

All-star lineup

119 funds with an overall Morningstar Rating™ of 4 or 5 stars as of October 31, 2024.¹

Morningstar Ratings measure risk-adjusted returns. The overall Morningstar Rating for a fund is derived from a weighted average of the performance figures associated with its 3-, 5- and 10-year (if applicable) rating metrics. **Past performance is not an indicator or a guarantee of future performance.**

Past performance is not an indicator or a guarantee of future performance. Ratings are subject to change monthly. A fund's investment return and principal value will change with market conditions, and an investor may have a gain or a loss when they sell their shares. Please call Franklin Templeton at (800) DIAL BEN/342-5236 or visit franklintempleton.com for standardized and most recent month-end performance.

All investments involve risks, including possible loss of principal.

Strategy availability may vary by firm. For those strategies available at your firm, please contact your home office for details.

Before investing, carefully consider a fund's investment objectives, risks, charges and expenses. You can find this and other information in each prospectus or summary prospectus, if available, at franklintempleton.com. Please read it carefully.

ETFs trade like stocks, fluctuate in market value and may trade at prices above or below the ETFs net asset value. Brokerage commissions and expenses will reduce returns. There is no guarantee that any strategy will achieve its objective.

1. Source: Morningstar®, 10/31/2024. For each mutual fund and exchange traded fund with at least a 3-year history, Morningstar calculates a Morningstar Rating™ based on how a fund ranks on a Morningstar Risk-Adjusted Return measure against other funds in the same category. This measure takes into account variations in a fund's monthly performance, and does not take into account the effects of sales charges and loads, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars and the bottom 10% receive 1 star. The weights are: 100% 3-year rating for 36–59 months of total returns, 60% 5-year rating/40% 3-year rating for 60–119 months of total returns, and 50% 10-year rating/30% 5-year rating/20% 3-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent 3-year period actually has the greatest impact because it is included in all three rating periods. Mutual fund Morningstar Ratings™ are for Class I, Z or Advisor Shares only; other classes may have different performance characteristics. Past performance is not an indicator or a guarantee of future performance.
