invested. The circumstances under which funds may be withdrawn from the Account without a tax penalty are limited. See “Tax Information” for further information about these restrictions. In addition, you may not assign or pledge any part of an Account as security for a loan or otherwise.

## **Impact on Medicaid Eligibility and Other Non-Educational Benefits**

Account Owners and Third-Party Contributors should be aware that ownership of an Account in the Program could have an impact on eligibility for Medicaid and other federal and state non-educational benefits. Although the result may vary from state to state, assets in your Account may be considered available assets for determining eligibility. You should consult qualified financial and tax advisors for advice on your particular situation.

## Fees and Expenses

Each of the mutual funds and ETFs in which the Trust may invest assets contributed under an Investment Option charges investment management fees and other expenses. These fees and expenses are taken into account in valuing the mutual fund/ETF shares owned by the applicable Trust Portfolio and accordingly indirectly affect the investment returns on amounts invested under the applicable Investment Option. There also may be brokerage fees associated with the purchase or sale of ETFs that also affect the investment return on amounts invested under the applicable Investment Option.

In addition, the Program currently charges a Program fee of 25 basis points (0.25 percent) per annum assessed daily against the assets of each Trust Portfolio except the Franklin U.S. Government Money 529 Portfolio; though that fee is currently not imposed for the Franklin U.S. Government Money 529 Portfolio, it may be imposed in whole or in part at any time, increasing expenses and reducing performance. The Program fee includes the Authority Administrative fee used to pay HESAA for its services in connection with the program and a Program Manager fee used to pay for the services of FD, Franklin Mutual Advisers and other FD affiliates under the Services Agreement. The Program fee is subject to change by HESAA.

Investments made through the purchase of Class A Trust Shares or Class C Trust Shares also are subject to sales charges (including annual “trailing fees” and either initial sales charges or CDSC) as described below except that currently no sales charges are applicable to purchases of Trust Shares in the Franklin U.S. Government Money 529 Portfolio. The CDSC imposed on certain distributions of amounts invested in an Account in Class A or Class C during the periods described under “Classes of Trust Shares” below will be assessed in the case of all distributions, including Qualified Distributions and all Non-Qualified Distributions, including Rollover Distributions, unless the Rollover Distribution is a direct transfer to another Account in the Program invested in the same class of Trust Shares as the Account from which the distribution was made.

### Considerations Relating to Classes A and C and Advisor Class Trust Shares

Account Owners who are considering directing that contributions to their Accounts be applied to the purchase of Class A Trust Shares, Class C Trust Shares or Advisor Class Trust Shares (available only to AC-Eligible Account Owners (as defined under “Classes of Trust Shares,” below) should take into consideration the age of the Beneficiary, the period of time during which such contribution is likely to remain invested in the Account, and the charges and fees applicable to each structure, including any available waiver or reduction of the initial sales charge for Class A Trust Shares. Please consult with your Financial Professional as to the fee structure that may be most appropriate for you considering the anticipated duration of the investment, the anticipated likelihood of future transfers among Investment Options, and any available waiver or reduction of the initial sales charge on Class A Trust Shares.

Account Owners may direct that contributions to their Accounts be applied to the purchase of Class C Trust Shares only for Accounts for which they have appointed a Financial Intermediary of record. Account Owners who have not appointed a Financial Intermediary of record for Accounts already investing in Class C Trust Shares may not make additional contributions to those Accounts. All contributions directed to Accounts investing in Class C Trust Shares that do not have a Financial Intermediary of record or to Accounts investing in Advisor Class Trust Shares that are not owned by AC-Eligible Account Owners (as defined under “Classes of Trust Shares,” below) will be returned to the Account Owner pending further instruction.

Certain Financial Intermediaries may retain the authority, at any time they deem it necessary, to exchange Trust Shares in an Account for Trust Shares of a different Class. The Program is not responsible for any such policies or for any such exchanges. See Appendix D for more information on certain Financial Intermediary-specific policies regarding such exchanges. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary's policies.

### Estimated Fees and Expenses and Estimated Cost of a \$10,000 Investment

For both the “Estimated Fees and Expenses” and the “Estimated Cost of a \$10,000 Investment” sections, below:

- Total annual asset-based fees are assessed against assets over the course of the year and do not include sales charges or account maintenance fees.
- No account maintenance fee is currently in effect.
- Estimated expenses assessed by the Underlying Funds are based on the expenses reported in the applicable Underlying Fund's most recent publicly available financial statements as of July 31, 2023.
- Underlying Fund expenses will vary and in some cases have been, and may from time to time be, reduced by fee and expense waivers or reimbursements, which may be ended at any time, increasing future expenses.
- The actual expenses of an Underlying Fund may differ from those in the financial statements for any period that does not coincide with the period reported on by such financial statements.

For Trust Portfolios with multiple Underlying Funds:

- Underlying Fund expenses are based on a weighted average of the expense ratios of each Underlying Fund in which the applicable Investment Option was invested as of September 30, 2023.
- The weighting is in accordance with each applicable Underlying Fund's percentage of the aggregate value of the Underlying Funds in the applicable Trust Portfolio on September 30, 2023.
- At any time, the Investment Manager may change the investments of Trust Portfolios within each asset class among various Underlying Funds, changing amounts allocated to each Underlying Fund, and varying between mutual funds and ETFs. As a result, fees and expenses of the Trust Portfolios and the costs of investments in them will vary from those estimated shown below.

1. See table entitled "Contribution Impact on Initial Sales Charges under Class A" below.

2. For Class A Trust Shares, there is a CDSC that applies to investments made without an initial sales load that are redeemed within 18 months of purchase. See "Fees and Expenses." The CDSC for Class C Trust Shares applies to Class C Trust Shares redeemed in connection with a withdrawal during the first 12 months after the investment.
3. For the Franklin U.S. Government Money 529 Portfolio: (a) the Program Fee (which may be increased at any time, increasing future expenses) has been reduced from 0.25% to 0.00% since the portfolio's inception date of October 8, 2014; (b) "Total Annual Asset Based Fees" reflects the reduced Program Fee currently in effect; and (c) although no deferred sales charge is generally payable with respect to Trust Shares originally purchased in the portfolio, a deferred sales charge may be payable upon a redemption of Trust Shares in the portfolio acquired through an exchange from another Trust Portfolio, or upon a withdrawal of Trust Shares that were acquired, directly or indirectly, in exchange for Trust Shares originally purchased with contributions to the portfolio.
4. After no later than 6 years from the applicable purchase, or sooner, these Trust Shares convert to Class A Trust Shares, and the Annual Sales Fee declines accordingly.

## Estimated Cost of a \$10,000 Investment

### In Dollars for Trust Share Classes and Periods Shown<sup>1</sup>

The following table compares the approximate cost of investing in the different classes within the Plan over different periods of time. Your actual cost may be higher or lower. The table is based on the following assumptions:

- A \$10,000 investment invested for the time periods shown.
- A 5% annually compounded rate of return on the net amount invested throughout the period.
- The proceeds of all Trust Shares that are assumed to be redeemed for the purpose of a distribution at the end of the period shown are used for QHEE (the table does not consider the impact of any potential state or federal taxes on the redemption).
- Total annual asset-based fees remain the same as those shown in the tables above.
- The investor pays the maximum applicable initial sales charge (without regard to possible breakpoints or waivers or any CDSCs) in Class A, pays the annual sales fee in Class A (without regard to any waiver) and pays any CDSCs applicable to Trust Shares invested for the applicable periods in Class C.
- In the case of the Franklin U.S. Government Money 529 Portfolio, the annual costs assume the continuation of the reduced Program Fee described above; however, such Program Fee may be increased at any time, which would increase the applicable annual costs.

1. Assumes redemption at the end of the period.
2. Assumes no redemption at the end of the period.
3. Cost estimates for the Franklin U.S. Government Money 529 Portfolio do not include a Program Fee, since that fee is not in effect for the Franklin U.S. Government Money 529 Portfolio as of the date of this Program Description; the Program Fee may be imposed in whole or in part at any time in the future, which would increase future expenses. The above expenses shown for the Franklin U.S. Government Money 529 Portfolio reflect expense and fee waivers or reimbursements in effect as of the date of this Program Description that have reduced the Underlying Fund expenses and that may be reduced or eliminated at any time.

## Classes of Trust Shares

### Class A

If you select Class A and you open your account through a Financial Professional, generally you will pay a sales charge at the time of your contribution (the “initial sales charge”). Lower initial sales charges apply for larger purchases in the case of all Investment Options under Class A, as shown in the table below. The initial sales charge is included in the price that you pay for the Trust Shares you acquire when you make your contribution. The initial sales charge is paid to FD, which in turn compensates Financial Intermediaries as described below under “Fees Payable by FD to Financial Intermediaries.”

The maximum amount of the initial sales charge is 3.75% for all of the Investment Options, except as follows:

- A maximum initial sales charge of 2.25 % applies to:
  - Franklin Growth Allocation Age 17 Years 529 Portfolio,
  - Franklin Growth Allocation Age 18 Years 529 Portfolio
  - Franklin Growth Allocation Age 19+ Years 529 Portfolio,
  - Franklin Moderate Allocation Age 17 Years 529 Portfolio,
  - Franklin Moderate Allocation Age 18 Years 529 Portfolio
  - Franklin Moderate Allocation Age 19+ Years 529 Portfolio,
  - Franklin Conservative Allocation Age 17 Years 529 Portfolio,
  - Franklin Conservative Allocation Age 18 Years 529 Portfolio
  - Franklin Conservative Allocation Age 19+ Years 529 Portfolio, and
  - Western Asset Core Plus Bond 529 Portfolio
  - BrandywineGLOBAL – Global Opportunities 529 Portfolio
  - Western Asset Short-Term Bond 529 Portfolio

In addition, the portion of the applicable Trust Portfolio attributable to Trust Shares purchased under Class A is subject to an annual sales fee of 0.25% of the aggregate average daily NAV of such portion of the Trust Portfolio, except that no such annual sales fee currently applies to the Franklin U.S. Government Money 529 Portfolio. The purpose of the annual sales fee is to pay for the distribution of Trust Shares and servicing of Accounts. The annual sales fee is accrued daily and is paid to the Program Manager. The Program Manager pays a portion of or the entire amount received to others, such as the Financial Intermediary with which your Financial Professional is associated, that provides distribution and related services. The annual sales fee is not deducted from your Account. Rather, it is an expense of the relevant Trust Portfolio that correspondingly reduces the value of the applicable Trust Shares.

The Franklin U.S. Government Money 529 Portfolio does not currently charge an initial sales charge, nor does it currently assess an annual sales fee; the Program Fee is currently waived for the Trust Portfolio.

Accounts established under Class A are not subject to a CDSC. For Class A investors that invest over certain thresholds at net asset value (NAV), a 1% contingent deferred sales charge (CDSC) may apply to shares redeemed within 18 months. The CDSC under Class A does not apply to distributions due to the death or permanent disability of the Beneficiary.

\$250,000 but under \$500,000 <sup>2</sup>	2.25	2.30
\$500,000 but under \$1 million <sup>2</sup>	0.00	0.00
\$1 million and above <sup>2</sup>	0.00	0.00

1. The dollar amount of the sales charge is the difference between the offering price of the Trust Shares purchased (which factors in the applicable sales charge in this table) and the NAV of those Trust Shares. Since the offering price is calculated to two decimal places using standard rounding criteria, the number of Trust Shares purchased and the dollar amount of the sales charge as a percentage of the offering price and of your net investment may be higher or lower depending on whether there was a downward or upward rounding.

2. Amounts in excess of Maximum Contribution Limit applicable only in connection with exercise of Rights of Accumulation. See Rights of Accumulation and Reduced Initial Sales Charges for Trust Shares Purchased Under Class A.”

The reduced initial sales charges for aggregate contributions to one or more Accounts under Class A shall apply if the Program Manager is notified at the time a contribution is made that the contribution qualifies for the reduced initial sales charge on the basis of previous or current contributions to one or more Accounts. The reduced initial sales charge will be granted upon confirmation of the aggregate contributions to the applicable Account or Accounts. Such reduced initial sales charges generally are not retroactive to contributions made prior to the contribution that qualifies for the applicable reduced initial sales charge. See “Rights of Accumulation and Reduced Initial Sales Charges for Trust Shares Purchased under Class A” below for a description of when reduced initial sales charges may apply.

The Account Owner also may purchase Class A Trust Shares at a reduced initial sales charge by completing a letter of intent (“LOI”). An LOI permits Account Owners to combine their aggregate contributions to Accounts under the Program

as well as holdings of certain unrelated mutual fund shares described below and certain college savings plan shares or units described below to reduce the initial sales charge under Class A. An LOI expresses the intent of the Account Owner that a specified dollar amount of “rights of accumulation eligible shares” (as defined below) will be purchased in the Account and other eligible investment accounts during a 13-month period. The intended amount of ROA eligible shares to be purchased during such period as set forth in the LOI determines the applicable initial sales charge. If the stated amount is purchased within the applicable period, the applicable initial sales charge will be the same as would be applicable if the entire amount stated in the LOI were invested at the same time. See “Contribution Impact on Initial Sales Charges under Class A” above. The value of your ROA eligible shares as of the day prior to the LOI start date may be counted toward fulfillment of the LOI. The cost value of ROA eligible shares, however, may only be aggregated for share purchases that took place within 18 months of the LOI start date. By requesting an LOI, the Account Owner acknowledges and agrees to the following:

- If the Account Owner does not fulfill the terms of the LOI, the applicable waiver of the otherwise applicable initial sales charges will be revoked and the unpaid balance of the fee assessed to the Account, unless otherwise paid by the Account Owner within 20 days of written notice.
- If the Account Owner directs a distribution from the Account before the terms of the LOI are fulfilled and, as a result of such distribution, a balance that is less than 5% of the aggregate value of Trust Shares to which the LOI at any prior time applied would remain in the Account, the applicable waiver of the otherwise applicable initial sales charges will be revoked and the unpaid balance of the fee assessed to the Account and to the redeemed Trust Shares prior to distribution, unless otherwise paid by the Account Owner within 20 days of written notice.

Upon execution of an LOI for an Account, Class A Trust Shares may be purchased for such Account at the reduced initial sales charge applicable to the investment amount specified in the LOI. If the amount of total purchases of Class A Trust Shares during the applicable period is less than the amount specified in the LOI, the initial sales charge will be adjusted upward, depending on the actual net amount of such purchases during such period. In such event, the Account Owner will be required to send the Program Manager an amount equal to the difference between (1) the aggregate amount of initial sales charges that would have applied, without regard to the LOI, to the total net purchases under the applicable Investment Option(s) to which the LOI applied if all transactions within the applicable period had been made at one time and (2) the aggregate dollar amount of initial sales charges actually paid during such period. If within 20 days after written request this difference in the amount of initial sales charges due is not paid, the Account and, as applicable, any withheld distribution, will be assessed to pay the amount due, as described above.

Rights of Accumulation (“ROA”) eligible shares are: (1) Trust Shares; and (2) shares in U.S. registered Franklin Templeton and Legg Mason mutual funds (not including ETFs and not including funds in the Franklin Templeton Variable Insurance Products Trust, Legg Mason Partners Variable Equity Trust, or Legg Mason Partners Variable Income Trust) that, in each instance, are registered to (or held by a financial intermediary for):

- You, individually;
- Your “family member,” defined as your spouse or domestic partner, as recognized by applicable state law, and your children under the age of 21;
- You jointly with one or more family members;
- You jointly with another person(s) who is (are) not family members if that other person has not included the value of the jointly-owned shares as ROA eligible shares for purposes of that person’s separate investments;
- A Coverdell Education Savings account for which you or a family member is the identified responsible person;
- A trustee/custodian of an IRA (which includes a Roth IRA and an employer sponsored IRA such as a SIMPLE IRA) or your non-ERISA covered 403(b) plan account, if the shares are registered/recorded under your or a family member’s Social Security number;
- A 529 college savings plan account over which you or a family member has investment discretion and control;
- Any entity over which you or a family member has (have) individual or shared authority, as principal, has investment discretion and control (for example, an UGMA/UTMA account for a child on which you or a family member is the custodian, a trust on which you or a family member is the trustee, a business account other than for a retirement plan

for your solely owned business or the solely owned business of a family member on which you or a family member is the authorized signer);

- A trust established by you or a family member as grantor.

Franklin Templeton fund shares held through an administrator or trustee/custodian of an employer-sponsored retirement plan such as a 401(k) plan do not qualify as ROA eligible shares.

The initial sales charge under Class A does not apply to:

1. contributions to an Account established with FD as the broker of record without use of a Financial Intermediary,
2. contributions resulting from a direct transfer of assets from a Franklin Templeton mutual fund/ETF if the assets represent the proceeds of shares on which a sales charge was paid;
3. contributions resulting from a direct rollover of assets from another QTP if (a) the Financial Intermediary through which the Trust Shares are purchased has informed FD of its election to participate in the offering of Class A Trust Shares with a waiver of initial sale charge in such circumstances; or (b) the rollover is to an Account established with FD as the broker of record without use of a Financial Intermediary;
4. contributions by current and former officers, trustees, directors and full-time employees of Franklin Templeton, and their family members, consistent with then-current policies;
5. contributions by individuals or entities that have entered into an investment advisory agreement with Fiduciary Trust Company International or one of its subsidiaries;
6. contributions by employees of a broker-dealer that has entered into a selling agreement with FD and their family members;
7. contributions to an Account when the Financial Intermediary on the Account is a registered investment adviser and has entered into an asset-based fee arrangement with the Account Owner;
8. buying Trust Shares using the redemption proceeds from the sale of Trust Shares, if that purchase occurs within 90 days of the sale and as described under "Temporary Waiver Privilege" below;
9. contributions made to an Account opened by an Account Owner through a Workplace 529 Program, or to an existing Account through a Workplace 529 Program;
10. clients of financial intermediaries that have entered into an agreement with FD to offer Class A Trust Shares without an initial sale charge and who are subject to the applicable financial intermediary's brokerage commissions and/or any other compensation for the purchase and holding of such Trust Shares (such clients can contact their financial intermediary for details on the compensation that will be paid to such financial intermediary by such client; please note that annual sales charges will continue to be payable on such Trust Shares in addition to any compensation arrangements agreed to by such clients with their financial intermediaries); and
11. contributions in an amount not exceeding the amount of a refund from an Eligible Educational Institution or from an elementary or secondary public, private, or religious school to the Account Beneficiary of an amount previously withdrawn from the Account for a Qualified Distribution, provided such recontribution is made within 60 days of the Beneficiary's receipt of the refund from the Eligible Educational Institution or the applicable school.

If an Account Owner changes the Financial Intermediary on an Account and the Class A Trust Shares purchased after such change no longer qualify for an initial sales charge waiver, initial sales charges will resume on Class A Trust Shares purchased after such change, unless and until the new Financial Intermediary has taken necessary steps to reinstate the initial sales charge waiver.

Trust Shares purchased with the proceeds from a money market fund or from Class A shares of a Franklin Templeton mutual fund/ETF without an initial sales charge may be subject to a sales charge.

Trust Shares acquired upon an exchange from the Franklin U.S. Government Money 529 Portfolio into another Trust Portfolio will be subject to an initial sales charge, unless an initial sales charge was previously paid in connection with the applicable invested amounts, and to an annual sales fee, as described above. Trust Shares redeemed from the Franklin

U.S. Government Money 529 Portfolio that were invested in that portfolio through an exchange from another Trust Portfolio that charged a sales charge are not assessed a sales charge if within 90 days they are reinvested in a Trust Portfolio.

The Program Manager reserves the right to modify or terminate any of the above waivers of the initial sales charge on Class A Trust Shares at any time.

Specific Financial Intermediaries may have different policies and procedures than the Program regarding the availability of initial sales charge waivers, CDSC waivers and reductions in initial sales charges, including reductions under an LOI or pursuant to ROA. The Program is not responsible for any such policies or procedures. In all instances, it is the contributor's responsibility to notify the contributor's Financial Professional at the time of the contribution of funds and purchase of Trust Shares of any relationship or other facts qualifying the purchase for sales charge waivers or reductions under the applicable Financial Intermediary's policies and procedures. For waivers and reductions not available through a particular Financial Intermediary, contributors will have to purchase Trust Shares directly from the Program or through another Financial Intermediary, and will have to notify the Program or such other Financial Intermediary, as applicable, at the time of the contribution of funds and purchase of Trust Shares of any relationship or other facts qualifying the purchase for sales charge waivers or reductions. See Appendix D for more information on certain Financial Intermediary-specific policies regarding such waivers and reductions. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary's policies.

### **Class C**

If you select Class C, you will not pay an initial sales charge. You will, however, pay a CDSC if you withdraw any contribution within 12 months after you make it, except that no such CDSC applies to a distribution from the Franklin U.S. Government Money 529 Portfolio involving a redemption of Trust Shares originally purchased with contributions to the Franklin U.S. Government Money 529 Portfolio.

The CDSC is 1.00% of the lesser of the NAV at the time of purchase of the Trust Shares being redeemed or the NAV of such Trust Shares at the time of redemption. As there is no initial sales charge, the entire amount of your contribution is invested.

The CDSC is applicable to a distribution from the Franklin U.S. Government Money 529 Portfolio involving a redemption of Trust Shares obtained by exchange into the Franklin U.S. Government Money 529 Portfolio from another Trust Portfolio, if the distribution would have been subject to such CDSC had it been made from such other Trust Portfolio. The CDSC also applies upon a distribution involving a redemption of Trust Shares in a Trust Portfolio other than the Franklin U.S. Government Money 529 Portfolio that were acquired, directly or indirectly, in exchange for Trust Shares originally purchased with contributions to the Franklin U.S. Government Money 529 Portfolio, if the redemption occurs within 12 months after the exchange from the Franklin U.S. Government Money 529 Portfolio.

In addition, the portion of the applicable Trust Portfolio attributable to Trust Shares purchased under Class C is subject to an annual sales fee of 1.00% of the aggregate average daily NAV of such portion of the Trust Portfolio, except that no such annual sales fee applies to the Franklin U.S. Government Money 529 Portfolio. The purpose of the annual sales fee is to pay for the distribution of Trust Shares and servicing of Accounts. The sales fee is accrued daily and paid to the Program Manager. The Program Manager pays a portion or all of the amount received to others, such as the Financial Intermediary with which your Financial Professional is associated, that provide distribution and related services. The sales fee is not deducted from your Account. Rather, it is an expense of the relevant Trust Portfolio that correspondingly reduces the value of the applicable Trust Shares. After no later than six years, or sooner, Trust Shares purchased under Class C will automatically convert into Class A Trust Shares, and will thereafter be subject to the lower annual sales fee applicable to Class A. See "Class A."

Specific Financial Intermediaries may have different policies and procedures than the Program regarding the timing of automatic conversion of Trust Shares purchased under Class C to Class A Trust Shares. The Program is not responsible for any such policies or procedures. See Appendix D for more information on certain Financial Professional-specific policies regarding such conversions. Please consult with your Financial Professional if you have any questions regarding Financial Intermediary's policies.

The CDSC under Class C does not apply to distributions due to the death or permanent disability of the Beneficiary.

In the case of a contribution in an amount not exceeding the amount of a refund from an Eligible Educational Institution or from an elementary or secondary public, private, or religious school to the Account Beneficiary of an amount previously withdrawn from the Account for a Qualified Distribution, if such recontribution is made within 60 days of the Beneficiary's receipt of the refund from the Eligible Educational Institution or the applicable school, the 12 month period during which a CDSC is applicable under Class C will be deemed to have expired for the Trust Shares purchased with such recontribution if such period had expired for the Trust Shares sold at the time the refunded amount was withdrawn from the Account.

Specific Financial Intermediaries may have different policies and procedures than the Program regarding the availability of CDSC waivers. The Program is not responsible for any such policies or procedures. In all instances, it is the Account Owner's responsibility to notify the contributor's Financial Professional at the time of the distribution of funds and redemption of Trust Shares of any facts qualifying the distribution and redemption for CDSC waivers under the applicable Financial Intermediary's policies and procedures. For waivers not available through a particular Financial Intermediary, Account Owners will have to redeem Trust Shares directly from the Program or through another Financial Intermediary, and will have to notify the Program or such other Financial Intermediary, as applicable, at the time of the distribution of funds and redemption of Trust Shares of any facts qualifying the distribution and redemption for CDSC waivers. See Appendix D for more information on certain Financial Intermediary-specific policies regarding such waivers. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary's policies.

### **Advisor Class**

If you select Advisor Class, you will not pay any initial sales charge, deferred sales charge or ongoing annual sales fee. You may pay an investment advisory or other fee to the Financial Intermediary with which your Financial Professional is associated.

Advisor Class Trust Shares are available only to AC-Eligible Account Owners. An "AC-Eligible Account Owner" consists of an Account Owner described below or purchasing Trust Shares described below:

- Advisory Fee Programs. Trust Shares acquired for an Account of an Account Owner who has a comprehensive fee or other advisory fee arrangement with the applicable Financial Intermediary under which the Account Owner pays that Financial Intermediary a fee for investment advisory services and the Financial Intermediary through which the Trust Shares are acquired has an agreement with FD authorizing the sale of Trust Shares.
- Governments, municipalities, and tax-exempt entities that meet the requirements for qualification under section 501(c)(3) of the Internal Revenue Code when purchasing directly from FD.
- Current employees of securities dealers that have executed a selling agreement with FD and their affiliates and their family members, as allowed by the internal policies of their employer.
- Current and former officers, trustees, directors, and full-time employees (and, in each case, their family members) of Franklin Templeton or Franklin Templeton funds (including any foundation, trust or benefit plan maintained, owned, controlled, or established by or for any such person), consistent with the then-current policies of Franklin Templeton.
- Trust Shares held in accounts managed by a subsidiary of Franklin Resources, Inc.: (1) under an advisory agreement (including sub-advisory agreements); and/or (2) as trustee of an inter vivos or testamentary trust.
- Trust Shares purchases by a bank, trust company or thrift institution that is acting as a fiduciary exercising investment discretion.
- An individual or entity associated with a current customer of Franklin Templeton Institutional, LLC (FTI, LLC) if approved by FTI, LLC in consultation with its customers.
- Trust Shares held in accounts under the recommendation of an investment consultant provided that: (1) such Trust Shares are held with a firm unaffiliated with the investment consultant's firm; (2) the investment consultant is under a retainer or other similar fee arrangement with its clients; (3) the client is not an individual; and (4) a subsidiary of Franklin Resources, Inc. approves the investment.

- Clients of financial intermediaries that have entered into an agreement with FD to offer Advisor Class Trust Shares and have been approved by FD to offer Advisor Class Trust Shares. (Such clients are subject to the applicable financial intermediary's brokerage commissions and/or any other compensation for the purchase and holding of such Trust Shares. Clients can contact their financial intermediary for details on the compensation that will be paid to such financial intermediary by such client.)

## **Rights of Accumulation (ROA) and Reduced Initial Sales Charges for Trust Shares Purchased under Class A**

ROA permit certain Account Owners to combine their aggregate contributions to Accounts under the Program as well as holdings of certain unrelated mutual fund shares and certain college savings plan shares or units to reduce the initial sales charge under Class A.

Although ROA do not affect sales charges on contributions made under Class C, contributions to eligible Accounts established under Class C and Advisor Class may be taken into account for purposes of reducing initial sales charges on subsequent contributions under Class A.

ROA are applied through the aggregation of Trust Shares purchased with contributions to an Account with purchases of other "ROA" eligible shares (as described above).

- If an Account Owner or another eligible person owns "ROA eligible shares", the Account Owner can combine the value of such shares with the value of Trust Shares that are eligible for purposes of the ROA applicable to Class A Trust Shares for purposes of assessment of the Class A initial sales charge—potentially reducing that initial sales charge.
  - The value of eligible Trust Shares and of QHEE eligible shares for purposes of the ROA equals the greater of cost or current value of those shares.
    - The cost value of shares is determined by aggregating the amount you invested in ROA eligible shares (including reinvested dividends and capital gains, but excluding capital appreciation), less any distributions, as of the date prior to your current purchase.
    - The current value of Trust Shares or other ROA eligible shares is determined by multiplying the number of such shares by their highest current public offering price.

You should retain any records necessary to substantiate historical share costs because your current Financial Intermediary may not have or maintain this information. If there are ROA Discount Eligible Trust Shares or ROA eligible shares that would qualify for combining with your current purchase and you do not tell your current Financial Professional at the time of your current purchase or any future purchase, you may not receive the benefit of a reduced sales charge that might otherwise be available.

FD reserves the right to waive the initial sales charge under Class A for certain categories of Account Owners and certain categories of transactions.

Specific Financial Intermediaries may have different policies and procedures than the Program regarding the availability of ROA. The Program is not responsible for any such policies or procedures. In all instances, it is the Account Owner's responsibility to notify the contributor's Financial Professional at the time of the contribution of funds and purchase of Trust Shares of any relationship or other facts qualifying the purchase for ROA discounts under the applicable Financial Intermediary's policies and procedures. For ROA discounts not available through a particular Financial Intermediary, contributors will have to purchase Trust Shares directly from the Program or through another Financial Intermediary, and will have to notify the Program or such other Financial Intermediary, as applicable, at the time of the contribution of funds and purchase of Trust Shares of any relationship or other facts qualifying the purchase for ROA. See Appendix D for more information on certain Financial Intermediary-specific policies regarding such discounts. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary's policies.

## **Temporary Waiver Privilege**

If you sell Trust Shares, you may use all or a portion of the proceeds from that sale to buy Trust Shares within 90 days of the sale without an initial sales charge. This privilege (the "Temporary Waiver Privilege") does not apply to a purchase of

Trust Shares made through a regularly scheduled automatic investment plan such as a purchase by a regularly scheduled payroll deduction or transfer from a bank account.

To take advantage of this Temporary Waiver Privilege, you must inform your Financial Professional or the recordkeeper of your eligibility to exercise this privilege at the time of your investment. The Trust Share Class purchased with the proceeds from previously sold Trust Shares must match the Trust Share class of the previously sold Trust Shares, provided that you have appointed a Financial Intermediary of record at the time of the new purchase. If you have not appointed a Financial Intermediary of record at the time of the new purchase, the proceeds from the previously sold Trust Shares may only be used to purchase Class A Trust Shares.

If you paid a CDSC when you sold Class C Trust Shares and you have a Financial Intermediary of record at the time of investment for the Account(s) in which the purchased Trust Shares will be held, we will credit back to you the CDSC paid on the amount you are buying within 90 days of the sale by adding it to the amount of your purchase (for example, if you are investing \$10,000 within 90 days of an earlier \$10,000 sale on which you paid a \$100 CDSC, the amount of your investment will equal \$10,100). The new Trust Shares issued with your investment will be subject to any otherwise applicable CDSC.

If a CDSC was paid at the time of sale of Class C Trust Shares and you do not have a Financial Intermediary of record at the time of investment for the Account(s) in which the purchased Trust Shares will be held, the proceeds may be invested in Class A Trust Shares without an initial sales charge within 90 days of the sale. In such event, you will not be credited with any CDSC paid at the time of sale.

Please note that the Temporary Waiver Privilege does not change the tax treatment of a distribution from your Account, which may be treated as a Non-Qualified Distribution unless the withdrawn amount is reinvested within 60 days in Trust Shares in a different Program Account in compliance with the requirements applicable to Rollover Distributions. Please see “Contributing to Your Account,” “Making Changes to Your Account,” and “Tax Information.”

<b>Class of Trust Shares Sold</b>	<b>A Shares</b>	<b>C Shares</b>
<b>Period in Which Waiver Applies</b>	Within 90 days of sale	Within 90 days of sale.
<b>Class That May Be Purchased Under the Temporary Waiver Privilege</b>	If there is no Financial Intermediary on the Account at the time of purchase of the new Trust Shares	If there is a Financial Intermediary on the Account at the time of purchase of the new Trust Shares.
<b>Benefit of Temporary Waiver Privilege</b>	No initial sales charge (no CDSC credit)	Your Account will be credited for the amount of any CDSC paid and a new CDSC period will begin.

Specific Financial Intermediaries may have different policies and procedures than the Program regarding the availability of Temporary Waiver Privileges. The Program is not responsible for any such policies or procedures. In all instances, it is the Account Owner’s responsibility to notify the contributor’s Financial Professional at the time of the contribution of funds and purchase of Trust Shares of any facts qualifying the purchase for Temporary Waiver Privileges under the applicable Financial Intermediary’s policies and procedures. For Temporary Waiver Privileges not available through a particular Financial Intermediary, contributors will have to purchase Trust Shares directly from the Program or through another Financial Intermediary, and will have to notify the Program or such other Financial Intermediary, as applicable, at the time of the contribution of funds and purchase of Trust Shares of any facts qualifying the purchase for Temporary Waiver Privileges. See Appendix D for more information on certain Financial Professional-specific policies regarding such discounts. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary’s policies.

### **Other Compensation to Program Manager**

In connection with the sale by an Underlying Fund of its shares to the Trust, the Program Manager and/or its affiliates may be compensated by the Underlying Fund for administrative and other services provided to such fund.

## Financial Intermediary Compensation

### Fees Payable by FD to Financial Intermediaries

FD will compensate Financial Intermediaries through which contributions are received under Classes A and C except with respect to Franklin 529 Money Portfolio for which no compensation will be paid. No compensation is paid to a Financial Intermediary for contributions transferred to the Franklin U.S. Government Money 529 Portfolio from other Trust Portfolios. With respect to transfers of contributions from the Franklin U.S. Government Money 529 Portfolio to other Trust Portfolios, the Annual Sales Fee is paid to a Financial Intermediary with respect to such other Trust Portfolio as provided with respect to that Trust Portfolio. Payment of compensation to Financial Intermediaries will not affect the charges paid by the Account Owners or Third-Party Contributors. No compensation is paid by FD to Financial Intermediaries for contributions invested in Advisor Class Trust Shares.

#### Selling Commission Group 2, for table below:

All Other Trust Portfolios (except Franklin U.S. Government Money 529 Portfolio)

#### Financial Intermediary Compensation – Class A

Amount Contributed	Selling Commission <sup>1,5</sup>		Annual Sales Fee <sup>2</sup>
	GROUP 1 (See list above)	GROUP 2 (See list above)	All Trust Portfolios (except Franklin U.S. Government Money 529 Portfolio)
Less than \$50,000	2.00%	3.50%	0.25%
\$50,000 but under \$100,000	2.00%	3.50%	0.25%
\$100,000 but under \$250,000	1.75%	3.00%	0.25%
\$250,000 but under \$500,000 <sup>3</sup>	1.25%	2.25%	0.25%
\$500,000 but under \$1 million <sup>3</sup>	up to 1.00%	Up to 1.00%	0.25%
\$1 million and above <sup>3</sup>	up to 1.00% <sup>4</sup>	up to 1.00% <sup>4</sup>	0.25% <sup>4</sup>

1. Based upon the amount contributed (does not apply to Franklin U.S. Government Money 529 Portfolio).

2. Based on the average daily net assets in the Account (does not apply to Franklin U.S. Government Money 529 Portfolio).

3. Amounts in excess of Maximum Contribution Limit applicable only in connection with exercise of ROA to Accounts with different Beneficiaries.

4. For purchases above \$1,000,000 additional breakpoints may apply and or net asset value (NAV) purchases, a 1% CDSC may apply if shares are redeemed within 18 months. For a full schedule, please call (866) 362-1597.
5. Certain Financial Intermediaries may receive a lower selling commission depending on their policies in respect of the applicable breakpoints. See Appendix D for more information on certain Financial Intermediary-specific policies regarding selling commissions. Please consult with your Financial Professional if you have any questions regarding a Financial Intermediary's policies.

Notwithstanding the above, if no initial sales charge is assessed in connection with the sale of such Trust Shares, FD will not pay a Selling Commission to any Financial Intermediary with respect to such Trust Shares, but will pay an Annual Sales Fee as described in the above chart to the Financial Intermediary for the Account that purchases such Trust Shares.

### **Financial Intermediary Compensation – Class C**

No compensation is paid by FD to a Financial Intermediary with respect to contributions invested in the Franklin U.S. Government Money 529 Portfolio. If contributions originally invested in the Franklin U.S. Government Money 529 Portfolio are exchanged for Trust Shares of another Trust Portfolio, an annual Sales Fee compensation is paid by FD to the Financial Intermediary as though the Trust Shares in such other Trust Portfolio had been purchased on the exchange date.

FD reserves the right to revise these fee arrangements at its discretion. FD and/or its affiliates also may provide additional compensation to Financial Intermediaries that sell Trust Shares. This compensation may be based on the amount of sales of Trust Shares and/or total assets with the Trust. Such compensation to Financial Intermediaries may be made by payments from FD's portion of the Program fee or any sales charges or from FD's own resources.

FD also may compensate Financial Intermediaries that enable FD to participate in and/or present at college savings plan conferences or seminars, sales or training programs for registered representatives and other employees, client and investor education programs, and other Financial Intermediary-sponsored educational events relating to college savings plans. These payments may vary depending on the nature of the event. Other compensation may be offered to the extent not prohibited by federal or state laws and regulations or rules of self-regulatory organizations. FD makes payments for events it deems appropriate, subject to FD guidelines and applicable law.

Please contact your Financial Professional for information about any payments the Financial Intermediary with which such Financial Professional is associated receives from FD and any services provided.

### **Transition Provisions under Services Agreement**

If the Services Agreement expires or is terminated, FD may have the option to continue to serve as Program Manager with respect to Program Accounts established prior to the expiration or termination of the Services Agreement (the "Grandfathered Accounts"). In such event, Franklin Mutual Advisers may continue to serve as the Investment Manager for the Grandfathered Accounts, and Account Owners and Third-Party Contributors, as applicable, may continue to make contributions to such Accounts. The sales fees and any CDSC applicable to each Trust Share acquired under Class C with contributions to an Account shall continue to be applicable to such Trust Shares in accordance with the terms described above whether or not Franklin Mutual Advisers continues to serve as Investment Manager for the applicable Account at the time the sales fee or CDSC becomes due. See "Risk Factors – Change in Investment Policy, Program Manager or Investment Manager" and "Fees and Expenses."

## NJBEST Scholarship and Matching Grant

### NJBEST Scholarship

The New Jersey Higher Education Student Assistance Authority provides a tax-free scholarship to Beneficiaries who attend college in New Jersey and who have a Program Account in either the Plan or the NJBEST Plan. To qualify for the scholarship:

- the Program Account must have been open for at least four years prior to the scholarship award, during which time total contributions must equal at least \$1,200;
- the Account Owner must submit a certification to HESAA demonstrating the Beneficiary's attendance at an Eligible New Jersey Higher Educational Institution; and
- the Account Owner must take a qualified distribution from the Program Account; and the Account Owner (if an individual) or Beneficiary must be a resident of New Jersey at the time the Beneficiary attends college.

In addition, the availability of the scholarship is subject to the appropriation of sufficient funds by the State legislature for such purpose. The scholarship may be awarded only once to an eligible Beneficiary, but may be awarded for any semester of attendance by the Beneficiary at any institution of post-secondary education. The student (not the contributor) must log into NJFAMS to apply. Please visit [www.hesaa.org](http://www.hesaa.org) for additional information. The NJBEST Scholarship application must be completed by December 1 for the Fall semester and May 1 for the Spring semester.

Beginning with scholarships disbursed on or after June 7, 2021, pursuant to N.J.A.C. 9A:10-7.15, the scholarship amount is at least \$1,000. The amount of the scholarship increases by \$500 for every two years, in excess of four years, for which the Program Account has been open, up to a maximum amount of \$3,000, depending on the number of years and the level of contributions at the time the Beneficiary first enrolls at least half-time in an Eligible New Jersey Higher Educational Institution. However, the scholarship fund may not exceed the Beneficiary's actual cost of attendance. The table below indicates the possible scholarship amounts.

<b>Contribution (not less than)</b>	<b>Full Years Account Open</b>	<b>Scholarship Amount</b>
\$1,200	4	\$1,000
\$1,800	6	\$1,500
\$2,400	8	\$2,000
\$3,000	10	\$2,500
\$3,600	12	\$3,000

The Beneficiary must be enrolled at least half-time in an Eligible New Jersey Higher Educational Institution to be eligible for the scholarship. Scholarships are not awarded for study at out-of-state institutions or for elementary or secondary school attendance.

### NJBEST Matching Grant

For Accounts opened by a New Jersey resident on or after June 29, 2021, the New Jersey Higher Education Student Assistance Authority provides a one-time grant of up to \$750 in a dollar-for-dollar match of the Account Owner's initial deposit into the Account, provided that:

1. The Account Owner's household adjusted gross income is between \$0 and \$75,000;
2. The Account remains open and the Account Owner does not withdraw the shares purchased with the initial matched contribution (which may have increased or decreased in value) for a minimum of three years following the initial contribution into the Account;
3. Sufficient funds are available to finance the matching grants from direct State appropriations to HESAA or from Program administrative fees, the availability of which shall be determined annually by the Authority's Board; and

4. HESAA has not provided a matching grant to another Account established for the same Beneficiary.

To receive a matching grant from HESAA, an Account Owner must apply online on HESAA's website within one year of opening the Account and must submit their federal tax return transcript for the year prior to the application year to verify income.

- If no tax returns were filed for the year requested, an Account Owner may provide HESAA with documented proof, received through a federal or New Jersey state agency, of taxable and/or untaxed income, including, but not limited to, an IRS tax and wage transcript, receipt of unemployment insurance benefit payments, child support, alimony, welfare payments, Social Security benefits, Supplemental Security Income (SSI), or a benefit from any of the following federal programs: Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) or housing assistance.

If there are insufficient funds available to match the contributions of all applicants, HESAA will select participants for the matching grant program by order of when the application was received.

Within 60 days of approving an Account Owner's application, HESAA will provide the Investment Manager with the matching grant. The Investment Manager will deposit those funds into an escrow account, where it will be invested in the same Investment Option(s), proportionately, as the applicable Account.

After three years from such deposit, if the Account Owner meets the requirement that the Account Owner has not withdrawn the shares purchased with the initial contribution (which may have increased or decreased in value) from the Account for a minimum of three years following the initial contribution into the Account, the matching grant plus any investment earnings will be transferred from the escrow account to the Account.

If the escrow account incurs an investment loss such that the amount available for transfer from the escrow account to the Account is less than the matching grant provided by HESAA to the escrow account, HESAA will provide, upon or promptly after the transfer of the escrow account balance to the Account, an additional amount for deposit to the Account such that the aggregate amount so transferred to the Account equals the matching grant amount, subject to the availability to HESAA of such additional amount from direct State appropriations or from Program administrative fees.

If any portion of the shares purchased with the initial contribution for which a matching grant was provided (up to \$750) is withdrawn by the Account Owner during such three-year period for any reason (including in connection with a Qualified Distribution), the entire matching grant is forfeited.

The NJBEST matching grant is subject in all respects to the terms and conditions for such matching grant program, as amended from time to time. Such terms and conditions may be accessed at <https://www.hesaa.org/Pages/NJBESTMatchingProgram.aspx>.

## **Program Management**

### **The New Jersey Higher Education Student Assistance Authority**

HESAA administers the Program for the State of New Jersey. HESAA's Board is composed of public members and members representing various sectors of higher education appointed by the Governor of New Jersey, the State Treasurer, the Executive Director of the Authority, students, and representatives of other public boards with a mission in higher education. Originally founded in 1959, and expanded in 1999, HESAA's mission is to provide students and families with the financial and informational resources for students to pursue their education beyond high school. In addition to the Program, HESAA administers a variety of state grant and scholarship programs, serves as a guarantor and lender for federal student loans and offers a state supplemental student loan program.

Under the Act, HESAA acts as trustee for the Trust, selects Investment Managers for the Program, adopts regulations and carries out other functions necessary for the operation of the Program.

### **New Jersey Division of Investment and State Investment Council**

The Division of Investment is among the 50 largest public or private money managers in the United States. The State Investment Council oversees the administration of the Division of Investment. It is composed of public members appointed by the Governor of New Jersey and representatives of pension funds' boards. State law requires that no State Investment Council member shall hold any office, position or employment with any political party, and that no one can benefit from the transactions of the Division of Investment. The State Investment Council is required to approve the Investment Policy.

### **Franklin Templeton**

Franklin Templeton refers to a group of affiliated companies owned directly or indirectly by Franklin Resources, Inc. Franklin Templeton is a global organization with headquarters in San Mateo, California and a recognized leader in international and domestic stock investments as well as innovative fixed income investments.

FD, a subsidiary of Franklin Resources, Inc., has been retained by HESAA under a contract subject to a specific term to provide certain distribution, administrative and recordkeeping services for the NJBEST Program and investment management services for the Investment Options. FD is not responsible for the investment management of the Division Investment Options.

FD has retained its affiliate Franklin Mutual Advisers to serve as the Investment Manager for the Investment Options. Franklin Mutual Advisers manages, either directly or through sub-advisers approved by HESAA, the contributions received by the Trust for a particular Investment Option. Investment Options may be invested in mutual funds or ETFs for which Franklin Mutual Advisers or its affiliates serve as investment manager, or they may be invested in mutual funds, ETFs, or other investments that are unaffiliated with Franklin Mutual Advisers.

FTIS has been retained by FD to provide the administrative and recordkeeping services for which FD is responsible under the Services Agreement. In some cases, Trust Shares may be held by a broker in an "omnibus account" on behalf of Account Owners, and FTIS may enter into agreements with such brokers under which such brokers maintain and share the applicable Account records and provide Account statements to the applicable Account Owners. FTIS may compensate such brokers for such services.

## Tax Information

The discussion below is based on the Program's current understanding of Section 529. **This discussion is not exhaustive and is not intended as individual tax advice. In addition, there can be no assurance that the IRS or a state tax regulator will agree with the Program's understanding, or that it would be sustained in court if challenged. You should consult a qualified tax advisor regarding the application of federal, state and local tax law to your circumstances.** See "Risk Factors – Tax Risks" for additional information.

### Federal Tax Treatment

The following discussion summarizes certain aspects of federal income, gift, estate and generation-skipping transfer tax consequences relating to the Program and contributions to, earnings on and distributions from Accounts and reflects guidance provided in certain IRS notices regarding the content of final regulations that to date have not been promulgated.

The Program has been designed to meet the requirements of a QTP under Section 529. Accordingly, Account Owners and Beneficiaries are expected to be exempt from federal income tax on undistributed earnings allocated to Accounts established under the Program. To be eligible for such tax treatment and for Account Owners, Third-Party Contributors and Beneficiaries to receive the favorable federal income, gift, estate, and generation-skipping transfer tax treatment described below, the Program is required to implement certain restrictions and procedures applicable to the operation of the Program. Certain of these restrictions and procedures are described below.

- **Contributions.** Contributions to an Account by an Account Owner or a Third-Party Contributor do not result in taxable income to the Beneficiary. Neither the Account Owner nor a Third-Party Contributor may deduct the contribution from income for purposes of determining federal income taxes (i.e., contributions to an Account are made on an after-tax basis).

Contributions to an Account for a specific Beneficiary must be rejected (or, if accepted, returned) to the extent that the amount of the contribution would cause the aggregate amount held in Program Accounts for that Beneficiary to exceed the Maximum Contribution Limit established by HESAA. This limitation on contributions is intended to comply with the federal tax law requirement that the Program have adequate safeguards to prevent contributions to a Program Account in excess of those necessary to provide for the reasonably anticipated QHEE of the Beneficiary. For purposes of this limit, amounts on deposit in all Program Accounts for the same Beneficiary are taken into account, regardless of the Account Owner. While not now expected, it is possible that federal law might impose a lower limit on aggregate contributions to Program Accounts for the same Beneficiary than the current Maximum Contribution Limit.

An Account Owner may generally transfer into a Program Account, without adverse federal income tax consequences, all or part of the funds held in another Program Account, the Beneficiary of which is a Member of the Family of the Beneficiary of the receiving Account, if the funds are deposited to the receiving Program Account within 60 days of the distribution from the distributing Program Account. In addition, all or part of the funds held in a Coverdell ESA may be transferred without adverse tax consequences into a Program Account with a Beneficiary who is the same as the Coverdell ESA beneficiary. A person (whether the Account Owner or a Third-Party Contributor) who meets certain age and income limitations and who makes contributions to an Account, the Beneficiary of which is such person or such person's spouse or eligible dependent, may be allowed to exclude all or a portion of income from certain United States savings bonds issued after 1989 in computing such person's federal taxable income for the year in which a contribution to the Account is made. In those circumstances, some or all of the excluded savings bond income may be recognized at the time of a subsequent distribution from the Account. See "Opening an Account," "Making Changes to Your Account," and "Tax Information."

- **Taxation of Account Earnings.** Earnings from the investment of contributions to an Account will not be included in computing the federal taxable income of the Account Owner or Beneficiary until funds are distributed, in whole or in part, from the Account. Qualified Distributions, Rollover Distributions and Qualified Refund Distributions are tax-exempt for federal income tax purposes. Except in the case of tax-exempt Qualified Distributions, Rollover Distributions and Qualified Refund Distributions, the earnings portion of any other distribution from an Account will be includable in

computing the taxable income, for the year in which the distribution is paid, of the person receiving, or treated as receiving, the distribution, as described below. Any income which is not tax-exempt will be taxed at ordinary income tax rates.

- **Taxation of Distributions.**

### **Qualified Distributions**

Qualified Distributions are not subject to federal income taxes.

To establish, if required, that a distribution qualifies as a Qualified Distribution for tax purposes, it is advisable that you or the Beneficiary maintain records of the Eligible Educational Institution attended by the Beneficiary, the dates of attendance and the amount and type of QHEE (including, if applicable, Qualified Elementary or Secondary Education Expenses) paid (including bills, receipts or other documentation of the expenses paid).

A “Qualified Distribution” is a distribution that:

- does not (together with other Qualified Distributions in the applicable tax year) exceed the amount of QHEE paid in the applicable tax year (exceed the amount of QHEE paid in the applicable tax year, including;
  - Costs of tuition, fees, books, supplies and equipment required for the enrollment or attendance of a Beneficiary at an Eligible Educational Institution.
    - “Eligible Educational Institutions” are defined under Section 529 generally as accredited post-secondary educational institutions located in the United States offering credit toward a bachelor's degree, an associate's degree, a graduate level or professional degree, or another recognized post-secondary credential; however, certain proprietary institutions and post-secondary vocational institutions and certain institutions located in foreign countries may be Eligible Educational Institutions.
    - To be an Eligible Educational Institution for purposes of Section 529, the institution must be eligible to participate in U.S. Department of Education student financial aid and student loan programs under Title IV of the Higher Education Act of 1965, as amended.
  - Reasonable expenses for room and board of a Beneficiary incurred during an academic period while enrolled or accepted for enrollment in a degree, certificate, or other program (including a program of study abroad approved for credit by the Eligible Educational Institution) at an Eligible Educational Institution at least half-time.
    - A student will be considered to be enrolled at least half-time if the student is enrolled for at least half the full-time academic workload for the course of study the student is pursuing as determined under the standards of the institution where the student is enrolled. The institution's standard for a full-time workload must equal or exceed a standard established by the U.S. Department of Education under the Higher Education Act of 1965, as amended.
    - The amount of room and board treated as a QHEE cannot exceed the room and board allowance (applicable to the Beneficiary) included, for the period to which the distribution relates, in calculating the “cost of attendance” (as defined under the Higher Education Act of 1965, as in effect on the date of enactment of the 2001 amendments to that act, for purposes of federal financial aid programs) at the applicable Eligible Educational Institution, or, in the case of students living in housing owned or operated by the Eligible Educational Institution, the actual invoice amount, if higher than the “cost of attendance” figure.
  - Expenses for special needs services incurred by a Beneficiary who is a special needs beneficiary in connection with enrollment or attendance at the Eligible Educational Institution;
    - This includes expenses for the purchase of computer equipment or peripheral equipment controlled by a computer (excluding in either case equipment of a kind used primarily for amusement or entertainment of the user), computer software, or Internet access and related services, if such equipment, software, or services are to be used primarily by the Beneficiary during any of the years the Beneficiary is enrolled at an Eligible Educational Institution.

- Expenses for fees, books, supplies, and equipment required for the participation of the Beneficiary in an apprenticeship program registered and certified with the United States Secretary of Labor;
  - Principal or interest on any Qualified Education Loan of the Beneficiary or of a sibling of the beneficiary to the extent the amount of such distributions in a tax year does not exceed the lesser of the amount of such QHEE of the Beneficiary or such sibling, as applicable, paid in the applicable tax year or \$10,000, reduced by the amount of such distributions treated as QHEE of the Beneficiary or such sibling, as applicable, for all prior taxable years.
- Qualified Elementary or Secondary Expenses of the Beneficiary, to the extent the amount of such distributions in a tax year, together with the amount of all other distributions made in the same tax year to pay Qualified Elementary or Secondary Education Expenses of the Beneficiary from any other account in any Savings-Type QTP (irrespective of whether such account is owned by the Account Owner or by another person), does not exceed the lesser of \$10,000 or the amount of Qualified Elementary or Secondary Education Expenses of the Beneficiary paid in the applicable tax year.
  - The IRS has not yet provided guidance on the allocation of payments of Qualified Elementary or Secondary Education Expenses to Qualified Distributions in the event different taxpayers make payments aggregating more than \$10,000 for the Qualified Elementary or Secondary Education Expenses of the same Beneficiary in the same tax year.

### **Rollover Distributions**

A Rollover Distribution is not subject to federal income taxes. A Rollover Distribution from your Program Account includes any of the following:

1. within 60 days of a distribution you transfer the funds withdrawn from your Program Account to another Program Account with a Beneficiary who is a Member of the Family of the Beneficiary of the Program Account from which the distribution was made;
  2. within 60 days of your distribution of funds from your Program Account you transfer such funds to an account established in another QTP;
  3. for distributions made prior to January 1, 2026, within 60 days of your distribution of funds from your Program Account you transfer such funds to an account established in a Qualified ABLE Program, provided that the amount of the Rollover Distribution cannot, together with amounts previously contributed to the recipient account in the same year, exceed the annual limit on contributions to an account in a Qualified ABLE Program (currently \$16,000) without consideration of certain provisions applicable to additional contributions by working beneficiaries of such accounts; or
  4. you direct the Program to transfer funds directly from your Program Account to such other Program Account described in clause (1) above or other QTP account or, subject to the limitations described in clause (3) above, Qualified ABLE Program account.
- In the case of a Rollover Distribution from a Program Account to another QTP account or vice versa, the Beneficiary can remain unchanged if at the time of such transfer, at least 12 months have elapsed since the last Rollover Distribution to any QTP for the benefit of the same Beneficiary. Otherwise, the Beneficiary of the account in the QTP receiving the Rollover Distribution must be a different individual from the Beneficiary of the Program Account from which the Rollover Distribution is made, and must be a Member of the Family of the Beneficiary of the Program Account from which the Rollover Distribution is made.
  - In the case of a Rollover Distribution from a Program Account to a Qualified ABLE Program account, the Beneficiary can remain unchanged or be a Member of the Family of the Beneficiary of the Program Account from which the Rollover Distribution is made.
  - HESAA regulations currently permit HESAA to charge a fee of up to \$75 with respect to Rollover Distributions from Program Accounts to other QTPs. HESAA has not, as of this date, charged such a fee, but reserves the right to do so without prior notice at any time.

## **Limited Tax-Free Distributions of Certain Unspent Account Balances to Roth IRAs**

For distributions made after December 31, 2023, no federal income taxes are payable on a distribution to the extent you transfer the distributed funds directly from your Program Account to a Roth IRA established for the benefit of the beneficiary of your Program Account, provided that (i) the Program Account has been maintained for at least 15 years prior to the date of the applicable distribution, (ii) the amount of the distribution does not exceed the aggregate amount contributed to the Program Account (and attributable earnings) before the 5-year period ending on the date of the distribution, (iii) the amount of the distribution does not, together with amounts previously transferred in the same or a prior taxable year from such Program Account or from any other QTP account established for the same beneficiary to any Roth Account for such beneficiary, exceed \$35,000, and (iv) the amount of the distribution does not exceed the maximum amount permitted to be contributed to a Roth IRA in such tax year under the rules applicable to Roth IRAs, as adjusted with respect to rollover contributions from QTP accounts. A distribution that meets these conditions is referred to as a Roth IRA Distribution.

## **Non-Qualified Distributions**

Non-Qualified Distributions include any use of money in your Account for any purpose other than a Qualified Distribution. Generally, the earnings portion of a Non-Qualified Distribution (other than a Rollover Distribution, a Roth IRA Distribution or a Qualified Refund Distribution) is subject to federal income taxes and to a 10% additional federal income tax. The earnings portion of distributions in the circumstances below are subject to federal income taxes, but not to the 10% additional federal income tax. For this purpose, calculations of the earnings portions of a distribution generally will be made as of the date of distribution. The taxable portion, if any, is based on the relative proportions of earnings and contributions in the Account (and in any other account established by the applicable Account Owner for the same Beneficiary in any college savings plan sponsored by HESAA that, if so required by federal tax law under any guidance issued by the Treasury Department determined to be in effect for the year of such distribution, is consolidated with such Account for such purpose). Apportionments of distributions between a return of contributions and earnings will be made in accordance with Section 529.:

- ***Death of Beneficiary.*** Under current federal tax law, a distribution on account of the Beneficiary's death is included in the estate of the Beneficiary and the income tax treatment depends on whether the distribution is actually received by the estate or is received by the Account Owner. If the distribution is actually received by the estate, the portion of such distribution deemed to constitute earnings will be subject to federal income tax, but not to the 10% additional federal income tax. If the distribution is actually received by the Account Owner, the portion of such distribution deemed to constitute earnings will be subject to federal income tax and to the 10% additional federal income tax. An Account Owner may be able to change the Beneficiary to another Member of the Family of the Beneficiary and thereby avoid a distribution for federal income tax purposes. To establish, if required, that a distribution qualifies as a distribution on account of the death of the Beneficiary, it is advisable that the Account Owner maintain a certified death certificate containing the name and Social Security number or Taxpayer Identification Number ("TIN") of the Beneficiary or other appropriate proof of death.
- ***Permanent disability of beneficiary.*** A distribution qualifies as a distribution on account of the permanent disability of the Beneficiary if at the time it is made the Beneficiary is unable to engage in any substantial gainful activity by reason of a medically determinable physical or mental impairment which can be expected to result in death or to be of long-continued and indefinite duration. To be able to establish, if required, that a distribution so qualifies, it is advisable that the Account Owner obtains and maintains a certification to such effect from a Doctor of Medicine or osteopathy who is legally authorized to practice in a state of the United States.
- ***Receipt of a qualified scholarship by the Beneficiary.*** The amount of the distribution from an Account treated as a distribution on account of a qualified scholarship cannot exceed the amount of the qualified scholarship received by the Beneficiary. For this purpose, a qualified scholarship also includes certain educational assistance allowances under federal law and certain payments for education expenses or attributable to attendance at certain educational institutions that are exempt from federal income tax. Account Owners and Beneficiaries should contact their tax advisors for more information. To be able to establish, if required, that a distribution should be treated as a distribution because of a qualified scholarship, it is advisable that the Account Owner obtain and maintain a letter from the grantor of the scholarship or from the institution receiving or administering the scholarship that:

- (1) identifies the Beneficiary by name and Social Security Number or IRS TIN as the recipient.
  - (2) states the amount of the qualified scholarship;
  - (3) indicates the period of time or number of credits or units to which the scholarship applies or the date of the grant; and
  - (4) if applicable, identifies the institution to which the qualified scholarship is to be applied.
- **Attendance by the Beneficiary at a U.S. military academy.** The amount of the distribution from an Account treated as a distribution on account of attendance at a U.S. military academy cannot exceed the costs of advanced education (as defined by United States Code title 10, section 2005 (e) (3)) attributable to such attendance.
  - **Distributions Corresponding to Expenses Taken into Account in Claiming Certain Tax Credits.** Qualified higher education expenses taken into account in the applicable tax year in claiming the Hope Scholarship/American Opportunity tax credit or the Lifetime Learning Credit may not also be taken into account for purposes of determining the amount of Qualified Distributions in such tax year. To the extent a Non-Qualified Distribution would have been a Qualified Distribution if not for the use of QHEE for purposes of obtaining a Hope Scholarship/American Opportunity or Lifetime Learning credit in the applicable tax year, the portion of such distribution deemed to constitute earnings will be subject to federal income tax but not to the 10% additional federal income tax.

#### **Distributions for Refunded Payments of QHEE Recontributed to a QTP.**

The amount of a distribution (or portion thereof) used to pay the QHEE of the Beneficiary at an Eligible Educational Institution but refunded to the Beneficiary by the Eligible Educational Institution will not be treated as a Non-Qualified Distribution to the extent the such distribution is recontributed to the Account of such Beneficiary or to an account for the Beneficiary in another QTP within 60 days of the Beneficiary's receipt of the refund from the Eligible Educational Institution.

- **Other Higher Education Expense Benefit Programs.** The tax benefits afforded to QTPs must be coordinated with other programs designed for meeting higher education expenses to avoid the duplication of such benefits. The coordinated programs include Coverdell ESAs under Section 530 of the Code and the Hope Scholarship and Lifetime Learning Credits under Section 25A of the Code.

Under Section 529 as currently in effect, the amount of a Beneficiary's QHEE in any tax year will be reduced by the aggregate of (1) the amount of the Beneficiary's expenses used for such tax year to qualify for the Hope Scholarship Credit and/or Lifetime Learning Credit; and (2) the amount received by the Beneficiary from certain qualified scholarships, allowances or payments.

A taxpayer may contribute to or direct the distribution from both a Program Account and a Coverdell ESA in the same year. However, if distributions for the benefit of a Beneficiary from the Program, any other QTP and/or one or more Coverdell ESAs in any tax year exceed the Beneficiary's QHEE for the year (after the reduction described in the previous paragraph), then the taxpayer will be required to allocate the expenses among such distributions. The same expenses cannot count both for Coverdell ESA purposes and as QHEE for purposes of the Program.

- **Record Retention.** You should retain records, invoices or other documents and information adequate to substantiate: (1) particular expenses which you claim to be QHEE; (2) distributions due to death or permanent disability of, or receipt of a qualified scholarship or attendance at a U.S. military academy by, a Beneficiary; (3) the earnings component of and compliance with the timing requirements applicable to Rollover Distributions; and (4) the earnings component of contributions funded from qualified savings bonds or Coverdell ESAs, because it is your responsibility to substantiate contributions to, and transfers from, any QTP account if the IRS or any state taxing authority requires you to do so. You should consult with your tax advisor as to what documentation may be required.
- **Federal Gift, Estate and Generation-Skipping Transfer Taxes.** Contributions to the Program, including certain Rollover Distributions, are generally considered completed gifts to the Beneficiary for federal gift, estate and generation-skipping transfer tax purposes and are, therefore, potentially subject to federal gift tax and generation-skipping transfer tax.

- Under current tax law, if contributions made by an Account Owner or Third-Party Contributor to Accounts of a Beneficiary, together with all other gifts by the Account Owner or Third-Party Contributor who makes the contribution to the Beneficiary, including contributions to all QTP accounts, do not exceed \$18,000 during a year (\$36,000 for married filers electing gift splitting on their federal tax return), no federal gift tax or generation-skipping transfer tax will be imposed on the Account Owner or Third-Party Contributor, as applicable, for gifts to the Beneficiary during that year. (These annual exclusion amounts are as of 2024 and are periodically adjusted for inflation.)
- In cases where contributions to a QTP account exceed the applicable annual exclusion amount for a single Beneficiary, the contributions may be subject to federal gift tax and possibly generation-skipping transfer tax in the year of contribution. However, an individual currently can make a gift to an Account for a Beneficiary of up to five times the annual exclusion amount. For example, for 2024, the maximum contribution that may be made using this rule would be \$90,000 in one year (or married filers electing gift splitting can make a joint gift of up to \$180,000 in one year) without triggering the tax. To do this, the person making the contribution must elect to treat the entire gift as a series of five equal annual gifts. The five-year prorating is elected by filing a gift tax return for the year in which the gift is made. Once this election is made, any additional gifts by the person making the contribution to the same Beneficiary during the applicable five years that will, when combined with the gift spread over five years under Section 529, result in a gift in any year of more than the annual exclusion amount may be subject to gift tax or generation-skipping transfer tax and will require a separate federal gift tax return.
- Amounts in an Account that were considered completed gifts by the Account Owner or Third-Party Contributor who makes the contribution will not be included in such person's gross estate for federal estate tax purposes. However, if such person elects to treat the gifts as having been made over a five-year period and dies before the end of the five-year period, the portion of the contribution allocable to the remaining years in the five-year period (not including the year of death) would be includable in computing such person's gross estate for federal estate tax purposes.
- Each individual has a \$13,610,000 (as of 2024, and indexed for inflation) lifetime exemption equivalent that may be applied to gifts in excess of the gift tax annual exclusion amounts referred to above made after December 31, 2017 and before January 1, 2026, and a \$5,600,000 (as of 2018, and indexed for inflation) lifetime exemption equivalent that may be applied to gifts made before January 1, 2018 or after December 31, 2025. For this reason, this tax is unlikely to apply to many individuals contributing to Program Accounts or Beneficiaries. The maximum gift tax rate imposed on gifts not sheltered by the annual exclusion or lifetime exemption is 40%. A person making or contemplating a contribution to a Program Account should consult with his or her own tax advisor regarding the applicability of gift, estate and generation-skipping transfer tax to their Program Account transactions, the current lifetime exemptions and the gift tax filing requirements.
- Under Section 529, amounts distributed on account of the death of a Beneficiary will be included in the Beneficiary's gross estate for federal estate tax purposes. Each individual has a \$13,610,000 exemption (as of 2023, subject to annual upwards adjustment for inflation), reduced by the amount of lifetime gifts made by such individual in excess of the annual gift tax exclusion amounts, for deaths occurring after December 31, 2017 and before January 1, 2026, and a \$5,600,000 (as of 2018, and indexed for inflation) estate tax exemption, reduced by the amount of lifetime gifts made by such individual in excess of the annual gift tax exclusion amounts, for deaths occurring before January 1, 2018 or after December 31, 2025.
- The proposed U.S. Treasury regulations provide, however, that all amounts in an Account at the death of a Beneficiary will be included in the Beneficiary's gross estate for federal estate tax purposes without regard to whether any distribution results from the Beneficiary's death. A change of the Beneficiary of an Account or a transfer to an Account for another Beneficiary will potentially be subject to gift tax if the new Beneficiary is of a younger generation than the Beneficiary being replaced. In addition, if the new Beneficiary is two or more generations below the Beneficiary being replaced, the transfer may be subject to the generation-skipping transfer tax (discussed below). Under the proposed U.S. Treasury regulations, these taxes are imposed on the prior Beneficiary. Account Owners should consult their own tax advisors for guidance when considering a change of Beneficiary or a transfer to another QTP account and should evaluate the potential gift tax implications to an existing Beneficiary when considering such a change. Furthermore, Account Owners who transfer Account assets to the QTP account of another Account Owner, as well as the recipient Account Owner, should consult their tax

advisors regarding the potential applicability of gift tax or generation-skipping transfer tax as a result of such transfer.

- Because contributions to an Account are treated as completed gifts for federal transfer tax purposes, an Account Owner or Third-Party Contributor contributing to an Account may also need to evaluate the effect of the generation-skipping transfer tax. This tax may apply to contributions in excess of the amount that may be elected to be ratably spread over the above-referenced five-year period where the Beneficiary is deemed to be a member of a generation that is two or more generations younger than the generation of the individual making the contribution. Each individual has a \$13,610,000 generation-skipping transfer tax exemption (as of 2024, subject to annual upwards adjustment for inflation) for transfers made after December 31, 2017 and before January 1, 2026, and a \$5,600,000 (as of 2018, and indexed for inflation) generation-skipping transfer tax exemption for transfers made before January 1, 2018 or after December 31, 2025 that will be allocated to transfers that are subject to generation-skipping transfer tax unless certain elections are made. For this reason, this tax is unlikely to apply to many individuals contributing to Program Accounts or Beneficiaries. However, where it does apply, it is imposed at a 40% rate. A person making or contemplating a contribution to a Program Account who is concerned about application of the generation-skipping transfer tax should consult with his or her own tax advisor.

### Accounts Established by Business Entities

Corporations, limited liability companies, partnerships, trusts and other entities that wish to contribute to or own Accounts should seek counsel on how tax rules will apply to their transfer of funds and to Accounts that they own. Business entities should be aware that their contributions to an Account or distributions from the Account to pay QHEE may constitute employment compensation (if the Beneficiary is or was an employee or a family member of an employee) or constructive dividends or distributions (if the Beneficiary is an owner or a family member of an owner of the entity).

### Unrelated Business Taxable Income

Under Section 529, the Program is generally exempt from taxation, but is subject to taxation on unrelated business taxable income of charitable organizations under Section 511 of the Code (“UBTI”). UBTI includes, among other items, debt-financed investment income and certain income from interest rate swap and other types of investment transactions. The Investment Managers generally are not expected to engage in transactions that would generate UBTI. If any UBTI is generated with respect to any investment or other income of the Program, any tax payable in connection therewith will be treated as an expense of the Program and will be allocated among the applicable Investment Options in accordance with the income allocated thereto from the applicable transaction.

### State Income Tax Treatment

- **In General.** The tax benefits described in this Program Description are federal tax benefits. State and local tax treatment may differ based on the state or states in which you pay taxes. **If you pay state taxes in states other than New Jersey, you should evaluate whether any state in which you or your Beneficiary pays taxes will tax any earnings withdrawn from your Account. You should also consider whether any state in which you, a Third-Party Contributor or your Beneficiary resides or pays taxes offers special tax incentives or other benefits in connection with any QTP sponsored by such state that may not be available to you, a Third-Party Contributor or your Beneficiary under the Program. You should consider this state tax treatment and other benefits, if any, before making an investment decision.** You should also consult with your tax advisor about any state or local taxes, including income, gift, estate and generation-skipping transfer taxes.
- **State of New Jersey.** Contributions to an Account by an Account Owner or a Third-Party Contributor do not result in income to the Beneficiary for purposes of New Jersey personal income tax.

Effective for taxable years beginning January 1, 2022, an Account Owner or Third Party Contributor with gross income of \$200,000 or less may deduct from his or her gross income for the taxable year for purposes of determining New Jersey personal income tax an amount equal to the lesser of such taxpayer’s contribution(s) for the applicable year to one or more Accounts or \$10,000.

- Such deduction is not available for transfers or rollover contributions into the Account from another Account or from another QTP account.
  - The amount of any such deductions deemed withdrawn from an Account as part of a distribution that is not (i) a Qualified Distribution or (ii) a Rollover Distribution to another QTP account or to a Qualified ABLE Program account shall be included as gross income for purposes of determining New Jersey personal income tax in the year of the applicable distribution; no guidance is currently available on the allocation methodology for allocating deductions to distributions. The amount of any such deductions deemed withdrawn from an Account as part of a Roth IRA Distribution will be considered gross income for purposes of determining New Jersey personal income tax in the year of the applicable distribution.

Except as provided above, neither an Account Owner nor a Third-Party Contributor may deduct a contribution to an Account from gross income for purposes of determining New Jersey personal income tax.

Account Owners and Beneficiaries are exempt from New Jersey personal income tax on undistributed earnings allocated to Accounts established under the Program.

Upon distribution from an Account the earnings portion of the amount distributed will be recognized as taxable income of the distributee unless such distribution: (1) is a Qualified Distribution used to pay for QHEE relating to attendance at an Eligible Educational Institution (for other types of Qualified Distributions, see discussion below); (2) is a Rollover Distribution, or (3) involves a change in the Beneficiary of an Account to a Member of the Family of the prior Beneficiary of the Account. The earnings portion of a Roth IRA Distribution will be included as gross income for purposes of determining New Jersey personal income tax in the year of the applicable distribution.

- The portion of a distribution that is attributable to earnings is determined in accordance with the principles applied in determining the amount of a distribution attributable to earnings under Section 529.
- Upon distribution from an Account, the earnings portion of the amount distributed will be recognized as taxable income of the distributee unless such distribution: (1) is a Qualified Distribution; (2) is a Rollover Distribution; or (3) involves a change in the Beneficiary of an Account to a Member of the Family of the prior Beneficiary of the Account. The earnings portion of a Roth IRA Distribution will be included as gross income for purposes of determining New Jersey personal income tax in the year of the applicable distribution.

New Jersey currently has both an estate tax and an inheritance tax. New Jersey's estate tax, which is imposed upon the estates of New Jersey resident decedents, generally follows the federal estate tax rules in determining the taxable estate, and therefore generally excludes an Account from the Account Owner's estate to the same extent that it is excluded for federal estate tax purposes. For New Jersey inheritance tax purposes, the New Jersey Division of Taxation takes the position that Accounts are included in the gross estate of an Account Owner who is a New Jersey resident decedent. Accordingly, the transfer of an Account to a new Account Owner upon the death of an Account Owner may be subject to New Jersey inheritance tax if the new Account Owner is someone other than a lineal descendant of the decedent. Transfers made to an Account by a Third Party Contributor who was a New Jersey resident within three years of such Third Party Contributor's death may be subject to New Jersey inheritance tax if they were made to a non-lineal descendant and if the contribution is determined both to constitute a material part of the decedent's estate, or to be in the nature of a final disposition or distribution of the estate, and to have been made in contemplation of death. Account Owners and Third-Party Contributors should consult their own tax advisors about the potential applicability of New Jersey estate and inheritance taxes, and the liability for the payment of such taxes when due.

- **Other States.** Potential Account Owners and Third-Party Contributors should consider the potential impact of taxes which may be imposed by jurisdictions other than the State. It is possible that an Account Owner or recipient of money distributed from Program Accounts may be subject to income tax on Account earnings or distributions by a state other than New Jersey, where he or she lives or pays taxes. It is also possible that Rollover Distributions to Program Accounts from another QTP may be subject to a tax imposed on the Rollover Distributions by another state. Other state or local taxes may also apply.

Account Owners, Third-Party Contributors and Beneficiaries should consult their own tax advisors about the applicability, if any, of state or local taxes in other jurisdictions and the applicability of the New Jersey personal income tax on Account Owners and Beneficiaries who are not New Jersey residents.

## **Tax Reporting**

Currently, you are not required to submit proof to the Program of the type of distribution you are making, and the Program is not required to report the type of distribution to tax authorities. The Program will report distributions and other matters to the IRS, distributees and other persons, if any, to the extent required pursuant to applicable federal, state or local law, regulation or ruling or requested by a taxing authority entitled to such information.

Under federal law, the Program is required to report on Form 1099-Q the amount of earnings and return of contribution distributed from a Program Account in each calendar year to each distributee. By January 31 of the following year, the distributee (which in the case of Qualified Distributions, other than Qualified Distributions to a sibling of the Beneficiary, is deemed to be the Beneficiary whose QHEE are paid thereby) will receive a copy of such information return or a corresponding statement. It will be the Account Owner's or Beneficiary's responsibility, as applicable, to substantiate upon request by the IRS or state tax authorities a distribution that has been treated on a tax return as a Qualified Distribution, a distribution on account of death or permanent disability of the Beneficiary, a distribution on account of a qualified scholarship awarded to the Beneficiary, attendance by the Beneficiary at a U.S. military academy, or a Rollover Distribution. Accordingly, the Account Owner and, if applicable, the Beneficiary should maintain records and documentation substantiating the type of distribution(s) received in each tax year.

For purposes of such tax reporting and subject to tax methodology guidance provided by the IRS from time to time, all Program Accounts with the same Account Owner for the same Beneficiary may be treated as a single Program Account upon any distribution, and the earnings component of any distribution from any such Program Account, and from any Investment Option under such Program Account, may be reported to the IRS, in accordance with the tax methodology required by the Code, on the basis of all earnings in all such Program Accounts, irrespective of which Program Account or Investment Option you select for the particular distribution.

## **Reporting and Other Matters**

### **Account Statements**

Quarterly Account statements will be sent to Account Owners.

### **Audited Financial Statements**

An annual audit report will be prepared for the Program by an independent accountant in accordance with generally accepted accounting principles.

### **Tax Withholding**

Under the proposed U.S. Treasury regulations, distributions from Accounts are not subject to backup withholding.

### **Continuing Disclosure**

HESAA has executed a Continuing Disclosure Agreement for the benefit of Account Owners in accordance with Rule 15c2-12(b)(5) under the Securities Exchange Act of 1934, as amended. Under the Continuing Disclosure Agreement, HESAA is required to provide certain updated financial information and operating data relating to the Program (“Annual Information”) within 200 days of each June 30, and notices of the occurrence of certain enumerated events set forth in the Continuing Disclosure Agreement. The Annual Information is required to be filed by or on behalf of HESAA with the Municipal Securities Rulemaking Board’s Electronic Municipal Market Access (EMMA) website.

### **Securities Investor Protection Corporation (SIPC)**

Account Owners may obtain information about the Securities Investor Protection Corporation (“SIPC”), including the SIPC brochure, by contacting SIPC at its website, [www.sipc.org](http://www.sipc.org), or its phone number, (202) 371-8300. The inclusion of this information is not intended to suggest that Accounts are subject to SIPC protection or that any losses sustained in an Account would be covered by SIPC.

## Obtaining Additional Information; Program Contacts

Other documents and reports, including prospectuses for any mutual fund/ETF which is referenced in this Program Description, are available upon request. The toll free phone number for the Program is (866) 362-1597. The website for the Plan is <https://www.franklintempleton.com/529>.

## Glossary of Terms

<b>Account</b>	An account within the Plan.
<b>Account Owner/You</b>	The current owner of an account within the Plan, who may be either the person who established the Account or a successor Account Owner.
<b>Act</b>	N.J.S.A. 18A:71B-35 through 46, as amended.
<b>Age-Based Trust Portfolios</b>	The Trust Portfolios that customize their investments in combinations of Underlying Funds based in part on the age of the Beneficiary.
<b>Beneficiary</b>	The current individual whom the Account Owner has designated as the beneficiary of the Account. A Provisional Beneficiary is not a Beneficiary as defined in this Program Description.
<b>CDSC</b>	Contingent deferred sales charge.
<b>Code</b>	Internal Revenue Code of 1986, as amended.
<b>Coverdell ESA</b>	Coverdell Education Savings Account established under Section 530 of the Code.
<b>Direct Transfer</b>	Means a direct transfer of funds from an account in one QTP to an account in another QTP.
<b>Division of Investment</b>	New Jersey Department of the Treasury, Division of Investment.
<b>Division Investment Options</b>	Investment options for which the New Jersey Department of the Treasury, Division of Investment serves as investment manager.
<b>Eligible Educational Institution</b>	An accredited post-secondary educational institution located in the United States offering credit toward a bachelor's degree, an associate's degree, a graduate level or professional degree, or another recognized post-secondary credential; however, certain proprietary institutions and post-secondary vocational institutions and certain institutions located in foreign countries may be Eligible Educational Institutions. To be an Eligible Educational Institution for purposes of Section 529, the institution must be eligible to participate in U.S. Department of Education student financial aid and student loan programs under Title IV of the Higher Education Act of 1965, as amended.
<b>Eligible New Jersey Higher Educational Institution</b>	Defined generally as an accredited post-secondary educational institution located in New Jersey offering credit toward a bachelor's degree or an associate's degree. With respect to proprietary institutions, undergraduate attendance or enrollment must be in a degree-granting program licensed or approved by the New Jersey Commission on Higher Education.
<b>FD</b>	Franklin Distributors, LLC, the Program Manager.
<b>Financial Intermediary</b>	A broker-dealer or other financial intermediary acting pursuant to an agreement with FD.
<b>Financial Professional</b>	A licensed broker or other representative associated with a Financial Intermediary.
<b>Franklin Mutual Advisers</b>	Franklin Mutual Advisers, LLC, an affiliate of FD, serving as the Investment Manager for the Investment Options.
<b>Franklin Templeton Investment Options</b>	Investment Options for which Franklin Mutual Advisers currently serves as Investment Manager, including the Investment Options described in this Program Description.
<b>Franklin Templeton</b>	A group of affiliated companies owned directly or indirectly by Franklin Resources, Inc.
<b>FTIS</b>	Franklin Templeton Investor Services, LLC, an affiliate of FD which provides certain administrative and recordkeeping services for the Program.
<b>HESAA</b>	The New Jersey Higher Education Student Assistance Authority.
<b>Individual Fund Portfolio</b>	A Trust Portfolio that is invested in a single mutual fund or ETF.

<b>Investment Manager</b>	An investment manager selected by HESAA for the Plan, including Franklin Mutual Advisers or any successor as the Investment Manager.
<b>Investment Option</b>	The designation of a contribution received by the Trust to a particular investment portfolio of the Trust that is managed by the Investment Manager.
<b>Investment Policy</b>	The applicable requirements of the investment policy established by HESAA with the approval of the State Investment Council.
<b>LOI</b>	A Letter of Intent, which is a commitment by the Account Owner that a specified dollar amount will be invested in the Account during a 13-month period. The amount the Account Owner agrees to invest determines the applicable initial sales charge.
<b>Maximum Contribution Limit</b>	The aggregate balance in all Program Accounts established on behalf of a particular Beneficiary which may not be exceeded through additional contributions (currently \$305,000).
<b>Member of the Family</b>	A person related to the Beneficiary as follows: <ol style="list-style-type: none"> <li>(1) a son or daughter, or a descendant of either;</li> <li>(2) a stepson or stepdaughter;</li> <li>(3) a brother, sister, stepbrother or stepsister;</li> <li>(4) the father or mother, or an ancestor of either;</li> <li>(5) a stepfather or stepmother;</li> <li>(6) a son or daughter of a brother or sister;</li> <li>(7) a brother or sister of the father or mother;</li> <li>(8) a son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law;</li> <li>(9) the spouse of the Beneficiary or of any of the other foregoing individuals; or</li> <li>(10) a first cousin. For purposes of the "Member of the Family" definition, a child includes a legally adopted child and a brother or sister includes a brother or sister by half-blood.</li> </ol>
<b>NAV</b>	Net asset value.
<b>Non-Qualified Distribution</b>	A distribution of money from an Account for any purpose other than to pay Qualified Higher Educational Expenses.
<b>NJBEST</b>	The New Jersey Better Educational Savings Trust.
<b>NJBEST Account</b>	An account set up under the NJBEST Plan.
<b>NJBEST Plan</b>	The NJBEST 529 College Savings Plan, which is made available to: <ol style="list-style-type: none"> <li>(1) individuals who are, or whose Beneficiaries are, New Jersey residents and who invest without the assistance of a Financial Professional; and</li> <li>(2) employees of any Franklin Templeton company (or their immediate family members) who do not reside in New Jersey and who invest without the assistance of a Financial Professional. Trust Units are available through the NJBEST Plan without sales charges or sales fees.</li> </ol> An NJBEST Plan program description is available through from us.
<b>Objective-Based Trust Portfolios</b>	The Trust Portfolios that customize their investments in combinations of Underlying Funds based on an objective of exposure to one or more investment asset classes within a specified percentage range and irrespective of the age of the Beneficiary.
<b>Plan</b>	The Franklin Templeton 529 College Savings Plan.
<b>Program</b>	The New Jersey Better Educational Savings Trust (NJBEST) Program, which includes both the Franklin Templeton 529 College Savings Plan and the NJBEST 529 College Savings Plan.
<b>Program Accounts</b>	Accounts within the Program.

<b>Program Description</b>	This document, including appendices and any future supplements to it (previously known as the “Investor Handbook”), which contain information you should know before you participate in the Plan, such as certain risks, limitations, performance history and fees.
<b>Program Manager</b>	FD or any successor as the Program Manager.
<b>Program Recordkeeper</b>	FTIS or any successor as the Program Recordkeeper.
<b>Provisional Beneficiary</b>	<p>An individual designated by a state or local governmental organization, or an organization described in section 501(c)(3) of the Code, subject to terms and conditions established by such organization and which may be changed by such organization at any time, as a potential recipient of certain contributions to the Plan made by such organization to an Account owned by such organization as part of a scholarship program operated by such organization.</p> <p>A Provisional Beneficiary is not a Beneficiary as defined in this Program Description prior to such time, if any, that such Provisional Beneficiary receives a distribution from such Account or such Account, or any portion thereof, is converted or transferred to an Account not owned by such organization of which the Provisional Beneficiary is the Beneficiary.</p>
<b>Qualified ABLE Program</b>	A program established and maintained by a state or a state agency or instrumentality under which a person may make contributions for eligible individuals to an account established for the purpose of meeting the qualified disability expenses of such eligible individual, all in accordance with Section 529A of the Code.
<b>Qualified Distribution</b>	A distribution from an Account to pay Qualified Higher-Education Expenses.
<b>Qualified Education Loan</b>	Any qualified education loan, as defined in section 221(d) of the Code.
<b>Qualified Elementary or Secondary Education Expenses</b>	Expenses for tuition in connection with enrollment or attendance at an elementary or secondary public, private, or religious school.
<b>Qualified Higher-Education Expenses or QHEE</b>	<ol style="list-style-type: none"> <li>(1) the costs of tuition, fees, books, supplies and equipment required for the enrollment or attendance of a Beneficiary at an Eligible Educational Institution;</li> <li>(2) expenses for room and board, within certain limits, for a Beneficiary attending an Eligible Educational Institution on at least a half-time basis;</li> <li>(3) certain expenses for special needs services for a Beneficiary who is a special needs beneficiary incurred in connection with such enrollment or attendance;</li> <li>(4) expenses for the purchase of computer equipment or peripheral equipment controlled by a computer (excluding in either case equipment of a kind used primarily for amusement or entertainment of the user), computer software, or Internet access and related services, if such equipment, software, or services are to be used primarily by the Beneficiary during any of the years the Beneficiary is enrolled at an Eligible Educational Institution;</li> <li>(5) expenses for fees, books, supplies, and equipment required for the participation of the Beneficiary in an apprenticeship program registered and certified with the United States Secretary of Labor under section 1 of the National Apprenticeship Act;</li> <li>(6) amounts paid as principal or interest on any Qualified Education Loan of the Beneficiary or a sibling (as defined in section 152(d)(2)(B) of the Code) of the Beneficiary, provided that the amount of distributions treated as QHEE with respect to the loans of any individual shall not exceed \$10,000 (reduced by the amount of distributions so treated for all prior taxable years); and</li> <li>(7) Qualified Elementary or Secondary Education Expenses in an amount which, together with all other Qualified Elementary or Secondary Education Expenses paid for the person that is the Beneficiary by any person from other accounts in any QTP, does not exceed \$10,000 per calendar year.</li> </ol>
<b>Qualified Refund Distribution</b>	Any portion of a distribution made from an Account received by the Beneficiary from an Eligible Educational Institution as a refund of QHEE and recontributed within 60 days of the refund date to any account under any QTP, provided that the refund recipient is the beneficiary of the account to which the retribution is made.

<b>Qualified Tuition Program or QTP</b>	A “qualified tuition program” established and maintained in accordance with Section 529.
<b>Rights of Accumulation or ROA</b>	Allows for you to combine certain existing holdings of Trust Shares, and in some cases your holdings of certain unrelated mutual fund shares, with your current purchase of Class A Trust Shares, to determine if you qualify for a sales charge breakpoint.
<b>Rollover Distribution</b>	A distribution from an Account to another Program Account or to, or that is reinvested in, an account in another QTP or, for distributions prior to January 1, 2026, subject to limitations described in this Program Description, an account in a Qualified ABLE Program, in a manner that meets the Code’s requirements for a federally tax-free rollover distribution, as further described in this Program Description.
<b>Roth IRA Distribution</b>	A distribution made after December 31, 2023 directly from an Account to a Roth IRA established for the benefit of the Beneficiary of the Account, provided that (i) the Account has been maintained for at least 15 years prior to the date of the applicable distribution, (ii) the amount of the distribution does not exceed the aggregate amount contributed to the Account (and attributable earnings) before the 5-year period ending on the date of the distribution, (iii) the amount of the distribution does not, together with amounts previously transferred in the same or a prior taxable year from such Account or from any other QTP account established for the same beneficiary to any Roth Account for such beneficiary, exceed \$35,000, and (iv) the amount of the distribution does not exceed the maximum amount permitted to be contributed to a Roth IRA in such tax year under the rules applicable to Roth IRAs, as adjusted with respect to rollover contributions from QTP accounts.
<b>Savings-Type QTP</b>	Any QTP under which contributions may be made to an account established for the purpose of meeting the Qualified Higher Education Expenses of the designated beneficiary of the account.
<b>Scholarship Accounts</b>	Scholarship accounts established by governmental entities and corporations that are described in Section 501(c)(3) of the Code.
<b>Section 529</b>	Section 529 of the Code.
<b>Services Agreement</b>	The College Savings Services Agreement, dated April 1, 2014, between HESAA and FD, as amended or restated from time to time.
<b>Spryng</b>	Please see “Gifting/Crowd-Funding an Account through Spryng” above in “Key Features” and franklinspryng.com.
<b>State</b>	The State of New Jersey.
<b>Temporary Waiver Privilege</b>	A privilege that allows you to use all or a portion of the proceeds from the sale of Trust Shares to buy Trust Shares within 90 days of the sale without an initial sales charge under certain circumstances (see “Fees and Expenses – Temporary Waiver Privilege”).
<b>Third-Party Contributor</b>	Any person, other than the Account Owner, who makes contributions to an Account.
<b>Trust</b>	The New Jersey Better Educational Savings Trust (NJBEST).
<b>Trust Shares</b>	Municipal fund securities representing interests in the Trust.
<b>Trust Portfolio</b>	An investment portfolio of the Trust.
<b>UGMA/UTMA</b>	Uniform Gifts to Minors Act / Uniform Transfers to Minors Act.
<b>Underlying Fund</b>	A mutual fund or ETF in which a Trust Portfolio invests all or a portion of the Trust Portfolio’s assets.
<b>Workplace 529 Program</b>	An employer-facilitated program for investment by employees in the Plan.

## Appendix A – Participation Agreement

### ARTICLE I – General Provisions

By signing and submitting the application for an Account, you (the original “Account Owner”) agree, on behalf of yourself, each Beneficiary of your Account, any Third-Party Contributors to your Account and any successor Account Owner, to the terms and conditions set forth in this Participation Agreement and in the Program Description, subject to the requirements of the Act and of regulations adopted by HESAA under the Act. Copies of the Act, and of such regulations, may be obtained from HESAA or the Program Recordkeeper upon request. As used in this Participation Agreement, “Program Description” refers to the Program Description to which this Participation Agreement is attached, and any revised, supplemented or replacement version applicable to Class A, B, C or Advisor Class Trust Shares from time to time, and “Class A, C or Advisor Class Trust Shares” means interests in the Trust purchased for an Account under Class A, C or Advisor Class, as described in the Program Description.

The Act authorizes and directs HESAA to establish and administer the Program in a manner that qualifies the Program as a qualified tuition program as defined in Section 529 of the Internal Revenue Code, as amended. The Program is established and maintained so that the Account Owners and Third-Party Contributors may make contributions to the Account for the purpose of meeting the “qualified higher education expenses” of the Beneficiary of such Account.

HESAA has retained the Program Manager to provide, directly or through affiliates and sub-contractors, certain investment management, administrative and marketing services for the Program pursuant to a contract between HESAA and FD.

The Program has been structured so as to provide several Investment Options under which amounts contributed to an Account are invested by the Trust in one or more of the investment portfolios established within the Trust.

The terms and conditions under which Accounts are established and contributions to Accounts are invested are set forth in the Program Description.

### ARTICLE II – Opening an Account

#### *1. General.*

In order to open an Account, the prospective Account Owner must sign and submit by mail, electronic or other acceptable means to the Program Manager the appropriate completed application for the Program, and make an initial contribution.

#### *2. Account Designations.*

**A. Beneficiary Designation.** The Account Owner must designate the Beneficiary in the application at the time an Account is established, unless the Account Owner is eligible to open a scholarship Account under the Program and Section 529 without designating a Beneficiary. The Program Recordkeeper, on behalf of HESAA, shall establish a separate Account for each separate Beneficiary designated by the Account Owner. The Beneficiary of the Account may be changed as described in the Program Description.

**B. Investment Option Designation.** The Account Owner must designate on the application or other authorized form the Investment Option(s) under which the initial and each subsequent contribution will be invested by the Trust.

**C. Successor Account Owner.** The Account Owner may transfer ownership of the Account to a successor Account Owner upon completion of the appropriate form, which includes submission of a notarized signature or signature guarantee from a banking institution. In addition, the Account Owner may designate any person as the successor Account Owner in the event of his or her death. If such designation is not made on the application form, the Account Owner may make such designation at a later time through written notification to the Program Recordkeeper. The Account Owner should consult a probate lawyer as to the effect of the designation of a successor owner in the Account Owner's state of residence. If a successor Account Owner has not been properly designated, or if the successor Account Owner does not survive the Account Owner, ownership of the Account shall be transferred as described in the Program Description, subject to the requirements of applicable law.

### ***3. Accounts Established by Fiduciaries.***

Accounts may be established as fiduciary accounts. An Account may be opened for a minor under UTMA or UGMA. The Account Owner should review the Program Description about special restrictions applicable to Accounts established for a minor under UTMA or UGMA, and should review the Program Description and consult a tax advisor and probate lawyer about the advisability of transferring UTMA/UGMA funds to an Account.

### ***4. Accounts Established by Business Entities.***

Certain types of legal entities, including corporations, partnerships, limited liability companies, limited liability partnerships, limited and general partnerships, and nonprofit corporations, may establish Accounts.

## **ARTICLE III – Contributions and Distributions**

Contributions to, and distributions from, an Account may be made as described in the Program Description.

## **ARTICLE IV – Fees and Charges**

### ***1. General.***

HESAA and/or the Program Manager shall charge such fees in such amounts as HESAA and the Program Manager may determine are necessary. HESAA may change the services and functions for which it or the Program Manager charges fees as well as the amount of such fees. Fees charged by HESAA or the Program Manager may be payable by the Account Owner or a Third-Party Contributor or may be payable out of the assets of the applicable portfolio of the Trust. HESAA and/or the Program Manager reserves the right to waive any fee upon finding that such waiver would be appropriate due to extenuating circumstances.

### ***2. Specific Fees and Expenses.***

**A. Fees.** The fees, which are subject to change, that are currently charged or imposed by HESAA or the Program Manager are: a Program fee; initial sales charges; contingent deferred sales charges; and the annual sales fees. The initial sales charges, contingent deferred charges and the annual sales fees, if any, vary depending on whether you select Class A, Class C or Advisor Class (available only to AC-Eligible Account Owners (as defined under “Fees and Expenses-Advisor Class” in the Program Description)) and the particular Investment Option(s) you select for your Account contributions. The initial sales charge may be reduced or waived under the circumstances described in the Program Description. All of the fees and charges, including the methods by which such fees are paid or payable, are described in detail in the Program Description. In addition, HESAA or the Program Manager may, at its option, charge a “Rollover Fee” of \$75 for a distribution from the Account that is transferred to an account in a “QTP” other than the Program in accordance with the requirements applicable to a “rollover distribution” under Section 529.

**B. Expenses.** Each of the Underlying Funds in which assets are invested under each Investment Option also has investment management fees and other expenses, and, in the case of certain Investment Options, additional charges described in the Program Description, which fees, expenses and charges will be deducted by the applicable Underlying Fund and result in a reduction of the net asset value of such investments, thereby correspondingly decreasing the net asset value of the applicable Trust Shares.

## **ARTICLE V – Representations, Warranties and Acknowledgments**

The original Account Owner, by execution of an Account application, each successor Account Owner, by succession to ownership of the Account, and each Third-Party Contributor, by contributing to the Account, represents and warrants to, acknowledges for the benefit of and agrees with HESAA and the Program Manager as follows:

A. The Account Owner or Third-Party Contributor, as applicable, has received, read and understands the Program Description and this Participation Agreement, including the appropriate application form. In deciding to establish or

contribute to an Account, such person has not relied on any representations or other information about the Program, whether oral or written, other than as set forth in the Program Description and this Participation Agreement. Each such person will be deemed to certify, at the time of each contribution, that such contribution, together with the earnings thereon, is intended to be applied to pay for the “qualified higher education expenses” of the Beneficiary. All information provided by an Account Owner in the application form and in any form or other notice requesting a distribution from an Account or other form submitted in connection with the Account is and will be true and correct. The Account Owner will promptly notify the Program Recordkeeper of any changes to any such information.

B. Each Account Owner and Third-Party Contributor understands that the Trust will invest contributions made to the Account under each of the Investment Options selected by the Account Owner pursuant to the Program's then applicable Investment Policy adopted by HESAA, and that HESAA may change such Investment Policy at any time without the consent of Account Owners, Third-Party Contributors or Beneficiaries. Each Account Owner and Third-Party Contributor agrees that such person has no authority to direct the investment of any contributions made to the Account, or any earnings thereon, either directly or indirectly; provided that the Account Owner is permitted to select among Investment Options and reallocate assets among Investment Options to the extent permitted under the Code, the Program Description and this Participation Agreement. Each Account Owner and Third-Party Contributor understands and acknowledges that HESAA will retain the right to change the investment instruments in which each Trust Portfolio corresponding to an Investment Option is invested and to consolidate Trust Portfolios or close Trust Portfolios and substitute replacement Trust Portfolios, and that, in accordance with the requirements of Section 529, none of the Account Owner, any Third-Party Contributor or any Beneficiary shall have any right to consent or object to such changes or own or have any voting rights as to any investment made by the Trust with contributions received under this Participation Agreement.

C. The original Account Owner is opening, each successor Account Owner is succeeding to ownership of and each Account Owner or Third-Party Contributor making a contribution is contributing to, the Account for the sole purpose of providing funds for “qualified higher education expenses” of the Beneficiary of the Account, and no such person will make any contributions in excess of the limitations described in the Program Description. Contributions to an Account that cause the balance in all Accounts established on behalf of a Beneficiary under the Program to exceed the amount described in the Program Description will be returned to the person making the applicable contribution, subject to any investment losses or applicable liabilities and tax penalties.

D. Each Account Owner and Third-Party Contributor understands that participation in the Program does not guarantee, and that none of the State of New Jersey, HESAA, the Trust, the Plan, the Division of Investment, the Program Manager or any other person makes any promise, that: (1) contributions and the investment return on contributions, if any, will be adequate to cover future tuition and other Qualified Higher Education Expenses of a Beneficiary; (2) the Beneficiary of the Account will be admitted to any institution (including any Eligible Educational Institution); (3) upon admission to an institution, the Beneficiary will be permitted to continue to attend; (4) the Beneficiary will receive a degree from any institution; or (5) New Jersey residency will be created for tax, financial aid eligibility or any other purpose for the Beneficiary solely because the individual is a Beneficiary of an Account under the Program. Each Account Owner and Third-Party Contributor acknowledges that the Beneficiary of the Account has not been given any rights or legal interest with respect to the Account unless the Beneficiary is the Account Owner.

E. NONE OF: 1) THE STATE OF NEW JERSEY; 2) HESAA; 3) FRANKLIN TEMPLETON OR ANY ENTITY AFFILIATED THEREWITH; 4) ANY CONSULTANT OR ADVISER RETAINED BY ANY SUCH PARTY; OR 5) ANY OTHER PERSON GUARANTEES OR INSURES ANY ACCOUNTS ESTABLISHED UNDER THE PLAN, THE PRINCIPAL DEPOSITED OR THE INVESTMENT RETURN. EACH ACCOUNT OWNER AND THIRD-PARTY CONTRIBUTOR UNDERSTANDS THAT THE VALUE OF ANY ACCOUNT AT ANY TIME MAY BE MORE OR LESS THAN THE AMOUNT INVESTED IN THE ACCOUNT. Each Account Owner and Third-Party Contributor understands that returns on contributions or investments in the Program are not guaranteed by the State of New Jersey, HESAA, the Trust, the Program Manager or any other contractor, consultant or adviser retained by any such party, that none of such parties assumes any risk or liability for funds contributed to or invested in the Program and that the Account Owner assumes all investment risk of an investment in or contribution to the Program, including the potential loss of principal and liability for income tax surcharges or penalties that are assessable in connection with a distribution of amounts invested under the Program. Neither the Account, nor any amount contributed thereto or on deposit therein, is a bank deposit or is insured by the Federal Deposit Insurance Corporation. Each Account Owner and Third-Party Contributor recognizes that the investment of contributions

to the Account and of Account balances involves certain risks, and has taken into consideration and understands the risk factors relating to investments of contributions to the Account and Account balances, including, but not limited to, those set forth in the Program Description under the caption "Risk Factors."

F. Each Account Owner and Third-Party Contributor recognizes that none of the Account Owner, any Third-Party Contributor or the Beneficiary is or will be permitted to have any role in the selection or retention of the Program Manager or to direct the investment of contributions to the Account and of Account balances, either directly or indirectly, other than the Account Owner's selection, and potential later revision, of the Investment Option(s) for the contributions to the Account. Each Account Owner and Third-Party Contributor understands and acknowledges that once invested under a particular Investment Option, contributions and earnings thereon may only be transferred by the Account Owner to another Investment Option twice per calendar year, or otherwise when the Account Owner changes the Beneficiary of the Account as provided in the Program Description. All reallocations of assets among the Investment Options in all Program Accounts established by the Account Owner for a particular Beneficiary must occur on the same two days of the applicable calendar year, except for reallocations in connection with a change of the Beneficiary of the applicable Program Account.

G. Each Account Owner and Third-Party Contributor acknowledges and agrees that no Account can be used by the Account Owner, Third-Party Contributor or the Beneficiary as collateral for any loan. Any attempted use of an Account as collateral for a loan shall be void.

H. Each Account Owner and Third-Party Contributor acknowledges and agrees that no Account Owner, Third-Party Contributor or Beneficiary may assign or transfer any interest in any Account except, to the extent described in the Program Description, to any person designated by the Account Owner to assume ownership of the Account in accordance with the Program Description and this Participation Agreement or as required by law (including transfers of record ownership from a custodian of an Account established for a minor under UTMA or UGMA when the minor for whom such Account was established reaches the age specified by applicable law). Any other attempted assignment or transfer of such interest shall be void.

I. Each Account Owner and Third-Party Contributor acknowledges and agrees that the Program shall not loan any assets on deposit in any Account established under the Program to any Account Owner, Third-Party Contributor or Beneficiary.

J. Each Account Owner and Third-Party Contributor acknowledges and agrees that the Program is established and maintained by the State of New Jersey and HESAA pursuant to applicable state laws and is intended to qualify for certain federal income tax consequences under Section 529. Each Account Owner and Third-Party Contributor further acknowledges that such federal and state laws are subject to change, sometimes with retroactive effect, and that none of the State of New Jersey, HESAA, the Trust, the Program Manager or any contractor, adviser or consultant retained by any such party makes any representation that such state or federal laws will not be changed or repealed or that the terms and conditions of the Program will remain as currently described in the Program Description and this Participation Agreement.

K. The Account Owner acknowledges and agrees that he or she will, or will cause the Beneficiary to, provide, if required by HESAA or Program Manager in order to comply with Section 529, a signed statement identifying the amount of distributions, if any, received from an institution at the end of each calendar year in which distributions for Qualified Higher Education Expenses are made and at the end of the subsequent calendar year, and/or any other information that may be required in order to comply with Section 529.

L. If the Account Owner is establishing an Account as a custodian for a minor under UTMA or UGMA, the Account Owner acknowledges and agrees that he or she has reviewed the portion of the Program Description entitled "Opening, Maintaining and Contributing to an Account – Accounts Established under UTMA or UGMA," and acknowledges and agrees that such Account Owner assumes responsibility for any adverse consequences resulting from the establishment of an Account under UTMA or UGMA.

M. If a person is executing this Agreement in a representative or fiduciary capacity, such person represents that such person has full power and authority to enter into and perform this Participation Agreement on behalf of the entity or individual named as the Account Owner.

N. Each Account Owner and Third-Party Contributor understands that FD will not necessarily continue as Program Manager for the entire period the Account is open, that, even if it does, there is no assurance that the terms and conditions of the current Services Agreement between HESAA and FD would continue without material change, and that there are, accordingly, various potential consequences Account Owners and Third-Party Contributors should take into consideration as discussed in the Program Description under the caption "Risk Factors – Change in Investment Policy, Program Manager or Investment Manager," including: (1) changes in the Investment Manager of the Investment Options; and (2) changes in the current Program fee or other fees.

O. Each Account Owner and Third-Party Contributor acknowledges that no such person has been advised by the State of New Jersey, HESAA, the Trust, the Program Manager or any of their affiliates, officers or employees to invest, or to refrain from investing, in a particular Investment Option or in a particular Class of Trust Shares. Each Account Owner and Third-Party Contributor acknowledges that such person is not relying on the State of New Jersey, HESAA, the Trust, the Program Manager or any of their affiliates, officers or employees as such person's tax consultant or financial planner.

## **ARTICLE VI – Miscellaneous Provisions**

**1. Limitation of Liability.** The original Account Owner, by execution of an Account application, each successor Account Owner, by succession to ownership of the Account, and each Third-Party Contributor, by contributing to the Account, acknowledges that the payment of obligations under this Participation Agreement will be made only from the applicable investment portfolio(s) of the Trust. Any claim against the Program or HESAA pursuant to a Participation Agreement may be made solely against the assets of the applicable investment portfolio(s) of the Trust and not against any other funds or sources of funds of HESAA or the State of New Jersey. Each Account Owner and Third-Party Contributor further acknowledges that neither HESAA nor the Trust may pledge the credit or taxing power of the State of New Jersey.

**2. Contract Modifications.** HESAA reserves the right to modify this Participation Agreement, as deemed necessary by HESAA in its sole discretion, for such reasons as, but not limited to, assuring compliance with state or federal laws and regulations or preserving the fiscal integrity of the Program. To the extent, if any, that this Participation Agreement references procedures, HESAA reserves the right to change those procedures.

**3. Necessity of Qualification.** The Program is established with the intent that it shall qualify for favorable federal tax treatment under Section 529. Each Account Owner and Third-Party Contributor agrees and acknowledges that qualification under Section 529 is vital, and agrees that this Participation Agreement may be amended by HESAA at any time without the Account Owner's or Third-Party Contributor's consent or prior notice if HESAA determines that such an amendment is required to maintain qualification of the Program under Section 529 or to comply with other applicable laws.

**4. Reporting.** HESAA shall provide, or cause to be provided, quarterly statements to Account Owners with respect to each Account, and tax reporting with respect to each Account as required by federal tax law.

**5. Account Owner's Indemnity.** The Account Owner recognizes that the establishment of any Account will be based upon the statements, agreements, representations, warranties and covenants set forth in this Participation Agreement, and the Account Owner agrees to indemnify and to hold harmless the State of New Jersey, HESAA, the Trust, the Program Manager and any representatives or contractors of any such party from and against any and all loss, damage, liability or expense, including costs of reasonable attorney's fees, to which they may be put or which they may incur by reason of, or in connection with, any misstatement or misrepresentation made by the Account Owner, any Third-Party Contributor or any Beneficiary, any breach by any such person of the acknowledgments, representations or warranties contained herein, any failure of any such person to fulfill any covenants or agreements set forth herein or any action taken by such person other than in accordance with the terms of this Participation Agreement. All statements, representations, warranties or covenants of any such person, and this paragraph, shall survive the termination of this Participation Agreement.

**6. Finality of Decisions and Interpretations.** All decisions and interpretations by HESAA and the Program Manager in connection with the operation of the Program shall be final and binding on each Account Owner, Third-Party Contributor, Beneficiary and other person affected thereby.

**7. Binding Nature; Third-Party Beneficiaries.** This Participation Agreement shall survive the Account Owner's death and shall be binding upon the Account Owner's personal representatives, heirs, successors and assigns. Each of the Program Manager and HESAA is a Third-Party beneficiary of, and can rely upon and enforce, any agreements,

representations and warranties in this Participation Agreement. Neither a Third-Party Contributor nor any Beneficiary is an intended beneficiary of or may enforce the provisions of this Participation Agreement.

**8. Amendment and Termination.** HESAA may at any time, and from time to time, amend this Participation Agreement, or suspend or terminate the Program, by giving written notice of such action to the Account Owner (including, without limitation, through the inclusion of an amended form of Participation Agreement in a revised Program Description distributed to the Account Owner or the separate distribution of an amended form of Participation Agreement to the Account Owner) but, except as otherwise expressly provided herein or permissible under applicable law, the Account Owner's Account may not be diverted from the Account Owner's or the Beneficiary's exclusive benefit. Nothing contained in this Participation Agreement shall constitute an agreement or representation by HESAA or any other party that HESAA will continue to maintain the Program indefinitely. HESAA and the Program Manager reserve the right to close any Account or to limit contributions to, or distributions from, any Account, if either of them, in its sole discretion, suspects or determines that the Account is being used for purposes that may be in contravention or circumvention of applicable laws or for purposes other than savings for the Qualified Higher Education Expenses of the Beneficiary of the Account.

**9. Effective Date.** The Participation Agreement shall become effective between HESAA and an original Account Owner upon the Account Owner's execution of an appropriate application form for the establishment of an Account, the acceptance of such application form by the Program Recordkeeper on behalf of HESAA and the receipt of an initial contribution to the Account established for such Account Owner. The Participation Agreement shall become effective as between HESAA and any successor Account Owner upon the successor Account Owner's succession to ownership of the Account, without the need for other action. The Participation Agreement shall become effective with respect to the representations, warranties, and acknowledgments of any Third-Party Contributor immediately upon receipt by or on behalf of HESAA of any contribution from such Third-Party Contributor, without the need for other action.

**10. Factual Determinations.** All factual determinations regarding residency, whether a false statement by an Account Owner, Third-Party Contributor or Beneficiary relating to a substantial fact regarding the Program was made with the intention to deceive and any other factual determinations regarding this Participation Agreement will be at the sole discretion of HESAA.

**11. Governing Law.** The Participation Agreement will be construed in accordance with the laws of the State of New Jersey.

**12. Construction.** In the event that any clause or portion of this Participation Agreement is found to be invalid or unenforceable by a court of competent jurisdiction, at the option of HESAA, this Participation Agreement may be deemed void or that clause or portion found to be invalid will be severed from this Participation Agreement and the remainder of this Participation Agreement will continue in full force and effect as if such clause or portion had never been included.

**13. Exclusivity.** Subject to all applicable state and federal laws, rules, and regulations, the Program Description, including the most recent Participation Agreement included therein, and the related application form, constitute the complete and exclusive statement of the agreement between HESAA and the Account Owner, and supersede any prior agreement, oral or written, and any other communications between HESAA (through any means and by any individuals) relating to the subject matter of this Participation Agreement. If however, there is a conflict between any such documentation and this Participation Agreement, the terms described in the then current Program Description shall take precedence.

**14. Actions by Program Manager and Program Recordkeeper.** The Program Manager and Program Recordkeeper may act, as stated in the Program Description or otherwise authorized from time to time by HESAA, as HESAA's, the Trust's or the Program's agents for purposes of effecting actions, instructions or determinations by HESAA, the Trust or the Program under this Participation Agreement.

**15. Arbitration.** The original Account Owner, by execution of an Account application, each successor Account Owner, by succession to ownership of the Account, and each Third-Party Contributor, by contributing to the Account, agrees (on behalf of themselves and the Beneficiary of the Account) that all controversies which may arise between any Account Owner, Third-Party Contributor or Beneficiary and HESAA or the Program Manager involving any transaction in the Account, or the construction, performance or breach of this Participation Agreement, shall be determined by arbitration.

This agreement to arbitrate all controversies does not constitute an agreement to arbitrate the arbitrability of any controversy, unless otherwise clearly and unmistakably required by the arbitration rules of the forum elected, as set forth below.

In connection with this agreement to arbitrate, the Account Owner and each Third-Party Contributor acknowledge that:

- Arbitration is final and binding on the parties.
- Each Account Owner, Third-Party Contributor and Beneficiary of the Account, HESAA and the Program Manager are waiving their right to seek remedies in court, including the right to a jury trial.
- Pre-arbitration discovery is generally more limited than and different from court proceedings.
- The arbitrators' award is not required to include factual findings or legal reasoning and any party's right to appeal or to seek modification of rulings by the arbitrators is strictly limited.
- The panel of arbitrators will typically include a minority of arbitrators who are affiliated with the securities industry.

Any arbitration under this Participation Agreement shall be conducted only before the New York Stock Exchange, Inc., an arbitration facility provided by any other exchange of which the Program Manager is a member, or the Financial Industry Regulatory Authority, and in accordance with its arbitration rules then in force. An Account Owner, Third-Party Contributor or Beneficiary may elect in the first instance whether arbitration shall be conducted before the New York Stock Exchange, Inc., or the Financial Industry Regulatory Authority, but if the Account Owner, Third-Party Contributor or Beneficiary fails to make such election, by registered letter or telegram addressed to the office of HESAA or the Program Manager, as applicable, or such other address that HESAA or the Program Manager may advise such person of from time to time, before the expiration of five days after receipt of a written request from HESAA or the Program Manager to make such election, then HESAA or the Program Manager may make such election. Judgment upon the award of the arbitrators may be entered in any court, state or federal, having jurisdiction.

Nothing contained herein shall limit the ability of the arbitrators to make an award under the rules of the arbitration forum and applicable law. Nothing contained herein is intended: (1) to cause any Third-Party Contributor or Beneficiary to have, or to imply that any such person may have, any contractual rights under this Participation Agreement; or (2) to cause any such person to be, or to imply that any such person may be intended third-party beneficiaries of this Participation Agreement.

No person who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action shall bring a putative or certified class action to arbitration, or seek to enforce any pre-dispute arbitration, or seek to enforce any pre-dispute arbitration agreement against any person who has initiated in court a putative class action until:

1. the class certification is denied;
2. the class is decertified; or
3. such person is excluded from the class by the court.

Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this Participation Agreement except to the extent stated herein.

## Appendix B – Historical Performance of the Trust Portfolios

**For more recent performance information, please call (866) 362-1597 or visit [franklintempleton.com](http://franklintempleton.com).**

The table on the following pages shows total returns for Class A, Class C and Advisor Class Trust Shares. The investment return and principal value will fluctuate so that an investor's Trust Shares, when redeemed, may be worth more or less than the original cost. See "Risk Factors—General Risks" and "Risk Factors—General Investment Risks." Performance shown is past performance and includes periods with unusually favorable conditions in some markets. No assurances can be given that such performance or market conditions will be repeated in the future. Ongoing market volatility can dramatically impact short-term returns. Current performance may differ from figures shown.

The returns shown under "All Sales Charges" are net of applicable fees, expenses and sales charges of the Plan, including:

- Program fee of 40 basis points per annum prior to April 1, 2014 and of 25 basis points thereafter assessed against the assets of the applicable Trust Portfolio (except for the Franklin U.S. Government Money 529 Portfolio, which is not currently being assessed a Program fee);
- current annual sales fees of 25 basis points per annum for Class A Trust Shares and 100 basis points per annum for Class C Trust Shares, assessed in each case against the allocable assets of the applicable Trust Portfolio (except for the Franklin U.S. Government Money 529 Portfolio, which is not currently being assessed sales charges);
- expenses applicable to the share classes of the Underlying Funds in which the applicable Trust Portfolio invests, and
- sales loads or sales charges as described below.

Such returns reflect:

1. in the case of Class A Trust Shares, a maximum front-end sales load of 5.50% or 4.25%, as applicable, of the amount invested, except that, effective January 1, 2020 the maximum front-end sales load for Class A Trust Shares of the Franklin Conservative Growth Allocation 529 Portfolio and the Franklin Income 529 Portfolio was reduced to 3.75% and effective February 3, 2020 the maximum front-end sales load for Class A Trust Shares of certain Age-Based Allocation Trust Portfolios was reduced to 3.75% or 2.25%, as applicable. Effective August 15, 2022 the maximum front-end sales load for Class A Trust Shares for all remaining Trust Portfolios was reduced to 3.75% or 2.25%, as applicable; because such reductions were not in effect during the historic periods shown in the tables, the historic returns with sales charges do not reflect such reduced maximum front-end sales loads;
2. in the case of Class C Trust Shares, a maximum CDSC of 1% of the NAV of the Trust Shares at the beginning of the applicable investment period that is assessed at the end of the applicable investment period (unless the applicable investment period exceeds one year, in which case no CDSC is assessed); and
3. in the case of Class C Trust Shares, conversion of such Trust Shares to Class A Trust Shares following the period in effect during the relevant periods.

A CDSC is applicable to all Class A Trust Shares purchased without an initial sales charge and redeemed within 18 months of purchase.

The returns shown under "No Sales Charges" are the same as those shown under "All Sales Charges" except that such returns are not net of one-time sales loads or sales charges described above, which would lower returns.

Plan fees, expenses and sales charges are subject to change. Underlying Fund expenses will vary and in some cases have been, and may from time to time be, reduced by fee and expense waivers or reimbursements, which may be ended at any time. The implementation and termination of any such waiver or reimbursement would affect future performance.

## Trust Portfolio Performance<sup>1</sup>

WITH SALES CHARGES

Average Annual Total Return as of September 30, 2023

Trust Portfolio	Year-to-Date Total Return as of 09/30/2023	1 Year	3 Years	5 Years	10 Years	Since Inception	Inception Date <sup>2</sup>
<b>OBJECTIVE-BASED ASSET ALLOCATIONS</b>							
<b>Franklin Aggressive Growth Allocation 529 Portfolio</b>							
Class A	5.08%	16.02%	—	—	—	7.23%	06/16/22
Class C	7.58%	18.66%	—	—	—	9.63%	06/16/22

1. Non-Qualified Distributions from the Program generally are subject to ordinary federal income taxes on earnings and a 10% additional federal tax on earnings, as well as possible state taxes. Performance does not reflect any taxes payable in connection with Non-Qualified Distributions, or, if applicable, Qualified Distributions. Expense or fee waivers and/or reimbursements applicable to Underlying Funds in which certain Trust Portfolios invest may have increased past performance for such Trust Portfolios relative to their performance if such waivers or reimbursements had not been provided. For periods prior to April 1, 2014, the performance (other than in the case of the Franklin U.S. Government Money 529 Portfolio) reflects a Program Fee of 0.40% per annum; such fee was reduced to 0.25% as of April 1, 2014. Historic performance does not reflect a \$25 annual Account fee applicable to certain Accounts prior to April 1, 2014, when such Account fee was discontinued.
2. The inception date of each Trust Portfolio for a particular Trust Unit class is the date on which units of such Trust Unit class were first issued.
3. Performance reflects investments for periods preceding July 31, 2022, when the Underlying Funds and allocation among asset classes differed from those effective as of July 31, 2022.
4. For the Franklin U.S. Government Money 529 Portfolio: (a) the Program Fee (which may be increased at any time, increasing future expenses) has been reduced from 0.25% to 0.00% since the portfolio's inception date of October 8, 2014; and (b) although no deferred sales charge is generally payable with respect to Trust Shares originally purchased in the portfolio, a deferred sales charge may be payable upon a redemption of Trust Shares in the portfolio acquired through an exchange from another Trust Portfolio, or upon a withdrawal of Trust Shares that were acquired, directly or indirectly, in exchange for Trust Shares originally purchased with contributions to the portfolio.

## Appendix C – Description of Certain Underlying Investments

Below is a summary of the investment goals and main strategies of the mutual funds and ETFs (each of which is referred to as the “Fund” or “Underlying Fund”) in which the Individual Fund Trust Portfolios are invested. The information below has been summarized for inclusion herein by the Program Manager from the most current prospectus available. Neither HESAA nor the Program Manager has independently verified the information contained in any such mutual fund or ETF prospectus and no representation is made by HESAA or the Program Manager as to its accuracy or completeness.

The Investment Policy permits the Investment Manager to allocate investments for each Age-Based Asset Allocation Trust Portfolio and Objective-Based Asset Allocation Trust Portfolio to a specified percentage range of asset classes, and within each asset class permits the Investment Manager to invest in one or more mutual funds and/or ETFs and to add or discontinue investments or amounts of investments in particular mutual funds or ETFs from time to time. As a result, descriptions of the Underlying Funds in such Trust Portfolios as of the date of this Program Description are not provided below. Information regarding the particular Underlying Funds in which an Age-Based Asset Allocation Trust Portfolio or Objective-Based Asset Allocation Trust Portfolio is invested will be available on <https://www.franklintempleton.com/forms-literature/download/529-FLALL>.

Additional information regarding the Underlying Funds described below, and the risks associated with such Funds, is set forth in each Fund’s prospectus and statement of additional information (“SAI”). Copies of the Underlying Fund prospectuses, SAIs, annual and semiannual shareholder reports and performance information can be obtained from your Financial Professional, online at [FranklinTempleton.com](http://FranklinTempleton.com), or by calling Franklin Templeton toll free at (866) 362-1597. No offer is made in this document of shares of any of the Underlying Funds.

### Ariel Fund (ARAIX)

**Investment Goals and Main Strategies.** The Fund’s fundamental objective is long-term capital appreciation. The Fund invests in small- and mid-capitalization (“small/midcap”) undervalued companies that show strong potential for growth. The Fund invests primarily in equity securities of U.S. companies that have market capitalizations within the range of the companies in the Russell 2500 Index, measured at the time of initial purchase. The Fund may invest a portion of the portfolio outside (above or below) this market capitalization range. Also, the market capitalizations for the Fund’s portfolio companies may change over time, and the Fund is permitted to invest in (hold and purchase) a company even if its market capitalization moves outside the stated range.

**Main Risks.** For a description of the Fund’s main types of investment risks, see <https://connect.rightprospectus.com/ArielFunds/TADF/040337107/SP?site=ArielInvestmentTrust>.

### BrandywineGLOBAL - Global Opportunities Bond Fund (GOBSX)

**Investment Goals and Main Strategies.** The Fund’s investment objective is to maximize total return consisting of income and capital appreciation. Under normal market conditions, the Fund will invest at least 80% of its net assets in fixed income securities of issuers located in developed market countries and may also invest in emerging market countries. The Fund will invest in both investment grade and below investment grade fixed income securities, and intends to invest less than 35% of its net assets in below investment grade fixed income securities (commonly known as “high yield debt” or “junk bonds”). The Fund’s portfolio managers intend to maintain an average weighted portfolio quality of A- or better, whether composed of rated securities or unrated securities deemed by the portfolio managers to be of comparable quality. The Fund’s investments may include securities of sovereign governments and supranational organizations. The Fund may invest up to 25% of its net assets in convertible debt securities. The Fund may use derivatives to enhance total return, to hedge against fluctuations in securities prices, interest rates or currency exchange rates, to change the effective duration of its portfolio, to manage certain investment risks and/or as a substitute for the purchase or sale of securities or currencies. These investments may be significant at times. The Fund may invest in securities of any maturity. The weighted average effective duration of the Fund’s portfolio, including derivatives, is expected to range from 1 to 10 years but for individual markets may be greater or lesser depending on the Fund’s portfolio managers’ view of the prospects for lower interest rates and the potential for capital gains. The Fund is classified as “non-diversified,” which means it may invest a larger percentage of its assets in a smaller number of issuers than a diversified fund.

**Main Risks.** For a description of the Fund's main types of investment risks, see <https://connect.rightprospectus.com/LeggMason/TADF/524686383/SP?site=Funds>.

### **ClearBridge International Growth Fund (LMGPX)**

**Investment Goals and Main Strategies.** The Fund's investment objective is long-term capital growth. The Fund normally invests primarily in common stocks of foreign companies that, in the Fund managers' opinion, appear to offer above average growth potential and trade at a significant discount to the Fund managers' assessment of their intrinsic value. Intrinsic value, according to the Fund managers, is the value of the company measured, to different extents depending on the type of company, on factors such as, but not limited to, the discounted value of its projected future free cash flows, the company's ability to earn returns on capital in excess of its cost of capital, private market values of similar companies and the costs to replicate the business. The Fund may invest in common stocks of foreign companies of any size located throughout the world. The Fund managers consider foreign companies to include those organized, headquartered or with substantial operations outside of the United States. However, the Fund is not precluded from purchasing stocks of U.S. companies. These companies may be located, or have substantial operations, in emerging markets, provided that the Fund will normally not invest more than 15% of its net assets, at the time of purchase, in securities of companies domiciled in emerging markets. The Fund's policy is to remain substantially invested in common stocks or securities convertible into or exchangeable for common stock. Any income realized will be incidental to the Fund's objective.

**Main Risks.** For a description of the Fund's main types of investment risks, see <https://connect.rightprospectus.com/LeggMason/TADF/524686540/SP?site=Funds>.

### **ClearBridge Large Cap Value Fund (LMLSX)**

**Investment Goals and Main Strategies.** The Fund seeks long-term growth of capital as its primary investment objective. Current income is a secondary objective. Under normal circumstances, the Fund invests at least 80% of its net assets, plus borrowings for investment purposes, if any, in equity securities, or other investments with similar economic characteristics, of companies with large market capitalizations. Large capitalization companies are those companies with market capitalizations similar to companies in the Russell 1000 Index (the "Index"). The size of the companies in the Index changes with market conditions and the composition of the Index. Securities of companies whose market capitalizations no longer meet this definition after purchase by the Fund still will be considered securities of large capitalization companies for purposes of the Fund's 80% investment policy.

**Main Risks.** For a description of the Fund's main types of investment risks, see <https://connect.rightprospectus.com/LeggMason/TADF/52470J100/SP?site=Funds>.

### **ClearBridge Sustainability Leaders Fund (LCILX)**

**Investment Goals and Main Strategies.** The Fund seeks to provide long-term capital growth. Under normal circumstances, the Fund seeks to meet its investment objective by investing substantially all of its assets in common stocks and other equity securities that meet its financial and sustainability/environmental, social and governance ("ESG") criteria. The Fund's subadviser will seek to limit its investments to only those companies whose overall ESG profile it judges to be very strong. The Fund will not invest in companies with significant direct involvement in extraction of fossil fuels and mining, and instead will seek other attractive sustainable opportunities in the energy, industrials, and materials sectors. Direct involvement in fossil-fuel extraction and mining would be inclusive of companies that derive revenues primarily from: extraction and/or burning of coal; mining of metals or minerals; exploration and production of oil and gas; and refining of fossil fuels. The Fund may invest in companies that provide equipment and services to the energy and mining sectors. The Fund emphasizes investments in common stocks and other equity securities of U.S. companies; however, it may invest in equity securities of foreign issuers. The Fund is classified as "non-diversified," which means it may invest a larger percentage of its assets in a smaller number of issuers than a diversified fund.

**Main Risks.** For a description of the Fund's main types of investment risks, see <https://connect.rightprospectus.com/LeggMason/TADF/52469C603/SP?site=Funds>.

## Franklin DynaTech Fund (FDYZX)

**Investment Goals and Main Strategies.** The Fund's investment goal is capital appreciation. Under normal market conditions, the Fund seeks investments primarily in equity securities of companies that the investment manager believes are leaders in innovation, take advantage of new technologies, have superior management, and benefit from new industry conditions in the dynamically changing global economy. In pursuing these objectives, the investment manager may invest in companies in any economic sector or of any market capitalization and may invest in companies both inside and outside of the United States. Although the Fund's investment manager searches for investments across a large number of sectors, it expects to have significant positions in particular sectors including, for example, technology and health care.

**Main Risks.** For a description of the Fund's main types of investment risks, see [www.franklintempleton.com/forms-literature/download/108-PSUM](http://www.franklintempleton.com/forms-literature/download/108-PSUM).

## Franklin Growth Fund (FCGAX)

**Investment Goals and Main Strategies.** The Fund's investment goal is capital appreciation. Under normal market conditions, the Fund invests substantially in the equity securities of companies that are leaders in their industries. In selecting securities, the investment manager considers many factors, including historical and potential growth in revenues and earnings, assessment of strength and quality of management, and determination of a company's strategic positioning in its industry. Although the Fund normally invests substantially in the equity securities (principally common stocks) of U.S.-based large and medium market capitalization companies, it may invest in companies in new and emerging industries where growth is expected to be above average and may invest up to 25% of its assets in smaller companies.

**Main Risks.** For a description of the Fund's main types of investment risks, see [www.franklintempleton.com/forms-literature/download/106-PSUM](http://www.franklintempleton.com/forms-literature/download/106-PSUM).

## Franklin Income Fund (FRIAX)

**Investment Goals and Main Strategies.** The Fund's investment goal is to maximize income while maintaining prospects for capital appreciation. Under normal market conditions, the Fund invests in a diversified portfolio of debt and equity securities. The Fund may shift its investments from one asset class to another based on the Fund's investment manager's analysis of the best opportunities for the Fund's portfolio in a given market. The equity securities in which the Fund invests consist primarily of common stocks, including those with dividend yields the Fund's investment manager believes are attractive. Debt securities include all varieties of fixed, floating and variable rate instruments, including secured and unsecured bonds, bonds convertible into common stock, senior floating rate and term loans, mortgage-backed securities and other asset-backed securities, debentures, and shorter term instruments. Bond investments may include U.S. and foreign corporate debt, U.S. Treasuries and foreign government bonds. The Fund may invest up to 100% of its total assets in debt securities that are rated below investment grade (also known as "junk bonds"), including a portion in defaulted securities. The Fund maintains the flexibility to invest in securities of companies from a variety of sectors, but from time to time, based on economic conditions, the Fund may have significant investments in particular sectors. The Fund may also invest up to 25% of its assets in foreign securities, either directly or through depositary receipts. The Fund may, from time to time, use a variety of derivatives and complex securities for various purposes including enhancing Fund returns, increasing liquidity, gaining exposure to particular instruments in more efficient or less expensive ways and/or hedging risks relating to changes in certain equity markets.

**Main Risks.** For a description of the Fund's main types of investment risks, see [www.franklintempleton.com/forms-literature/download/1109-PSUM](http://www.franklintempleton.com/forms-literature/download/1109-PSUM).

## Franklin Small-Mid Cap Growth Fund (FSGAX)

**Investment Goals and Main Strategies.** This Fund's investment goal is long-term capital growth. Under normal market conditions, the Fund invests at least 80% of its net assets in the equity securities of small-capitalization (small-cap) and mid-capitalization (mid-cap) companies. The Fund, from time to time, may have significant positions in particular sectors such as information technology (including technology services and technology equipment and hardware), consumer discretionary, healthcare and industrials. The Fund may make private investments in companies whose securities are not

publicly traded (including companies that have not yet issued securities publicly in an initial public offering (“IPO”)), often in the form of private placements.

**Main Risks.** For a description of the Fund’s main types of investment risks, see [www.franklintempleton.com/forms-literature/download/198-PSUM](http://www.franklintempleton.com/forms-literature/download/198-PSUM).

### **Institutional Fiduciary Trust Money Market Portfolio (INFXX)**

**Investment Goals and Main Strategies.** The Fund’s investment goal is to provide investors with as high a level of current income as is consistent with the preservation of shareholders’ capital and liquidity. The Fund also tries to maintain a stable \$1.00 share price. The Fund is a “feeder fund” that invests, through the “Master Portfolio” (which has the same investment goal and policies as the Fund), at least 99.5% of its total assets in fixed, floating and variable rate Government securities, cash and repurchase agreements collateralized fully by Government securities or cash. The Fund intends to be a “Government money market fund,” as such term is defined in or interpreted under Rule 2a-7 under the Investment Company Act of 1940. The Fund maintains a dollar weighted average portfolio maturity of 60 calendar days or less, maintains a dollar weighted average life for its portfolio of 120 calendar days or less, and only buys securities that mature or are deemed to mature in 397 calendar days or less.

**Main Risks.** For a description of the Fund’s main types of investment risks, see [www.franklintempleton.com/forms-literature/download/140-PSUM](http://www.franklintempleton.com/forms-literature/download/140-PSUM).

### **Franklin U.S. Equity Index ETF (USPX)**

**Investment Goals and Main Strategies.** The ETF seeks to provide investment results that closely correspond, before fees and expenses, to the performance of the Morningstar US Target Market Exposure Index (the “Underlying Index”). Under normal market conditions, the Fund invests at least 80% of its assets in the component securities of the Underlying Index, which is a free float-adjusted market capitalization weighted index that is maintained and calculated by Morningstar, Inc. (“Float-adjusted” means that only shares that are estimated to be publicly available to investors are included in the calculation of market capitalization.) The Underlying Index includes large- and mid-capitalization stocks representing the top 85% of the investable universe (i.e. U.S. equity market) by float-adjusted market capitalization. The Underlying Index is governed by published, objective rules for security selection, exclusion, rebalancing and adjustments for corporate actions.

**Main Risks.** For a description of the Fund’s main types of investment risks, see <https://www.franklintempleton.com/forms-literature/download/USPX-PSUM>.

### **Martin Currie International Sustainable Equity ETF (MCSE)**

**Investment Goals and Main Strategies.** The Fund’s investment objective is long-term capital appreciation. Under normal market conditions, the Fund pursues its objective by investing at least 80% of its net assets in equity and equity related securities of foreign companies and other investments with similar economic characteristics that meet the Fund subadviser’s environmental, social and governance (“ESG”) criteria for the Fund. Subject to the ESG criteria, the Fund is generally unconstrained by any particular sector, geography or market capitalization. In addition, the Fund seeks to avoid investing in companies that the Fund’s subadviser has determined, based on its exclusionary criteria, to be significantly involved in certain business activities or industries, including the production of tobacco, production of weapons, the extraction of fossil fuels, or the mining of metals and minerals. Further, the Fund will seek to avoid investing in any company that, based upon information received by the Fund’s subadviser, is assigned to the Global Industry Classification Standard (GICS) sub-industries Diversified Metals and Mining, Copper, Gold and Precious Metals and Minerals, or that is involved in the production, sale or distribution of dedicated and key components of antipersonnel mines and cluster munitions. The sub-advisor may modify this list of prohibited investments, including revenue thresholds or any particular exclusion, at any time, without shareholder approval or notice. The Fund may invest without limit in securities of companies located in any foreign country, including countries with developed or emerging markets. The Fund may invest in companies of any size and market capitalization but will typically invest in those companies with market capitalizations in excess of \$3 billion. The Fund’s portfolio is expected to be highly concentrated, with approximately 20-40 holdings. The Fund is a “non-diversified” fund.

**Main Risks.** For a description of the Fund's main types of investment risks, see <https://connect.rightprospectus.com/LeggMason/TADF/52471E563/SP?site=Funds>.

### **Western Asset Core Plus Bond Fund (WAPSX)**

**Investment Goals and Main Strategies.** The Fund's investment objective is to maximize total return, consistent with prudent investment management and liquidity needs, by investing to obtain the average duration specified below. The Fund invests in a portfolio of fixed income securities of various maturities and, under normal market conditions, will invest at least 80% of its net assets, including the amount of borrowing for investment purposes, if any, in debt and fixed income securities. Although the Fund may invest in debt and fixed income securities of any maturity, under normal market conditions the target dollar-weighted average effective duration for the Fund is expected to range within 30% of the average duration of the domestic bond market as a whole as estimated by the Fund's subadviser. The fund may invest up to 20% of its total assets in non-U.S. dollar denominated securities. Up to 20% of the fund's net assets may be invested in debt securities that are not rated in the Baa or BBB categories or above at the time of purchase by one or more Nationally Recognized Statistical Rating Organizations ("NRSROs") or, if unrated, securities of comparable quality at the time of purchase (as determined by the Fund's subadviser). The fund may invest up to 25% of its total assets in the securities of non-U.S. issuers. The fund may invest a substantial portion of its assets in mortgage-backed and asset-backed securities. The fund may also enter into various exchange-traded and over-the-counter derivative transactions for both hedging and non-hedging purposes, including for purposes of enhancing returns. These derivative transactions include, but are not limited to, futures, options, swaps, foreign currency futures and forwards.

**Main Risks.** For a description of the Fund's main types of investment risks, see <https://connect.rightprospectus.com/LeggMason/TADF/957663503/SP?site=Funds>.

### **Western Asset Short-Term Bond Fund (LWSTX)**

**Investment Goals and Main Strategies.** The Fund seeks current income, preservation of capital and liquidity.

Under normal market conditions, the Fund invests at least 80% of its assets in "investment grade" fixed income securities. Securities in which the Fund invests include corporate debt securities, bank obligations, mortgage- and asset-backed securities and securities issued by the U.S. government and its agencies and instrumentalities. The Fund may invest up to 25% of its assets in U.S. dollar denominated securities of non-U.S. issuers. The Fund may invest in securities of any maturity. The Fund normally maintains an average effective maturity of not more than three years. The Fund may also engage in a variety of transactions using derivatives in order to change the investment characteristics of its portfolio (such as shortening or lengthening duration) and for other purposes.

**Main Risks.** For a description of the Fund's main types of investment risks, see <https://connect.rightprospectus.com/LeggMason/TADF/52469E500/SP?site=Funds>.

## Appendix D – Financial Intermediary Sales Charge Discounts and Waivers

Specific Financial Intermediaries may have different policies and procedures than the Program regarding the availability of initial sales charge waivers or reductions or CDSC waivers; exchanges or conversions between classes of Trust Shares; Account investment minimums; minimum Account balances and selling commissions. In all instances, it is the contributor's or Account Owner's responsibility to notify the Program or the applicable Financial Intermediary at the time of contribution to or distribution from an Account of any relationship or other facts qualifying the purchase or redemption of Trust Shares for sales charge waivers or discounts. For waivers and discounts not available through a particular Financial Intermediary, contributors or Account Owners will have to purchase Trust Shares directly from the Program or through another Financial Intermediary to receive such waivers or discounts. Please see the section of the Program Description entitled "Fees and Expenses" for more information on sales charges and waivers available for different classes of Trust Shares.

The information in this Appendix is part of, and incorporated into, the Program Description.

### Edward D. Jones & Co., L.P. ("Edward Jones") Policies

#### Policies Regarding Transactions through Edward Jones

*The following information has been provided by Edward Jones:*

**Effective on or after January 1<sup>st</sup>, 2024, the following information supersedes prior information with respect to transactions and positions held in fund shares through an Edward Jones system. Clients of Edward Jones (also referred to as "shareholders") purchasing fund shares on the Edward Jones commission and fee-based platforms are eligible only for the following sales charge discounts (also referred to as "breakpoints") and waivers, which can differ from discounts and waivers described elsewhere in the mutual fund prospectus or statement of additional information ("SAI") or through another broker-dealer. In all instances, it is the shareholder's responsibility to inform Edward Jones at the time of purchase of any relationship, holdings of Franklin Templeton and Legg Mason mutual funds, or other facts qualifying the purchaser for discounts or waivers. Edward Jones can ask for documentation of such circumstance. Shareholders should contact Edward Jones if they have questions regarding their eligibility for these discounts and waivers.**

#### **Breakpoints**

- Breakpoint pricing, otherwise known as volume pricing, at dollar thresholds as described in the prospectus.

#### **Rights of Accumulation ("ROA")**

- The applicable sales charge on a purchase of Class A shares is determined by taking into account all share classes (except certain money market funds and any assets held in group retirement plans) of Franklin Templeton and Legg Mason held by the shareholder or in an account grouped by Edward Jones with other accounts for the purpose of providing certain pricing considerations ("pricing groups"). If grouping assets as a shareholder, this includes all share classes held on the Edward Jones platform and/or held on another platform. The inclusion of eligible fund family assets in the ROA calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Money market funds are included only if such shares were sold with a sales charge at the time of purchase or acquired in exchange for shares purchased with a sales charge.
- The employer maintaining a SEP IRA plan and/or SIMPLE IRA plan may elect to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping as opposed to including all share classes at a shareholder or pricing group level.
- ROA is determined by calculating the higher of cost minus redemptions or market value (current shares x NAV).

#### **Letter of Intent ("LOI")**

- Through a LOI, shareholders can receive the sales charge and breakpoint discounts for purchases shareholders intend to make over a 13-month period from the date Edward Jones receives the LOI. The LOI is determined by

calculating the higher of cost or market value of qualifying holdings at LOI initiation in combination with the value that the shareholder intends to buy over a 13-month period to calculate the front-end sales charge and any breakpoint discounts. Each purchase the shareholder makes during that 13-month period will receive the sales charge and breakpoint discount that applies to the total amount. The inclusion of eligible fund family assets in the LOI calculation is dependent on the shareholder notifying Edward Jones of such assets at the time of calculation. Purchases made before the LOI is received by Edward Jones are not adjusted under the LOI and will not reduce the sales charge previously paid. Sales charges will be adjusted if LOI is not met.

- If the employer maintaining a SEP IRA plan and/or SIMPLE IRA plan has elected to establish or change ROA for the IRA accounts associated with the plan to a plan-level grouping, LOIs will also be at the plan-level and may only be established by the employer.

### **Sales Charge Waivers**

Sales charges are waived for the following shareholders and in the following situations:

- Associates of Edward Jones and its affiliates and other accounts in the same pricing group (as determined by Edward Jones under its policies and procedures) as the associate. This waiver will continue for the remainder of the associate's life if the associate retires from Edward Jones in good-standing and remains in good standing pursuant to Edward Jones' policies and procedures.
- Shares purchased in an Edward Jones fee-based program.
- Shares purchased through reinvestment of capital gains distributions and dividend reinvestment.
- Shares purchased from the proceeds of redeemed shares of the same fund family so long as the following conditions are met: the proceeds are from the sale of shares within 60 days of the purchase, the sale and purchase are made from a share class that charges a front load and one of the following:
  - The redemption and repurchase occur in the same account.
  - The redemption proceeds are used to process an: IRA contribution, excess contributions, conversion, recharacterizing of contributions, or distribution, and the repurchase is done in an account within the same Edward Jones grouping for ROA.
- Shares exchanged into Class A shares from another share class so long as the exchange is into the same fund and was initiated at the discretion of Edward Jones. Edward Jones is responsible for any remaining CDSC due to the fund company, if applicable. Any future purchases are subject to the applicable sales charge as disclosed in the prospectus.
- Exchanges from Class C shares to Class A shares of the same fund, generally, in the 84<sup>th</sup> month following the anniversary of the purchase date or earlier at the discretion of Edward Jones.
- Purchases of Class 529-A shares through a rollover from either another education savings plan or a security used for qualified distributions.
- Purchases of Class 529 shares made for recontribution of refunded amounts.

### **Contingent Deferred Sales Charge ("CDSC") Waivers**

If the shareholder purchases shares that are subject to a CDSC and those shares are redeemed before the CDSC is expired, the shareholder is responsible to pay the CDSC except in the following conditions:

- The death or disability of the shareholder.
- Systematic withdrawals with up to 10% per year of the account value.
- Return of excess contributions from an Individual Retirement Account (IRA).
- Shares redeemed as part of a required minimum distribution for IRA and retirement accounts if the redemption is taken in or after the year the shareholder reaches qualified age based on applicable IRS regulations.
- Shares redeemed to pay Edward Jones fees or costs in such cases where the transaction is initiated by Edward Jones.
- Shares exchanged in an Edward Jones fee-based program.
- Shares acquired through NAV reinstatement.
- Shares redeemed at the discretion of Edward Jones for Minimums Balances, as described below.

## **Other Important Information Regarding Transactions Through Edward Jones**

### **Minimum Purchase Amounts**

- Initial purchase minimum: \$250
- Subsequent purchase minimum: none

### **Minimum Balances**

- Edward Jones has the right to redeem at its discretion fund holdings with a balance of \$250 or less. The following are examples of accounts that are not included in this policy:
  - A fee-based account held on an Edward Jones platform
  - A 529 account held on an Edward Jones platform
  - An account with an active systematic investment plan or LOI

### **Exchanging Share Classes**

- At any time it deems necessary, Edward Jones has the authority to exchange at NAV a shareholder's holdings in a fund to Class A shares of the same fund.

## **Merrill Lynch, Pierce, Fenner & Smith Incorporated**

Accounts Established through Merrill Lynch, Pierce, Fenner & Smith Incorporated ("Merrill")

The following information has been furnished by Merrill. None of the State, HESAA, Franklin Distributors, LLC, or the Program Manager has independently verified such information.

If you establish or hold your Plan account on the Merrill omnibus platform, the features and policies related to unit class sales charges (including contingent deferred sales charges (CDSC), if any), unit class sales charge waivers or discounts, letters of intent (LOI) and reinstatement privileges, and Class C unit conversion period will be different than referenced in the Program Description and will be governed by the Merrill 529 Account Unit Class Disclosure and Terms and Conditions ("T&Cs") provided to you by Merrill prior to establishing your account.

Except as described in this Merrill specific section of the Program Description and the T&Cs, Merrill does not offer any initial sales charge discounts, CDSC waivers, LOI or reinstatement privileges (the "Discounts, Waivers and Privileges") in the 529 plans offered on the Merrill omnibus platform. To receive the Discounts, Waivers, and Privileges not offered by Merrill, you will have to invest in the Plan directly or through another Financial Intermediary.

Before investing in the Plan through Merrill, you should consider the potential benefits and importance to you of such Discounts, Waivers, and Privileges.

For additional information on the Discounts, Waivers, and Privileges and Merrill's policies, contact a Merrill advisor or refer to the T&Cs.

If you establish or hold your Plan account on the Merrill omnibus platform, then the unit class your account will purchase will generally be based on your eligible assets or meeting other eligibility criteria as set forth in the T&Cs. 529 plans offered by Merrill on its omnibus platform typically will have two unit classes— Class A Unit and Class C Unit (or their equivalents)—each with its own fee and expense structure. Each account will purchase a specific unit class when an initial or subsequent contribution is credited to the account. The unit class will be automatically determined at the time of the contribution based on the participant's eligible assets and/or meeting other eligibility criteria. You will not be able to select the unit class. Among other things, Class C units (or their equivalents) will be automatically converted to Class A units (not subject to an initial sales charge) after four years from their respective dates of purchase. If the Program Description permits Class C units' (or their equivalents') conversion sooner than four years, such earlier conversion date will automatically apply. An investment of more than \$250,000 will be put into Class A Trust Shares at net asset value and Merrill will receive a reduced payment of 0.25% with respect to such investment. Please see the sections "Fees and Expenses," "Classes of Trust Shares," and "Financial Intermediary Compensation" in the attached Program Description for more information. Please contact your Merrill advisor with any questions or to request a copy of the T&Cs.

## **Morgan Stanley**

Accounts maintained through Morgan Stanley Smith Barney LLC are not eligible for the sales charge and CDSC waivers for reinvestments as described under the “Temporary Waiver Privilege” section of the Program Description. Investors wishing to utilize these privileges will need to do so through an account held directly with the Plan or a financial intermediary that supports these features.

## **Raymond James**

CDSC Waivers on Classes A and C shares available at Raymond James

- Death or disability of the shareholder.
- Shares sold as part of a systematic withdrawal plan as described in the 529 Plan’s Program Description or prospectus.
- Shares sold to pay Raymond James fees but only if the transaction is initiated by Raymond James.
- Shares acquired through a right of reinstatement.

Front-end load discounts available at Raymond James: breakpoints, rights of accumulation, and/or letters of intent.

- Breakpoints as described in this 529 Plan’s Program Description or prospectus.
- Rights of accumulation which entitle shareholders to breakpoint discounts will be automatically calculated based on the aggregated holding of fund family assets held by accounts within the purchaser’s household at Raymond James. Eligible 529 Plan assets not held at Raymond James may be included in the calculation of rights of accumulation only if the shareholder notifies his or her financial intermediary about such assets.
- Letters of intent which allow for breakpoint discounts based on anticipated purchases within a 529 Plan, over a 13-month time period. Eligible 529 Plan assets not held at Raymond James may be included in the calculation of letters of intent only if the shareholder notifies his or her financial intermediary about such assets.

### **Franklin Templeton Business Continuity Planning Information Notice**

At Franklin Templeton, we recognize how heavily our clients rely on our services. We also recognize that the unexpected can and does occur, from simple outages to major incidents affecting multiple sites. We have successfully supported critical business activities during disruptions of normal business processes from both natural and man-made disasters, including hurricanes, fires, Super Storm Sandy to September 11th and other events. We want you to know that we have plans in place to help safeguard your assets and protect vital account information in the event of a business disruption.

Franklin Templeton and its affiliated companies, including Fiduciary Trust Company and Franklin Distributors, LLC, have Crisis Management, Business Continuity and technology Disaster Recovery plans in place. In addition, Franklin Templeton has dedicated business continuity planners on staff to assist in preparing and testing of plans.

#### **Franklin Templeton contingency planning guidelines**

Franklin Templeton plans are developed around specific corporate-wide guidelines. As such, has developed plans that include the ability to recover from various situations including but not limited to unplanned evacuations, power outages, fire, severe weather, intentional acts, and facilities failures that may cause interruptions to our business.

Our plans are constructed to recover critical functions according to their time criticality. In order to maintain secure and effective plans, Franklin Templeton does not provide the specific details in this notice, but you should be aware that corporate disaster recovery planning includes the following:

- Identification and recovery of mission critical systems to include telecommunications.
- Replication, backup and recovery for critical information.
- Alternate & redundant communications between Franklin Templeton and its customers.
- Alternate communications with and alternate locations for employees.
- Regulatory reporting and communications with regulators.
- Review of financial and operational risks.

#### **Franklin Templeton contingency planning and business recovery**

Franklin Templeton actively identifies and seeks to mitigate risks to reduce potential issues and their impact. In the event of an outage or other site specific problems, Franklin Templeton has plans in place to support recovery of its critical business systems and functions. In addition to the guidelines stated above, Franklin Templeton's recovery plans also include the following:

- **Designated Contingency sites and seamless client contact**—there are pre-established and tested processes for rerouting of critical telephone and computer systems. Customers should experience minimal downtime in their ability to contact Franklin Templeton. Within a minimal period of time, customers would be able to re-attempt contact via published toll free telephone numbers, or the website.
- **Access to your funds**—an outage affecting a given site should not impact your ability to access your funds, as business continuity plans are designed to help ensure sustained service. However, factors outside Franklin Templeton's control, such as the market closure which occurred following the September 11th tragedy, may impact our ability to service our customers.

Please note that Franklin Business Continuity Plans which are critical to our operations are reviewed, updated and tested annually, to ensure they account for technology, business and regulatory changes. The plans are subject to change, and material changes to our approach will be reflected in an updated "Business Continuity Planning Information Notice" that will be posted on our website at [franklintempleton.com](http://franklintempleton.com).

## **Franklin Templeton Privacy Notice**

### **Your Privacy Is Our Priority**

Franklin Templeton\* is committed to safeguarding your personal information. This notice is designed to provide you with a summary of the non-public personal information Franklin Templeton may collect and maintain about current or former individual investors; our policy regarding the use of that information; and the measures we take to safeguard the information. We do not sell individual investors' non-public personal information to anyone and only share it as described in this notice.

### **Information We Collect**

When you invest with us, you provide us with your non-public personal information. We collect and use this information to service your accounts and respond to your requests. The non-public personal information we may collect falls into the following categories:

- Information we receive from you or your financial intermediary on applications or other forms, whether we receive the form in writing or electronically. For example, this information may include your name, address, tax identification number, birth date, investment selection, beneficiary information, and your personal bank account information and/or email address if you have provided that information.
- Information about your transactions and account history with us, or with other companies that are part of Franklin Templeton, including transactions you request on our website or in our app. This category also includes your communications to us concerning your investments.
- Information we receive from third parties (for example, to update your address if you move, obtain or verify your email address or obtain additional information to verify your identity).
- Information collected from you online, such as your IP address or device ID and data gathered from your browsing activity and location. (For example, we may use cookies to collect device and browser information so our website recognizes your online preferences and device information.) Our website contains more information about cookies and similar technologies and ways you may limit them.
- Other general information that we may obtain about you such as demographic information.

### **Disclosure Policy**

To better service your accounts and process transactions or services you requested, we may share non-public personal information with other Franklin Templeton companies. From time to time we may also send you information about products/services offered by other Franklin Templeton companies although we will not share your non-public personal information with these companies without first offering you the opportunity to prevent that sharing.

We will only share non-public personal information with outside parties in the limited circumstances permitted by law. For example, this includes situations where we need to share information with companies who work on our behalf to service or maintain your account or process transactions you requested, when the disclosure is to companies assisting us with our own marketing efforts, when the disclosure is to a party representing you, or when required by law (for example, in response to legal process). Additionally, we will ensure that any outside companies working on our behalf, or with whom we have joint marketing agreements, are under contractual obligations to protect the confidentiality of your information, and to use it only to provide the services we asked them to perform.

### **Confidentiality and Security**

Our employees are required to follow procedures with respect to maintaining the confidentiality of our investors' non-public personal information. Additionally, we maintain physical, electronic and procedural safeguards to protect the information. This includes performing ongoing evaluations of our systems containing investor information and making changes when appropriate.

At all times, you may view our current privacy notice on our website at <https://www.franklintempleton.com/help/privacy-policy> or contact us for a copy at (800) 632-2301.

\*For purposes of this privacy notice Franklin Templeton shall refer to the following entities:

**HESAA Notice Of Privacy Policy**

**HIGHER EDUCATION STUDENT ASSISTANCE AUTHORITY**

The New Jersey Higher Education Student Assistance Authority’s (HESAA) mission includes, in part, providing New Jersey students and families with financial resources such as loans, grants, scholarships and college savings programs to assist students in achieving their educational goals.

Protecting the privacy of your personal information is important to us at HESAA. We respect your right to privacy and recognize our obligation to keep information about you secure and confidential. We do not sell or share information about you with outside marketers.

Federal legislation requires us to provide you with this notice about our privacy policy. This means personal information about you which identifies you, and that is not available from public sources.

**HESAA’s Privacy Policy**

FACTS	WHAT DOES: NJ Higher Education Student Assistance Authority (“HESAA”) DO WITH YOUR PERSONAL INFORMATION?
<b>Why?</b>	Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.
<b>What?</b>	<p>The types of personal information we collect and share depend on the product or service you have with us. This information can include:</p> <ul style="list-style-type: none"> <li>• Social Security number, income and assets</li> <li>• Account balances and payment history</li> <li>• Account transactions, credit scores and credit history</li> </ul> <p>When you are no longer our customer, we continue to share your information as described in this notice.</p>

<b>How?</b>	All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons HESAA chooses to share; and whether you can limit this sharing.
-------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<b>Reasons we can share your personal information</b>	<b>Does HESAA share?</b>	<b>Can you limit this sharing?</b>
For our everyday business purposes— such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	YES	No
<b>For our marketing purposes—</b> to offer our products and services to you	YES	No
For joint marketing with other financial companies	No	We Don't Share
<b>For our affiliates' everyday business purposes—</b> information about your transactions and experiences	YES	No
<b>For our affiliates' everyday business purposes—</b> information about your creditworthiness	No	We Don't Share
<b>For nonaffiliates to market to you</b>	No	We Don't Share

<b>Questions?</b>	Call (609) 584-4480 or go to <a href="http://www.hesaa.org">www.hesaa.org</a>
-------------------	-------------------------------------------------------------------------------

<b>Who we are</b>	
-------------------	--

<b>Who is providing this notice?</b>	This Privacy Notice is being provided by the State of New Jersey Higher Education Student Assistance Authority "HESAA".
--------------------------------------	-------------------------------------------------------------------------------------------------------------------------

<b>What we do</b>	
-------------------	--

<b>How does HESAA protect my personal information?</b>	To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.
--------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<b>How does HESAA collect my personal information?</b>	<p>We collect your personal information, for example, when you:</p> <ul style="list-style-type: none"> <li>• Apply for a loan or give us your contact information</li> <li>• Open an account or pay your bills</li> <li>• Provide employment information</li> </ul> <p>We also collect your personal information from others, such as credit bureaus, affiliates, or other companies.</p>
--------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<b>Why can't I limit all sharing?</b>	<p>Federal law gives you the right to limit only:</p> <ul style="list-style-type: none"> <li>• Sharing for affiliates' everyday business purposes—information about your creditworthiness</li> <li>• Affiliates from using your information to market to you</li> <li>• Sharing for nonaffiliates to market to you</li> </ul> <p>State laws and individual companies may give you additional rights to limit sharing.</p>
---------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<b>Definitions</b>	
--------------------	--

<b>Affiliates</b>	<p>Companies related by common ownership or control. They can be financial and nonfinancial companies.</p> <ul style="list-style-type: none"> <li>• <i>Our affiliates include other State of New Jersey government agencies, authorities, boards and commissions.</i></li> </ul>
-------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

---

**Nonaffiliates**

Companies not related by common ownership or control. They can be financial and nonfinancial companies.

- HESAA does not share with nonaffiliates so they can market to you.

---

**Joint marketing**

A formal agreement between nonaffiliated financial companies that together market financial products or services to you.

- HESAA doesn't jointly market.
-

**Notice from Franklin Distributors, LLC**

Franklin Distributors, LLC is registered with the U.S. Securities and Exchange Commission and the Municipal Securities Rulemaking Board (the “MSRB”).
